

DESERET EVENING NEWS: SATURDAY, NOVEMBER 26, 1904,

to last the market was unusually active, and during the call some stunning surprises were developed, a few of the stocks sold bringing figures little dreamed of by the most songulas. In this respect Yankee Con. was a feature, the stock sprinting like a professional and dropping 800 shares at 88%, Closing. the bid was 38%, while the most tempt-ing offerings were at 39. Victoria, too, Ing offerings were at 32. Victoria, too, was a winner, and was freely dealt in at 2.20, while New fork opened firm at the figures of the day previous, but before the close suffired a severe bear movement and sold as low as 20½. This stock set the pacs in the trading, close to 10,000 shares changing hands during to 10,000 shares changing hands during the raid. May Day was gratifyingly active on a weak market, a total of 5,500 shares finding takers at figures ranging from 30½ to 29%. Other sell-ers were Eagle & Blue Beil at 90, Heck Tunnel at 8½, Little Chief at 2¼, Victor Con. at 5½, Carisa, Lower Mammoth, Tetro and Martha Washington. The closing figures were as follows:

It is anticipated that the second to-nace of the Yampa smelter will be com-pleted before the close of next month. A couple of deals are pending which contemplate the transfer of two im-portant but at present idle groups of One carload of United Bingham crude and one of concentrates, made at Heaston jigs, was hauled to the depot this week. Manager Cairnes made another ship-ment from the Valentine yesterday. It contained gray copper, and was the best ore yet taken from the mine. This week Bingham C. & L. teams have delivered three carloads of ore at depot from H. J. Gregerson's Old Spanish lease, and there are several more

a come, When its consignment of lumber ar-rives the Silver Shield wil build an ore bin of several hundred tons' capacity at the mouth of deep tunnel. It should be completed next month.

WONDERFULLY RICH.

Cattleman Finds Ore Assaying as Much As \$180,000 to the Ton.

Some ore of wonderful richness was brought to town Monday night by a cattleman, named Bevin, who left yes-terday morning for Denver, says the Tonopah Sun. The rock is a likely looking perphyry that apparently is yery rich; one streak through it was a veritable mass of colors. Bevin says he has a 15-foot ledge that assays \$500 across the surface, and that from an eight-inch streak he got an assay of \$180,000 per ton.

There is so much of the romance about Bevin's story that it is very al-luring. He came here as a cattleman and declarges he knows nothing about mining. He got in with a prospector and they took a turn in the hills with the result of finding the rock which he has. He is apparently a truthful man, and those who have seen him are much inclined to believe every word of his story, especially in the light of the wonderful discoveries of very similar nature this summer at Goldfield, Bevin refused to say where the rock He remarked that came from. he would go to Denver and lay his proposition before Dave Moffit, who is a mining man and has the money and ex-perience to handle mines. Several who saw the rock say it looks very much like that at Gold Crater. As circumstance it is mentioned that Revin says it was found about 45 miles from Tonopah, and it is known that he ame in through Goldfield,

idas M. Lawson et al, respondents, A decree involving the ownership of ore. bodies at Bingham, whose worth is esfimated at from \$1,500,000 to \$2,000,000. The full text of the decision has not arrived, so the exact terms of the decree will not be known for several days. The case is one in which the United States Mining company is arrayed against Col. E. A. Wall of this city, and is a fight for possession of the and is a fight for possession of the Kempton lode, known to contain an unlimited supply of high-grade ore. The first round of the contest was won by the Wall interests, but the other side appealed and the decision here an-nounced is the result. That there will be another appeal goes without say-ing; in fact, it was so announced yes-terday afternoon, Col. Wall and Judge Ogden Hiles, his chief counsel, prac-tically admitting that such would be the case. The United States company is represented by Judge Dickson and

is represented by Judge Dickson and associates, who have reserved a discussion of the case until such time as the

court's decree has been received. The story of the controversy, in brief, is as follows: Under lease and bond Col. Wall acquired and debond Col. Wall acquired and de-veloped the Kempton and Ash-land claims and opened up in them large bodies of lead-sliver ore. These ore bodies were found to extend through these claims into ground on the north owned by the United States company and suit was finally brought in the district court here by the United States company, which claimed apex in its Jordan and Mountain Gem claims on the south side of the Kempton and its Jordan and Mountain Gem claims on the south side of the Kempton and Ashland. The district court found for Col. Wall, and the case went to the cir-cuit court of appeals, being argued and submitted 15 months ago. The appel-lant contended that the ore shoots made in the lode lime of the district and that the bodies found beneath the Kempton and Ashland and in the claims of the United States company to the north be-longed to the commany by virtue of this

WILL BUY PAYMASTER. S. L. Adams Jr of Provo Agrees to Pay longed to the company by virtue of this lode apexing in the Jordan and Moun-tain Gem on the south side of the Kempton and passing on down through the latter on its dip. Defendants held that there was no connection between the ore bodies of the Jordan and Kempton and that the lime, as such, and in the absence of a continuous ore-be channel, could not be called and held as ie lode or vein. When the appeal was taken Col. Wall was enjoined from operating the Kempton property, but the court ailowed development to proceed on cer-tain lines and the ores extracted to be sold by Charles Read, who was apits accruing from the sale of ore to be held subject to the final determination of the case and the court's order. The value of the ore bodies in dispute is considered by the United States company to approximate the figures given above, but Col. Wall states that their value is much less.

U. S. Steel Largely Dealt In-Interest Idle Mills Opening -- More Operatives

Being Employed -- Failures

Are Fewer.

New York, Nov. 25 .- Dun's Weekly

Review of Trade tomorrow will say:

Retail and jobbing trade was retarded

by unseasonably mild weather and the

interruption of another holiday; but as

manufacturers extend operations con-

fidence is strengthened by the receipt

of larger contracts for future delivery.

and many inquiries that give promise

to mature in something more tangible.

Postponed orders of all kinds are being

placed, reports from every prominent

industry being that idle mills are re-opening and the number of operatives gradually increasing.

"Cotton spinning makes the slowest progress, but the statistical position

steadily improves as stocks of goods di-minish and the raw material draws nearer the point at which the mills can

operate profitably. Other textile lines, footwear and practically all branches

of the iron and practically all bratches of the iron and steel industry are gain-ing steadily. Some delay is noted in the novement of freight, while railroad re-turns furnished thus far show a gain

of 6 per cent over last year's gross earn-

Foreign trade at this port for the

ast week exceeds that of a year ago y \$2,432,364 in value of merchandise

exports and \$1,533,309 in imports, Prices

of wool are fully maintained at recent

advances, eastern markets ruling quiet

because of timid offerings rather than any slackening of demand. Woolen mills are actively engaged, the only cause of

complaint being the price of raw ma-

inge.

terial.

MILD WEATHER

In Everything Was More Diffused at Close.

New York, Nov. 26 .- Large amounts of the speculative favorites changed hands at the opening in the stock market today within a small fraction of yesterday's closing. The tone was firm and buying confident in recent buoyant specialties, particularly the United States Steel stocks. The early market was in many respects a counterpart of yesterday's operations, consisting in striking advances and an overwhelming proportion of the dealings in the various iron and steel stocks. The coalers also figured largely in the demand, but the general railroad list was quiet,aside from Southern Pacific, which moved up the general radio and the provided of the general radio and the provided a tunately Mr. Oberg was not on this boat, but he took passage on the Falion, which left only an hour later and passed through the fury of the storm referred to. Coming back on the same boat he had a similar experience, the sea being so high that it swept the deck house and part of the cargo off the boat. In the same storm were the Hum-boldt and Cottage City, but all weathtion of prices became strongly upward ered the gile and arrived safely in port, although some time behind schedule. The storms occurred in what is known as Queen Charlotte sound and were the worst that the oldest mariners had again.

Interest in the market became more Interest in the market became more widely diffused in the closing hour, and there was a substantial increase in the purchases of the railroad list. Repres-sentative stocks, such as the Eries, Pennsylvania, Louisville & Nashville, New York Central, Missouri Pacific, Rock Island, Union Pacific, Illinois Cen-tral and St. Paul moved up in the vicin-ity of a point and some minor railroads tral and St. Paul moved up in the vlcin-ity of a point and some minor railroads an dspecialties did as well. The cash loss in the bank statement about met expectations, and the best prices were made after its publication. The United States Steel stocks continued around the high level. The closing was strong and active. and active, Close; Money on call, nominal; no

"Failures this week numbered 205 in the United States, against 258 last year --and in Canada 39, compared with 14 a year ago."

BUSINESS NOTES.

The week has seen a considerable amount of skirmishing between buy-ers and sellers up and down the local stock line, and the largest number of transactions has again been confined to sugars, the common stocks leading in the activity. Utah common rose to \$4.27 on a 1,000-share transaction, the highest point reached for many months past. Amalgamated common contri-buted to the general feeling of exuberancy in sugar stocks, by sending out an eight per cent dividend, the officials in Ogden stating to the stockholders that 2 per cent quarterly hereafter could be relied on. As this means that the com-mon stock will draw 8 per cent per an-num regularly, the explanation of the boom it has experienced of late months is furnished. The last transaction be-fore the dividend was \$141. It now

NEW MINING COMPANY.

Wasatch King Will Develop Claims on Milkmaid Hill.

Special Correspondence.

Provo, Nov. 25 .- The Wasatch King Mining & Milling company has filed ar-ticles of incorporation with the county clerk.

The general office of the company is at American Fork. The capital stock is \$75,000, divided into 150,000 shares of the par value of 50 cents each, based on the valuation of the following mining claims, situated on Milkmaid hill, Silver Lake mining district, in American Fork canyon; Ontario, Ontario No. 2, and Ontario No. 3. The following are the officers and directors: James Chipman, president: James Chipman, Jr., vice president: H. C. Johnson, secretary and treasurer; Edward Winn and John Chadwick

CONDITIONS AT BINGHAM.

festing the Bemis Sizer-Vampa's New Furnace-Red Rover Contest.

At the Kempton mill Wednesday Fred Bomis tested his new sizer, on which a patent has just been issued, says the Bingham Bulletin. It consists of a nest of five screens, in size 24x30 inches and varying from 5x5 to 89x80 mesh. The screens are agitated by a rapid eccentric motion that insures quick and thorough separation, as shown by the experimental run. Apparently the work of the sizer is in ev-ery respect superior to that of the old

RUSH TO BULLFROG.

Lonsway Strike Has Caused Great Ex. eltement in Goldfield.

The Tonopah Sun says it is conservatively estimated that during the past week more than 100 persons have left Week more than 100 persons have left Goldfield for the Bull Frog district. The recent big strike on the Lonsway property, located about three weeks ago by L. V. Lonsway, has caused great excitement in Goldfield. The Lonsway property is just outside of the Gold Center townsite, wing north and Gold Center townsite, lying north and a little east. The ledge is fully six feet wide and assays exceedingly well for the entire width. There is a six inch vein from which the assays run all the way from \$1,000 to nearly \$8,000 The property has been bonded to Ohio capitalists for \$60,000, and development will be begun at once. Work on the property of the Original Bull Frog Mines syndicate, which was recently incorporated under the laws of Arizona and which owns the Cross

claim, practically the first located in the district, is to be pushed rapidly. The 100,000 block of stock which the syndicate placed upon the market was sold within five days, the bulk of it go-ing to Goldfield parties. Owing to the fact that the syndicate has decided to limit its output of stock for the pres-ent at least to 100,000, it was neces-sary to decline the offer of Philadelphia parties to take the entire block of 109,-000 shares as all of the stock had been sold before the order arrived.

The Bull Frog townsite company has let the contract for a tunnel to develop water. There is already one inch in sight, and it is expected that five or six inches at least will be developed. The syndicate expects to be able to ship ore within a month. The first shipment will be made through Goldfield, but thereafter it is probable that

the ore will be sent south and go to Salt Lake over the Clark road.

Strike at Goldfield.

A special to the Tonopah Sun from Goldheld says it is learned that the strike in the Sandstorm group is on the dall claim and that several assays r better than \$10,000 have been ob vein of which the width is inined not learned, is said to average \$3,500 per ton.

Judgment Against Jacobson.

Judgment in favor of plaintiff for \$1,410 has been rendered by Judge Morse in the case of the K. P. Mining company against Tony Jacobson. The company brought suit to recover \$1,500 damages for an alleged breach of con-Jacobson took a contract to do tract. some work on plaintiff's property and after he had done work of the value of about \$90 he threw up the contract.

Centennial . Eureka Posts Dividend

According to advices from Boston, the Centennial Eureka, now a branch of the United States Mining company, yesterday declared a dividend of \$1 per share, payable at once. This means that within the next day or two holders of this stock will share in the distri-bution of the neat sum of \$100,000, an amount easily produced by such a mine as the Centennial Eureka.

Certificate entitling holder to accomrevolving screens it was designed to su-percede. A 150-ton lot of ore from the Kempton will go into the mill bins price. Address, E. S. W. care "News." Central workings at Mammoth greatly

TINTIC BOOMING. "

Vigorous Development Work and Increased Shipments During the Week. Special Correspondence. Eureka, Nov. 25 .- The ore shipments from Tintic district, have increased very materially this week. The Vic-toria has been added to the regular

list of shippers. Four carloads of concentrates were sent in from the Uncle Sam mill. The following mines were the producers:

the lost apparent and included and Memunity ... ctorinerse de seise de la constance innkee Consolidated

Total a service or assessment24 Work is being done on the Zuma group of claims in East Tintic by M.

L. Garity. William Christofferson left this week for Bingham to start work on a group of claims owned by Eureka parties.

A lot of good ore was shipped this week from the Julia Lane mine, located near Silver City. Work is being done on the Brooklyn-Eureka property located in North Tin-

under the direction of Hudson Smith

The Copper property of the Flying Dutchman located at Sheep Rock, West Tintic, is being developed by Herman Hoeseh of Salt Lake and the showing very bright for a new mine.

Jensen and Christofferson shipped a arload of valuable ore from their lease in the Humbug mine McPherson & McKellar, who have had one of the richest leases in the Beck mine, succeeded in having the lease renewed today. The ore body in which they are at present employed is

widening cut and two shifts will be kept busy removing the ore. Griffith Bros. also have a splendid lease in the same mine, and are making good bread On Saturday, Dec. 17, Sheriff Cronin will sell at public auction the Martha Washington, George Washhington,June Rose and Silver Coin mining claims, located in Tintic district, together with engines, boilers, shaft house, black-

smith shop, pumps, tanks, etc. Three carloads of rich ore from the Victoria mine were sent into the smelters this week and another large ship-ment of silver-lead ore will be made in a day or two, which will carry values of 200 ounces sliver and 40 per cent load. The ore body is growing larger every day and two shifts are busily employed removing the precious metals,

St. George, Nov. 24 .- The mining industry seems to be looking up some-what. Isaac Jennings of Salt Lake is at the Daggett house. He is about to resume work at the Grand Gulch, in northern Arizona. ,Yesterday he sent out two teams and 19 men and he himself will start to the mine tomorrow.

\$50,000 for the Property.

encountered in many years. Mr. Oberg says mining in Alaska is

Mr. Oberg says mining in Anaska is quite active, especially in the district above mentioned. The smelter referred to is being built by the Alaska Copper company, which has a large area of ground producing ore carrying values

averaging 15 per cent copper, \$10 in gold and some sliver. Mining is being car-ried on along the hillside and the ore is

make the property the biggest thing that locality.

been opened up. Copper Mountain, the scene of Mr. Oberg's activity, is located on Prince of Wales island and lies 600 miles north of Seattle.

Col. H. L. Pickett of Tombstone, Ariz, and his superintendent, John Larson of Fay, Nev., are also at the Daggett. They are about to resume operations at the Savannac property. S. L. Adams, Jr., of Provo who has been with us for a week or two has just returned home. He has signed a \$50,000 agreement and bond with Mesars. Jarvis and Gregerson for the Paymaster mine, near St. George. He agrees to have a force of men at work on the property within 39 days, and a gasoline noist in operation within 90 days. Mr. Adams will return in two weeks.

CONCENTRATES.

John Dern, president of the Con. Mercur, is expected back from Nebraska tomorrow.

04.71A. O. Jacobson, superintendent of the Columbus Consolidated, is down from the mine nursing a bad cold.

A strike of ore assaying \$65 per ton at the grass roots has been made near Rye Patch in the vicinity of Tonopah.

Receipts at the Pioneer sampler today consisted of ten cars of ore from Tintic, one from Alta and two from Nevada. The Taylor Brunton sampler received

today four cars of ore from Tintic, two from Bingham, one from Idaho and two from Tonopab. R. H. Flaherty, a mining engineer of

Port Arthur, left yesterday for the east, after a short stay in this city. He will return to the beleaguered fortress after the war.

The Majestic Mining company today settled its obligations by checking out the modest sum of \$40,000. With a clean sheet the company is now ready to "stare the whole world in the face and push development to a successful President Mucklow expects to return to the property immediately.

DAILY GRAIN LETTER.

Chicago, Ill .--- Wheat: Minneapolis

stocks increase \$41,000, total now all

grades 9,794,000; Minneapolis reports a big flour sale but unable to get the amount. Some little improvement not-ed in clearances. The trade expects

quite a decrease in the world's ship-

ments on Monday and a more favor-able visible increase. The market ruled

in a narrow rut all through the session.

The principal factor continues to be uncertainty over the Argentine condi-

tions and strength in foreign markets.

While the tone was heavy at the close,

there was no very urgent selling and action of market would indicate it was caused by profit taking movement on a desire to be even on the market over
