VIADUCT TURNED OVER TO THE CITY

Inspected by City Officials Today And Opened to the Public.

CONDITIONS OF FRUIT CROP.

Weber County Growers Will Have Fair Returns from Orchards—Use of Fire Pots to Ward Off Frost.

OGDEN, May 5.—This afternoon at 2:30 o'clock, Mayor Brewer, accompanied by all the members of the city council, city officials, prominent citizens and members of the press visited and inspected the new Twenty-fourth street viaduct, which was turned over to the city today and thrown open to the public. No ceremonies of an elaborate nature had been arranged for the transferring of the steel bridge to the city but the formal transfer occurred after the structure had been inspected and found to come up to the terms of the franchise under which it was granted by the council.

CONDITIONS OF FRUIT CROP.

OGDEN, May 5.—R. N. Rasmussen, county horticultural inspector, after a trip throughout the fruit districts of Weber county, investigating the recent frost damages, has given out the following regarding the crop:
 In North Ogden there will be a full crop of sweet and sour cherries, plums, apples and peaches.
 In the Mount Fort district about 20 per cent of the peach buds were saved, which will probably develop about a half a crop. There will be a full crop of apples, plums and cherries.
 In the Riverside district there is a full crop of cherries, plums and apples. About 10 per cent of the peach crop will be secured.
 The peach crop in the county will be about 65 per cent of what it was last year, with the promise that the quality of fruit will be perfect.
 Mr. Rasmussen favors the use of the smudge pots to ward off frost, being, he thinks, the only method of saving the crops. On Thursday and Friday nights of last week smudges were employed on the 12-acre orchard of Frank Moore of Randall. At 1 a. m. the temperature had dropped to 28 degrees but in an hour after the smudges were started the temperature raised to 31½ degrees. As a result the orchard suffered comparatively little loss. Live coals were used, in which wet straw and manure were piled.

SUBURBAN LINE EXTENSIONS.

OGDEN, May 5.—Work upon the Wall avenue extension of the street car line was resumed yesterday after a delay of three days on account of the shortage of material. The rails to be used between Twenty-fifth and Twenty-sixth streets on Wall avenue will be the regular 42-pound steel to be later replaced by the large "T" rails which are required in the paved districts. The street car company when it ordered material for this line had not been informed by the city that it had secured jurisdiction in having Wall avenue from Twenty-fifth to Twenty-sixth street and therefore it would be necessary to order the special rails for the block from Ohio. Since the water of Ogden river has subsided during the past few days the Ogden Rapid Transit company

Dr. Price, the famous food expert, has produced a product called

DR. PRICE'S WHEAT FLAKE CEREAL FOOD

which is considered to represent the highest food production. Its healthful qualities are unsurpassed. 10 cents a package. For sale by all Grocers

RECENT DEATHS

Jensen, Elsie Marie C.—Elsie Marie Chalmers, wife of the late Gerhard Jensen, and one of the sturdy Scandinavian pioneers, died at her home in the Second ward Saturday, April 30, at 64 years of age, having been quite feeble for some time.
 Grandma Jensen, as she was known, was born in Sjelland, Denmark, 38 years ago, and when Erastus Snow, John E. Forsgren and other elders brought the gospel plan to Scandinavia, in 1850, she was one of that noble little band that was ready to accept the truth when presented by those humble elders. In December, 1852, when Elder John E. Forsgren was released to go home, he was placed in charge of the first regular company of Saints from Scandinavia, and Mrs. Jensen was one of that number. They crossed the Atlantic ocean in the sailing vessel known as the Forest Monarch. After a very stormy trip of 10 weeks, they arrived at New Orleans, and proceeded to St. Louis, where they remained six weeks. Here she was married to Gerhard Jensen, a member of the same company. From there they went to Keokuk, Iowa. At this point several companies were joined together, armed and equipped, and started out on their weary trip across the plains, arriving in Salt Lake City, September 23, 1853.
 Mr. and Mrs. Jensen remained there for three years, when they moved north to Brigham City in 1856. After a few months they moved to Sanpete county where they remained until 1860, when they came back to Brigham City, and lived here until summoned by death.
 Sister Jensen had three children, Gerhard Jensen, Mrs. Hedevik Bost, and Mrs. Diana Forsgren. The girls are twins and each of them is the mother of 17 children. Brigham also has a child, which makes 51 grandchildren for Mrs. Jensen, and 27 great-grandchildren.
 Mrs. Jensen had three children, faithful to the cause that she espoused, the first council of seventies were present.
 Funeral services were held in the Second ward hall today at 11 o'clock under the direction of Bishop Thomas H. Blackburn.
 Pritchett, De Leslie—At Fairview last week, De Leslie Pritchett, the 5-year-old son of Mr. and Mrs. C. L. Pritchett died of quinsy.
 Lund—At Mt. Pleasant, on April 23, the two-year-old son of Mr. and Mrs. Alexander Lund, recently of Pleasant Grove, died of toxemia.
 Lewis, Moss—At Logan, Sunday May 3, Moss Lewis, son of Riley Lewis of Lewiston, died at a local hospital of appendicitis and complications arising therefrom. His remains were sent home to Lewiston for burial. He is survived by his wife and one child.
