DESERET EVENING NEWS THURSDAY MARCH 21 1907

The Litah-New York property in the North Star district, Beaver county, is showing improved conditions under de-velogment now on in the lower levels. A drift commenced some time ago on the 100-foot level has been continued to the north. This work has opened up a body of copper ore, which excels anything found in the mine yet. Indi-cations point to permanency and fur-ther drifting will be continued as rap-idly as possible to determine the size of the deposit. The ore will go about 30 per cent, and as it carries iron, is an ideal fluxing rock. As the company is in strong financial shape it is not thought stoping for market will be done until therough prospecting has been complet-ed. A gasoline hoist and other equip-ment is encute to the property and as enroute to the property and as soon if this arrives three shifts will be put to work sinking.

The President's Policy. Denver, March 21.—Open opposition to President Receivelt's policy of enforcing the collection of grazing taxes, and the calling of a convention at which all the western states will be represented, and the purpose of which will be to deter-mine the rights of the state to develop and retain the public lands within their borders, is the present program of the strekmen of Colorado. The state board of stock inspection com-missioners yesterday adopted a resolu-tion endorsing the stockimen in their fight against the government and Gov. Buchtel sent the text of a joint resolution to the legislative steering committee, authoriz-ing him to call a convention at which the general policy of the government with reference to public lands in the west will be discussed.

The President's Policy.

DISCUSSES NEVADA-DOUGLAS. A. J. Orem has the following para-graph upon the Nevada-Douglas in his last weekly mining letter: This stock was placed upon the curb a few months ago at \$5 per share, since which time there has been a steady ad-vance in price. There have been hun-dreds of thousands of dollars invested in this stock by investors all oyer this country, as well as Europe. Recently it has been selling at from \$7 to \$7.5e. It is very gratifying to those interested in this property that during the de-moralized condition of the market in other stocks the last week the Nevada-Douglas has held firm. This is to be accounted for from the fact that most people who have interested in the stock of the company have either investigated the property personally, or some im-mediate friend has done so for them. The people who hold Nevada-Douglas stock believe in it and are willing to hold it as an investment. They do not belong, as a rule, to the class of people who are scalping for profits on marging. When the present storm has the HAMMOND STRIKE SETTLED. Hammond, Ind., March 21.-The strike at the plants of the Republic Iron and Steel company and the Inter-state Steel company at East Chicago. was settled today, the men accepting 10 per cent increase. All of the men returned to work. THE ASSOUAN DAM.

Council Ministers Adopts Proposition To Increase Its Height. Cairo, Egypt. March 21.—The council of ministers lodey adopted the proposition to increase the height of the Assound dam sufficiently to raise the water stored in that reservoir by nearly 20 feet above the present maximum. It is calculated that this will give sufficient new water to irrigate another million acres of north-ern Egypt which it is estimated would yield an increased couton crop to the value of 515,500,000 to 22,000,000 annually. It is stated that the work will take six years to complete and will cost \$7,500,000.

LOCAL MARKETS.

The washouts on the Southern Pa-cific materially interfered with local receipts of fruits, fish and vegetables from the west; but notwithstanding this, there seem to be enough oranges on hand with the retailers for a day of two, or until the delayed shipments arrive from the west, although just at present the commission houses are rether short. The oranges are from Redlands and Riverside, mostly of the targe variety. The fish men say the market is absolutely bare of all kinds of fish except hallbut, and will femain to until active communication is open mee more with California points. Apples are being received from Ida-to, several cars of bananas are in from New Orleans, also two cars of totatoes from Provo, with prices sif-fening to \$1.50 per cwt. Receipts of new potatoes are reported from the Dermudas: also, local lettuce, rhu-tarb. Carrots are scarce as the farm-rs do not seem disposed to haul them n market lengthy on account of the cards. Vegetables generally have new scarce dils week; but after to-lay, with communication resumed

market largely on account of the oads. Vegetables generally have een scarce dis week; but after to-ay, with communication resumed om the west, the local markets ought o be as well supplied as usual, weet potatoes are being received from Kansas. Poultry from Utah is ence, with not very much being re-lyes from the east. There is a rise of price of eggs again, and a slight se is beef with prospects of a fur-her advance in a few days. The prices biaining in today's local markets are follows: follows RETAIL
