Everybody Feels Happy

Seldom has the opportunity been offered to everyone to enjoy all the pleasures of cycling on a high grade wheel, built by a house of unquestioned reputation, for such a trifling cost.

The Waverley Bicycle

famous last year for its sterling qualities, is now sold at a popular price. Machinery cuts money. We had none to buy—hence the reduction in price.

There is another Waverley Bicycle for those who want the very best. Its bearings, constructed on an entirely new principle, $100 to are absolutely true. It cannot be sold for less than anyone.

Gladness Comes

With a better understanding of the transient nature of many troubles and the, which combined, before proper efforts—pure, gentle, pleasant effective—prompt to personal action. There is comfort in the knowledge that so many forms of sickness are not due to any actual disease, but simply to a constipated condition of the system which the gentle but thoroughly laxative principle of figs, promptly removes. That is why it is the only remedy with millions of families, and is everywhere esteemed so highly by all who value good health. Its beneficial effects are due to the fact, that it is the one remedy which promotes internal cleanliness without debilitating the organs on which it acts. It is therefore all important, in order to get its beneficial effects, to note when you purchase, that you have the genuine article, which is manufactured by the California Fig Syrup Co. only and sold by all reputable druggists.

If in the enjoyment of good health, and the system is regular, laxatives or other remedies are then not needed. If afflicted with any actual disease, one may be commended to the most skillful physicians, but if in need of a laxative, one should have the best, and with the well-informed everywhere, Syrup of Figs stands highest and to most largely used and gives most general satisfaction.

WEEKLY CROP BULLETIN.

Report of Climate and Crop Service, Weather Bureau.

Weather in Utah the Past Week, and Reports From the State of the Condition of Crops.

SALT LAKE CITY,
June 8, 1897.

The week ending June 7 was much cooler than usual and rain-storms were generally unfavorable for germination and growth of crops. The temperature averaged below normal and ranged from freezing to 100 degrees. Scattered showers fell during the first part of the week, but they were generally too slight to be of any material benefit to vegetation. Light to heavy frost occurred on the 2d and 3rd doing considerable damage to tender plants in nearly all sections of the State. Snow fell on the mountain tops until the early part of the week.

There has not been any marked improvement reported in the condition of the principal crops during the week, owing to the prevailing dryness which is having a detrimental effect on the growth of all vegetation. The dry farm crops are looking poorly for want of rain, and in many districts correspondents state that the spring grain is practically ruined and beyond recovery.

Throughout the southern portion of the State haying is general and fall grain is being cut with indications of an average yield.

Remarks of Correspondents.

BEAVER COUNTY.

Minersville — Warm days, cold at night, no frost; good growing weather.

Greenville—Warm days, cold nights with light frost May 30 and June 3; no damage.

BOX ELDER COUNTY.

Grouse Creek—Week dry and warm; forests beginning to burn; indications grain slow in coming up and will have to be watered to bring it up.

Fielding—Week cool and cloudy; crops of grain, etc., will be light; rain needed on dry lands; irrigated crops making poor growth but not for lack of water; some alfalfa cut on driest lands; crop light.

West Portage—Week hot and sultry; much spring grain and lucern has not come up yet on account of the drought; nearly all the peas killed by frost.

Snowville—Crops growing slowly on account of northerly winds; potatoes coming up; light frost night of 2nd, but very little damage; lucern beginning to bloom.

CACHE COUNTY.

Cache Junction—Week cold with frost on June 1st and 2nd; grain and lucern suffering for rain; rivers going down.

Hyde Park—Last part of cool and cloudy with a light fall of snow on the mountains; latter part warm and dry.

Logan—Week cold and dry; grain will not make average crop this year, lucern and hay growing nicely, slight frost June 5th.

Meadow—Very dry cold week; spring grain looks very poorly; nothing seems to grow; streams failing; fruit looks well; all is doing moderately last.

Newton—Had frost 1st and 2nd, no damage; snow on the east mountains on 2nd; grain suffering for want of rain; spring grain not all up yet; water for irrigation low; lucern doing well; waters night; fruit crop indifferent.

Smithfield.—The past week has been excellent growing weather for irrigated crops; lucern beginning to bloom; strawberries ripening; and early harvesting under conditions; dry farm grain suffering for want of moisture and late spring grain a complete failure.

EMERY COUNTY.

Ferron—Week general cool; heavy wind on 2nd followed by nightfrost which killed a few tender vegetables. Much watering yet remains to be done; water very fluctuating; much snow yet in the mountains.

Lawrence—Hard frost June 3 (?) as all under vegetation.

GRAND COUNTY.

Westwater—Fine first crop of lucern is being cut; the crop will be heavy.

GARFIELD COUNTY.

A very pleasant week; crops looking well; nice rain May 30-31; corn and pease being planted; very heavy winds.

Angle—The past week has been moderately fair for crops; nice shower on May 30th; frost night of 1st and 2nd doing some damage to lucern; days warm and pleasant.

Coyote—A fine growing week; fine rain May 30-31 last; 1.90 inch; on the southern side of the valley the rain was accompanied by hail, which beat down the lucern and done some damage to other crops; hard frost on June 2d which killed the potatoes, damaged the lucern and made the wheat look rather bad.

JUAB COUNTY.

Levan—Wind blowing a gale from southwest Monday 31st badly lodging wheat; wind shifted to north at 6 p.m., bowling temperature to freezing point; snow on hilltops Tuesday morning; the thermometer at sheet of paper morning of 3rd; no damage to vegetation.

KANE COUNTY.

Kanab—Weather dry and warm during the day with brisk winds; nights cool; lucern in full bloom and commencing cut; garden truck looking good; cane and corn looking well; melons coming along; few worms bothering cabbage or corn.

Ranch—Weather favorable for small grain; high wind May 31st; light frost June 2; crops look well.

Mt. Carmel—No frost; fruit and grain looking good; alfalfa in bloom.

MILLARD COUNTY.

Hoppis—Very high wind on 31st; snow on the mountains 1st. Frost on the 2nd damaging tender plants.

Hinckley—Frost night of 2nd; nipped potatoes and beans, but no serious damage done; lucern about about ready to cut and a fair crop; grain looking good.

Deseret—Sharp frost morning of June 1st, 2nd and 3rd doing much damage to trees and fruit. River still at a low ebb this week.

MORGAN COUNTY.

Morgan—Weather last week has been favorable to crops; a few frosty nights but no damage; everything growing fine; fruit looks unfavorable.

Peterson—First four days of the week cool and clear with light showers; too light to be of any perceptible benefit. Severe frost Wednesday night, damaged lucern and garden stuff; growth of vegetation has been slow.

IRON COUNTY.

Parowan—The first part of week warm; latter part cool with light frost on morning of 3rd; no damage in town. Corn coming up fine; crops of all kinds doing well; fruit trees being sprayed by a few people. Heavy wind on May 31st.

PIUTE COUNTY.

Kingsburn—Light frost from 3rd to 4th; lucern lightly injured.

Circleville—Hard frost on 1st and 2nd damaged lucern and garden stuff; grain is doing well; some oats and corn not yet up.

Greenwich—Very hard frost night of 1st doing great damage to lucern and most all garden stuff; grain is a little.

Kingston—Light frost night of 2nd; nipped potatoes; Vegetation started well at first, then frost stopped it a while, but since growing again.

RICH COUNTY.

Meadowville—On the whole a fine growing week; a little frost one night nipped some strawberries and beans; fruit is generally promising well for a good crop; grain is all looking well in every appearance of a good crop to-day; farmers busy summer following late; all crops looking fine.

SALT LAKE COUNTY.

Mill Creek—Past week has been fine for all farm work; lucern ready for cutting and the strawberry harvest is now on.

Miller—Morning of 3rd light frost but no damage; the week in general has been a good growing weather.

SAN JUAN COUNTY.

Monticello—Week opens warm and showery; all crops and garden stuff doing nicely; end of week heavy storms and cool weather; light snow-storm 1st of June; irrigating in full blast.

SANPETE COUNTY.

Chester—Past week very changeable; hard frost one night; lucern generally corn unhinged a little; fall-sown very watering their fields; grain looking well.

Fountaingreen—Weather changeable past week, varying from warm to quite cold and chilly; heavy rainstorm on the 2nd and 3rd, followed by heavy frost, doing damage to some early gardens; fruit not damaged; grain looking excellent.

Mount Pleasant—Potatoes beginning to peep through in gardens; lucern looking well; grain doing much better than in the past; outlook for fruit encouraging.

SEVIER COUNTY.

Monroe—Tuesday very windy; frost slightly Thursday morning; starting to cut lucern.

Sigurd—Heavy frost night of 3rd and 4th; potatoes and tender plants froze to the ground; grain and alfalfa doing well; fall wheat heading out but very little.

SUMMIT COUNTY.

Peoa—Snow and rain all on the 2nd; heavy frost morning of 3rd, which cut all tender plants to the ground; crops such as wheat and oats look well.

Rockport—Crops growing nicely; heavy frost Wednesday night damaged tender vegetation; potato planting finished; soil very dry.

Coalville—Rain on 1st, snow in the mountains on 2nd; heavy frost morning of 3rd cut down early potatoes.

TOOELE COUNTY.

Ibapah—Cool again; some frost on 1st and 2nd, doing but little damage; currants and gooseberries a big crop. Some complain of grain being backward on account of late weather but grain generally looking well and water within bounds again to the surroundings of the public highway.

Cedar—Frost night of 2nd and 3rd injured potatoes and other tender vines.

UINTAH COUNTY.

Randlett—Light showers and high winds predominated during the past week; showers very beneficial and winds did no material damage. Wheat six to eight inches high; alfalfa in blossom; potatoes corn and garden truck doing finely.

UTAH COUNTY.

Lake Shore—Irrigating the grain crop seemed rather sugar beets being worked, the crops on the whole are looking fine; a frost on the night of May 31st.

Payson—Fine growing weather; crops look fine; frost on night of 31st, hay being cut and ready; first crop of lucern on 2 strawberries plentiful; pease in pod and will soon be ready for market; fruit crop bids fair for this year, much better than last.

WASATCH COUNTY.

Heber—Good growing week. Potatoes planting finished. Monday, hot sun and winds breaking limbs of shade trees. Tuesday cool. Wednesday cool. Wednesday therm meter at 69 degrees all day; 9 p. m. down to to 45 degrees, falling 4 degrees every hour until 1 a. m. Friday, thick fog; haying and people started sunrises all over the city which saved our fruit from freezing; potatoes, corn and beans nipped a little; timothys was a grand success.

WASHINGTON COUNTY.

Virgin—Crops need frequent irrigation; haying in progress; crop excellent; potatoes setting and melons in bloom; most all of the wheat in fine head; cherries and apricots ripening; all kinds of fruit growing nicely.

Pine Valley—Weather fair and crops doing well; lucern a foot high; water in all streams falling and snow only left on the high mountains; the apple crop will be a large one as it looked promising.

New Harmony—Crops in good condition and weather favorable to growth.

St. George—First cutting of lucern has been completed; corn planting progressing finely.

Leeterville—Past week has been one of extremes, thermometer ranging from 100 to near frost, with heavy wind; second crop of figs forming; grain and fruits looking well.

WAYNE COUNTY.

Teasdale—Crops made slow progress during week; light frost night of 2nd; cut worms doing some damage to gardens; lucern nearly ready to cut; fruit setting nicely; gardens doing well.

Lyman—Light frost night of 2nd, nipped alfalfa slightly; grain doing well.

Nalon—Weather good for growing crops; planting completed; cut worms damaging some.

WEBER COUNTY.

Uintah—Corn planted lately is coming up better than expected; lucern is about ready to cut; wheat on high land will be a failure; straw terrible plentiful; first Utah cutting into new fruit; water in the Weber River is getting low very fast.

Marriotts—Drought of past two weeks is unbroken. All dry land crops are practically ruined. More than usual amount of water used up to date. First crop of lucern is being cut while in bloom; gardens and small grains where irrigated are up to best of other years. All fruit were more or less injured by 0° 6.
