

FLOATING FRAGMENTS.

Parol lost. See advt.

This is the ninth day since Mr. Farner was drowned in the lake.

The Utah Commission are expected to meet in Omaha to-morrow.

A reward is offered by Mr. Chas. Smith for the recovery of a red cow. See advt.

An important coal discovery has been made in the neighborhood of Salem, Utah County.

John McDonald wants a man to work on a farm and attend to a team. See advertisement.

The Fourteenth District School will open August 21st, with S. W. Snow as principal.

Regular monthly meeting of the Board of the 21st Ward takes place in the meeting house at 7.30.

Superintendent Geo. W. Thatcher, of the Utah and Northern Railroad, came down from the north yesterday.

We had the pleasure of a visit to-day from our old friend Prof. K. G. Meier, who is up from Provo on business.

The Hanlons will appear at the theatre on Thursday evening in their immense spectacle "Le Voyage en Egypte."

This is the way Arabi gives his orders: "Make ready. Run up a ladder. Take aim. Run up another flag of truce. Fire."

The Inter-Mountain Publishing Co., of Butte, Montana, publish L. L. Freeman, formerly of Ogden, as a fraud, unworthy of being trusted.

Different countries are now claiming the now notable Arabi Bey as a native. It is solemnly asserted that he is an Irishman from Tipperary.

A package was misplaced at Copenhagen on the 15th of June, when a company of emigrants was leaving for Utah. See advertisement regarding it.

Should a young man going to a bathing resort provide himself with a dress coat?—Vacation. If poor, yes. If rich, he can dress in an army blanket if he wants to.—Ez.

It is said to be more profitable to dispose of cattle at two years old than to keep them longer.—Agricultural Exchange. With the same result applied to chickens.—Ez.

The Omaha Republican states that all the passenger train men on the U. P. R. R. will shortly be informed. This is done to protect passengers from being imposed on by bogus train men.

Some mean thieves entered a country editor's house the other night and stole his pocket book, containing 723 bills against delinquent subscribers and an advertising order for 500 liver pads.—Ez.

The editor of the Hartford Courant says: "We catch about 7,555,000 pounds of food fish a year." This is at least forty pounds more than is caught by any editor in Norristown. The Hartford man must split on his bait.—Norristown Herald.

On Monday evening between 6 and 7 o'clock, about three miles west of Howell's station, the second section train No. 9 ran into the first section of the same train, tearing the head of the engine, and making and havoc of the coaches. Fortunately no one was injured.—Laramie Times.

New York policemen request the privilege of wearing their uniform when on duty. The moment they appear on the streets in citizens' clothing, detectives and patrolmen know them, and march them off to a station house as suspicious characters.—Ez.

Train No. 11, westward bound, met with an accident near Devil's Gate, at about 5 o'clock yesterday morning. A rock which had rolled down the canyon during the night, and lodged on the track, threw the engine and one car off, damaging the engine considerably, and obstructing the track for several hours.—Eaton Chief.

Coming Home.—Elders H. H. Chitt and wife, James H. Knell and a number of native emigrants from the Sandwich Islands are on their way from that part of the world and will reach here on Wednesday.

In Wisconsin.—By letter from Elder R. T. Wulffenstein, we learn that he has been laboring for some time past in Rock and Dane Counties, Wisconsin, holding many meetings and meeting with considerable encouragement. He forwards a statement of two cases of healing by the power of God, under his and other brethren's administration, in Monticello, Wright County, Minnesota.

A Useful Book.—We have before us a very little book of about 200 pages, just issued from the press at this office, being No. 2 of a series. It is a collection of recitations for the Primary A-associations, in poetry, dialogues and prose. The pieces are simple and appropriate, being adapted to the capacities of Members from the age of ten to fifteen years. Sister E. R. Snow Smith who is the author of the larger portion of the contents, is also the compiler. The book contains productions of the pens of quite a number of other home writers, and some selected pieces.

The Body of Mr. Farmer.—The body of Mr. J. D. Farmer, who was drowned at Black Rock a week ago yesterday, has not yet been found. The family and friends have been anxious to recover it, and we understand have used every endeavor to find it in addition to offering the \$500 reward. Of course it would be a satisfactory if the remains were found, but it is an undisputed fact, that the body was seen by at least four persons, floating outwards, therefore legally there can be no question of its death, and the failure to find the body is not detrimental to his estate. However, it is highly probable that the body will ultimately be found, and the salt water will preserve it for a long period. It is rumored that the offer of the reward will soon be withdrawn, as it is not intended to hold out the inducement indefinitely, it having been offered with a view of an immediate recovery.

The Spread of Smallpox.—Smallpox is spreading throughout northern and eastern Utah, Montana and Idaho to such an extent as to create some anxiety regarding the possibility of its coming this way. When the information first reached here about the appearance of the disease in the grading camps along the Oregon Short Line R. R., we published a statement of the facts. These were denied by parties having contracts on the railroad, and the assertions on both sides were published. The matter has turned out, however, precisely in accordance with the statement first made by the News. The parties who made the denial of the existence of the disease were either ignorant of the true status of the subject, or were guilty of an endeavor to suppress the truth. In either case they are to blame. If it properly informed they should have obtained the information, which was within their reach. In the meantime the public being uncertain regarding the matter, were open to be exposed, and the disease liable to spread. No business considerations would justify the exposure of the public to so great a calamity as the smallpox.

Valuable Dog Poisoned.—This morning Brother J. F. Neelen, of the 20th Ward, found his valuable Newfoundland dog dead, with all the symptoms of having been poisoned with strychnine. The act must have been done maliciously as the animal was both harmless and sagacious, and the family had become greatly attached to him. This dog has been known to push little children back from the water ditch when he apprehended they were getting too near to be safe. Mr. Neelen will give a liberal reward to any person who will give information that will lead to the discovery of the party who was the cause of the animal's death. This is the second incident of the kind that has transpired in the same neighborhood within a week or two.

Buggy Accident.—Yesterday afternoon as some parties were returning from the burial of the late Mrs. Beck, in turning the Cliff House corner the buggy in which they were riding gave a sudden jolt in passing over a rise in the road. Two young ladies, Misses Louise Priest and Lizzie Edwards, of the Fourth Ward, were thrown backwards out of the vehicle and both struck the ground with the backs of their heads. The consequence was that each sustained a severe shock of the system, and one was insensible for some time after the accident. Both were suffering considerably last night, but as no bones were broken they will probably soon recover.

Heavy Storm.—One of the heaviest storms of the season visited this region last Monday afternoon. The rainfall, though pretty heavy in town, was not near so severe as it was in the south mountains, where the canyons and gulches were converted into roaring torrents of water, in many cases over eight feet deep. The farm of Mr. Geo. Munford was almost entirely denuded of its crop of grain, and the large unburned brick kiln in the same vicinity belonging to Messrs. Munford, Riley and Baldwin, and which contained upwards of 100,000 bricks, were almost totally ruined by the foundation being washed away, leaving the kilns to collapse. The storm was accompanied by frequent and vivid flashes of lightning, a bolt of which struck and instantly killed a valuable horse belonging to and grazing upon the farm of Mr. Sidney Tanner.—Beaver Usonian.

Another Coal Discovery.—Mr. King, of Spanish Fork, and Mr. Crook, of Payson, have discovered a valuable coal deposit in the neighborhood of Salem, Utah County. Experts think, on examining samples, that this coal is identical with that of Pleasant Valley, only somewhat softer, but it gets harder as the workers go deeper. The discoverers think they have made a rich strike. The mine will be a convenient source of supply for Payson, Salem, Spanish Fork and Springville, to which points the product can be easily hauled by teams. We are indebted for the information regarding this important discovery to Brother C. D. Evans.

Salt Lake Theatre.—On Thursday night the Hanlon Brothers will present the funniest of funny comedies—"Le Voyage en Suisse." The Hanlons, who are unexcelled in their style, perform in a similar line to that of the Vox family, whose nimble performances drew so much attention here several years ago, but the company that will appear on Thursday are still to be much more agile, dexterous, nimble and generally comical. The play is adapted to their scenic style, and abounds with situations that combine the sensational, perplexing and ludicrous.

Reservoir Water.—The agricultural lands of the people of Newton, a thrifty settlement on the west side of Cache Valley, are watered exclusively from a reservoir, and the crops are nearly two weeks ahead of those of the valley generally. The town itself is, we understand, supplied from the same source. There appears to be, in this section, a great deal of prejudice against reservoirs that is not well founded. Their safety is merely a matter of material and construction.

Leg Broken.—On Saturday evening John Barrel, of the Nineteenth Ward, stepped from the train at Black Rock while it was in motion. The consequence of this incautious proceeding was that the small bone of his leg was broken. His ankle was also dislocated. Dr. Fowler, who happened to be at Black Rock, attended to the injured limb and Mr. Barrel was brought back to town on the late train.

Commenced Work.—Superintendent O. P. Arnold, of the Salt Lake street railroad, had a force of men at work on the new branch line, which will extend from the heart of the city to the Denver and Rio Grande Western depot. It will be energetically put through.

Another Case.—It is stated that a genuine case of smallpox lately appeared at Brigham City, and that the patient was promptly taken some distance outside of the settlement and quarantined.

Fresh Fish.—An average of one ton a week of fish—trout and mountain herring—caught in Snake River, is shipped from Beaver Canyon on the Utah and Northern R. R., to points north and south, principally to Butte.

Assault and Battery.—This morning David Torpey was before Justice Spiers for assaulting and beating John Cottrell. The attack was inspired by a suspicion in the mind of Torpey that Cottrell had stolen his blankets, which supposition was subsequently proved to be correct. Torpey was fined \$25 and costs.

Made One.—On Saturday, August 11th, Mr. Rudger Clawson and Miss Florence Dinwoody were united in marriage. The bridegroom is son of General H. B. Clawson, and the bride is the daughter of Alderman Dinwoody, the extensive furniture dealer. They are a fine couple, and start out in married life with most promising prospects and we tender them our hearty congratulations.

On Saturday night a reception was held at the residence of the parents of the bride. An excellent supper, prepared by Messrs. Joseph Edmonds and Richard Watts, was partaken of, and the company had an enjoyable time.

SPECIAL BUSINESS NOTICES.

CIDER AND WINE PRESSES. An entire car load shipment just received by H. B. Clawson, which he is now offering at bed-rock prices. Call and see them.

SILK AND CLOTH DOLMANS Greatly Reduced at AUERBACH & BRO.

We will sell, for a limited number of days, the following lines of goods at New York cost: Our entire stock of Hosiery, including summer gloves, silk mitts and gauze underwear. This stock was never in so good a condition. Our whole stock of corsets; we never had so good an assortment. And our stock of ladies' and Misses' muslin underwear, which is always the best in the city. JOHN BROS.

HENRY FACTORS. When a board of eminent physicians and chemists announced the discovery that by combining some well known valuable remedies, the most wonderful medicine was produced, which would cure such a wide range of diseases that most all other remedies could be dispensed with, many were sceptical, but proof of its merit by actual trial has dispelled all doubts, and to-day the discoverers of that great medicine, Hopf's, are honored and blessed by all as benefactors.

AGENT FOR THRESHERS. John W. Lowell has already booked orders for 15 of these World-renowned Threshers, manufactured by the J. I. Case Tr. W. Co. We still continue to sell Underwear at popular prices At F. AUERBACH & BRO. d & w.

FROM "THE TIMES." Editors Times:—The veterinary department in your valuable paper is always read by me with great interest and I value the information received from it a hundred fold more than the small amount paid for the paper. One year ago you published a letter from Dr. John Bates, relating the wonderful success he had had in curing sprains and splints with Kendall's Spavin Cure, and his allusion to using it now in his practice for several human ailments on account of the same results he has always had with it. The above statements from so prominent a Physician gave me great faith in its efficacy, and as I had been afflicted for years with rheumatism and hip-joint lameness so bad that I could hardly walk at times, I procured a bottle and as it has completely cured me I wish to proclaim it to all the world as the most wonderful discovery ever made for the benefit of afflicted men as well as for the poor horses, for which it was first used. As this remedy must be of incalculable value to the world, I write this letter to express my thankfulness to you for ever mentioning it in your columns and to ask whether favor in behalf of my fellow men and who are afflicted in body, that you continue to make known to the world, the great value of Kendall's Spavin Cure for both man and horse as well as best. Respectfully yours, ARNOLD PARKER, Rochester, N. Y., Sept. 1st, 1881. d & w.

Men's and boys' furnishing goods. DUNFORD'S.

PARLOR MATCHES are now made so that they have many advantages over the old brimstone match, and are the only matches used among the Eastern consumers. They give a light and are ready for use immediately, and do not have the offensive smell that the common match has, and in a very short time we may look for a change here.

Go to the Globe Bakery for your Confectionery and CAKES, where they are to be had pure and wholesome. H. ARNOLD.

Why submit to the discomfort, and humiliation entailed by a local disease of the skin, when GLEN'S SULPHUR SOAP will rid you of it with certainty and despatch? It is a remedy which never fails to relieve cutaneous disease, and as a means of banishing defects of the complexion, it is equally reliable. The benefits arising from the use of Sulphur Baths, in cases of skin disease, and of rheumatism and gout, are well known, but the cost is too heavy to be incurred by many persons who would otherwise take advantage of them. GLEN'S SULPHUR SOAP answers the same purpose, and is both inexpensive and convenient. No one need stir abroad in search of a sulphur bath who has this admirable means of providing one in-doors. It is incomparably the best deodorizer and disinfectant of clothing and bed linen in use, and prevents diseases of an obnoxious nature caused by contact. Sores, ulcers, bruises, scalds, cuts, and sprains are promptly remedied by it; and it is especially beneficial in soothing properties constitute it a far more desirable remedy for scorbulo ailments than ointments of any description, since such greasy compounds soil the clothing, often aggravate, and very rarely indeed do any permanent good. Sold by Druggists. Price 25c. per cake. 1 Box (3 cakes) 75c. sent by mail, prepaid, on receipt of price. C. N. CHITTENDON, Prop'r New York.

HILL'S HAIR AND WHISKER DYE, Black or Brown, 50c. d & w.

Hensford's Acid Phosphate acts as food for an exhausted brain. d & w.

BROWN'S VEGETABLE LIVER PILLS are universally conceded to have no equal for curing Bile Headache, Constipation and Torpid Liver. They are prepared especially for the bilious class, and by Z. C. M. J. Drug Dept., A. C. Smith & Co., Stewart & Chislett and by all druggists in Utah. d & w.
