

tail of the sea now comes from Captain Thomas. The gallant rescuers from the Dee reached his vessel in safety. When dawn came the Dee was nowhere in sight. The pumps were sounded and it was found that the vessel was making very little water. Jury masts were rigged and at last the Cambrian Chief got under way.

During the ship's slow progress toward the South American coast nearly all her provisions had been consumed and it became necessary to put the crew on short allowance, and later on very short allowance. When the Cambrian Chief reached Talit the sailors had just strength enough to shorten sail and drop anchor. They then sank down on the decks exhausted and waited for the shore boats to come.

CONNELLSVILLE, Pa., Aug. 3.—General Jeffries's commonwealers, numbering about two hundred, arrived here this evening, and at once scattered through the town demanding food. When the Baltimore & Ohio freight train No. 76 pulled out for the east, about 9 p.m., the whole crowd made a rush to capture transportation. About all succeeded in getting aboard, but when about a mile out of the yard the train was stopped and the swarm of boarders driven off. They got together on the ground, and with a rush swept down the opposition and crowded into box-cars. Then the trainmen, reinforced by yardmen, made a combined charge and a regular battle ensued.

KANSAS CITY, Aug. 3.—Adjutant General Tarsney, of Colorado, who has been here for some days seeking to encompass the arrest of one of the gang who tarred and feathered him, came near being the victim of an assassin's bullet at the union depot in this city tonight.

Several days ago General Tarsney located Wilson near Nevada, Mo., and by a neat bit of strategy, and with the assistance of Detective Peterson, of Colorado, succeeded in getting him to Kansas City. Wilson was positively identified by Tarsney as being the ring-leader of the mob that tarred and feathered him. After some trouble, Tarsney secured the proper requisition papers, and the start for Colorado was arranged for this evening.

O. C. Collins, an ex-deputy under Wilson in Colorado during the strike trouble, and who is believed to be the man who carried the feathers on the eventful night, came to town yesterday, and, as he afterwards told a reporter, was bent upon liberating Wilson.

Shortly before the departure of the evening Union Pacific train tonight, Tarsney, Wilson and Peterson were driven from the jail to the depot in a closed carriage. Arriving at the depot this evening, Collins quickly stepped toward them. With a salutation to Wilson, and at the same time placing his hand on his hip pocket, Collins made an effort to draw Wilson to one side. Peterson in an instant had pushed the intruder aside, feeling for his weapon.

With a curse, Collins drew away, then, turning towards Tarsney, made as if to strike him. The general reached for his hip pocket, but before either man could lift a hand Peterson had stopped them and was starting the trio for their train.

In the meantime quite a crowd had

collected, and great excitement prevailed. Hurrying on to their car, Wilson was quickly strapped to a seat, while Tarsney nervously took a seat near by and looked anxiously for the signal to start. It soon came, and the party in time resumed their natural state.

LYONS, Aug. 3.—At the conclusion of the trial of Casaro Santo, the murderer of President Carnot, the prisoner was sentenced to be executed by guillotine.

MUNCIE, Ind., Aug. 3.—Leroy Wright, an electric street railway employe, caught hold of a live wire last night and was burned to death. A few days ago a tree was removed from Washington street on the public square. One end of a guy wire that supported an electric street light pole had been attached to the tree. Instead of being removed, the wire was wrapped about the tree. Last night Robert Rice leaned against the pole and was knocked senseless. His companion, Will Snowden, anxious to investigate, got the same kind of a dose. Superintendent John Singleton, of the city electric light plant, was summoned, and while he was preparing to cut the wire down young Wright came along and recklessly took hold of the wire. He fell with the cry "Take me loose!" Granville Shepp, John Walling and Mr. Singleton went to his assistance but they fell in a heap and Mr. Singleton's hands had to be kicked loose from the prostrate man. Wright's body was burned to a crisp. It required ten minutes time to shut off the current of 2,500 volts and release the man.

COWES, ISLE OF WIGHT, Aug. 4.—The Vigilant won the yacht race with the Britannia.

SHANGHAI, Aug. 4.—Captain Galzworthy, Chief Officer Tamplin and Quartermaster Evangelist of the sunken transport Kow Shung, rescued by the boats of the Japanese cruiser, have been taken to Sasebo where they are held as prisoners. Admiral Sir E. R. Freemantle in command of the British China squadron has ordered the Alacrity from Sushima to Sasebo with instructions to demand the release of the British sailors. Upon the arrival at Nagasaki the commander of the warship was informed that the prisoners would be delivered to him today.

WASHINGTON, Aug. 4.—The Japanese legation has received a telegram announcing that on August 1 an imperial rescript was issued by the Emperor of Japan, formally announcing that war had been declared against China. Mr. Miyoka, the Japanese charge, probably will communicate this formal declaration of war to Secretary Gresham today.

LONDON, Aug. 4.—In spite of the instructions which were sent to Admiral Sir E. R. Freeman, in command of the China station, not to allow British ships to carry war material to either China or Japan, parties having good, bad or indifferent war material for sale are in negotiation with both Chinese and Japanese representatives and both countries are known to be placing large orders. The Japanese expect to be able to dispatch a steamship full of war material from England for the Japanese next week. It is stated that the furnishing munitions of war to China and Japan is a

clear violation of the laws of neutrality.

ARCHANGEL, Russia, Aug. 5.—The steamer Windward, having on board the Jackson polar expedition, sailed hence this afternoon for Harbaurova or Jugerski Schar, as circumstances shall determine. The expedition procured here additional stores, furs and a number of Russian ponies. At Harbaurova or Jugerski Schar, a few Samoyeds will be added to the crew and the steamer will then proceed direct to the southern shore of Franz Josef land.

The departure of the expedition was made the scene of a remarkable display of enthusiasm. The city was everywhere decorated with flags. Government and city officials and other notables went on board the Windward and went with her for some distance down the harbor. When they left the steamer many and hearty were the good wishes they gave the voyagers, who responded with cheers.

WASHINGTON, Aug. 6.—With the session of Congress drawing to a close and all attention likely to be concentrated upon the tariff bill, it is not considered probable that the Senate will act upon either the Arizona or New Mexico state bills, before final adjournment. This was the understanding when the bills were reported from the committee on territories. The dates of admission in the case of Arizona and the constitutional convention in the case of New Mexico have been so deferred in the Senate bills that no change will be necessary in case of postponement. The provision in the Arizona bill is for the admission on the first of August 1895, while the convention in New Mexico is not to meet until July 1, 1895. Governor Hughes is of the opinion that the bill will have to be changed to provide for a new constitution before it can pass the Senate. This opinion he bases upon the opposition he finds to exist in the Senate to the constitution adopted in 1891, on account of the irrigation and silver payment features.

MILWAUKEE, Wis., Aug. 6.—The first smallpox riot took place here last night on the South Side and resulted in a decisive victory for the mob, although there was no bloodshed. The authorities postponed action until today, when they will make the decisive move. A case of smallpox was discovered near Greenfield street and Fifteenth avenue today. The health officers went there with the department wagon, intending to remove the child to the isolation hospital. A crowd quickly gathered and the leaders declared that the child should not be moved. The crowd increased in numbers rapidly and a detail of officers were sent to the scene from the South Side station. When the policemen arrived they found 3000 excited men and women blocking the streets and loudly declaring that the child should not be moved. There was some parleying and rather than provoke a riot, the health officers withdrew for the time being. The mob were not fully assured but what they would return and pickets were accordingly placed to give the alarm in case they did. A large crowd was assembled at the corner up to an early hour this morning. It is feared there will be trouble when the attempt is made to move the child to the pest house.
