## DECIDES AGAINST COUNCIL.

Judge Booth Holds That Public Cannot be Excluded From Meetings.

Special Correspondence.

Provo, Jan. 17.—Judge Booth has overruled the demurrer of defendants in the case of A. F. Acord vs. A. L. Booth et al, taken under advisement by the court some time ago. Defendants were given 30 days in which to answer, appeal from the decision or take any action they may decide.

The case is an action for \$50 damage brought by A. F. Acord, a newspaper man, against A. L. Booth president of the city council and all the members of the city council and city Marshal Henry to test the authority of the city council to exclude the public from a session of the committee of the whole council, Mr. Acord having been excluded from such a session. The defendants demurred on the ground that the complaint did not state facts sufficient to constitute an action. Judge Booth in announcing his ruling, stated that he had been unable to find any precedent, and he was of the opinion that a city council sitting under a new charter provides that all sessions of the council shall be open to the public, was not authorized to exclude the public from a meeting of the committee of the whole, such a meeting being in reality a part of the council session. It is not known what action the defendant will take although it is probable the case will be appealed to the supreme court on the ruling of Judge Booth in the demurrer.

Evidence was heard, yesterday, by Judge Booth in the case of Arthur Tanner, administrator, vs. Aaron Carter, and the case was taken under advisement.

Gardner Home Burned—Death Record for 1906—Water System Popular.

Special Correspondence.

Monroe, Sevier Co., Jan. 14.—The town council has passed notice that it will enforce the law against profanity and kindred evils also against the use of tobacco by minors and those who sell or give it to them.

The weather for the past two weeks has been raw and blustery with efforts to snow. The streets are dry, but indications on the mountains are that water will be plentiful for next season.

A week ago fire started in the house of Benjamin Gardner, burning the roof. All furniture and movable effects were saved. A subscription was started and enough money raised to cover the damage.

The death record for 1906 shows the passing away of 21 persons, 11 males and 10 females, ages ranging from infancy to over 80 years.

Over 100 people have taken the water upon their premises and no doubt many more will soon have it, as the water system is giving entire satisfaction.

The new Latter-day Saint church will be ready for use about the last of the month. The meetings are now held in the Stringham building, which is quite small, but comfortable.

On the prairie a few miles northwest, a large drove of range cattle have for several days been drifting about in search of shelter and food. The detachment numbers about 8,000. The winter so far has been the most severe known for years, snow having been on the ground for three weeks. A snowy Christmas is rarely known in these parts. The heavy snow makes the

## A LAZY LIVER

May be only a tired liver, or a starved liver. It would be a stupid as well as a savage thing to beat a weary or starved man because he lagged in his work. So in treating the lagging, torpid liver it is a great mistake to lash it with strong drastic drugs. A torpid liver is but an indication of an ill-nourished, enfeebled body whose organs are weary with over-work. Start with the stomach and allied organs of digestion and nutrition. Put them in working order and see how quickly your liver will become active. Dr. Pierce's Golden Medical Discovery has made many marvelous cures of "liver complaint," or torpid liver, by its wonderful control over the organs of digestion and nutrition. It restores the normal activity of the stomach, increases the secretions of the blood-making glands, cleanses the system of poisonous accumulations, and so relieves the liver of the burdens imposed upon it by the defection of other organs.

**Symptoms.** If you have bitter or bad taste in the morning, poor or variable appetite, coated tongue, foul breath, constipated or irregular bowels, feel weak, easily tired, despondent, frequent headaches, pain or distress in "small of back," gnawing or distressed feeling in stomach, perhaps nausea, bitter or sour "risings" in throat after eating, and kindred symptoms of weak stomach and torpid liver, or biliousness, no medicine will relieve you more promptly or cure you more permanently than Dr. Pierce's Golden Medical Discovery. Each of these is a part of the above symptoms will be present at one time and yet point to torpid liver, or biliousness and weak stomach. Avoid all hot bread and biscuits, griddle cakes and other indigestible food and take the "Golden Medical Discovery" regularly and stick to its use until you are vigorous and strong.

Of Golden Seal root, which is one of the prominent ingredients of "Golden Medical Discovery," Dr. Roberts Bartholow, of Jefferson Medical College, says: "Very useful as a stomachic (stomach) tonic and in atonic dyspepsia. Cures gastric (stomach) catarrh, and headaches accompanying same." Dr. Grover Coe, of New York, says: "Hydrastis (Golden Seal root) exercises an especial influence over mucous surfaces. Upon the liver it acts with equal certainty and efficacy. As a cholagogue (liver invigorator) it has few equals." Dr. Coe also advises it for affections of the spleen and other abdominal viscera generally, and for scrofulous and glandular diseases, cutaneous eruptions, indigestion, debility, chronic diarrhea, constipation, also in several affections peculiar to women, such as all chronic derangements of the liver, also for chronic inflammation of bladder, for which Dr. Coe says "it is one of the most reliable agents of cure."

Prof. John King, M. D., late of Cincinnati, editor of the AMERICAN DISPENSARY, gives it a prominent place among medicinal agents, reiterates all the foregoing writers have said about it, as does also Prof. John M. Scudder, M. D., late of Cincinnati. Dr. Scudder says: "It stimulates the digestive processes and increases the assimilation of food. By these means the blood is enriched." "The consequent improvement on the glandular and nervous systems are natural results." Dr. Scudder further says, "in relation to its general effect upon the system, there is no medicine in use about which there is such general unanimity of opinion. It is universally regarded as the tonic, useful in all debilitated states."

farmers happy, as they say big crops are assured.

Each of the five coal mines is working large forces of men, the big Tabor Coal company taking the lead.

The population of Tabor now numbers 1,501, and the last one arrived yesterday. It is a baby town, and stopped off at the home of Frank and Maggie Layton Stewart.

The new Tabor depot is finished and is a credit to the road and town.

## New Way to Teach Geography.

"I began to keep a picture post-card album last year," said a schoolma'am, "and I found that, as the book grew my knowledge of geography grew with it. You see, I wrote on every card—or the friend who sent it to me wrote—a little description of the place pictured, and going over the book again, and again, the descriptions all fixed themselves very firmly in memory."

"Not long ago I started some children in the post-card album fad, and I soon found that they, too, were learning geography fast. Places that before were only black dots on the map to them were now become real cities, with streets and buildings that they knew."

"I am convinced that picture post-card albums have a tremendous educative value, and for Christmas I am going to give an album to every one of my pupils. I am going to teach them geography with these books."

"And I believe that before long the picture post-card album will be a part of the apparatus of public-school education, and that every child will have an album, just as he now has a spelling book or a grammar."

## Do Birds Sympathize?

Animals experience grief over the loss of their young, but not over the death of one of their number. Death itself seems to mourn for its lost mate, but act is probably the outcry of the bereaved instinct which has been thwarted.

The cut represents Emperor William as he prefers to be pictured—leading a charge at the annual maneuvers of the German army, the typical "war lord."
