LEHI. GOOD WAGES FOR BOYS.

#### More Beet Growing Experts Going to Colorado.

Special Correspondence.

\$\$229,535.03 Lehi, Utah, May 22, 1901 .- About 15,402.27 thirty men and boys, mostly of the latter, left this morning over the R. G. W. Ry, for Loveland, Colo., where they have been employed by the American Beet Sugar Construction company to assist in thinning their beet crop, Mrs. John Brown, Mrs. Chas. H. Barnes and Mrs. Jesse Webb, whose husbands are already in Loyeland acting as field superintendents under the direction of Mr. Mark Austin, chief agriculturist of the American Beet Sugar Construction company, also left for the same destination in the same company, The best thinners will receive from 85c to \$1.50 per day, all expenses and transportation both ways. Some of the lads are not over 16 years old, but nevertheless they can get over more ground in the beet business than any grown person. In about ten days an-other gang will leave, who have al-ready been hired, for the same place and the Loveland company has made no mistake in securing the services of to do their duty in working against the these experienced hands, as they will find the boys know their business and will do excellent work for them. The two Misses Croppers who have been teaching school here during the past season, received a telegram last evening that their grandfather had just died at Filmore and they will leave for that place this evening. The Misses Croppers' home is at Deseret.

# SUFFERING FOR THE Sins of Another

Blood Poison is an universal disease. The enlightened nations of the world, as well as the savage, have been contending with this monster scourge for centuries past. Civilization has not checked its progress. Scientists have discovered little concerning the character of this peculiar poison; they admit it to be a blood disease, for which they know no antidote or cure. Their Mercury and Potash preparations hide the symptoms, but cannot destroy the virus. This disease is so highly contagious that persons handling the clothing, using the same brush or towel, drinking from the same vessel, are inoculated. The deepest misery and humiliation have followed the kiss of affection. Though guilty of no wrong, the person who contracts the disease in this way endures the same physical suffering that the guilty one does. How often is the proud parent horrified when he finds the disease he so confidently believed had been forever driven from his own blood has been transmitted to his innocent child; its

little body tortured with sores, the glands of the neck swollen and knotted and the skin a-fire with some burning, itching eruption. The symptoms of this hideous disease cannot be mistaken; eruptions upon the skin, sores or ulcers in the mouth and throat, copper-colored splotches on different parts of the body and the loss of hair and eyebrows, are infallible signs of Contagious Blood Poison. Other and more destructive symptoms follow, of course, as the disease progresses; the whole skin surface is often covered with a mass of sores, and even bone and tissue are destroyed. This is not a simple disease; do not trifle with it; terrible as are the immediate effects, it is horrible

to think that through your carelessness or neglect others may have to suffer for your sin You may have taken the usual remedies, but the aching bones and slight rheumatic pains the annoying little ulcers and pimples that periodically break out, remind you that you are not cured; that the poison is still in your system.

S. S. S. is a specific for this disease. That it does antidote this peculiar virus, an experience of many years has proven beyond doubt. It is no experiment to take S. S. S. It has demonstrated in thousands of cases its curative powers. Being strictly a vegetable remedy makes it safe; there can be no bad after effect, as is the case where Mercury and Potash treat ment has been taken. It eradicates Contagious Blood Poison completely and permanently from the system and removes all possible danger of contaminating others or transmitting it to posterity. It not only destroys the disease in the early

stages, but even the worst cases give way when the system comes under the influence of S. S. S. Get this poison out of your blood; it is a barrier to domestic happiness; it wrecks both body and mind. Many a bright intellect has been clouded and happy life blighted by this terrible plague

If, unfortunately, you have contracted Contagious Blood Poison, send for our book and learn all about this disease. Every symptom and stage is described so clearly and minutely that after reading it you can treat your own case successfully. Should you at any time need any special advice, you have only to write our physicians; we make no charge for this. Special Correspondence. Logan, Cache Co., May 21.—At a special meeting of the Logan city council, heid hast evening, Mr. Chris-tian Garff laid before that body his Special Correspondence. plan to light the towns of Cache county

by a co-operative electric company. He estimated that it would require about \$60,000 to install the plant, and if a half dozen towns entered the company the original expense for each would be very light. He was not prepared as yet to announce the number of towns which would join the movement, but expected they would reach decisions in the near future. He also laid before the council facts and figures showing how other towns had profited by such an arrangement. Several members of the council spoke in favor of the project, and a committee comprising Councilmen Bal-lard, Fullmer and Wilson was appointed to investigate the matter. Mr. J. W. rate Movement to Suppress Evil.

Brigham City, Boxcider Co., May 20.-A meeting of the Stake presidency, High Council and officers of the Stake and Bishops of wards, met in the Brigham City Tabernacle, May 19, 1901.

After the regular opening exercises President Kelly explained the object of the meeting, which was to put down the growing evils of the city and the wards of the Boxelder Stake. He urged all evils of this city, such as Sab-bath breaking, visiting saloons, profanity, congregating in large crowds on the streets and speaking slightingly of passers by. He was in favor of having a petition drawn up and signed by all the officers of the Stake and presented to the city council, asking them to enforce the law prohibiting ball playing on Sunday and preventing minors from entering saloons, etc.

Counselor Oleen N. Stohl, Stake Superintendent of Sunday Schools J. D. Peters, Stake Superintendent of the Relief Society Susannah P. Boothe, Coun selor F. J. Holton of the Y. Boothe, Coun-selor F. J. Holton of the Y. M. M. I. A. Hattle Wight, Stake president of the Y. L. M. I. A.; Elvira Blackburn, Stake-president of the Primary association, and Net Madre Primary association, and Nels Madsen, superintendent of Re-ligion classes, all heartily endorsed President Kelly's remarks and felt that if the present city officials would not enforce the law that they would try in the future to get officers who would see that the law was carried out. So zealous were they that committees were appointed to take the matter in hand and draw up the petition, obtain signers and present the same to the city council.

It is to be hoped that the desired results will be attained and that the youth of this city and surrounding places will be led along the right path.

Price, Carbon Co., Utah, May 21 .---Col. J. B. Milner of Sait Lake City,

Sam Gilson and associates are keeping up work on their several sections of coal lands north of this town, and are quiring more land almost every week along the main range of mountains to north, every canyon of which is filled with a good grade of steam and | is growing fast, being now on an averdometic coal, and much of which will coke as well, it is asserted, as that at Castle Gate and Sunnyside. They have nine men at work and the source of evenue to the merchants and farmers hereabouts amounts to considerable each month. The gintlemen assert that they have no connection with the Pleasant Valley company, but that when the time comes they will have a genuine surprise to spring on the people in the share of another railroad. which is to build in here.

NEW SCHOOL BUILDINGS.

Up at Colton in Utah county the trustees of the district have begun work on the new school house, which is to be of stone, one story in height and 3ix4a feet. It will cost when completed somewhere near \$3,000, and will be an ornament to the town. There will be new school houses this year at Price, Clear Creek and Sunnyside in Carbon county, and at Castle Dale and Orangeville in Emery county. It is safe o say that twenty-five thousand dollars will be spent in new buildings at

The Acme Comedy company of Hunt-ington presented "Defending the Flag" here last Friday evening to a crowded house for the benefit of the Huntington Academy. At its meeting on June 3rd, the county

commissioners will likely authorize the building of a temporary court house to cost in the neighborhood of \$2,000. It will be in the business district of town, whereas the town hall, where the county has rooms, is removed a considerable distance from the business

There is considerable talk here the last few days of the establishment of a for the past twenty years and have been unable after trying all preparabank in Price with a capital of \$25,000. Provo people are to furnish most of the tions and physicians to get any relief. After taking one bottle of Kodol Dys-pepsia Cure I found relief and am oney. An eastern gentleman is also figuring on the proposition.

If people only knew what we know about Kodol Dyspepsia Cure, it would be used in nearly every household, as there are few people who do not suffer from a feeling of fullness after eating. belching, flatulence, sour stomach or water-brash, caused by indigestion or dyspepsia. A preparation such as Kodol Dyspepsia Cure, which with no aid from the stomach, will digest your food, certainly can't help but do you good.—F C Schramm.

#### MENACED BY GRASSHOPPERS.

Oil Excitement - Many Claims Located-Planting Trout Fry.

Special Correspondence,

Huntington, Emery Co., May 18 .-Grain is coming along nicely. Lucern age about one foot high. Fruit trees are loaded with fruit, and everything looks prosperous at the present time, and scemingly a good harvest is as-sured, or would be if the threatened grasshopper raid does not destroy the crops. In some places they are hatching out by the millions. They are not the old army grasshopper that are not the old army krossopper that invested the country in the early seven-ties, for although they all look alike when hatched, they grow to be all sizes and all colors. They did considsizes and all colors. They did consid-erable damage to the second crop of fucern last year, and if they do as much damage this year as they did last in proportion to the numbers the out-look for both grain and hay is certainly
