## WORK OF IDAHO'S LEGISLATURE.

A Resume of What it Did During Its Sixty-Two Days' Session.

VERY COOD BODY.

Generally Speaking the Lawmakers Worked to the Hands of the State Administration.

Special Correspondence.

Boise, Ida., March 7 .- Now that the legislature has adjourned after being in session for 62 days, it is possible to in some ways define the work that has been accomplished, and to formulate some appreciation of the motives that have animated the members from all portions of the state throughout the long and busy session. It is perhaps somewhat trite to say that the session just closed was the best that has ever met in this state, and yet this seems to express the general opinion of the people very closely. All through the busy days there was an evident desire on the part of all the members to "make good" so far as usefulness was concerned, to uphold the hands of the administration uphold the hands of the administration in the effort to secure legislation meeting every promise of the party. There is a feeling among all that the session just closed has been noteworthy for the number of important measures disposed of with wisdom. Throughout the differentians in each house there was deliberations in each house there was an evident desire to assume the responsibility for acts, and no bills were passed in one house with the apparent intention of forcing the other branch of the legislature to assume the responsi-

the legislature to assume the responsi-bility for its defeat or enactment. Taking everything into consideration the session was a busy as well as a useful one. During the past three days the house and senate passed up to the governor for his consideration 113 bills. governor for his consideration 113 bills. Besides this a number of measures, which had passed one house were not brought up for final passage in the other, or coming up, were defeated. The number of bills now in the hands of the number of some any deration is so great vernor for consideration is so great

that it will take up all of his time during the coming 10 days to look over these measures, and acquaint himsel with their objects before either approving or vetoing them. MRS. LUCY SIMMONS SNOW.

Good Woman Whose Death Has Already Been Announced in the "News."

Funeral services were held over the remains of Lucy Simmons Snow in the Eighteenth ward chapel on Sunday afternoon, beginning at 3 o'clock. A large number of sorrow-stricken relatives and many friends were present during the impressive ceremonies, to pay their last respects to her life and memory. Three sons and three nephews acted as pallbearers in carrying her remains from the residence to the meetinghouse. The speakers were Eishop O. P. Whitney, J. Golden Kimball, Hamilton G. Park, Robert Patrick and Richard W. Young, all of whom paid glowing tributes to the deceased and spoke words of comfort to the bereaved husband, children and other relatives. The music for the occasion was furnished by George D. Pyper, John D. Spencer, Frank Foster and W. G. Patrick, The floral offerings were numerous and most beautiful, completely covering the casket and pulpit. A large number of friends followed the remains to the city cemetery, where they were laid to rest.

#### A DOLLAR'S WORTH FREE TO ANY RHEUMATIC SUFFERER.

I ask no deposit—no reference—no security. There is nothing to risk—nothing to promise—nothing to pay, either now or later. Any Rheumatic sufferer who does not know my remedy may have a full dollar's worth free to try.

I willingly make this liberal offer because I know that Dr. Shoop's Rheumatic Remedy may be relied upon ALWAYS to bring the utmost relief that medicine can. Years before I discovered this remedy, I studied the nature of Rheumatism. For Rheumatism is really

## Crystalized Poison!

Crystalized Poison!

Your blood is always full of poison—the poison you eat and drink and breathe into your system. It is the purpose of the blood to absorb and carry off this very poison. And the kidneys, which are the blood filters, are expected to cleanse the blood and send it back through the system clean, to gather more poison which, they, in turn, will eliminate.

But sometimes the kidneys fall. And sometimes, from some other cause, the blood gets so full of poison that they cannot absorb it all. This is the start of Rheumatism. The poison accumulates and crystalizes. The crystals look like little grains of segar or of fine white sand. The blood carries them and they increase in size, Then, when it can carry them no longer, it deposits them in a joint—on a bone—anywhere.

The twings in your leg—the dull ache in your arm on a rainy day—these are tho cultward signs of the unseen crystals. And the twisted limbs and unspeadable anguish of the sufferer who has allowed his symptoms to go unheeded and unattended for years—these are the evidences of what Rheumatism includes lumbago, sciatica, neuraigia, gout—for all these are the results of rheumatic poison in the blood.

Plainly, the first thing to do is to remove the poleon, But this is not enough.

Plainly, the first thing to do is to renove the polson. But this is not enough.
Fig. 10 and the polson must be
topped, so that nature may have a
hance to dissolve and eliminate the crysals which have already formed. Unless
his is done there can be no cure—no permanent relief.

I searched the whole earth for a specific for Rheumatism—something that I or any physician could feel safe in prescribing—something that we could count on not only occasionally, but ALWAYS. For the tavages of Rheumatism are everywhere and genuine relief is rare.

I spent twenty years in experimenting before I felt satisfied that I had a cer-tain remedy for this dread disease—a rem-edy which would not only clean out the poison, but one which would stop its for-mation. mation.

### Certain Relief.

The secret lay in a wonderful chemical I found in Germany. When I found this chemical, I knew that I could make a Rheumatic cure that would be practically certain. But even then, before I made an announcement—before I was willing to put my name on it—I made more than 2,000 tests! And my failures were but 2 per cent.

This German chemical is not the only ingredient I use in Dr. Shoop's Rheumatic Cure—but it made the remedy possible—made possible an achievement which. I doubt not, could have been made in no

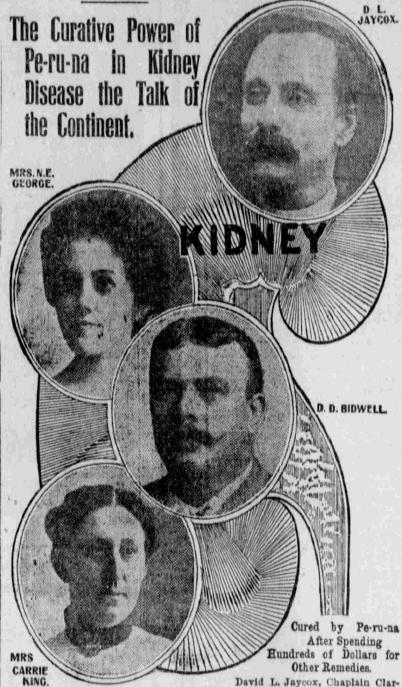

This chemical was very expensive. The duty, too, was high. In all it cost me \$4.50 per pound. But what is \$4.50 per pound for a REAL, remedy for the world's most painful disease—for a REAL, relief from the greatest torture human beings know?

I don't mean that Dr. Shoop's Rheumatic Cure can turn bony joints into fiesh again—that is impossible. But it will drive from the blood the poison that causes pain and swelling, and then that is the end of the pain and swelling—the end of the suffering—the end of Rheumatism. That is why I can afford to make this liberal offer—that is why I can afford to spend the FIRST dollar that Rheumatic sufferers, the world over, may learn of my remedy.

### Simply Write Me

The offer is open to everyone, everywhere, who has not tried my remedy. But you must write ME for the free dollar package order. I will send you an order on your druggist which he will accept as gladly as he would accept a dollar. He will hand you from his shelves a standard sized package and he will send the bill to me. There are no conditions—no requirements. All that I ask you to do is to write—write today. I will send you my book on Rheumatism beside. It is free. It will help you to understand your case. ## D.D.D. Prescription

Reanoke, Va., June 18, 1994.

D. D. D. Co., 70 Dearborn St., Chicago, Ill.

Gentlemen:—Your letter of recent date received and contents noted. It gives one pleasure to commend D. D. to sufferers from skin disease. For three years I suffered, intensely so, from a skin disease which developed on the back of my neck. Its growth was toward the scalp. Neighbors, prescriptions, salves and expensive blood medicines were lavishly used. I at last found relief in D. D. D. used according to directions. It required just twenty bottles to effect the cure. I am no longer tortured, so I have no hesitancy in acknowledging to the world the worth and great virtue of D. D. D.

Yours truly,

REV. L. L. DOWNING.

D. D. D. costs but \$1.00 per bottle and is guaranteed to oure any disease of the skin or scalp or money refunded.

Dear Sir:

Yever since I was in the Army, I had more or less kidney trouble, and within the past year it became so severe and complicated that I suffered everything and was much alarmed—my strength and power was fast leaving me, I saw an advertisement of Swamp-Root and wrote asking for advice. I began the use of the medicine and noted a decided improvement after taking Swamp-Root only a short time.

I continued its use and am thankfut to say that I am entirely cured and strong. In order to be very sure about this, I had a doctor examine some of my water today and ha pronounced it all right and in splendid condition.

I know that your Swamp-Root is purely vegetable and does not contain any harmful drugs. Thanking you for my complete recovery and recommending Swamp-Root to all sufferers, I am."

Very truly yours.
