

NEWS OF THE MINES.

A Glance at the Market for the Week Just Passed.

STOCKS GRADUALLY DECLINING.

Very Little Business in the Pit—How Things are Going in Denver, Tintic and Park City.

There has been a noticeable decline in the mining stock market during the week just passed, and the business done in these days, has not amounted to the aggregate to anything more than one good day's trading.

At this season of the year when the Christmas and New Year holidays are so close at hand, it would be natural to suppose that a degree of briskness would be manifested in the market.

The listed stocks as a whole have given the "go by" very little attention having been paid to them.

Today's list was saved from a whitewash by a transfer of Denver at \$5.40.

The closing figures were as follows:

Table with columns: STOCK, PRICE, and CHANGE. Includes sections for LISTED STOCKS and UNLISTED STOCKS.

Table with columns: STOCK, PRICE, and CHANGE. Lists various mining stocks like Anaconda, Bingham, etc.

MINES OF DENVER.

The Murray's Account of Operations in the District.

Mr. Wiley of the Prospect House and his partners are doing development work on the Trace, on Lion Hill, with good prospects of success.

On Sunday six wagons might be counted as one line passing through the camp on route to the Western Dip.

The Woodruff tunnel, which is almost finished. The work on making the mill is being delayed through the non-arrival of the machinery.

Mr. J. W. Gray of the Utah State came out to the camp this week and began improvement on that property.

On Sunday six wagons might be counted as one line passing through the camp on route to the Western Dip.

They suffered at the camp that the Silver King had to shut down. They knew more about the management of that mine than the men whose study it is to say in and say out to promote the interest.

The finishing touches are being put on the new Silver King boarding house, which, in addition to appointments and convenience, is admitted to be the finest mine boarding house on the Pacific slope.

The Crown Point shaft is down 220 feet. A drift is being run from that point to the ledge which was tamped at the 200-foot level to 54 feet.

The new drift is already in 60 feet. R. E. Armstrong of Park City and associates, W. F. Vincent and J. F. Sage, owners of the Old Junction group of mines at Malheur, Nevada, have issued and tented to Thomas Burke of Montana and the Loyal M. Y. of the four claims comprising the Old Junction. This is a gold stoppage. It acquires the famous spotted Horse mine, which has yielded more gold than any other mine in Montana.

We understand that Park City people are becoming interested in the Old Junction, with a view to obtaining a bonded lease on it for one or more years. The improvements on the property are a 535-foot tunnel and 100-foot shaft. The latter is heavily timbered, and has in addition an inexhaustible supply of sparkling water.

The Colorado mill's boiler shipment, this week amounted to 20 tons. The Maraca will ship 22 tons of the silver.

Nothing has been heard yet from the annual meeting of the directors of the Anchor mine, held at Detroit yesterday. It is not believed, however, that work will be resumed. It has property in the near future.

Shipments from the Mackintosh group of mines at Malheur, Nevada, are \$75,000; value, \$40,000; Creek tailings, \$9,000. Total number pounds, 48,500.

The Daily West is taking out about 150 tons a day, out owing to the condition of the roads, is not shipping. Dips and Spurs. Colonel Dotsey of the Overland returned from Nebraska this morning.

CITY FERIAQUES MEET.

Listen to an Address by Principal Malone on Moral Development in Education.

The regular monthly meeting of the teachers of the city occurred at the High School this morning. The principal feature of the meeting was an address by Principal W. B. Malone upon the subject "Moral Development in Education," and was listened to with close attention.

Salt Water and Sanitation.

SALT LAKE CITY, Utah, December 12, 1896.

The following clipping was taken from your worthy paper of recent date: The scum in Santa Barbara, Cal.

are now finished since a day with salt water, and the health officer reports that the sanitary condition of the town is much improved in consequence.

As a retainer consideration water to flush our sewers and to sprinkle the streets in summer time, mostly with City Creek water at that, which is scarce at the time it is required, would it not be a great benefit to use economy to pipe water from the Salt Lake for this purpose?

It is proposed to flush the Salt Lake for this purpose, as a sanitary point of view, why not take a pointer from this and not only flush our sewers with water from the lake, but also do the sprinkling of our streets with salt water, putting our great lake to a few more good purposes in playing out, killing, weeding and above all improving the sanitary condition of our city generally.

Here is something worth of our city fathers' attention, especially in the saving of some of our best water, as I am informed it requires 1,000,000 gallons per day to do the sprinkling about whereas double that amount would be used if our water was evened out more uniformly in the outskirts of the town.

Interested in everything that might lead to the welfare of our water supply, I submit this for serious consideration. C. H. T.

Notice of Meeting. Bishop H. B. Clewson announces that Sister Anna K. Hardy and Elder James H. Moyle will address the Saints in the Twelfth ward chapel tomorrow evening. Services commence at 8:00 p.m. The subject will be "Mutual Improvement."

That "Dangerous" Buffalo. Ogden Standard: One of the buffaloes which William Cissaman sold to John R. Dotsey was killed on a topop island a few days ago and the Salt Lake papers tell of a desperate fight with hunters had in thus upping a wild buffalo. It shows how hard up the papers are for news. They tell of the buffalo being a vicious old bull named Major McKinley. He was born on the estate of the Standard. He was born on the estate of the Standard. He was born on the estate of the Standard.

Manly Messenger Notes. The Central Utah Wool company received on Tuesday a consignment of 18,000 pounds of wool from N. E. Housely of Rockville.

Snowflake Conference. Woodbury, Nevada county, Ariz., Dec. 5, 1896—At 2 p. m. on Sunday, Nov. 29, 1896, the quarterly conference of the Snowflake Stake of Zion convened in the meeting house at Taylor, Nevada county, Arizona.

You think of Scott's Emulsion as only for those who have consumption or who have inherited a tendency to it. Almost its greatest use is for those whose condition is so impaired as not to be able to get the good they should out of their ordinary food.

Take Your Wife. One of these handsome Pastors Pure Breads. They are given free with each box of product.

Absolutely Pure.

The Careful Housewife will use no other.

The meeting house was crowded to its utmost capacity by anxious listeners, and all seemed to be enjoying the good sport.

There were three meetings of the conference—one on Sunday afternoon, and two on Monday and Tuesday, the first a Priesthood meeting on Sunday night.

There was a very good feeling among the Saints, and all left to rejoice in each other's society. Heart and family prayer, the cultivation of faith and exemplary conduct, the payment of tithes and offerings, the proper observance of the Sabbath, and the sacred instruction of the youth were all urged upon the theme in a kind yet powerful manner.

The Saints were also instructed to observe the change lately arranged by the First Presidency concerning the fast day, as well as to allow the Sunday schools in their regular sessions uninterrupted.

The general and Stake authorities were sustained by the unanimous vote of the conference.

Reports of the Bishops showed that the people of the entire Stake were in a fair condition, both spiritually and temporally.

Lewis' 98% LYE. The strongest and purest made. Contains nothing but lye, with no other ingredients. It is the only lye that will clean and scour without staining or discoloring. It is the only lye that will clean and scour without staining or discoloring.

R. K. THOMAS DRY GOODS CO. 48 and 50 Main St.
