

Today's Ogden News

SESSION OF THE CITY COUNCIL.

Work of Sheriff's Office and Police Department Makes Good Showing for 1905.

POLICE CAPTURE BURGLARS.

Interurban Car Line Assured—Groom of 78 Wants Divorce from Three Months Bride of 31.

Ogden, Feb. 6.—The city council held its regular meeting last night and allowed miscellaneous claims amounting to \$4,477.44, and disposed of sundry other matters of minor importance.

It was proposed to change the route of a street leading from the city to the west city limits from Thirty-third street to Thirty-first street, necessitated by the closing of Thirtieth street, and the matter was referred to the law committee.

Messrs. R. T. Harris and C. R. Hollingsworth were appointed to audit the city books at a compensation of \$200, both to have equal authority.

SHERIFF AND POLICE.

Interesting Report of Work Done in 1905.

Ogden, Feb. 6.—The work done by the Ogden police and members of the Weber county sheriff's office during the past year is very creditable, and the heavy sentences meted out by District Judge Howell has had a great tendency to lessen the number of crimes in Ogden and Weber county. The clerk of the court has prepared a report to be forwarded to the state board of statistics, showing the number of criminals who have been convicted in the Second district court. The report shows a total of 21 convictions of felony and the men were all sentenced to the state prison. A notable fact about the report is that not one woman was convicted of a felony or sentenced either to the state prison or county jail from the Second district court during 1905. The crimes and number convicted are as follows: Burglary, 12; adultery, 2; assault, 4; attempt to commit rape, 2; attempt to kill, 1; embezzlement, 1; forgery, 2; grand larceny, 3; robbery, 1; sentenced to the penitentiary, 24, to the county jail, 3.

ALLEGED BURGLARS CAUGHT.

Police Shadow Suspects to Salt Lake and Make Arrests.

Ogden, Feb. 6.—Through quick and active work on the part of the Ogden police, Sergeants Chambers and Tott have arrested the two men who burgled J. L. Clark & Son's company's store a few nights ago. The capture was made in Salt Lake City late yesterday afternoon by the two sergeants, who had been shadowing the two suspects for two days, but they did not make the arrest until they had the men right. The prisoners were brought to Ogden on the evening train and are now behind the bars at the city jail. They give their names as Charles Miller and T. B. Cuney, both young men of good appearance. The first named claims to be a bookkeeper, while the latter says he is a stenographer. Miller has made a full confession to the officers of pawning the goods, but at first claimed that they were taken from Reno, Nevada, and brought here and sold to the second hand dealer. The officers believe that both men will eventually confess to entering the store, as the evidence against them is very conclusive, and a conviction would be easy. The goods stolen from the store have all been recovered, the police having found the silks in less than an hour after the burglary was discovered by Mr. Clark. The men will no doubt waive preliminary hearing and on appearing in the district court plead guilty and take the consequences.

INTERURBAN LINE.

Connecting Salt Lake, Ogden and Brigham City Assured.

Ogden, Feb. 6.—Will J. F. McCarron, and those backing him, could an interurban car line between Salt Lake City and Ogden or Simon Bamberger complete his line to Ogden? is a question that is causing considerable comment. That one or the other of them will build the line is assured, and it now remains to see which one is going to do the work. Mr. McCarron has returned to Ogden from the east where he has been for several weeks financing his project and has succeeded in interesting some wealthy capitalists in the project, and he also has some local capitalists at his back. He states that competent engineers have been at work surveying the proposed route between Salt Lake City and Brigham City, among them being C. A. Damon of Chicago, who has made a very favorable report on the route and project. The interurban electric car line between Salt Lake and Brigham City would mean a great deal more for the districts between the two points than can be realized at the present time, not alone would it help greatly to populate the towns on route, but it would provide ready and easy means for the people getting their products to the markets both in Salt Lake and Ogden, and would help to build up those two cities marvellously. The passenger traffic between these places would be greatly benefited as well as freight. The cost of building a new line the distance would be over \$1,000,000, to between an agreement to be entered in between the Bamberger and McCarron people whereby the line already built to Layton can be used, together with the truckage of the Ogden and the Ogden and Northwestern lines, it would leave only a little over \$500,000 to be constructed in Ogden and Salt Lake City. The assurance is given that Ogden and Salt Lake will be connected by an interurban car line this year, which is good news for both cities.

THREE MONTHS MARRIED.

Peter C. Green filed suit in the district court today for a divorce from

Manager, E. A. Larkin, Telephone 135-k.
408 24th St.

FOUR COUPLES WED.

The county clerk has granted marriage licenses to the following couples: Fred A. Schenck and Miss Amelia Mole, both of lawful age and residents of Ogden.

Fred W. Redfield, 24, and Miss Charlotte M. Stone, 21, both of Ogden City.

Frank Ahl, 34, and Mrs. Johanna S. Huddart, 28, both of Salt Lake City.

Willey W. Huffaker, 21, of Idaho Falls and Miss Imogene Stevens, 19, of Ogden City.

PROVO DEPARTMENT.

The "News" is delivered by carrier in Provo at 75 cents per month. R. J. Dugdale, Agent.

CITY COUNCIL SESSION.

Utah County Affairs—District Court Business—Utah Girl Dies in Canada.

Special Correspondence.

Provo, Utah, Feb. 6.—The following business was transacted by the city council last evening:

Warren Snow and others petitioned for the opening of Second North street from Seventh to Tenth West street. Referred to committee on streets and alleys.

The committee on electric light recommended that a light be placed at the intersection of Third East and Fifth North street, and that no light be placed at the intersection of Fourth East and Fifth North streets for the reason that there is no pole line to the latter point. Report adopted.

The committee on judiciary recommended that the mayor be authorized to write Harris & Co. and Rollins & Sons, and solicit bids for the \$35,000 waterworks bonds, explaining that the issue of the \$35,000 electric light bonds was delayed on account of a failure of the city to purchase the Electric company's distribution system. Report adopted.

UTAH COUNTY AFFAIRS.

The board of county commissioners met here yesterday and transacted the following business:

The boards of trustees of the Lincoln and Pleasant Grove school districts appeared before the commissioners, and the matter of annexing a portion of the Lincoln district to Pleasant Grove district was fully discussed, with the result that no change will be made.

Abel John Evans, George Webb and James Gardner of Lehi appeared before the board and asked that the appropriation by the county for the purchase

of land for the central experiment station farm be increased from \$8,000 to \$10,000. After considering the matter the board decided that it could not increase the appropriation.

An appropriation of \$150 was made on recommendation of County Piss and Game Warden Jones to be used to construct a dam at the mouth of Powell's slough in Lake View on the condition that owners of land bordering on the slough permit the water to be raised to a certain point, which Mr. Jones thinks they will. The slough will then be used as a spawning place for bass, which will be caught in seines and let out into the lake after the spawning season. The slough is considered an ideal place for spawning. One reason for erecting the dam is that the carp may be kept out, as they have become so numerous that they entirely destroy the spawn of the bass, if they are not prevented from entering the waters.

Treasurer Johnson presented statements of the several funds in his office, showing the following balances on hand, Feb. 1:

County superintendent.....\$ 418.25
State school.....1,233.87
General fund.....1,378.23
Jurat and witnesses.....25.90
County school.....3,118.47

Supt. Hales of the county infirmary presented a statement of receipts and disbursements of infirmary funds for January, showing the total amount disbursed to be \$332.92.

The following fees were reported collected in January by county officers:

Treasurer \$27.75, sheriff, \$33.25, clerk, \$26.55; recorder, \$35.95.

FOURTH DISTRICT COURT.

The \$500 damage suit of Gust Anton vs. the R. G. W. Railway company was submitted to the jury yesterday afternoon and a verdict of no cause of action returned.

Judge Childester of the Sixth district is holding court here today hearing the case of Provo City vs. the Telluride Power company et al. The suit involves the rights of the parties to the use of the waters of Provo river in Provo canyon.

UTAH GIRL DIED IN CANADA.

Councilman Powelson of the Third ward received the sad intelligence yesterday that his sister, Miss Colla Powelson, died during the day from an affliction of the heart at the home of her parents, Mr. and Mrs. Powell, at Raymond, Canada. Miss Powelson was 19 years of age and was born in Ogden, where she lived till two years ago, when she moved to Canada with her parents.

PROFESSOR'S FAMILY KINDLY REMEMBERED.

Last night at the faculty meeting of the Brigham Young university, Bishop

LET YOUR STOMACH HAVE ITS OWN WAY.

Do Not Try to Drive and Force it to Work When it is Not Able or You Will Suffer All the More.

You cannot treat your stomach as some men treat a balky horse; force, drive or even starve it into doing work at which it rebels. The stomach is a patient and faithful servant and will stand much abuse—but ill-treatment before it rebels—but when it does you had better go slow with it and attempt to make it work. Some people have the mistaken idea that they can make their stomachs work by starving themselves. That might cure the stomach that way, but it would take so long that they would have no use for a stomach when they got through. The sensible way out of the difficulty is to let the stomach rest if it wants to and employ a substitute to do its work.

Stuart's Dyspepsia Tablets will do the work of your stomach for you and digest your food just as your stomach used to when it was well. You will prove this by putting your food in a glass jar with one of the tablets and sufficient water and you will find food digest in just the same time as the digestive fluids of the stomach would do it. That will satisfy your mind. Now, to satisfy both your mind and body take one of Stuart's Dyspepsia Tablets after eating—at all and what you want—and you will feel a stomach that your food is being digested because you will feel no disturbance or weight in your stomach; in fact, you will forget all about having a stomach, just as you did when you were a healthy boy or girl.

Stuart's Dyspepsia Tablets act in a natural way because they contain only the natural elements of the gastric juices and other elements of the stomach. It makes no difference what condition the stomach is in, they go right ahead of their own accord and the stomach and surrounding conditions do not influence them in the least. They thus relieve the weak stomach of all its burdens and give it its much needed rest, permit it to become strong and healthy.

Stuart's Dyspepsia Tablets are for sale by all druggists at 50 cents a box. They are so well known and their popularity is so great that a druggist would soon think of being out of alcohol or quinine as of them. In fact, physicians are prescribing them all over the land, and if your own doctor is not honest with you he will tell you frankly that there is nothing on earth so good for dyspepsia as Stuart's Dyspepsia Tablets.

Edward S. Partridge presented the sad financial status of the recently bereaved family of their beloved fellow teacher, Dr. Albert Miller. All of Prof. Miller's means had, it seems, been put into a new house, on which there was still an indebtedness of over \$200. His widow was left with two small children, and in a delicate state of health. Lately from Germany, she is without kind or help in this country, to whom she might turn for help in her sore trial.

At the close of the recital the toll was called, and each teacher responded, authorizing the treasurer to pay over a certain proportion of his salary for the current month. None gave less than 20 per cent and many gave more; the result being a sum of over a thousand dollars for a bereaved family. It is believed the citizens of Provo will make up a sum sufficient to lift the mortgage, finish the upper rooms in the home, and thereby place the bereaved ones beyond the fear of immediate want and destitution.

GARDEN CITY NOTES.

John C. Boyd, formerly of this city, but who has lived in Idaho for several years, has returned to Provo with his family. Mr. Boyd has become afflicted with blindness, and is arranging to go east for treatment.

On Monday, the 12th, the Brigham Young university will open a special four-weeks' course in agriculture, for the farmers of Utah county and vicinity.

Alma Van Wagenen is erecting a building to be used for an implement house.

FAMOUS ANTARCTIC EXPLORER.

Otto Nordenskjöld, the Swedish explorer who made the famous expedition to the antarctic, spending two years among the ice fields in that frozen region, is now in America on his wedding tour. He is professor of geography at the University of Upsala. This young

Swedish scientist is a nephew of the famous Baron A. E. Nordenskjöld, the arctic traveler who made the northeast passage for the first time. Dr. Nordenskjöld is about thirty-seven years of age.

MODERN CAVE DWELLERS IN ASIA MINOR.

The cut represents a present day village of troglodytes, or cave dwellers, in Cappadocia, Asia Minor. The entire region is of volcanic origin, and there are at least 50,000 of these cone caves which have been used as dwellings since the days of the Roman empire. The occupants have produced many architectural effects, and some of the villages are fortified with walls and battlements. The modern inhabitants of these cave dwellings differ in no wise from the other races in this Turkish province, most of them being members of the Orthodox Greek communion worshipping in churches hewn out in these conic formations, the material of which resembles pumice.

MERCURY MAKES WRECKS NOT CURES

Thousands who have had their health ruined by Mercury testify that it makes wrecks instead of cures in the treatment of Contagious Blood Poison. While it may mask the disease in the system for awhile, when the treatment is left off the trouble returns with renewed violence, combined with the disastrous effects of this powerful mineral. Mercury, and Potash, which is also a common treatment for Contagious Blood Poison, eat out the lining of the stomach and bowels, produce chronic dyspepsia, cause the teeth to decay, make spongy, tender gums, affect the bones and muscles, and leave its victims complete physical wrecks. Another effect of this treatment is mercurial Rheumatism, the worst and most hopeless form of this disease. There is but one certain, reliable antidote for this destructive poison, and that is S. S. S. It is the only medicine that is able to go into the blood and cure the disease permanently. S. S. S. does not hide or cover up anything, but so completely drives out the poison that no signs of it are ever seen again. S. S. S. is made entirely of roots, herbs and barks, and while curing Contagious Blood Poison, will drive out the effects of any mineral treatment. We offer a reward of \$1,000 for proof that S. S. S. contains a particle of mineral of any kind. Book with instructions for self-treatment and any medical advice wished furnished without charge.

S.S.S. PURELY VEGETABLE.
