

Monday, August 22, 1870.

LOCAL AND OTHER MATTERS.

MARSHAL MEETINGS.—Yesterday morning several returned missionaries addressed the congregation; they were followed by President Young.

In the afternoon Elder Samuel W. Richards was the first speaker. President Young closed with an interesting discourse.

SHOT AND KILLED.—The settlement of Milton, on the Weber, was the scene of a murder last Friday morning, the victim being a young man twenty-one years of age, named Thomas Jefferson Thurston, Jr., son of Thomas Jefferson Thurston, Sen., an old and well-known citizen of that settlement and this Territory; the perpetrator of the deed was a man named Olsen. From what we have been able to learn, it appears that Olsen, some months ago, put in circulation a most scandalous report about young Thurston. Last Friday morning the latter went to see Olsen in relation to this matter. Olsen was working in a field and upon Thurston getting within speaking distance he warned him not to approach, threatening that he would shoot him if he did. Thurston, heedless of the warning, or placing no confidence in the threat, continued to advance towards Olsen, when the latter drew his pistol and shot him in the abdomen, a second fire lodging in the hip. The unfortunate young man lingered until one o'clock on Saturday morning, when death terminated the scene.

CALLED.—Messrs. George H. Kelly and Chas. A. Hammond, Delegates from the Sacramento Typographical Union, No. 46, to the National Typographical Union Convention, which met at Cincinnati on the 6th of last June, accompanied by two fellow-typists, Messrs. George H. Crofts and Frank Smith, called in to see us and our establishment this morning. They were astonished to see such an extensive printing house in the heart of the mountains, and were pleased to be shown around the improvements so recently added. Their trip down to the Convention and their stay among the Cincinnatians and their brother Delegates was a long-to-be-remembered, pleasant affair to them. Their treatment by the Printers of No. 3 was such as only types can give. They say that harmony characterized the proceedings of the Convention, and the business done was of great importance to the Craft throughout the United States. They left for Sacramento by this afternoon's train, after seeing the sights in the "City of the Saints." A pleasant trip, Gents!

KANOSH.—We had a friendly visit to-day from Kanosh. We are pleased to be able to state that he has recovered from the injuries which he some time since received in his right hand, and in consequence of which it was necessary to amputate one of his fingers.

MAJOR POWELL.—This excellent and brave gentleman gave us a call on Saturday evening. The Major's party is also in town ready equipped to resume explorations on the Colorado River, a Congressional appropriation having been made to assist in its accomplishment. The party will remain here for a few days and then start for the Colorado by way of Kanab. It is the intention of Major Powell to secure the company and services of Brother Jacob Hamblin on the present exploration trip. Brother Hamblin's long experience among the Indians of that region will doubtless make him a valuable addition to the party. We heartily wish the Major success in his arduous and hazardous undertaking.

HON. THOMAS FITCH.—We extract the following from an article which touches on the political career of the above named prominent young politician, contained in the *Territorial Enterprise* of the 18th inst:

"Should he fail to render a satisfactory account of his stewardship, it will be because he knows less of his Congressional record than we do. He has served the State faithfully, and with an ability reflecting credit, intellectually, upon the people of Nevada. It is therefore due to ourselves, no less than to our eloquent Representative, that he should have a genuine Virginia welcome home."

The same paper contains a statement to the effect that the surveyor's contract, the object of which is to determine the boundary line between Nevada and Utah, to commence at Idaho and run South of the Colorado, has been awarded to L. E. James, Esq., of Virginia City; and that that gentleman is at present organizing a party there to commence the work of surveying immediately. The contractor proposes finishing the contract before the close of the year.

FILTHY AND CONTEMPTIBLE.—We have heard, within the last two or three days, of the commission of outrages of the dirtiest and most filthy character, on two or three persons, by unknown parties, which would disgrace the lowest of the low, laying any claim to civilization. To call names is bad enough, and some epithets are scarcely justifiable under any circumstances, and deserve severe chastisement; but to waylay a person, and beset him with the most disgusting filth known, is an outrage too contemptible to think of, and deserves the severest reprobation and punishment. We have heard of two such instances, the last on Saturday night, in which a lady was injured. We sincerely hope that the guilty parties will be discovered and rigorously dealt with.

PERSONAL.—Hon. W. H. Seward arrived in this city on Saturday evening. As soon as it was known that himself and party purposed visiting our city, a car was placed at his disposal by the U. C. R. R. The carter of Mr. Seward in the service of the country has shown him to be one of the greatest of living statesmen. He is en route for China. We understand that he purposes leaving here to-day to resume his journey westward.

THE LATEST SENSATION is a two-headed girl, who is now being exhibited through the country. The *Daily Iowa State Register*, of the 16th inst. says:

"This specimen of *luna naturae* was on exhibition at Moore's Hall last night. The audience drawn out to see her (or them) was tolerably large, and all manifested much interest in looking at her, and also in hearing her sing."

CUT WHEAT EARLY.—An exchange has the following:

"It is demonstrated beyond a doubt that wheat should be cut when the grain is in what is called 'the dough.' It will yield much better, and makes a good deal nicer flour."
