

LOCAL AND OTHER MATTERS.

THEATRICAL.—Charlotte Thompson made her first appearance last evening before a not very large, but appreciative audience; and her performance of "Julia," in "Knowles' beautiful play of the "Hunchback," was a brilliant success, and all that the most exacting could desire. Charlotte Thompson, judging from her personation last evening, is an artist of the very first order. At various stages of her performance she elicited hearty applause and was called before the curtain. Kate Denin's "Helen" was performed in that lady's usual accomplished manner, which, coupled with Mr. Graham's "Modus," which was performed in most excellent style, kept the audience in a perfect uproar of laughter.

Mr. Wilson made a very good "Billford," as he does most of the characters he assumes. Messrs. P. Margery, Thorne, McInnes and others contributed to the success of the piece.

The roaring fairs of "Rother" and "Me," in which Messrs. Graham and Margery assumed the characters of "Benjamin" and "William Wiggins," assisted by Messrs. Thorne, McInnes, and Miss Platt, was played in a very lively manner; friend John's denunciations of his brother "Bill" as a "hupstart" and the other grotesque antics which he and "Phil" performed were highly amusing.

To night "Romeo and Juliet" will be performed. All who wish to see a grand personation of the famous Shakespearean role of Juliet should not fail to attend the theatre to night, for Charlotte Thompson's reputation in that very difficult character stands high in the theatrical world.

Mr. John Wilson will appear as Romeo; Merito and Friar Lawrence will also be entrusted to competent hands.

FOURTH WARD PARTY.—A social party was held last evening by the Female Relief Society of the 8th Ward; the Bishop tendering the Society the use of the fine Ward hall for the purpose. We were

scarcely prepared after the series of magnificent parties which were given at the theatre last week, to see the hall so crowded, and so lively an interest manifested in the recreation. These Ward parties, properly conducted are usually very delightful reunions and are invariably enjoyed by those who participate in them. Last evening's party was not an exception in this respect. We saw the acting Bishop and several of the officers of the Ward present, and from their looks, we concluded they were having a good time. In fact this appeared to be the case with all present. The ladies were radiant and attractive, and had Cragin, Culbertson & Co., been there they would have seen with chagrin, how little effect their Bills had in disturbing the peace and pleasure of the people.

The ladies' committee consisted of Mrs. McAllister, Mrs. K. Palmer and Mrs. L. Spencer; Messrs. James Sheldermine, I. Brookhurst and A. McKinnon were the managers of the party.

WE SHOULD LIKE TO KNOW.—We heard yesterday of an old lady, who, in speaking of the acquisitions of her boys, remarked, "Why, there's my son Jim, he don't know nothing, but George, he does." With all humility we would like to inquire, of Judge Phelps, or some other mathematician, who knows the most, Jim or George, for, for the life of us, we cannot decide.

RAILWAY CELEBRATIONS.—We have received letters from Elders C. H. Evans, of Springville, Wm. Morrison, of Mount Pleasant, Geo. W. Brough, of Springtown, and some others, giving an account of the celebrations held in their respective settlements, of the completion of the Utah Central, on the 10th instant. They are all about of the same purport, in expressions of joy at the auspicious event. We should have been very pleased to insert the communications of our correspondents in the columns of the News, but as their publication would only be a repetition, much after the fashion of the Fourth of July celebrations, we trust this notice will be satisfactory, and that our correspondents will accept the will for the deed.

We would say in connection with the above, that we should feel extremely sorry if any of our friends in the country should think that any check on their efforts is intended in the foregoing remarks. We are far from wishing to convey any such impression; on the contrary, we are always pleased to receive communications containing items of general interest from any part of the Territory. We are glad to insert such when at all possible; but where a large number relate to one subject, as in the case of the celebration of the completion of the Utah Central, when all must of necessity be very similar, our correspondents will see that the publication would be merely a repetition, and the personal tedious to the majority of our readers.

ACKNOWLEDGMENT.—We are indebted to James Linforth, Esq., of San Francisco, for the Annual Report of the California Prison Commission for 1869. The report states that the financial burdens had been greatly lightened by employing the inmates of the State Prison in burning brick, and paying them one half the amount for their labor that it had been customary to pay to free men, retaining the money until the discharge of the prisoners. This system, it is stated, has an excellent moral effect on the prisoners, and gives them something to begin life with again after their discharge.

It is stated in the report that a great hindrance to the improvement of the prison system is its connection with party politics. When a party, previously in the minority, comes into power, there is an entire change of officers and employees connected with the prison, the fold staff being supplanted by persons without experience in prison discipline etc.

ADDITION TO THE MUSEUM.—Bro. John W. Shepherd, of Levan, Utah Co., presented to the S. L. City Museum to-day, three Hon. S. Pittchford, and by his suggestion, a seed from the East Indies, called the Buffalo Seed, from its close resemblance to the head of a buffalo; also a Japanese silver coin, rectangular in form, about an inch long, the thickness of a half dollar and covered with Japanese characters.

Bro. Shepherd was formerly a steward on an Oriental steamer that plied between London and the East Indies, and during a term of service of eighteen years' duration, he had opportunities to collect many things rare and curious from all climes; and he is not improbably that other specimens from this gentleman will help to enrich the Museum. Others in the Territory may go and do likewise with the greatest propriety.
