

The Burbidge Election Case Creating New Complications To Unravel.

## BALLOTS BROUGHT INTO COURT

They Will be Recounted in Presence Of Judge-Additional Counsel Entered for Both Sides.

The Dean-Burbidge election contest case was taken up this morning before Judge Lewis but no testimony was introduced until this afternoon, when City Recorder Nystrom presented in court the ballots of the various districts in the Second precinct, the seat of the contest. These ballots will be opened and re-counted in court.

Judge Lewis this morning permitted Rodney C. Badger to file his complaint iu intervention and answer, so that he is now a party to the action. This brings in the two Republican and two brings in the two Republican and two Democratic candidates for the council for the short term as parties to the ac-tion. Atty. D. O. Willey, Jr., was en-tered as attorney for Mr. Badger and Atty. J. E. Frick was entered as asso-ciate counsel for plaintiff, George D. Dean. The demurrer of L. J. Wood to the average of the start and the start of the star the amended complaint was overruled by the court.

It was admitted by all the attorneys It was admitted by all the attorneys in the action that the ballots now in the possession of City Recorder Nys-trom are the official ballots cast in that precinct at the election, and that they were safely conveyed to him by the election judges of the various districts. Mr. Nystrom will be placed on the Mr. Nystrom will be placed on the stand to prove that the ballots have been kept intact as delivered to him by the judges. The ballots will then be opened and counted.

This afternoon the ballots were brought into court by Deputy City Recorder Simondi, Recorder Nystrom not being in the office. After producing them Mr. Simondi was placed on the stand and testified as to their being kept in an enclosure in the recorder's office, part of the time in a vault.

# SAM GRICE IN COURT.

#### Trial in Grand Larceny Case Commences Before Judge Morse.

case of the state vs Sam Grice charged with grand larceny and charged with grand larceny and re-ceiving stolen property, is on trial to-day before a jury in Judge Morse's court. Grice is charged with steal-ing 19 beef hides from the Utah Junk company. The jurors sworn to try the case are J. M. Stoutt, D. P. Kingsbury, George T. Bess, W. M. Walker, W. B. Covey, John Gordon, Martin Mahnken and J. A. Phillips. District Attorney Elchnor is prosecuting the case and D. S. Truman is representing defendant.

#### Alleged Burglar Arraigned.

Tom O'Donnell was arraigned before Judge Morse this morning on the charge of burglary and was given un-til Saturday morning to plead. O'Don-nell is charged with breaking into the Twenty-second ward store on Saturday night.

Moneyback says: Schilling's Best whatever you want is right; if you don't think so. your grocer returns your money, and that's the end of it.

lication to the effect that the Comstock Gold Mines company owned a group of four claims adjoining the Dewey on the south. It was stated that the on the south. It was stated that the claims were on the Dewey Dike and the ore similar to that found in the ploneer property of the gold fields. Hobbs stated that he had also organ-ized the New York and Thunder Moun-tain Gold Mines company owning the Rainbow Bullion group and the Cleve-land Gold Mines company owning the land Gold Mines company, owning the Cleveland group. Nothing was said about any controversy over titles. Ray was an eastern man, then operating with Hobbs.

The account of the arrest appears on the mining page of this issue.

#### COURT NOTES.

Judge Lewis today rendered judgmen, favor of plaintiffs in the case of Mary Teasdel et al vs Christian Overson for \$630.64, principal and interest on a promissory note and \$60 attorne'y fees. The Dillon Implement company has filed suit in the district court against **G. R. Cleaveland et al, doing business** as the Cleaveland Commission com-pany, to recover \$777.71 alleged to be due for merchandise sold to defendant in December, 1902.

## GOOD SHOWING.

### High School Class of 1903 Manifests Desire for Higher Education.

City Superintendent of Schools Christensen is highly gratified to think that the members of the high school class of 1903 have shown such a desire for higher education and that 52 out of the 16 graduates are now in attendance at other schools. In regard to that matter Superintendent Christensen sald:

"The class numbered 86, 55 girls and 31 hoys. Of the girls 21 have entered the University of Utah, eight are at other colleges, principally Stanford and Welles-ley, three are teaching, three are doing extra work in the high school, and two are married. Seven of the boys are at the University of Utah, 14 are at other colleges, principally Stanford and Berke-ley, and two will enter M congan in xt fail. Two who were fourth-year students, but not graduates, have entered as freshmen, the one at Ohlo Wesleyan college, and the other at Renasclar Polytechnic school at Troy, N.Y. ""It is a most remarkable and gratify-ing showing and one that would be hard to equal anywhere in the land that out of a class of 36 high school graduates 52, or over  $\Theta$  per cent, are actually in at-tendance at institutions of high learn-ing." boys. Of the girls 21 have entered the

# A GOOD ACTOR.

Richard Mansfield has, like many other men, a host of enemies. One of these ene-mies paid him a very sincere compliment last year. Mr. Mansfield was playing in "Benucaire." and the enemy, a stage car-

last year. Mr. Mansfield was playing in "Benucaire," and the enemy, a stage car-penter, peered at him from the wings of a Cleveland theater, scornful at first, but gradually less scornful. And as the act progressed, the carpen-ter, though he hated the actor, became more and more absorbed. He stood slient and rigid. He watched every gesture, he observed every intenation of the star. And finally, when the curtain fell, he ex-claimed, with flushed checks and a little tremor in his veice: "D-n him, that man could act a gridiron!"

DIDN'T NEED CHAIRS.

"In country barrooms," said Prof. Wal-ter A. Wyckoff, the sociological expert of Princeton, "there are rarely chairs, as there are in our urban cafes, but every one must stand up to drink. One day in a New England travern I was inquisitive enough to ask the barkceper why he had no chairs for his guests. "No man drinks here, said the bar-kceper severely, "longer than he can stand."

Washington, Dec. 17 .- At the begin-

ning of today's session of the senate,

Mr. McComas (Maryland), reported a

bill from the committee on privileges

providing for the protection of exhibit.

ors of artistic, musical and literary

works at the St. Louis world's fair.

and at his request the bill was given

Mr. Hoar then addressed the senate on his resolution, calling upon the president for such information as may be in his possession relative to the status of the republic of Panama when

"without taint or suspicion of

diate consideration and passed

ness, if per cent of boys with high eyes being keenly conscientious, while the per-centage was only 61 in boys with dark eyes. Curliness or smoothness of the hair has slight significance, if any. The color of the sair is more important, 71 per cent of the red-haired being keenly conscien-tious, but only 25 per cent of the black-haired. The very dark-haired show twice as many individuals of sullen temper as the red-haired, although the red-haired are much more quick-tempered. The dark-yed are rather healthier than the light, but the latter show rather higher intelligence. Of shy and quick people. To per cent are keenly conscientious, while the percen-tage in the self-assertive is but 50. Bad handwriting often attends great moral failing, but good handwriting betokens healtn, good temper, ability and conscien-tiousness. liousness.

Houses of sand, as substantial as gran-ite, are offered by the new process of Mr. L. P. Ford, of Gresford, Eng. A mixture of sand and quicklime in suitable propor-tions is forced into a very strong steel mold, which is placed in a box, from which the air is then pumped, when hot water is admitted. The heat and pressure of the slacking lime and steam mold the materials into a rock having 60 per cent of the strength of granite. This building stone, ready for use in eight hours, is yery durable, and its cost is low, bricks by this process costing little more than half as much as the ordinary.

Statements of the length of thread in a silkworm's cocoon have varied from a few hundred yards up to 11 miles. Meas-uring four specimens, Mr. L. O. Howard has found the lengths to range from 880 to 1,120 yards.

to 1,120 yards. Some remarkable photographs of Prof. Stephan Leduc of Nantes, represent a kind of electric stenciling upon the dry plates. A symmetrical design cut from cardboard is laid upon the plate, which is then sprinkied with an insulating pow-der, such as starch, sulphur, or a pow-dered oxide or metallic sait, when the cardboard is removed. The non-sensitive surface of the plate is placed on a metal-he leaf connected to one pole of an infuc-tion coil or electric machine, while a point in the center of the design is con-nected to the other pole. A single dis-charge is produced, the plate is freed from powder, and the picture is developed in the usual way. The result is always un-foressen. It may be varied not only by different designs, but by distributing over the sensitive surface various bits of dif-ferent metals, and by using different pow-ders variously distributed. The beauty and diversity of the designs pictured give great fuscination to the experiments.

The changes of color of leaves in au-tumn are found by Dr. Keegan, an Eng-lish investigator, to depend on the miner-al matters, especially the silica and lime. Leaves that become red are those contain-ing less than 10 per cent of silica, while

Italian workmen were set to work to polish it. Her grace came one day to polish it. see how the polished marble looked and she was so disappointed with its ap-pearance that she wired to Connemara sking the American syndicate which is working the quarries to take it away. When an expert from the quarries ar-rived he discovered that the marble had been "queered" in the polishing and he asked the duchess to allow him to put one of his own men at work at a piece of the marble. Her grace was astonished at the result. It was was astonished at the result. It was pointed out to her that the Italian workmen who were all competent craftsmen neglected to do their work properly because the product of their own country had been rejected. She gave orders to clear the Italians off the premises immediately. The conthe premises immediately. The con-tractors argued that they were under a contract to have work finished by a certain date, and if the polishers were discharged the French and Italian carvers would be likely to strike. "I don't care," said the duchess, "if the house is not finished for five years these men must bat he employed here." these men must not be employed here." And the men had to go.

Before Andrew Carnegic accepted the invitation of the cities of Limerick and Waterford, I am told that he made careful inquiries as to whether the con ferring of their freedom upon him would in any way interfere with his status as an American citizen. He had long interviews in the house of commons with John Redmond, who repre-sents the city of Waterford in Parlia ment, but'it was not until he consulted his lawyers that he agreed to accept the proffered honor.

"I want no honors or titles or any-thing of the kind," he remarked to John Dillon, who is a close personal friend of his. "All I want is that what I am doing in the way of free libraries shall be productive of some good to the present and succeeding generations of Englishmen and Irishmen. I know that the 'freedom' of the cities of Watthat the 'freedom' of the cities of Wal-erford and Limerick entities me to rank as a citizen of both, but you must never bother me with voting pa-pers or anything of that kind, be-cause I never intend to take any part in serious politics outside the United States." Both Mr. Dillon and Mr. Red-mond save him a written assume to

# the present moment many under-

mond gave him a written assurance to that effect. . . . In various parts of Ireland there are

investments in real estate in the neigh-borhood of Chicago and has now re-turned to do something towards alle-viating the distress of her native country. With the assistance of an-other American—the Hon. F. T. Wall of Cincinnati—she has founded what is known as the Co-operative Home In-dustry Society, and the manufacture of dolls is the first item in the program dolls is the first item in the program. Already a good start has been made, and as many as sixty girls are finding constant employment. The capital required was not much-something like \$5,000-because all the material required can be found in the immediate locali-ty. Irish products alone both in the models and in the dressing are to be used. It is not intended to produce the stage Irishman or woman but to

the stage instman or woman but to give an accurate representation of the native in a faithful manner. Mrs. Riddell is at present confining her ef-forts to cultivating trade in the British Isles, but she has hopes that in time she will be able to do a big trade with the United States. The furnishing of dolle' houses will accurate her structure dolls' houses will occupy her attention later on.

Mrs. Pinero, wife of the man who is away the greatest of English play-wrights, who will probably be one of the patronesses of the new internation-al literary club for women soon to be at interary club for women soon to be established in London, rarely appears even in so mildly official a capacity as this. Mrs. Pinero belongs to the English aristocracy, is in fact one of its quiet lights. She was formerly Mrs. Hamilton, her first husband hav-ing been a member of the family of ing been a member of the family of the Duke of Abercorn. Angus Hamilthe Duke of Abercorn. ridiculed the Panama resolution and claimed that the administration had suppressed information. He sharply attacked the administration and in-In the course of Mr. Gorman's speech, Mr. Aldrich asked him if the Demo-crats would vote against the canal teaty, and Mr. Gorman replied that as facts are now known and if neces-

In thee ourse of Mr. Gorman's speech, sary to do so to save the honor of the

Mr. Foraker followed Mr. Gorman. He said that Mr. Hoar's speech should have been made in closed session. Such a course would have been the part of

patriotism, especially as it criticised the president. Mr.Tillman asked if he knew whether it was true that 5,000 troops were being "What we want to know," he said, it was true that 5,000 troops were being dressed th "did this government, knowing that a mobilized to march on Bogota, "in sup-

# and efficient. They

status of the republic of Panama when the treaty with that country was negotiated. Mr. Hoar began by say-ing that he was favorable to the isth-mian canal and desirous that the pres-ent president of the United States should build the great waterway. But, anxious as he was for the accomanxious as he was for the accom-plishment of these ends, he was even more anxious that the canal should be

built

national dishonor."
