The collection comprises 200 pictures of the highest order of merit, in oil, each original, by G. M. Ottinger, and are of different values, from $5.00 upwards; the retail value of the whole lot being $1,200.00, and will be sold membership for the round sum of $600.00, thus giving each person the value of his money, and two-thirds of the number a picture of greater value than $5.00. Bills Introduced and Referred.

WASHINGTON, 17.—Bills were introduced and referred, as follows—

By Franklin, for the construction of public buildings in Kansas city, Mo.

By Wilshire, donating public lands in Arkansas to that State, for the support of public free schools, and of a State university; also a resolution instructing the committee on Indian affairs to inquire into the appointment, compensation, etc., of the special commissioner to Indian Territory; adopted.

By Slemmons, to repeal the tax on tea and tobacco; also a resolution calling on the Attorney General for information as to the number of prisoners held by authority of the U. S. Government in the different State prisons, with the annual expense thereof; adopted.

By Conger, for the better protection of emigrants and to prevent the importation of criminals.

By Durand, to enable certain soldiers and sailors to perfect their title to a homestead under the homestead law, without entry, occupation or improvement.

By Oliver, to authorize the construction of a bridge across the Missouri river at Sioux City.

By Rusk, for public buildings at La Crosse, Missouri; also providing that all pensions on account of death from wounds or disease, received in the service, shall commence from the date of death or discharge.

Page, of Cala., offered the following—

"*Whereas*, The Constitution of the U. S., as framed by the fathers of the republic, imposed no limits on the eligibility of any citizen to the office of President, further than that he must be native born and of a certain age and time of residence; therefore,

"*Resolved*, That in the judgment of this House, the right of selecting candidates for the office of President can only be lawfully exercised by the people under existing constitutional restrictions, and has never been delegated by the people to the House of Representatives, or to any of the members of the same, and that any attempt by the House of Representatives to limit or forestall the public will on a question of such importance is an evasion of the powers reserved by the people at large, to be freely exercised by them without any interference from any legislative body whatever.

The reading of the resolution was greeted with laughter on both sides of the House, and the House refused to second the previous question by a vote of 30 to 89.

By Dunnell, to authorize the Secretary of the Interior to ascertain the amount due the State of Minnesota for suppressing Indian hostilities.

By Faulkner, to pay the German Evangelical church, at Martinsburg, W. Va., $2,500, on account of the destruction of the church in 1863, while in the possession of the military forces of the U. S.

By Kidder, to establish the Territory of Pembina.

Lawrence offered the following resolution, which was agreed to—

"*Whereas*, the incorporation of general legislation on appropriation bills sometimes requires either the support of objectionable provisions or opposition to necessary appropriations; and,

"*Whereas*, every measure should stand on its own merits; therefore,

"*Resolved*, that the committee on rules be directed to report an amendment to the rules, which shall exclude from appropriation bills all generalization, either on reports of conference committees or otherwise."

Cox offered the following resolution, which was agreed to—

"*Resolved* that the committee on foreign affairs inquire into and report upon the expediency and the justice of giving to the German Empire the notice required by the fifth article of the treaty with the North German Empire, signed Feb. 26th, for the termination of said treaty, or so much thereof and of the protocol of June 12, 1871, as related to citizens of the U. S., their renunciation of naturalization, and their political condition in Germany under said treaty and protocol.

The House then adjourned until Monday next, with the understanding that the business on that day shall be confined to the presentation by the Speaker of any communication he may have to make.

EASTERN.

National Board of Transportation.

CHICAGO, 17.—At the meeting of the National Board of Transportation, this afternoon, the following was offered by the Committee on Resolutions—

"*Resolved*, That we recommend the several States to enact the following laws for the regulation of railway charges by them:

"'First, A law providing a board of railway commissioners, to obtain, preserve and circulate information bearing upon transportation, with power to prescribe a uniform system of keeping railway accounts and with other powers and duties similar to those possessed by the railway commission of Massachusetts.'

"'Second, A law to prevent stock inflation.'

"'Third, A law prohibiting the representatives of the people from being retained or employed as agent, attorneys or consel in any case where the public interest is involved.'

"'Fourth, By providing that all common carriers shall receipt for quantity, whether it be of grain or other commodity, and to deliver the same at its destination.'

"'Fifth, A law providing uniform classification of merchandize, and prohibiting the printing of conditions contrary to law in any receipt or contract signed by any person, and fixing the responsibility of said carriers.'

"'Sixth, A common law or constitutional provision against the consolidation of railroads, by which the power of these great corporations is often increased and their proper control prevented.'

"*Resolved*, That we have no wars to make upon any of the general industries of the country, but, on the contrary, the very object of the convention is to promote peace and harmony among them, by securing an equitable distribution of the benefits and burdens of life, without which there can be no permanent harmony of interest. As the officers of a body are essential to its vigor, so are all these interests essential to a country that would be great and prosperous. It is the true interest of all to promote the interest of each other, and our best policy will be found in the union of all the great industries of the land for the sake of national peace and prosperity.

"*Resolved*, First, That for the purpose of effecting a more perfect organization, an executive committee be appointed for each State, consisting of a number equal to the representation of said State in the federal Congress.

"Second, That the executive shall have power to appoint a sub-committee in each Congressional district in their respective States.

"Third, That it shall be the duty of these several committees to collect and disseminate such information in their several States and districts as may aid in procuring proper legislation upon this all-important matter of transportation, and that their efforts and aims shall be to procure for our people the cheapest means possible.

"Fourth, That it shall be the duty of the sub-committees to correspond with the executive committee of the State, and the State executive committee with the national executive committee of this body, so that there may be uniformity of purpose and action between the whole.

The committee on resolutions referred back, without recommendation, a resolution in favor of Tom Scott's project.

Mr. Harris, of Kentucky, moved the following as a substitute for the resolution in the hands of the committee—

"*Resolved*, That the early completion of the Texas Pacific railway, in whatever way or by whatever means it shall, in the wisdom of our statesmen and legislators, be considered best for the permanent interest of all citizens and all sections, will result directly and indirectly in substantial good to the whole country, by reason of its being a much-needed part of a national system of adequate transportation facilities."

Mr. Ferguson, of N. Y., said the resolution was an endorsement of Tom Scott's scheme. He was willing to give the South every facility; he was willing to give the South that road, built by the government, but Tom Scott would take the resolution, as at present worded, into Congress and get his bill passed. The resolution, with amendments, was referred to the committee on railroads.

Mr. Scammon moved the adoption of the following—

"*Resolved*, That we are in favor of completing both the Northern and Southern Pacific Railways, as soon as the means for the completion of the same be properly made available."

Mr. Harris, of Kentucky, asked, in all due respect to the gentlemen here, if it could not say something to the effect that the building of a road across the southern part of the country was not needed.

Mr. Sturtevant, of Minnesota, was sorry that the question had come up, but the convention had given the South as much as to any other section of the country; he could not go for the Southern Pacific without the Northern. Minnesota wanted a market in the east or in Europe, and needed the North Pacific.

Col. Priton, of Va., made an eloquent appeal for harmony of action, and the obliteration of party lines and sectional sympathies, which was frequently interrupted by applauding hands.

Mr. Rose, of Miss., stated that, in the committee rooms, nothing had been said specially of the North or South, of the East or the West, but he had been more than pleased that his section had received such liberal attention.

The vote was then taken on the resolution in regard to the construction of the Southern and Northern Pacific railroads, and the resolution being adopted, the convention, on motion of Mr. Scammon, adjourned *sine die*.

National Soldier's Home, &c.

The Board of Managers of the National Home for disabled soldiers have been in session in this city the past few days. There were present Chief Justice Waite, General B. F. Butler, Gen. J. M. Merrimindale, ex-Gov. Smyth, of N. H., Hon. L. H. Gunckel, of Ohio, Dr. E. B. Walcott, of Wis., and Gen. J. S. Negley, of Penn. The reports from the several Homes showed that 6,651 disabled soldiers were cared for during the past year, as follows — at the Central Branch, Dayton, O., 3,769; at the Eastern Branch, Augusta, Me., 1,034; at the Northwestern Branch, Milwaukee, Wis., 978; at the Southern Branch, Hampton, Va., 871, being a total of 592 more than were supported last year. The board decided to reduce the pay of officers and employees fifteen per cent.

The Commissioner of Internal Revenue has decided that when the court, under authority of the section 3,339 of the Revised Statutes, releases a distillery to an intervener, the fact that the taxes are due on the spirits manufactured at the distillery by the former occupant, and removed without being deposited in a bonded warehouse, as required by law, will not be taken as a ground for refusing to permit the intervener to operate the distillery during the pendency of proceedings for the forfeiture.

Beecher Wants Investigating.

NEW YORK, 17.—At the weekly prayer meeting at Plymouth Church to-night a report was introduced asking for a council of the Congregational churches to determine what discipline should be used with absenting members, and to decide other similar questions. On a motion being made to adopt the report, with a slight amendment by Shearman, Beecher asked if that would not open up the whole investigation of 1874. Shearman said "Yes." "Then," said Beecher, "I am for it." (Applause.)

Embezzlement.

ST. LOUIS, 17.—General Babcock has been sent for, and he is expected here to-morrow to plead, and have his case set; it will doubtless be certified up to the U. S. Circuit Court, Jan'y term, and come on after those of McKee and Macguire. A report which has been circulated here that some important documents which were to be used against Babcock had been purloined from the desk of the U. S. Court, proves to have been entirely unfounded.

Henry Hollenschied, a German, sixty-five years old, was hanged to-day, at Herman, Mo., for the murder of his son-in-law, Christian Albaud, in June last.

Arrival of Congressional Delegation.

PHILADELPHIA, 17.—The congressional delegation reached here about 8 p.m., and were driven in carriages to a hotel. The President and his wife and Col. Fred. Grant and wife are the guests of G. W. Childs; Postmaster General Jewell is the guest of Col. Wm. McMichael; Secretary Robeson and Attorney General Pierrepont are stopping with ex-Secretary Borie; Justices Waite, Field and Bradley are the guests of Hon. Thos. H. Dudley, of Camden. The whole party—the Cabinet, Supreme Court, Senators and Representatives and newspaper correspondents number about four hundred. The buildings of the Reform Club, American Club and the Neptune Club are illuminated and decorated, presenting a striking appearance. The crowd in attendance at the Continental Hotel was so great, both inside and out, that the police were obliged to put ropes to make a passage way for the guests. A committee of merchants escorted the party to this city, meeting them at Wilmington. Mr. Mitchell, chairman of the committee on reception, presented to the President, at Wilmington, a letter from the mayor of Philadelphia, extending to him and the distinguished delegation the hospitalities of the city. President Grant replied in a few remarks. The newspaper correspondents are being entertained to-night by the reporters of Philadelphia.

WESTERN.

An Absconding Thief Arrested—Commenced Raising Ore.

SAN FRANCISCO, 17.—A. Woodward, arrested here, was sent east this morning in charge of Sheriff Anderson, of Shelby county, Tennessee, on a requisition from the Governor of Tennessee. Woodward was treasurer of Shelby county some two years ago, and absconded, being a defaulter in the sum of seventy-seven thousand five hundred dollars. He went to New York and thence to Mexico, and came here about three weeks ago.

They commenced raising ore from the Con Virginia shaft on Wednesday; it is reported that the managers contemplate soon increasing the stock of the company.

Hung by Vigilantes.

A dispatch from Carson says that a man named Thomas Burt, hung by vigilantes last night, was found this morning hanging to the gate of the cemetery; he had been recently engaged in many cases of arson and robbery, and had escaped imprisonment for want of legal evidence. He had received repeated warnings to leave the vicinity, which he had disregarded; he was taken quietly from his bed by masked men and hung without any disturbance. He was a native of New York, and twenty-six years old.

CANADA.

Privilege Refused.

OTTAWA, 17.—Owing to the refusal of the U. S. authorities to allow Canadian vessels to navigate American canals on the same footing as American vessels, the Dominion government has prepared a case and forwarded it to Secretary Fish.

A Riot by Unemployed People.

MONTREAL, 17.—This forenoon about a thousand unemployed people, mostly French Canadians, assembled in front of the City Hall, where they remained for some time in an excited state, but beyond receiving a bread wagon of a dozen loaves no reprehensible acts were committed. Ald Grenniers spoke to the crowd, advising them to adjourn until three p.m., when the council would be ready to give some answer in response to the demand for work or bread. The majority of the assembly then marched through the streets in a tumultuous column. At 3 p.m. a disorderly throng of over 2,000 surrounded the City Hall, and despite a large body of police the mob attacked a beer wagon, took the casks and drank the contents; bread wagon was then cleared out and in ten minutes later a fight took place, and order was restored with difficulty. The firemen locked up the various departments and discussed the propriety of leading the riot act. The mayor then addressed the assemblage from the balcony, and counselled the greatest moderation on their part, that violence only made the matter worse. He said the council was to meet and would give their case earnest consideration. He reflected on those who would create disorders and was interrupted by cries of, "We are suffering and wanted work." At a quarter to four the council commenced its deliberations, and in the meantime several encounters took place between the police and the excited mob, Chief Penton taking an active part. Several arrests were made, and upon the approach of reinforcements, the crowd fled in every direction. A number were intoxicated, and while in doubt a large number of the laborers present really desired work, many simply waited an opportunity to plunder.

A Steamer Burned.

NEW ORLEANS, 17.—The steamboat *U. S. Fitz* arrived last night from the Bayou Sara, with a cargo of 997 bales cotton, 288 hhds of sugar, 594 bbls of molasses and other freight, she landed near the foot of Canal St. where she took fire this morning, and was burned to the water's edge, with her entire cargo except about 100 bales of cotton which had been discharged; the boat and cargo are valued at $100,000, insured in local companies for $50,000. Several persons on the boat were badly burned, and a number of deck hands who are missing, jumped overboard and were drowned.

WHEREAS, Parley P. Pratt, by his certain deed of trust, dated October twenty-sixth, 1874, conveyed to Lewis S. Hills and James F. Freeze, the following described real estate, situated in Salt Lake City and County, Territory of Utah, and particularly described as follows, to wit: Part of Lot five (5) in Block fifty-one (51), Plat B, Salt Lake City Survey, beginning at the south-west corner of said lot and running thence north six (6) rods, thence east ten (10) rods, thence south six (6) rods, thence west ten (10) rods to the place of beginning.

In trust, however, to secure the payment of a certain promissory note, fully set out in said deed of trust, bearing date of Oct. 26, 1874, for the sum of $200, with interest at the rate of one and one half per cent. per month; and whereas said principal sum and the accrued interest thereon is wholly due and unpaid.

And whereas it is provided in said deed of trust that should default be made in the payment of the said note or the interest thereon, according to the term thereof, then the said trustees might, upon the request of the holder of said note, proceed to sell said land for the payment of said note and interest and the expenses accruing by making such sale; and,

Now therefore we the undersigned, as trustees as aforesaid, at the request of the said owner and holder of the said note, and pursuant to the terms and conditions of said trust deed, do hereby give notice that we will sell, on Monday, the 3rd day of January, A.D. 1876, at 11 o'clock a.m. of that day, at the south door of the County Court House, Salt Lake City, in said Territory, the said land or premises above described at public vendue to the highest bidder for cash, to satisfy the principal and interest of said promissory note and the cost and expenses of executing this trust and making this sale.
