

# TERRIBLE TYPHOON IN PEARL ISLANDS

Six Hundred People Perished in  
The Storm.

HUNDREDS TIED TO TREES.

Among the Survivors of the Hurricane  
Were Four Latter-day Saints  
—Full Details of the Disaster.

San Francisco, March 16.—The steamer Mariposa arrived from Australia today, bringing additional news of the typhoon and tidal wave at the Pearl Islands group in the middle of January. The French government has investigated the disaster and found that between 500 and 600 islanders perished during the storm. After the wind had subsided and the waters had receded, hundreds of drowned natives were found tied to the trees about the places of refuge. One of the islands visited by the deluge, was the best able to withstand its force, as its highest place is 11 feet above the ocean.

The residents fled to the heights and sought safety by binding themselves to the rocks and trees. There were three or four days in which the storm swept over the dread-locked islands. Four hundred lives were lost. The islands of Hao, Morakau, and Hikuera were virtually washed away, as they are at present little more than a sea level and are destitute of vegetation. On them man cannot stand, as the soil has vanished and the coconut trees are dried up and dead.

On the island of Rarotonga the devastation is complete. Three-fourths of the coconut trees were destroyed, houses were cut down, the walls of the Catholic church and the prison were swept away, and 12 of the inhabitants were killed. At Anaua there were three persons killed by the cyclone.

Among the survivors of the awful storm are Elders Sheffield and Allen and Mr. and Mrs. Gilbert of the Latter-day Saints mission.

**FULL DETAILS OF DISASTER.**  
Papeete, March 4, (via San Francisco, March 16).—The latest intelligence relative to the hurricane in Tuamotu or Tahiti indicates that the loss of property will be one half million dollars. Relief measures have been initiated. On Jan. 14, 15 and 16, at Hikuera, 37 deaths occurred. In most instances among the visitors from other islands, accompanying them during the diving season. One hundred and forty-two deaths are reported from six other small islands. In this group there is no record of the injured, and it is believed that the total number of fatalities in the entire archipelago was not less than 600.

In an island near Hikuera 282 natives perished, being swept into the lagoon and again into the great sea, and terribly by contact with rocks, coral and debris of all sorts. Upon one unfortunate one coconut tree, after mauling or killing them under the light of holding down beneath the water until they were drowned.

**SOUGHT SAFETY IN TREES.**  
In the awful night of Jan. 15, when in the darkness and a driving down-pour of rain that stung their faces and bodies, the parents tied their children to their backs and sought safety. Over their heads rolled the mighty wave and when they retreated the infants and the half-grown boys and girls succumbed. The father or mother would vainly endeavor to reach the corpses of their dead, but usually at length had to abandon them. Evidently the parents, who were at first fast with them; others escaped clinging to trees temporarily and at other times able to catch hold of something else, and, as between the breakers, reached safety after many hours of hardship. About 20 natives, including a young girl, swam across the lagoon and after five or six hours

of floating, were rescued by a passing boat.

**SKIN-TORTURED BABIES**  
And Tired, Fretted Mothers

Find Comfort in Cuticura Soap and Ointment

When All Other Remedies and Physicians Fail.

Instant relief and refreshing sleep for skin-tortured babies and rest for tired, worried mothers in warm baths with Cuticura Soap, and gentle anointings with Cuticura Ointment, purest of emollient skin cures, to be followed in severe cases by mild doses of Cuticura (laxative pills). This is the purest, sweetest, most speedy, permanent and economical treatment for torturing, disfiguring, itching, burning, bleeding, crusty, crusted, itchy skin and only humors, with loss of sleep, of infants and children, as well as adults, and is sure to succeed when all other remedies and the best physicians fail.

The agonizing itching and burning of the skin, as in eczema, the frightful scaling, as in psoriasis, the loss of hair and crusting of the scalp, as in seborrhea; the facial disfigurement, as in pimples and ringworm; the awful scalding of infants, and anxiety of worried parents, as in milk crust, tetter and other eruptions, all demand a remedy of almost supernatural virtues to successfully cope with them. That Cuticura Soap, Ointment and Pills are such a remedy, proven beyond all doubt. No statement is made regarding them that is not backed by the strongest evidence. The purity and sweetness, the power to afford immediate relief, the economy of space and permanent effect, the absolute safety and great relief they have made them the standard skin cures and humors remedies of the civilized world.

## THE OLD RELIABLE

### BAKING POWDER

Absolutely Pure  
THERE IS NO SUBSTITUTE

batting with the waves succeeded in landing in safety on the leeward side of the island. Those who perished in their attempts, however, were far more numerous than those who succeeded.

**WATER SWEEPS ISLANDS.**  
The sea and the lagoon were as unsafe by reason of the debris floating in their surface, as was the ocean outside. The depth of water in most parts of the island was from 15 to 20 feet, but the meeting of the waves from the outside and those forced across the lagoon frequently made the flood much greater in places.

The gale found the natives weakened from a virulent form of measles that had become epidemic; otherwise more might have been spared in the struggle with the water. Those who survived were the ones who were able to leave the main village and cross several dangerous low stretches where the waves washed into the lagoon, wading neck deep, adding one another and holding to debris and gradually withdrawing from the danger to a slightly more elevated section on the north shore.

**MORMON MISSIONARIES ESCAPE.**  
Messrs. Sheffield and Allen, Elders of the "Mormon" Church, and Mr. and Mrs. Gilbert of the Latter-day Saints mission, in a report to United States Consul Dolan, give gruesome details of the disaster. The Gilberts lost one son, who was a coconut tree fell, but secured another in a high stump of a coconut tree. The water which had all but submerged them completely, now only reached their feet. The wind threatened to tear them from their position again and again, but so these Americans passed that awful night.

In the morning, the scene of horror that met their eyes on every side was harder to endure than the terrors of the night. The corpses of the natives were strewn about and there were living beings with unsightly and most painful wounds.

**SHARKS DEVOUR BODIES.**  
In some instances only one out of a family had survived. Upon the barren reef, many had lodged and as the brown skin had been scraped off by the coral, the ghastly appearance of the bodies was hard to bear. Out on the surface of the deep, the sharks were seen to devour many bodies, while in the lagoon bodies were floating upon the debris—a most unsightly mass.

The story of the fatalities in Morakau, where ninety-five out of a 100 inhabitants perished, is likewise extremely sad, and so also with regard to the other islands where deaths occurred. It is likely that one-fifth of the entire population of the Tuamotu group succumbed. To aid the injured, a temporary hospital was constructed and Dr. Brunetti, acting administrator of the group, rendered medical assistance. From the debris were secured tin containing foodstuffs, but there was naturally a scarcity of such as was not spoiled.

A small supply had been taken to the highest ground from a store of a trader, who paid the transporters at the rate of \$5 per hour. The coconuts were soon exhausted. To eat fish out of the sea or lagoon would doubtless have been suicidal, considering the danger from poison, as there were hundreds of corpses floating about in the water and upon which the fish were preying. From drinking brackish water, the natives became afflicted with dysentery. Of the 66 salt boats, all but one or two had been totally destroyed, and these could not be sent to Tahiti, a distance of nearly 400 miles.

About 100 survivors were in danger of starvation or of perishing from thirst or disease. Shelterless, nude, weak and discouraged, it is not to be wondered at that a few of the natives became robbers of their neighbors' goods. However, on the whole, the order was commendable.

**MORMONS SAVE LIFE.**  
It is to the lasting credit of the Americans that the relief from thirst came in the form of condensed water. Mr. Gilbert secured the consent of Dr. Brunetti to distill water. The administrator was at first skeptical, but having refused consent he was given a small quantity of fresh water from a miniature condenser constructed by Mr. Gilbert.

Straightway the doubt vanished and he placed Mr. Gilbert in charge of a party to search for suitable material for a condenser on a large scale. At length two tanks and some frames of an iron bed for tubes and some tubs were selected. With this primitive machinery 200 gallons of fresh water were distilled daily for several days. Mr. Gilbert suffered from an attack of blood poisoning, due to his labor on preparing corpses for burial. He narrowly escaped death.

The stench at Hikuera and the destruction of all buildings and the lack of food rendered it a dangerous place for further residence. About nine days after the disaster, as many of the people after the debris were sent away as possible, the French gunboat Zeelee followed on the Duranero and Zeelee. To relieve the natives, who have sustained losses aggregating one-half million dollars ago, the government has ordered a subscription to be taken in this colony, in which France is expected to join. With the money raised it is understood that diving machines will be purchased and given to the destitute survivors. Macdonald diving will be allowed for a year or more on the several islands which have been closed hitherto to machine operations.

**SUPPLIES FROM CALIFORNIA.**  
Supplies amounting to 20 tons, sent from San Francisco and carried free by the steamship Mariposa have been transferred to the French gunboat Zeelee, to be transported to the destitute natives at once. The merchants here have lost heavily through the insolventcy of numerous creditors who perished in the gale. The merchants claim that most of the half million damage is their loss.

The impression prevails here that it would have been better to send money to the natives instead of supplies. The United States Consul states that while he feels sure that the government appreciates the kindness of those who contributed supplies, he thinks that who contributed supplies for diving machines is sent for diving machines, unless money is sent for diving machines. Heavy winds and high water have been reported from many South Sea Islands. In the Marquesas Islands the wind was very strong, houses were

## GRAND JURY FOREMAN REMOVED.

Sattle, Wash., March 16.—Superior Judge Bell today informed the members of the grand jury that he would remove Foreman Pigott, who on Friday declared the jury adjourned for one week and left for San Francisco, and appoint his successor, whenever 12 jurors formally notified him of the absence of their foreman from the state and of their desire to proceed. Telegrams were immediately sent to the absent juror, all of whom replied that they would report for duty tomorrow morning. Andrew Blackiston will probably be selected to succeed Foreman Pigott.

**Zeltmeir Arraigned for Murder.**  
Livingston, Mont., March 16.—Martha Zeltmeir, who is being held on the charge of having killed George Reldier, a wealthy rancher at Trail creek two years ago, and Jack Held and Andy Wendenbaur, charged with being accessories, entered their pleas in the district court today. They all pleaded not guilty. The court fixed the bonds of Held and Wendenbaur at \$3,000 each and refused bail for Zeltmeir, the principal.

**Miss Taylor's Case Dismissed.**  
Washington, March 16.—The district supreme court today dismissed the petition of Miss Rebecca J. Taylor for a writ of habeas corpus to compel the secretary of war to restore her to a clerical position in the war department. She gave notice of appeal to the court of appeals. She was discharged for publishing criticisms of the administration's Philippine policy.

**GRAND DEMOCRATIC FEAST.**  
From All Over the Country They Gather to Inaugurate Club Banquet.

Chicago, March 16.—Prominent Democrats from all parts of the country gathered here today to attend the banquet of the Inauguration of the club at the Auditorium hotel. Preceding the banquet of the club many notables in the party held long talks together, discussing suggestions for the campaign of next year.

The speakers at the banquet made strong pleas for a unified party and the adoption of a platform that would meet with general approval.

Mayor Harrison, who today was re-nominated by the Democratic city convention, was the first speaker. After welcoming the visitors to the city, he responded to the toast, "The City of Chicago."

He was followed by Edward M. Shepley, who spoke of "The Duties of a Patriotic Opposition."

"Jackson and the Renewal of the Bank Charter" was the topic chosen by Judge Judson Harmon of Cincinnati, who spoke under the second Cleveland administration.

In responding to the toast "Looking to 1894," Congressman David A. De Arment, who spoke of "The Duties of a Patriotic Opposition," also spoke.

Samuel Atschuler of Aurora, Ill., also spoke.

Due to the large number of Democrats who traveled to Chicago to attend the banquet and because of the small number of toasts at the banquet, a luncheon was arranged this afternoon at which a number of out-of-town Democrats responded to toasts.

Former Mayor Taggart of Indianapolis in his address declared that the prospects for the Democratic party were never better and were improving every day under the present administration. Others spoke in the same vein as Mr. Taggart, and all viewed the situation optimistically.

**Charged with Assisting Ladronees**  
Manila, March 16.—Gen. Allen, chief of the Philippine constabulary, has written to President Gomez of the National party, charging that the party is assisting the ladronees in Rizal and Bulacan provinces and requesting Gomez to produce the records of the organization and explain the collection and use of duties. Gomez replied that the party was not guilty.

**Telegraphers' Union of America.**  
Washington, March 16.—The International Union of Commercial Telegraphers and the Order of Commercial Telegraphers have been consolidated under the name of the Commercial Telegraphers' Union of America. This action is the result of a meeting of arbitrators of the two organizations which has been in progress here for several days. The new body is to be affiliated with the Federation of Labor.

**Idaho Officials.**  
Boise, Ida., March 16.—Gov. Morrison has appointed Lieut. Gov. James M. Stevens of Blackfoot to be judge of the new Sixth judicial district, comprising the counties of Fremont, Bingham, Lemhi and Custer.

**Utah Forest Reserves.**  
Washington, March 16.—The geological survey now has under consideration the establishment of forest reserves in the mountainous regions of the State of Utah. During the past three years petitions have been received from citizens of Utah for the establishment of such reserves which would protect their water supply for irrigation and domestic use. These proposed reserves are as follows: The Lagoon, Salt Lake, Spanish Fork, Tooele, Huntington, Mantle, Perron, Ginnison, Salina, Anzures, Monticello, Sevier, Panguitch lake, Duck lake and Calder forest reserves.

Pending an examination which would fix the boundaries of these areas most desirable for forest reserve purposes and eliminate such areas as are most suited for agriculture or grazing, the secretary of the interior acted upon these petitions and withdrew from attention.

**COLLEGE PROFESSORS**  
Talk of Feuds.

The New York papers recently contained a long account of the so-called discovery of a celebrated professor in one of the leading universities. The "discovery" related to a new and successful way of treating wheat and barley to prepare the starch part by dry baking, so it would be made more digestible and nutritious. Thereupon Prof. Livingston commented on the discovery of the other Professor says, "A discoverer who was a business man first and a scientist afterward found that such food could be made more digestible when cooked with dry heat instead of by boiling in water, and has already placed on the market the food," which he discovered prior to Dr. Nuts.

This refers to Grape-Nuts, the most scientifically made food known. Grape-Nuts can be easily digested by babies or anyone with a weak stomach and the food contains the most powerful rebuilding element known, particularly as relates to the rebuilding of the brain and nerve centers. It is a delicious food, requiring no cooking but ready for instant service just as it comes from the package. A recipe book free in each package describes many delicious dishes made from Grape-Nuts.

**Ate Poisoned Apples and Died.**  
Bridgeport, Conn., March 17.—Two children of Mr. and Mrs. James Walton of Whiting Lake, are dead, and three others are critically ill, the result of eating apples which had been poisoned with Paris green to kill rats.

## APPETITES Created and Maintained by Vinol.

THAT THE FOOD IS DIGESTED  
IS ALSO EQUALLY  
NECESSARY.

We Recommend Vinol as an  
Appetite Creator.

WE GUARANTEE THAT VINOL  
WILL AID DIGESTION.

Vinol is the greatest aid to digestion that we have ever known.

It is because Vinol acts so beneficially upon the stomach that it accomplishes so much good.

Vinol contains the active curative principles that are found in cod-liver oil, without any oil or grease.

These medicinal elements act so favorably upon the stomach, that this organ obtains for itself the elements necessary for forming new flesh, muscle tissue and for making rich red blood.

When the stomach acts easily and naturally, a desire is created for good simple food and a good appetite is the sure result.

With cod-liver oil as formerly taken, the medicinal elements which it contained were too often unable to counteract the harm that was done by the obnoxious grease that enveloped them.

Now that in Vinol we have those same elements separated from the vilest grease, we have a tonic and a builder that is simply marvelous in its action.

The following is a letter that will explain itself:

"It is to certify that I have used six bottles of Vinol, and have found it of great value as an appetite and tonic in general. I have received so much benefit from its use that I gladly furnish this testimonial in order that others may be induced to give it a trial and prove to themselves its recuperative powers."—Mrs. ELIZABETH FREESTY, Waterbury, Conn.

**THE SMITH DRUG CO.,  
DRUEHL & FRANKEN,  
DRUGGISTS**

try about 4,600,000 acres. A careful examination was made during the season of 1902, and the secretary has decided to establish a system of forest reserves in Utah.

**WRECK ON UNION PACIFIC.**  
News Agent Killed and Conductor Badly Hurt.

Grand Island, Neb., March 16.—Fast mail train No. 102, eastbound, on the Union Pacific, collided head-on with a freight at Brady's island early today. Herman Hopkins of Omaha, the news agent, who was standing on a platform, was killed, and Conductor M. C. Wallace of Omaha had a leg broken. None of the passengers were hurt.

**Lively Times on a Motor Car.**  
New York, March 17.—As a car belonging to the Brooklyn Rapid Transit company's Myrtle avenue line swung around the loop at the Manhattan end of the bridge, an inspector called upon the motorman to stop, as he observed a thin curl of smoke coming up from under the body of the car. The motorman paid no attention and let the car run along at full speed. The track was then comparatively clear and the swift motion resulted in fanning the flames. The passengers soon found themselves uncomfortably warm and were almost suffocated as well by the smoke as the fumes. They leaped to their feet and protested. The motorman had sprung the latch, which made it impossible to open the door and send to say no attention to the cries of the passengers or to the bells of the conductor.

**Troops for Dedication Ceremonies.**  
Port Riley, Kas., March 17.—The department commander has designated two troops of cavalry, 57 men each, and two batteries of 110 men each, to go to St. Louis for participation in the dedication ceremonies of the Louisiana Purchase exposition. The commanding officers and staffs of the cavalry and artillery garrisons will command the troops. The uniforms to be worn will be blue dress uniform. No tents will be carried as the men will have quarters in the buildings of the exposition. The commandant will leave here April 26, returning May 4.

**Macedonian Reports.**  
New York, March 17.—Reports from Macedonia are so contradictory that all foreign news agents and the London correspondent of the Tribune. Some advise from Sofia point to a transition to the period of four or five weeks. It may then be discovered that the reforms have been ineffective, and that the indignation of the Bulgarians cannot be longer restrained. A crisis at the end of a month is evidently expected in Sofia, as well as in Belgrade. Sofia at present is the hotbed of intrigue and unrest. Every stranger is under police surveillance and he is watched by spies from house to house. Turkish, Bulgarian and Russian officials are employing informers and receiving reports of what is going on among the refugees and revolutionists. War in the Balkans could not be averted if the pressure of the Russian and Austrian governments were removed for a single week.

**Does Not Get Much Satisfaction—Telegraphs Press, Castro Against Entering Into Any Compromise.**

Washington, March 17.—Minister Bowen, accompanied by Senator Augusto Pardo, the Venezuelan chargé d'affaires, called at the Italian, British and German embassies to inquire regarding the negotiations of The Hague protocol. Several weeks ago Mr. Bowen drew a rough draft of this convention providing for the reference of the preferential question to The Hague and stipulating that the czar of Russia select the members of the court. Copies of this protocol, which first was approved by the state department, were left with the Italian and British ambassadors and the German minister and by them mailed to their respective foreign offices. Since then Mr. Bowen has received no reply from the allied powers. Herbert Deering, first secretary of the British embassy, who, during the absence of the ambassador in New York is in charge, informed Mr. Bowen that the British minister had been sent from London by special train and will arrive here next Thursday. It is believed that the main features of the agreement as drawn by Mr. Bowen have been approved. Baron Sternberg, the German minister, who is standing on a platform, was killed, and Conductor M. C. Wallace of Omaha had a leg broken. None of the passengers were hurt.

**St. Louis Grand Jury.**  
St. Louis, Mo., March 17.—The work of securing jurors for the special grand jury which Judge Haxell of the circuit court, has called to meet here next Monday to investigate charges of bribery in the legislature is being pushed by Sheriff C. A. Smith. He has selected seven of the 12 men, as follows: L. V. Dix, Jefferson City; Judge Simon N. Schell of St. Thomas; Frank Cole of West Frank; Frank of Tracy; William H. Leach of Marion; I. M. George of Russellville and Judge W. H. Plummer of Bass. The remainder will be selected from Jefferson City.

**Demonstration by Madrid Students.**  
Madrid, March 17.—The students here are making a series of demonstrations against the minister of education. They paraded the streets singing the "Marseillaise" and made an attempt to demonstrate in front of the royal palace, but were prevented from doing so by the police. Many arrests have been made and the university is closed.

**Insects for Hawaiian Islands.**  
Alameda, Cal., March 17.—Prof. Albert Koehbe, the noted entomologist, has returned to this city from Mexico, where he conducted a quest for insects for introduction into the Hawaiian Islands. His particular quest was for insects to prey upon a very prolific ornamental plant, the lantana camara, which, since its importation into Hawaii, has overrun the cattle ranches and caused great loss by destroying the feed. Prof. Koehbe has found a variety of insects in Mexico which he has placed upon the seeds and leaves of the obnoxious lantana and exterminate the plant.

## BOWEN CALLS ON EMBASSIES

To See About Negotiations of the  
Hague Protocols.

NO REPLY FROM THE ALLIES

Does Not Get Much Satisfaction—Telegraphs Press, Castro Against Entering Into Any Compromise.

Washington, March 17.—Minister Bowen, accompanied by Senator Augusto Pardo, the Venezuelan chargé d'affaires, called at the Italian, British and German embassies to inquire regarding the negotiations of The Hague protocol.

Several weeks ago Mr. Bowen drew a rough draft of this convention providing for the reference of the preferential question to The Hague and stipulating that the czar of Russia select the members of the court. **YOU FEEL SICK**  
And you wonder what's the matter. Your head aches, you feel tired and nervous, have no appetite and can't sleep. The trouble lies in the stomach. It has become weak, and cannot, therefore, do its work properly. Take a dose of Hostetter's Stomach Bitters before each meal. It will restore the appetite, insure perfect digestion and sound sleep and make you feel better. Try a bottle.

**HOSTETTER'S  
STOMACH BITTERS.**

CAN'T BE SEPARATED.

Some Salt Lake City People Have Learned How to Get Rid of Both.

Backache and kidney ache are twin brothers. You can't separate them. And you can't get rid of the backache until you cure the kidney ache.

If the kidneys are well and strong, the rest of the system is pretty sure to be in vigorous health.

Doan's Kidney Pills make strong, healthy kidneys. Alfred Clark, blacksmith, of 129 south Main St., says: "When a blacksmith is never sure that during the day a gnawing pain catches him across the back, which clings to him during the night, he is often in actual misery. Many a time I have had to lie just in one position in order to have any comfort, and to enjoy a decent night's rest. This is not a pleasant condition to be in for a man performing even the most trivial act around his workshop has twinges in the small of his back which almost makes him exclaim, 'neither is it pleasant to arise morning after morning very poorly prepared to commence another day's hard work. A sure indication that my kidneys were at the bottom of the whole disturbance was the action and condition of the kidney secretions. Something about an advertisement wherein it stated that Doan's Kidney Pills could be depended upon in such cases induced me to go to the F. J. Hill Drug Co. store for a box. It is difficult to understand how a simple little pill could have had such effect upon the action of the kidney secretions and could have stopped the backache, but it is a positive fact that the treatment did. I very emphatically endorse Doan's Kidney Pills."

For sale by all dealers, price 50 cents. Foster-Milburn Co., Buffalo, N. Y., sole agents for the United States. Remember the name—Doan's—and take no substitute.

## GRIP BACILLUS COMING WESTWARD

Bacillus of Grip Magnified 16,000 Times.

Epidemic Started in  
Russia and Western  
Europe.

Moving Rapidly Westward.

"The Epidemic Will Be General All Over the United States In a Few Days."

**"MEDICAL TALK" Says:**  
Speaking of remedies for la grippe, the editor of Medical Talk, one of the popular medical journals of the present time, says: "Whatever may be said against proprietary medicines in a general way, the fact remains that there are more people who rely upon Peruna as a remedy for la grippe than use all other remedies combined. No other remedy is so widely used and implicitly believed in as a remedy for la grippe as Peruna. There is no way to account for this fact except that Peruna is what the people believe it to be—a specific for la grippe."

**LaGrippe Is Epidemic Catarrh.**  
La grippe is acute catarrh caused by peculiar climatic conditions. It sweeps across a continent in a single week, like the blizzard of winter or the hot wave of summer. It does not depopulate whole villages like the black plague, nor desolate a home like malignant diphtheria, but it counts its single victims here and there incessantly, night and day, week after week.

**Since 1850 Dr. Hartman**  
Has passed through four or five epidemics of la grippe. During all this time he has occupied an extensive practice of medicine. Few (if any) physicians prescribe for so many patients. His experience in climatic diseases has been simply prodigious.

Thousands of patients are continually under his directions, either personally or by correspondence. The Doctor's fame in treating la grippe is known from the Atlantic to the Pacific.

The Doctor believes that he has never yet lost a case of la grippe, and is enthusiastic in the conviction that he never will.

**Dr. Hartman's Remedy.**  
The remedy upon which the Doctor has relied for the cure of la grippe for over forty years is Peruna. Peruna is a scientific catarrh specific. It cures catarrh whether acute or chronic.

La grippe is simply acute catarrh, which sometimes rages as an epidemic.

If you do not derive prompt and satisfactory results from the use of Peruna, write at once to Dr. Hartman, giving a full statement of your case, and he will be pleased to give you his valuable advice gratis.

Address Dr. Hartman, President of The Hartman Sanitarium, Columbus, O.

## Reserve your buying

The Markets of the world have contributed to our store. We shall offer a great range of goods—not only great in quantity but great in being as they should be—goods which you must appreciate, which you most desire, and including every dependable quality from the very finest possible made, down to the least expensive reliable goods manufactured. High prices will not prevail. The store is modern and for all people.

The preparations for our Formal Opening are in progress and are the most extensive ever planned for a similar occasion in the West.

Opening Monday Evening  
and Tuesday,  
March 23rd and 24th.
