6 CATTLE ARE BECOMING SCARCE

Supply in Utah is Gradually and Surely Becoming Less.

SOME SALES LAST WEEK.

Shipments to be Made to the Northwest - Condition in the Sheep Market-Pacific Coast Demand.

"Probably the average citizen of this State is not aware of the fact that the cattle supply in Utah is becoming greatly depicted, and that it will be a few years only before there is practically no beef in the State to speak of." This pessimistic remark was made by a prominent cattleman this morning in the course of conversation with a "Nows" man regarding the way the outside cattle buyers are scouring the country with a "fine toothcomb" and carrying off all the prime young beeves and live stock generally. Among the latest sales in this direction are close upon 100 head of cattle in Davis county to Frye, Broom & Co., of Senttle, who are anxious to make up thirty cars of stock before they haul their purchase out of the State. The buy which was consummated yesterday was on the basis of four cents live weight. Last week the same firm purchased 200 head from M. K. Parsons, but on this occasion the purchase price was not fortheoming.

There are a number of cattlemen in the State at the present time who are the state at the present time sho are anxious to close deals, but they, one and all, state that the country is pret-ty well cleaned out. There are also a number of inquiries for sheep. Promi-nent among those who are asking for good mutton being Messrs. Levi & Co. of San Francisco, who have had a buyer in this State ever since the Live Stock convention. He leaves tonight for Co-lorado upon the same errand, where he proposes to buy up sheep and ship them alive to the coast.

When seen this afternoon in regard to the beer situation, Mr. Knight, of the local firm of wholesale butchers, stated that while there was a marked scarcity of good beef in Utah, at the same time he did not feel that the community had any occasion for alarm, for while it would be necessary for Armour and other packing firms to ship in refrigerated beef, possibly in larger quantities than had been in vogue heretofore, at the same time there would always be enough in the State to offset any attempt on the part of the big packing houses to get a monopoly on the meat business here. Mr. Knight Surther stated that he was encountering considerable difficulty in getting first-class animals, as were all the rest of the butchers in the country.

#### The Reiter - Klank Wrestling Match Promises to be Interesting.

The wrestling match between Emil Klank of Chicago and Carlo Reiter, the Italian athlete, which is scheduled for tonight in Clark and Lange's club, promises to draw a larg crowd. The contest will begin at 9 p. m., and will be a Graeco-Roman affair. Both men are in excellent condition and Klank feels confident that he will throw the son of Italy. As a preliminary, Kid Egan and "Young Christy." Sammy Clark and Jim Francis, will box four rounds each.

Yesterday Sam Clerk received word resterday sam clerk received word from Mexican Pete that he was coming to Salt Lake and would like to make a match with "Dummy" Rowan. As "Dummy" appears to be willing to tackle anybody on earth, it is likely that the Mexican will be able to arrange a bout.

the Land.

There is an element of romance and a certain deference and respect surrounding the oldest inhabitant wherever he is found. Representative Albert Stevens claims that distinction for his father-in-law, H. J. McClellan, as being the first settler in the Fremont valley in Wayne county. "Indeed, he might be called the first

settler in Wayne," said Mr. Stevens the other day, "for Beson Lewis, who went in two years before, did not take his family with him, only going in with a herd of cattle, although he setled down and afterwards sent for his family. That was 25 years ago, and there have been big changes in the county since then of course. "There is an abundance of good land

with plenty of water in the county, and room enough for 500 more families and a large sized farm for each of them. We have two as fine reservoirs as there We have two as fine reservoirs as there are in the State, in Fish Lake and Johnson valley. The lake will irrigate 574 acres, and the valley reservoir 1,700. The Fremont river has a natural flow that is good for 2,546 acres. Then there is Spring creek on the west side of the upper Fremont vallely, which will take care of other 800 acres. This spring is a becullar one. It is slightly warm is a peculiar one. It is slightly warm and never freezes, and so keeps the mills in its course going all winter.

"There is another large canal in ourse of construction at Torrey. But the people of Torrey are poor and they have now come to a part of the canal that is a big expense, the piping across the Fremont river. They propose to have the piping follow the natural surhave the piping follow the natural sur-face of the ground over a deep gorge and through the Fremoni river. The canal is cut from the river at a point higher up and takes this course to avoid a high bluff. When completed, it is estimated that it will irrigate 3,000 acres of good frait and lucerne land. But as the pipe with transportation will cost about \$2,000, the land is patiently

waiting for water, "The Fremont valley is a small grain, lucerne and berry country, but 28 miles below it on the Fremont river at Fruita are the finest orchards in the State, and from there down to the Colorado river is a good fruit and lucerne country.

'As to the pasturage the county is "As to the pasturage the county is now well pastured out with sheep, al-though there is some good cattle land yet. There is considerable leasing and fencing in of State lands now to pro-tect the lands from the sheep. "There are many good mining pros-pects, but not much mining. A claim

#### Selected Paragraphs from the Chicago Drovers' Journal.

Every delegate and visitor went away from Salt Lake City with a feeling that he had been royally entertained and that the city presents some of the finest attractions in the West. The Chicago contingent, with an eye always open for the beautiful and sublime, declared unanimously that the girls were the prettiest they had ever seen, showing that their power of observation was keen and their judgment of a high or-

Some of the Chicago delegates took a taste of the water of Salt Lake, but without exception declared they preferred Londonderry Manitou and s other things not necessary to mention. Nobody had heart disease sufficiently to encourage them to take more than one dose of Salt Lake's product.

Did you notice how Gabriel on the spire of the Temple pointed his trumpet directly towards Chicago?

The Salt Lake convention was a hummer and the best ever convened, but wait till you see the Chicago affair next. December. Springer says it will be a world-beater. It will bring together more representative stockmen than ever assembled in one place before. The stockman who doesn't come to the Chlcago meeting will miss the chance of a lifetime.

"Billy" Bolton, after attending the concert at the Mormon Tabernacle, has decided to found a Mormon colony in Oklahoma. "Billy" says the Mormon girls are the pretifiest in the world and he won't have much trouble in backing up the assertion. If he ever leaves Ok-lahoma he will make a bee line for Salt Lake-or Wood's Cross.

John W. Springer, at the close of the convention, received a beautiful watch from his admirers. The ticker was studded with diamonds so profusely they fairly blazed through his that pocket.

Among the newspaper men who were at Salt Lake City to proclaim to the world the greatness of that famous western town and record the doings at the big meeting use that famous western town and record the doings at the big meeting were Addison C. Thomas of the Associated Press: A. G. Dawson, of the Dallas News: "Bill" Bolton of the Woodward (Okla.) Inspec-tor; Walter Neff, of the Kansas City Drovers Telegram, and Frank P. Ben-nett, of the Wool and Cotton Reporter, Parter Boston

Sam Allen was at Salt Lake City with his sheep-shearing outfit, and attracted considerable attention by the manner in which he could disrobe Mary's little lamb. He "made the fur fly."

Omaha's battery was in bad shape. Some of the guns kicked back with tre-mendous force and the shot scattered so that Chicago was never touched.

Sam Cowan, the renowned lawyer of Texas, is an innecent looking cuss, but in his innocence iles his power. He hit Omaha a time or two in the solar piex-us and the old Missouri river town was ready for the corner. Cowan's efforts in behalf of Chicago were highly apclated by all except the Omaha delegation.

### FEDERAL COURT.

The Federal court was in session this morning and Judge Marshall heard the

following cases: The case of Harris and company vs J. F. Bradshaw and others, was called for trial and no attorneys, for the de-fendants, appeared. The plaintiff in-troduced evidence and the court rendered judgment in favor of the plaintiff for \$25,446.64.

for \$25,445.64. In the case of Jerome Hirshman, bankrupt, Referee Baldwin who has spent some days in hearing testimony and liquidating the claims of creditors was allowed \$50 with the consent of all

Throughout the West a buoyant feeling exists among sheep raisers, and numbers are increasing with coasiderable rapidity, especially in the valleys of the Mississippi and Missouri, says Wool Markets and Shep. The impulse of growth is felt in all the States of

the Ohio Valley. In Indiana, which has never been a distinctly wool-growing State, accord-ing to Professor C. S. Plumb the "sheep and wool interests are destined to a very considerable increase." He says it is many years since Indiana has had it is many years since indiana has here as many sheep as today. In breeding the value of a good mutton carcass is not lost sight of, while wool is an im-portant consideration. The Rambouli-let Merino is now/very popular there, there are bald in and the Delaine Merinos are held in high esteem. The sheep of Indiana are mainly of the mutton breeds, though there is now a tendency to ross with Merinos of large size that approach the mutton conformation Shropshire grades are now predomi-nant, and many growers incline toward the Rambouillet as an improving cross. There is rapid increase of flocks in the prairie States west of the Mississippi. Iowa is perhaps more interested in sheep husbandry than ever before.

eep are increasing quite rapidly in Minnesota and the Dakotas, and numbers are now greater than at any for-mer period. The feeling is general that under present conditions sheep should prove fully as profitable as any other

branch of stock raising. The region west of the prairies, the range country, including Texas and the Pacific coast, is the principal area of American wool growing. In all this re-gion the industry is now flourishing. Sheep are increasing, the flock masters have the confidence and courage to exnd operations, use their time and oney in efforts for breed improveient and give the care and attention o details necessary for the permanent citare of flocks. Everywhere they ap-ear to be content with the situation.

Advices from Montanta and Wyom-ng, where sheep are counted by mil-ions and valued as never before, the total value of the flocks of the former eing greater than that of any other and of the latter only exceeded that of Ohio, declare a condition of osperity and contentment. Similar ditions are reported in Utah and

daha New Mexico is credited with the number of any State or Terrilärgest. The department of agriculture te 3,397,439, and Governor 1125 imate otero estimates last year's product of ol at over 18,000,000 pounds and declares that sheep husbandry is now the st prosperous industry in the Terri-

The industry is also quite prosperous in Arizona, and sheep are increasing

California woolgrowers are reported as generally jubilant over present pros-pects, over the return of a fine wool veriod, feeling that the tendency of the best decade will be toward the grow-ng of Merina wool of long staple. Oregon and Washington flocks also glve

tre increasing in number, giving a rea-conable profit to flock owners, according to the report of Special Agent J. R. Dodge, who has been investigating the heep industry.

### DIED.

HOLEROOK.-At Bountiful, January 25th, 1901, Wm. C., aged 18 years; son of Joseph H. and Catherine C. Holbrook

LAMONT-At Salt Lake City, Jan. 28, 1901, at 976 east Third South street. Agnes Heeps, wife of James H. La-mont. Deceased was born at Wal-lacestone, Scotland, Aug. 22, 1867. Sha-leaves a husband and seven children to mourn has death

leaves a husband and seven choldren to mourn her death. The funeral services will be held Tuesday at 1 p.m. from the Tenth ward meeting house. the story.

yesterday afterneon: "It would seem to be only fair to give not be settled until it is settled right. The fact is, the majority of the stock-men of the West, both cattle and sheep a man who wishes to make a living in the grazing States, by raising cattle and sheep, as fair an opportunity as the homestead law now offers a man in men, know that the present conditions are not for their best interests. They have opposed everything heretofore bethe States where there is enough rain fall to enable him to farm on his 160 acre homestead. Of course, theoretic-ally, the stockman has his share of the cause they feared all methods suggest. ed. I am satisfied that within a year stockmen will make it known that they great open range in connection with the 160 acres which he can take up now want a change in the land laws."

# WARS FOR WOMAN'S RIGHTS.

Susan B. Anthony Begins the Century With a New Crusade. Carrying her eighty-one years of life

easily, Susan B. Anthony has started in the opening days of the new century another crusade for equal rights for the sexes, or perhaps it may more fittingly be termed one more skirmish in the never-ending war which she has waged for over half a century. This waged for over half a century. This time it is a fight against taxation without representation, and although it is Miss Anthony's less famous sis-ter, Mary S. Anthony, who appears in the star tole, yet it is really the suf-fragist icader of world-wide fame who is back of the maximum. s buck of the movement. The two Misses Anthony live togeth.

er at the family home on Madison street. In Rochester, N. Y. By a di-vision of labor agreed on many years vision of labor agreed on many years ago Mary Anthony manages the home, while Susan Anthony gives all her time to the cause of woman's elevation in political life. By this division it is part of Mary S. Anthony's duties to attend to the payment of the taxes on the family home. She is just as thor-ough a believer in equal rights as is her sizter, however, as is evidenced by her sister, however, as is evidenced by the fact that she is the president of the Bachester Political Equality club. Deeming the birth of the new cen-tury a most fitting time to protest once

more against the tyranny of man, Mary Anthony has served notice on County Treasurer Hamilton that she will not in the future pay taxes except under protent until she is allowed the right of saffrage. The action will like-ly result in a test case being brought in the court. The lives of the Misses Anthony have

been filled with just such crusades as this twentieth century movement, and Special Correspondence. duce that March evening in 1849 when since that March evening in leap when Susan Anthony arose in a meeting of the Daughters of Temperance at Cana-joinarie, N. Y., and made her maiden speech, declaring that the temperance cause could not be won until equal po-litical rights were accorded the sexes, it has been excited on In those the fight has been carried on. In those early days it was deemed scandalout by the men that a woman should make a speech in public, and Susan An-thony's path was not an easy one. Men would leave the hall when she began good

to speak, others would remain but would seek to block her utterances by raising the parliamentary point that, "being a woman, she has no right to her views. In 1873, at the election in Rochester,

In Isiz, at the election in Rochaster, Miss Anthony insisted on voting and her arrest followed. A jury convicted her and zhe was fined. When she essayed to speak in court the presiding judge, Judge Hunt, ordered her to sit down, declaring that he would not lis-ter to another word. en to another word,

Fur to another word, Fur the famous equal suffragist has lived to see the realization of many of her hopes, skhough the one great de-size of all, the right of women to share

equally with men in all political affairs, is still denicd. She has, however, seen the suffrage extended to woman in four States, and a restricted suffrage that operates on local affairs granted in other commonwealths. Only a year or two ago she attended the international political equality convention in London. where she was the object of special honors from Queen Victoria. The days of scorn and obloquy are gone from the life of Susan B. Anthiny, Many men there are who differ from her views, but the reception universally ac-
