

DRUGGISTS ARE IN CONTEMPT OF COURT

Twenty-five Hundred So Declared By Judge Dunne of Chicago.

NATIONAL ASSOCIATION FINED.

Defendants Were Guilty of Violating An Injunction Issued by Court.

Chicago, Aug. 31.—Twenty-five hundred retail druggists in the United States were declared guilty of contempt of court by Judge Dunne of the circuit court today and the National Association of Retail Druggists, of which they are members, was fined \$2,500.

The injunction under which the druggists' association was fined was secured by Judge Platt, a retail druggist of Chicago in November, 1902, and restrained them from interfering in any manner with the securing of supplies by Platt, who had incurred the association's displeasure.

Platt has been deprived of the right in this community to sell goods. Judge Dunne said in rendering this decision: "Nothing can be more clear than that a combination that has succeeded him from securing supplies, and this court enjoined the defendants in this case from carrying out their plan to prevent Platt from obtaining goods."

Platt charges that he has been black-listed and boycotted by the association and that through its influence all the wholesale houses in Chicago have refused to sell him supplies. The association made its defense upon the plea that Platt was attempting to sell the goods at wholesale, thus cutting prices.

Platt has fought the association for two years in the courts and it was charged in court that the association several times asked him to give up the fight and join the alleged combination, asserting that they would then cease to molest him.

COOK CO. REAL ESTATE.

For Taxing Purposes It is Worth \$1,574,902.700.

Chicago, Sept. 1.—Cook county's real estate is worth, for taxing purposes, \$1,574,902,700 according to the total determined by the board of review of the 1904 assessments. This is full valuation, on which the tax will be about 1.2 per cent. The total is an increase of \$2,112,025 over last year's total.

For the city of Chicago the gain in the value of real estate is nearly \$10,000,000 representing about \$31,000 more revenue from taxes for city purposes. The total for the city this year is \$1,455,847,735 against \$1,445,418,445 last year.

Japs Ready to Move.

Mukden, Aug. 31.—Delayed—A Japanese force of 10,000 is prepared to be advancing in the northeast of Mukden.

SCARED TO DEATH.

Automobile Frightens a Woman So That She Dies.

Newport, R. I., Sept. 1.—A rapidly moving automobile has caused the death here by fright of Mrs. Green of Paterson, N. J. The woman was awaiting a car bound for her boarding house, six miles distant. As she stepped from the sidewalk to board the car, a large automobile went past with a roar. The suction almost threw her down. She screamed with fright and fell. Doctors were quickly summoned but the woman was dead when they arrived. Heart disease superinduced by the shock was found to have been the cause. The motorist escaped unidentified.

Wettest August in Years.

New York, Sept. 1.—Statistics compiled by the local weather bureau for August show that it was the wettest here in 20 years with a total of 3.16 inches. The rain fell to the amount of 7.13 inches. This was only exceeded in the year mentioned by .05. The mean temperature was 72 degrees, a trifle below normal.

Gathering of the Smith Clans.

New York, Sept. 1.—Three thousand or more Smiths have gathered at Peapack to celebrate the annual reunion of that famous family in New Jersey. Every county in the state was represented and there were visiting Smiths present from many other states. The custom of holding the family reunions was inaugurated in 1890.

PRICE OF BEAMS.

Indications Are That It Will Be Reduced Materially.

New York, Sept. 1.—If the program of the leading members of the Beam Association, now in session here, is carried out, there will be a reduction in the price of beams and structural material of from 35 to 40 per cent, from the base of 1.60 c. per pound. Pittsburgh, says the Iron Age. It is known that the mills have reached an understanding about prices for fabricated material, so that a safer basis is reached in that respect. The new price for fabricated material has gone into effect, and while it temporarily checked business, that effect has now worn off.

The leading outside new maker of beams has not joined the association as yet, but it is understood that this producer will act in harmony with the association in any case.

There is to be held today also a meeting of the beam association in which lower official prices probably will be decreed. Just how much of a reduction from the base price of 1.60 c. at Pittsburgh will be agreed upon, it is difficult to forecast, because opinions differ widely. Some important interests are reported as favoring so radical a measure as a cut of 1.25 c., but in any case 45 per cent will probably be accepted. Until the exact measure of the cut is known it is difficult to gauge their probable effect on the trade. It is hardly likely that it will stimulate buying until the strength of the market under the new conditions is thoroughly tested. It is not believed that any extravagant expectations are entertained by the great mill interests of any marked stimulation of the demand. The trade is expected before stating, but the trade is on a sealer basis.

It is regarded as probable that, in line with the same general policy, there will be an early reduction of 15 to 20 per cent on steel bars and that pre-

Bad Blood

Pimples, rashes, eczema, boils, headache, nervousness, debility—these are some of the results of impure blood. Medical authorities agree that impure blood can be made pure and rich. Your doctor will tell you about Ayer's Sarsaparilla.

Bad blood follows constipation, and constipation is caused by a sluggish liver. Ayer's Pills are liver pills. They produce natural daily movements in a natural way.

25 cents. J. C. AYER CO., Lowell, Mass.

vailling conditions will be frankly accepted by an official report in the price of bolts to a \$12 to \$20 range.

When that has been accomplished the new prices from pig iron to the various finished forms will be in harmony and no serious element of uncertainty is removed.

The only branch in which prices are out of line is in standard steel rails. These it is expected will be dealt with at a meeting of the manufacturers, which probably will be held early in October.

Aside from sales of the low phosphorus pig iron in the east, aggregating about \$50,000,000 in tons, no very important transactions have taken place in pig iron. The prospect of an early resumption of work at the collieries of the Birmingham district are becoming less favorable.

CRETE AND GREECE.

Prince George Said to Be on a Mission to Annex the Former.

New York, Sept. 1.—The departure, recently reported, of Prince George of Greece from Crete, which island he is governor, on a mission said to be with the object of inducing the powers to consent to the annexation of Crete to Greece, has aroused Turkey to energetic diplomatic action, according to a Times dispatch from Paris.

It is stated that a note has been received in Paris from the sublime Porte to the effect that a certain number of Cretans have decided to raise the banner of revolt against the sultan, to proclaim the independence of Crete as a preliminary to demanding the annexation of the island to Greece, and to send a petition to Prince George, who is en route for Copenhagen, acquainting him with this decision and asking him to accept the new state of things and incorporate it in the basis of his negotiations.

The Porte does not guarantee the strict accuracy of this information, but instructs the Turkish embassy in Paris, in the event of such a proposition as is outlined being made to the French government, to protest most energetically against any interference with the integrity of the Ottoman empire.

The Porte adds that it cannot believe the European powers will break their oft-repeated pledges to maintain the status quo in the near east.

DIVORCES INCOME.

New New York State Law Cuts Them Down Materially.

New York, Sept. 1.—Men who have been paying alimony to a former wife married after getting her decree are celebrating over the new state law, which goes into effect today and cuts off the income of thousands of divorces now living with their second husbands. According to the new statute, alimony payments assessed against an ex-husband are to continue only so long as the woman shall remain unmarried.

A good many persons, not a few of them in the theatrical profession, will be able to visit New York for the first time in years, except on Sunday, they having received the instrument of divorce that makes the required payment in default of which they could have been sent to jail.

August Incorporations.

New York, Sept. 1.—Monthly returns of new incorporations in eastern states have not been so light in a series of years as those compiled for August. They show a total for companies with a capital of \$1,000,000 or more of only \$2,000,000. Maine heads the list with \$1,200,000. The nearest approach in recent years to this low record was in February last, when the figures were \$2,750,000.

A Great Telescope for Harvard.

Boston, Sept. 1.—Harvard observatory is to add to its equipment what is considered to be one of the largest efficient telescopes in the world—a five foot aperture reflecting instrument constructed by the English astronomer, A. A. Common.

Before the death of Common, Prof. Pickering had some correspondence with him in relation to the telescope, which had been ordered for some years, and learned that he was desirous that the instrument should come into Harvard's possession. The instrument is now being packed for shipment to Cambridge, having been built for only \$30,000, an anonymous gift to the observatory two years ago.

The site chosen is an open space in the easterly part of the observatory grounds. It is not intended to erect a dome, as the great height of the telescope, about 27 feet, would make such a building too expensive. The new telescope will be used mainly for photographic work.

SENATOR FAIRBANKS.

Makes His First Rear Platform Speech at Kansas.

Topeka, Kan., Aug. 31.—Senator Fairbanks, the Republican nominee for vice president, arrived here on a special train over the Rock Island road, and was heartily greeted along the route. This evening he was given a reception here by the Topeka Commercial club. Tomorrow morning Mr. Fairbanks, National Committeeman Mulvane, Senator Lodge and the Kansas delegation in Congress will go to Marion, the home of W. W. Hoeh, the Republican nominee for governor, where the Republican campaign in this state will be formally opened.

CURE FOR SICK-HEADACHE.

We had a letter the other day from a lady in the town of Boulder, Colo., that should be of interest to people who are troubled with spells of sick headache. She writes that she had these spells about four times a week, was obliged to go to bed and remain there from 3 to 10 hours each time. Had been troubled this way for several years, and the attacks became more frequent. Doctors did her no good, she tried dieting, and sent her for two boxes of Dr. Gunn's Improved Liver Pills, which said they cure sick-headache by removing the causes, she decided to try one more, and sent her for two boxes. She said she had taken the last pill more than 4 months ago, has not had a sick spell of any kind for over 5 months. Druggists sell these pills for 25c per box. It only takes one for a dose, they cure sick-headache every time.

opened. The principal address will be given by Senator Fairbanks. At Trenton, Mo., the county seat of Grundy county, there was an impromptu meeting and the senator made his first rear platform speech in this state. When the train pulled into the station, a large assemblage of people was found gathered on and about the platform, and there were loud calls for the senator. He responded promptly, saying that he had no special great interest manifested in the campaign than at that point, and adding: "If the American people take to their homes and their firesides the great public questions there can be no possibility that the verdict to be rendered will be rendered in their interest and in the interest of our common country. If Missouri shall take counsel of her highest and best interests she will ally herself with the hosts of Republicans."

The speech was received with applause and at its conclusion many of those present came forward to shake hands. Included among them were several who were introduced as Democrats.

CITIZENS' ALLIANCE.

Interstate Mercantile Co. Seeks to Restrain It.

Denver, Colo., Aug. 31.—Suit was filed in the United States circuit court today by the Interstate Mercantile company, represented by H. M. Halperindinger, secretary and treasurer, against the Citizens' alliance of various "bookies" of the mine country, whose members number more than a score of leading citizens of Colorado Creek and Victor.

An injunction is sought to enable the company, organized under the laws of Missouri, to resume its business in the cities of Colorado Creek and Victor, Colorado, without the interference of the Citizens' alliance and the Mine Owners' association, whose members on July 20 looted and wrecked its store and deported its manager, clerks and all connected with the concern, forbidding them to return save at the peril of their lives.

Sherriff Edward Bell, who failed to protect the complainants, is also made a defendant in the complaint.

Chicago's Population.

Chicago, Aug. 31.—Population is on the ebullient in Hyde Park and on the flow in the ghetto. Returns from the municipal school census show that in the last two years the minor inhabitants of Chicago have increased in number nearly 3 per cent, and that the greatest growth has been in the crowded foreign settlements. The census, which was the most elaborate ever made by the educational officials, was taken in Chicago there are 580,000 persons under 21 years of age, as against 572,262 in 1902. In the outlying wards the figures are lower in many instances than in 1902, while in Hyde Park and other desirable residential districts there has been a noticeable falling off in the number of the rising generation.

The most populous ward, so far as minors are concerned, is the Twelfth, which contains 32,142 persons under the age of 21 years.

Glass Prices Advance.

Pittsburg, Pa., Aug. 31.—Evidence of a shortage of window glass was shown today by the withdrawal of former quotations by the American Window Glass company, the leading producer, and the only concern operating factories in the country. Prices have been advanced from 15 to 20 percent over the rates prevailing last week, and the company is said to be quoting 30 percent off the list on all desirable orders.

Several factories in the west are today to start tomorrow, and others are expected to do so later in the first of the coming week.

Whitcapper is Sentenced.

Spokane, Wash., Aug. 31.—Nat Turner, the whitecapper of the state, was sentenced to pay a fine of \$500 and costs. Sentence was passed by Judge Neal at Colville this morning. The other whitecappers in the state are in jail. Turner will serve out his fine in jail.

SECY. SHAW.

He Formally Opens the Campaign in Oregon.

Portland, Or., Aug. 31.—The first gun of the Oregon campaign was fired at the Marquam Grand theater tonight when Secy. of the Treasury Leslie M. Shaw addressed a crowded house upon the issues of the campaign. Mr. Shaw analyzed the political situation at various points affecting Mr. Roosevelt's nomination in a forceful manner, eliciting frequent bursts of applause from his hearers.

This is Mr. Shaw's first visit to Portland and Oregon, and with his visit to this state he has completed a chain of visits to every state in the Union, Idaho, Washington and Oregon being the only states he had not visited when the present tour was started.

Mr. Shaw will be variously entertained today by a drive around the city and to the Lewis & Clark exposition grounds. Late this afternoon he was the guest of honor at a dinner served at a suburban resort.

Mr. Shaw will go to Oregon city tomorrow to deliver an address to the employees of the great paper mills there. Tomorrow evening he will address the people of Salem and continue his trip to other points, stopping at various points en route to promote the interests of Mr. Roosevelt for the presidency.

SHERIFF BELL.

He Formally Declines Services of Colorado Militia.

Cripple Creek, Colo., Aug. 31.—In a letter to Gov. Peabody, Sheriff Edward Bell has formally declined the services of the state militia to preserve order in this district and expressed the belief that "the best interests of this county and state will be satisfied through the determination of the sheriff's office and the will of the best people of this district."

"I believe," writes the sheriff, "that most of the disturbances occurring recently in this district have been occasioned by the united efforts of the Western Federation to create an impression of alarm regarding life and property in this locality and bring disruptive and edifying upon administration of the sheriff's office."

Juarez, Mex., on Fire.

El Paso, Tex., Sept. 1.—The city of Juarez, Mex., across the river from El Paso is threatened with destruction by fire. Already one block of the best business houses has been burned and all efforts of the fire department have thus far been futile. The loss will be heavy.

E. M. SHEPARD TALKS.

He Speaks on National Issues at Bennington, Vt.

Bennington, Vt., Aug. 31.—From the steps of the Bennington court house tonight Edward M. Shepard of New York spoke on national issues, urging his hearers to support the Democratic party ticket in the state election next November.

He said that Judge Parker is elected the following reforms will be instituted: The return of the executive to the responsibility of law, national and international.

A refusal to meddle with the affairs

YOU CAN BE CURED

Munyon's Watch Word is "Hope," His Remedies Bring Health.

When Munyon says "There is hope" it is simply the expression of an opinion based on his own past experience in the homes of the people where his remedies have brought happiness and hope to hundreds of thousands of afflicted ones.

Munyon's Remedies cure because in their composition is concentrated the knowledge and researches of the brightest medical minds that the century has produced.

There are no "cure alls" among them, but his list of remedies contains a separate cure for each disease. That is why they are called home remedies, or the "family doctor," as they are frequently termed by those who depend upon them absolutely to keep the household in good health.

Munyon's Rheumatism Cure has cured thousands of sufferers from all other rheumatism remedies combined.

Munyon's Kidney Cure has saved hundreds from Bright's Disease and never fails to level the help ailing kidneys.

Munyon's Paw-Paw Laxative Pills keep the liver in healthy action, and rid the system of all obstructions, indigestion, jaundice and all other ailments arising from a torpid liver.

Munyon's Catarrh Cure may be depended upon to cure all forms of dyspepsia, indigestion, sour stomach and to keep the digestive organs in perfect condition.

Munyon's Paw-Paw Tonic is the greatest help to the run-down, the nervous and the depressed. It drives the blues away, gives all the exhilaration required for the cure of all disease and will make you feel like a new person.

Send for Munyon's Magazine and Guide to Health. They are free, but are worth their weight in gold. At all druggists.

Munyon's Witch Hazel Soap makes the skin soft as velvet.

of other nations except when it is necessary to protect our own rights.

A consistent effort to reform the tariff, and especially to abolish or to reduce those duties, the plain effect of which is to create monopolies and to diversify American industry, but rather to stifle it.

A return to public economy. A resolute investigation of the executive departments.

The granting of independence of the Philippine people.

A dissolution of the partnership between the great corporations and the United States government.

A refusal of subsidy to the shipping or any other interest.

A refusal to reopen the negro question.

CALLED ON STRIKE.

Because Firm Refused to Discharge a Non-Union Driver.

Boston, Sept. 1.—Because Youden, Smith and Hopkins, a firm of teamsters in this city, refused to discharge a driver who would not join the Team Drivers' union, and who was working at a scale lower than that demanded by the union, 35 employees of the firm have been called out on strike.

Cornelius Shea, national president of the union, has been requested by the local union to declare a general strike of team drivers here, as the union claims that the masters are united in an endeavor to crush the union.

Land Seekers at Blackfoot.

Blackfoot, Ida., Aug. 31.—The line at the United States land office, in readiness for the opening of the Fort Hall reservation lands near Postville, Ida., which takes place Sept. 6, is growing steadily. The crowd is continuing to grow daily and good natured. It is apparent that the whole tract thrown open will be applied for.

Inquiries pour into the land office offices from all parts of the country, and the outlook is that an immense crowd will be lined up by Saturday. Today several women put in an appearance, but were discouraged by the size of the crowd and the prospect of a long wait. They expect to return later in the week, however. An effort was made today to have all in line sign an agreement that each would respect the rights of those who hold a number, but it was soon overruled. Fear of complications prompted the action. Had this been done it would have relieved the strain and permitted the parties in line freedom they do not now enjoy.

The weather continues favorable, and determination is written in the faces of the weary waiters. Practically every walk in life is represented in the line-up.

DRIVEN FROM HOME.

G. N. Hooten of Anaconda, Colo., Escorted Out of Town.

Anaconda, Colo., Sept. 1.—Last night 12 men quietly visited the home of G. N. Hooten, a well known contractor in this being the last heard from him. Hooten was released from the county jail about 10 days ago on bonds.

He is charged with complicity in the Victor rioting of June 4. As soon as the deportation was learned, by Sheriff Bell, he took two deputies and went in search of the deporting committee. After riding the hills for nearly two hours they returned to Victor Creek without seeing or hearing of the deportee or deportees.

Officers Bid Men Farewell.

Vladivostok, Sept. 1.—The officers and crew of the cruisers Russia and Cronos today bid farewell to Commander Dabich and Lieut. Dietschhoff, both of the Gromobol, who were wounded in the recent battle near Tussu island. The officers will start for Russia tomorrow to recuperate. They will visit Moscow first and afterward go to St. Petersburg. The parting between the officers and their men was an affecting scene.

Kansas Labor Leader Arrested.

Topeka, Kan., Aug. 31.—A. E. Ireland, an American Federation of Labor official, who is being conducted to St. Louis by Sheriff Lightfoot of Fort Madison, Ia., Ireland is wanted on a charge of assault with intent to kill.

Neglected Colds.

Every part of the mucous membrane, the nose, throat, ears, head and lungs, etc., are subjected to disease and blight from neglected colds. Ballard's Horehound Syrup is a pleasant and effective remedy. 25c, 50c, \$1.00. W. Akendrick, Valley Mills, Tex., writes: "I have used Ballard's Horehound Syrup for coughs and throat troubles; it is a pleasant and most effective remedy." Sold by Z. C. M. I. Drug Dept.

WHAT RUSSIANS DO WITH THE HEADS OF CHUNCHUSES.

The struggle of the Cossacks and other Russian troops against the Chinese mountain bandits known as Chunchuses is fierce and unrelenting. So far the campaign against the brigands has only resulted in scattering the robbers, not in exterminating them. When the bandits are caught alive a terrible fate awaits them. They are summarily tried and executed, their heads being hung aloft in baskets, as shown in the illustration, that the greivous spectacle may be a warning to others. The Chunchuses are bitter in their hatred of the Slav troops and will doubtless cause trouble before the war is ended.
