FARICAL TRIAL OF J. P. O'NEIL.

Contractor Did Not Break 8-Hour Law Because Paid by Private Citizen.

SIX COUPLES MADE HAPPY.

Just's Band at the Opera House—Junction City Briefs and Personals.

J. P. O'Neil, the well known contractor who was arrested on the charge of violating the state law by working his employees over eight hours on public city work, was adjudged not guilty by Judge Howell in the municipal court.

The action was brought by Grant Sykes and other members of the Trades assembly against Mr. O'Neil, charging him with violating the law on Sept. 17 and 19 by permitting one Joseph Saunders and others to work ten hours per day in laying a sidewalk on Twenty-fourth street in front of George Mason's home. The evidence introduced in the defense was that Mr. O'Neil was not employed to do the work by the city but by Mr. Mason personally, and as the law only pertains to public works, whether for the city, state or government, the defendant was discharged.

It is understood that one of the main reasons for trying the suit was that Mr. O'Neil employed a majority of foreign laborers on his contract work, thereby depriving citizens of Ogden of employment from obtaining work.

PATTERSON TO PROVE PEOPLE.

Delivers Interesting Speech at the Garden City on Political Issues.

THE MORMONS IN COLORADO.

Are a Peaceable and Peace-Loving Community—Democratic Victory Predicted for Centennial State.

(Special to the "News.")

Provo, Oct. 12.—Among the party accompanying Senator Patterson to Provo yesterday afternoon were Hon. James H. Moyle and Mrs. Moyle, Hon. Simon Lamberger and Mrs. Lamberger, and Mrs. W. H. King (Judge King accompanied the party as far as American Fork). Hon. C. S. Varian, Hon. David Evans, Hon. W. H. Dale, Hon. D. H. Peery, Hon. R. W. Sloan and Joel L. Priest of the Herald. The party arrived over the Salt Lake Route on a special at about four o'clock, and was met at the depot by Mayor Roylance and the reception committee, and taken to the Hotel Roberts in carriages. Then the time was spent in the discussion of political matters till seven o'clock, when dinner was served in one of the private dining rooms of the hotel. After dinner the speakers and other visitors went to the opera house, where a good sized audience had assembled. The stage was tastefully decorated with flags, plants and flowers, and a picture of Judge Parker, on it were seated the visiting speakers and ladies and prominent Provo people.

County Chairman Morgan introduced Hon. S. R. Thurman as the chairman of the meeting. Mr. Thurman expressed regrets that the rain had prevented many from attending, but consoled the audience with the thought that the rain fell upon the just and the unjust. He referred to the present state of affairs in Utah, and designated the American party as an overflow from the Republican party, with which the Democratic party had nothing to do. He believed this to be a Democratic year because the people were becoming convinced that the Democratic party was the party that would guard their rights and best promote the interests of the state.

MOYLE SPEAKS FIRST.

Mr. Moyle was the first speaker. He did not believe that the Republican party was entitled to succeed in Utah this year on account of the factional fight within that party, but believed the people would elect the Democratic ticket and set their seal of disapproval upon the discord created in the state by reason of the two men in the Republican party who had been given its greatest honors, and set their seal of approval upon the engaging in a factional fight, which was distracting the state. Mr. Moyle pledged himself, if elected, to work for the interest of the people of the state, regardless of politics.

Miss Janie Thompson favored the audience with a beautiful rendition of a selection from "The Last Rose of Summer." The song was given to the accompaniment of "The Last Rose of Summer."

JUDGE VARIAN TALKS.

Judge Varian followed with a brief talk in which he called attention to the importance of a nominee for a judicial position making a partisan address, that being contrary to the high demand for impartiality and justice the American people made upon its judiciary. He also called attention to the fact that the Democratic ticket rendered a couple of negro melodies with good effect.

SENATOR PATTERSON.

The closing speaker of the evening was Senator Patterson, who held the attention of the audience for about an hour and a half with an interesting discussion of the principles and policies of the Democratic party, and as a Democratic point of view. He paid a high tribute to the "Mormon" people in Colorado, "as peaceable, industrious and peace-loving people as constituted a community anywhere." The settlers of Utah who had come here to obtain peace and freedom to worship, were eminently a peace-loving people, and did not favor the strenuous and warlike proclivities of President Roosevelt, who was also criticized for his conduct in the case of General Miles and Admiral Schley, in the treatment of whom he had shown unfairness. Excerpts from writings of the president were also read, which it was maintained, showed him intolerant and unfair. The pleasant relation which had always existed between Utah and Colorado was also mentioned, and the speaker wanted Utah to set an example worthy of emulation by Colorado in electing the Democratic ticket this fall. Whether she did or not the Democratic ticket would be elected in Colorado by a great majority.

The trusts and their power made possible by the protective tariff were discussed in many instances cited where the trusts had compelled competitive industries to sell out to them at great loss, by cutting prices below cost of production. He held that the Republican party was unfavorable to the development of the middle west and the Rocky mountain states, and favored the industrial development of the Atlantic seaboard states and the New England states at the expense of the west, and by reason of the Republican protective tariff system which favored the trusts and retarded and made impossible. This was the reason that with all the splendid resources of this and other western states their industrial development was at a low ebb. And this was the reason the admission of Arizona, New Mexico, Indian Territory and Oklahoma to statehood. It did not want any more western senators and representatives stood together on legislation benefitting the west, regardless of politics. As another instance of the enmity of the Republican party to the west the Cuban reciprocity treaty which threatened the destruction of the beet sugar industry was cited.

The history of the old land reclamation law was taken up. The speaker contended that it was not a political, but a non-partisan measure, and while he was willing to give President Roosevelt and Republicans who supported the measure credit for their efforts, he did object to the claim made by the Republican speakers, that it was a Republican party measure.

Senator Patterson paid a high tribute to the late George C. Cannon, with whom he had become acquainted many years ago when Mr. Cannon was a delegate to Congress from Utah and Mr. Patterson a delegate from Colorado. He had learned to respect the

The Duties of Underwear

The superiority of Wright's Health Underwear is founded upon hard common sense.

Your skin must breathe the same as your lungs—your pores must have fresh air as well as your nostrils.

You couldn't be healthy if you lived without ventilation. You can't be healthy if you live in underclothes that don't give your skin air to breathe.

Ordinary underwear is tight, it wets, and lies close to the skin. The pores breathe through it with great difficulty.

Wright's HEALTH UNDERWEAR

is built on a different plan. Inside it is a fleece made up of myriads of tiny loops of wool.

This fleece holds air, ventilating the skin and allowing the pores to breathe freely and easily. Result—healthy skin—healthy body—no chills—no colds—no sticky feelings.

With all this stands the fact that Wright's Health Underwear costs no more than ordinary underwear. At dealers.

Our book "Dressing for Health" tells the story fully. Sent free.

Robinson, president of the California mission, made some very fitting remarks, consoling to the bereaved wife, a son and daughter, who are bereft of a kind husband and father.

Saved His Life.

J. W. Davenport, Wingo, Ky., writes, June 14, 1902: "I want to tell you I believe Ballard's Snow Liniment saved my life. I was under the treatment of two doctors and they told me one of my lungs was affected. I also had a lump in my side. I don't think that I could have lived over two months longer. I was induced by a friend to try Ballard's Snow Liniment. The first application gave me great relief; two fifty cent bottles cured me and I recommend it to suffering humanity." STONE, IDAHO.

AUGUST ELIASON DEAD.

Respected Citizen Succumbs to Paralysis After Long Illness.

Special Correspondence.

Stone, Idaho, Oct. 10.—Mr. August Eliasson died Oct. 1, of paralysis. He had a third stroke of paralysis two years ago and was in a helpless condition till his death. Deceased was a good friend, loving father and kind husband. The funeral was more largely attended than any in the history of the town.

FREE GOVERNMENT HOMES.

The rush of homeseekers to secure tracts of land under the various irrigation projects announced by the government shows that the home-building instinct is as strong as ever in the breasts of the American people. As the government lands, land limited for homes, becomes further limited in area, it is more and more of an outrage that public land should be acquired for speculation. Yet large acreages are passing into the hands of speculators every day in the year, under both the desert land law and the commutation clause of the homestead law, while under the timber and stone law, not only the land but the most valuable timber in the world is being speculatively sold with absolutely no regard for the settler or for the country at large. These laws are active instruments in the stealing of the land which belongs to the people of the United States, and there is no citizen who may not desire to avail himself of his right to acquire some of this land, he or his son.

All the great land interests are in their opposition to the repeal of these laws. They present a solid front. They are organized; they are aggressive, and it is a sinister fact that they thus far prevented any land reform legislation in congress.

But the country is becoming aroused to the fact that it is being literally robbed by a small band of selfish men who would amass fortunes, and win, by the evasion of the law, are absorbing the choicest remaining tracts of the real home-maker.

And the men in congress who are in reality bitterly hostile to any change in these land-stealing laws, are the same statesmen who would loudly proclaim that they are the great friends of the settler, the home-builder and the small farmer. They are found on the wrong side of every land reform measure, yet urging the welfare of the settler is their sole object.
