HEAVY SNOWFALL.

HEAVY SNOWFALL. HEAVY SNOWFALL. This valley is having the most re-markable fall of snow at this season of the year within the recollection of the oldest settler. It commenced snow-ing sesterday morning but on account of the natural warmth in the soil the snow melted as fast as it fell until afternoon. The snowfall continued all the afternoon and during most of the night and this morning there was over a foot on the level. The sun shone a little this forenoon but since dinner it has been snowing continuously and there are no indications of a cessation. At Kimberly it is reported that the some of the drifts are over 20 feet. Mr John R. Jensen, who supplies lime to the Anna Laurie mine, says that he has soveral teams loaded with lime snowed in. One wascon load is within yeo yards of the mill but not the slight-est trace of it can be seen it being en-urely covered with snow. Rasmussen, Jonas Mattsson and Bish-op C. A. Mattsson spoke highly of the faithfulness, honesty and strong char-acter of the deceased. The choir ren-dered appropriate music for the occa-sion sion. On March 15, James Anderson Ivie was summoned from this sphere of ac-tion. He was the son of James Russell and Eliza McKay Fosit Ivie, born March 17, 1830, in Monroe Co., Mo., and March 17, 1830, in Monroe Co., Mo., and early in life became a member of the "Mormon" Church. He went through the sufferings incident to the expulsion of the Saints from Missouri, and moved to Winter Quarters in 1846, and as a member of Apostle Snow's com-pany carie to Utah in 1848. During the gold excitement of '49 in California, Mr. Ivie went there, but returned the same year and moved to Provo, where he resided for nine years, then he lived in Ephraim a short time and from there he moved to Scipio, where he remained until 1883, when he came to Salina. turely covered with show. mendations of Chicago Conference. Lincoln, Neb., March 18.-The ath-letic governing body of the University of Nebraska today refused to accept the recommendations of the recent foot-ball conference held in Chicago. While Nebraska is not a member of the "Big Nine" and has no volce in the making of the recommendations, its action is important, inasmuch as it plays several games with members of the "Big Nine." Nebraska's failure to accept the rec-ommendations will undoubtedly result in the canceling of the games sched-uled with the "Big Nine" teams, as both teams will be playing under dif-ferent conditions and different rules governing the conduct of the game. Nebraska has evidently taken all this into consideration, but appears to be firm in the conviction that it would bi better for it to proceed independently of the conference.

Pierce also sava that if Hart gains the mastery over Gard-per his club will harg up a sultable purse for him and Gus Ruhlin. The Chelsea man also says that he will be willing to give Hart auother trial at Burns, and will guarantee a fair deal for all. Hart and Gardner have met twice in the aquared circle.

Methodist Minister Says Horse Racing Is Doomed in America.

Is Doomed in America. Memphis. Tenn., March IS.-Rev. William E. Thompson, the Methodist di-vine who is generally credited with hav-ing been the biggest power behind the anti-racing measure when it engaged the attention of the last legislature, has re-turned from Washington, where he was granted audiences with President Roose-velt. Rev. Hr. Thompson, who is also looked on as the leader of the reform party here which has waged a bitter war against all sorts of vice and gembling, was asked whether his conversation with the president bordered on horse racing, but refused to discuss that phase of his visit to the White House. It has been stated that the Methodist divine had this object in going to Washington and some significance is attached to the fact that while Rev. Mr. Thompson was in Wash-ington two bills hostile to racing were introduced in the house of representatives. Concerning future plans Rev. Mr.
