EVENING NEWS DAILY, SUNDAY'S EXCEPTED, AS FOURO'CLOCE. August 18, 1880. EDITORIAL NOTES.

one best hearer is the man whose daily life experiences the truths that are spoken.

Statistics from the agricultural bureau at Washington show that the harvests this year in this country exceed those of all former yearin amount and average quality of grain.

There is much truth in this specimen of Uncle Ezek's wisdom in Schibaer for August. "There is a great deal of modesty in this world which will gaze at almost anything-pro crack."

The best and least painful mode of killing fowls for cooking is the French plan. It is by making with a sharp knife an incision at the back of the roof of the mouth, which will divide the vertebra and cause in stant death without pain or disfigurement.

The grain crop of Russia this year will be short, and the exports from that country cannot reach the average. It is said that only twice within the last ten years, in 1871 and in 1875, has the crop been less. It this is the case, the markets for American grain will be improved.

"Clemetshaw, the perjurer, has at SILK culture is attracting much atlength reached his level. Found tention in several parts of the Unitguilty of the serious crime of false ed States as well as in Utah. JOCKEY CLUB PARK, CHICAGO, 18.-At 11 o'clock it is estimated there are 30,000 on the grounds. The competitive drill has not yet commenced. The commanderies are slow reporting. The heat is in-tense. At 12 noon, the Monroe combook of Radical returning boards in mandery of Rochester, N. Y., enterprizes.

### New Treaty Regulations Needed.

NEW YORK, 18 .- The Commercial Bulletin says: There is need of further light upon the object of the visit of the Chinese Embassy to Washington. Both Evarts and Marsh have stated unequivocally that the Imperial Government has repealed an ancient decree prohibiting Chinese subjects from engaging in trade with foreign countries. Preisely what that decree may be neither of these gentlemen have stated nor have we been able to asdwelling house, succeeded in hatch-

certain from merchants familiar with the China trade. More light is needed to show, first, whether the decree prohibiting Chinaman from engaging in direct foreign trade has existed, and second, whether that decree has been repealed. Assumtions, important changes in our place which contained many fine specimens of the famous morus mul-ticaulis, the owner of which kindly permitted her to take as many leaves as she desired. It is well known that hot weather brings sickness, and that few people on the street that yesterday, a pro- go through the summer without unminent mining man of this city was pleasant symptoms. The mouth assaulted in his office by a federal becomes dry and parched, the tongue official. The quarrel is reported to furred and white, the pulse irregular, have arisen from a dispute over the head feverish, the body crampmining property, and it is also said ed and the limbs swollen and tired. that the official struck the other Ladies especially, with their natural delicacy and tendency to female troubles, find the hot weather almost unbearable, while Little Children are dying every day from exhaustion At Springville, Utah County, U. T. August and because Parents neglect precaution and care. A prominent and well known physician of New York asserts as his positive belief that more than three-fourths of all socalled Summer complaints arise from disordered secretions, and that these secretionary organs, which, by being out of order cause so much trouble, are the Kidneys and Liver. These

organs are the governors of the system, and by their movements the other parts of the body are regulated. The brain controls the life, but the lower part of the body rules the health.

There is one, and only one known vegetable that will absolutely regulate and control the Kidneys and Liver at all times and thus prevent the many dangers of the Summer. That vegetable (a West India leaf,) is used as the basis of Warner's Safe Kidney and Liver Cure. It is pure, pleasant to the taste and absolutely certain in its results. It keeps those who intelligently use it in perfect health, and cures those whose secretions are deranged. For all urinary complaints of either sex it is infallible. For all bilious troubles it is certain. For the hot season it is invaluable, and it should be used upon the approach of the slightest symptoms. It may save your life or that of some dear friend; it will certainly prevent much suffering. No remedy in America has even received such high and enthusiastic

commendations, and it is warmly Endorsed by the Professions, the

Press and the People.

ESTRAY NOTICE.

HAVE IN MY POSSESSION:

The young ladies alluded to in this paragraph are not Salt Lake girls: "Some girls have very pecullar dispositions. They can work hard-all day making a silk-embroidered motto where the words "Love one another" stand out in all shades and colors, and then take nearly the entire top off their little brother's head jast because he wants to stay in the parlor while Adolphus is making his regular call."

"It is a vital principle in our system that neither fraud nor force must be allowed to subvert the rights of the people. When fraud, violence or incompetence controls, the noblest constitutions and wisest laws are useless. The bayonet is not a fit instrument for collecting the votes of freemen. It is only by a full vote, free ballot and fair count that the people can rule in fact, as required by the theory of our government." Hancock.

Ladies, if you will tamper with your complexions with cosmetics don't use arsenical preparations. A young ady in Indianapolis, hand- with mulberry leaves. Their growth some and intelligent, has been for a is very rapid, in six weeks' time long time using arsenic for her complexion, and recently she has almost lost her eyesight. Her eyes began to grow dim about a year ago, and have been gradually, but sensibly, failing ever since, until it is almost impossible for her to see. Her physician says it is from the use of which soon make their way through arsenic. In view of the calamity, a leaf. The silk while in the worm her engagement with a young phyher engagement with a young phy-strands. These unite and form one sician of good prospects, while not thread of silk. The worm in startbroken off entirely, has been held subject to the final result of experiments for the restoration of sight,

RETURNING BOARD TRICKS.

THE New York Herald of August 12th says:

"Mormons have been learning returning board tricks. See dispatch from Salt Lake,"

This is the dispatch | referred to above:

"Salt Lake, Utab, August 11th, 1880.

The Mormon returning board of of the Gentile precincts of Frisco, Milford, Adamsville and Minersville, defeating the State sheriff elect on the Liberal ticket. The Gentile votiers of Frisco have resolved to refuse to pay taxes in consequence of ists, but the majority of the people this disfranchisement."

There were no tricks whatever ject. It is a light and pleasant purplayed by the "Mormons" at the suit, requiring intelligence and per-Beaver election. The "tricks" were severance, but not great physical attempted by the "Liberals." We strength, and many of our boys and have published the particulars, and girls and aged persons who now eat those who have investigated the the bread of idleness, might follow matter are convinced that there was the business of silk raising with Editors Deseret News: no wrong done by the canvassers, great profit, if the industry were esbut even the "Liberals" admit that tablished in anything like the pro- annual conference of Georgia contheir associates in Beaver County portions which its importance dewrought their own failure by ille. mands. galities. However, there are some This Territory has exceptional adwho think that the canvassers need vantages as a silk-producing region, not have rejected the entire returns combining all that are had in the of the precincts thrown out, but two States above named, without might have simply discarded the many of their disadvantages.
