

STATE DRUGGISTS CLOSE CONVENTION

Pharmacists Elect Officers and Listen to a Number of Spicy Talks.

COL. WHEELER HIMSELF AGAIN

Speaks Out in Defense of a Ladies' Auxiliary—Enjoyable Banquet Last Night.

The Utah druggists concluded last evening their two days' convention, the first time they have met in 10 years. It was an enjoyable affair in every way, and the knights of the mortar and pestle determined that no 10 years shall slip by again without a meeting. Officers were chosen late in the afternoon as follows:

President—F. C. Schramm, Salt Lake. Vice President—Sidney W. Badson, Ogden. Second Vice President—B. F. Riter, Logan. Secretary—George W. Luft, Mercur. Treasurer—George W. Read, Salt Lake.

OLD-TIME MEMBERS.

The minutes as read by Secretary Clarence McCoy of the old association, showed that the last meeting was held June 2, 1895, and only two of the old officers were left. Dr. George H. Fenimore of Heaver, the president, and Dr. Clarence H. McCoy of this city, the secretary, were present at that meeting 12 members, the meeting being the fourth ever held in this city. President Fenimore made an interesting and pathetic address on the old time association, referring incidentally to some of the old members.

COL. WHEELER TALKS.

After the reading of the papers mentioned in last evening's News, "Our Tongue-Tied Friend," as Chief Clerk Austin of the Knottford affectionately terms him, Colonel Daniel Youmans Wheeler of Denver was introduced. The doublet, colonel, with that self-same air of unimpaired confidence, A. A. which he was once wont to face the enemy at the head of a regiment of colored troops, opened up with witty remarks that resulted in various and sundry convulsive attitudes on the part of his quaking audience. He made a few suggestions as to success from the standpoint of a commercial drug traveler, and then, in a lecture on the profession "when Noah was a kid," and he advocated as a means of success for the Utah druggists the association of the Colorado druggists have such an auxiliary attached and it works to their charm. He also advocated admitting commercial drug travelers although the Colorado druggists have such an auxiliary attached and it works to their charm. He also advocated admitting commercial drug travelers although the Colorado druggists have such an auxiliary attached and it works to their charm.

McCoy on State Boards.

A finished feature of the afternoon, was a well prepared paper by Dr. Clarence McCoy of this city on "The State Board of Pharmacy in its Relation to the State Pharmaceutical Association." Dr. McCoy advocated more stringent laws in regard to the class of young men who apply for apprenticeship in the drug business, and urged especially that they be required to possess at least a high school education before being allowed to become apprentices. He criticized the laxity which allowed the business which should be done by registered pharmacists, to be done by country shop keepers. It was the duty of the state board to put a stop to this, and not allow the profession to degenerate into a mere mercantile calling. The paper was very well received.

THOSE PRESENT.

The matter of organizing an interstate association was left to a committee. The following druggists attended the convention: Dr. George H. Fenimore, Heaver; F. C. Schramm, James L. Franklin, Salt Lake City; F. M. Brown, American Fork; Archibald Boyan, Tropic; Herman Harris, Salt Lake; J. C. Vines, Idaho; L. E. Eberhart, Collinsville, Ill.

TEA

We manage our business to serve the whole people, so far as the people want to be served.

Fifty Years the Standard

PRICES BAKING POWDER

Made from pure cream of tartar derived from grapes.

PRICE BAKING POWDER CO., CHICAGO.

TWENTY YEARS AGO TODAY.

(DO YOU REMEMBER?) Mrs. Minnie Wallace Walkup was arrested for poisoning her husband. The Walkups were prominent people of New Orleans and had been married but a month.

TEN YEARS AGO TODAY. Henry E. Roll committed suicide at Kansas City. He was the fourth prominent man to kill himself in that city within four days.

FIVE YEARS AGO TODAY. Aaron S. Hawkins, a "Morison" missionary, was arrested near St. Louis for causing an accident to a child. He lifted the little one to the platform when it fell and rolled under the moving train.

WHAT IT CONTAINS.

In speaking regarding the reservation Mr. Parker this morning stated to the "News" that there were 1,435,000 acres of land on the reservation, 800,000 of which were among the finest agricultural lands in the country while 600,000 acres consisted of timber lands. There are two transcontinental railroads passing through this section and another close in the Flathead while some splendid markets were accessible in the form of Butte, 140 miles distant; the Coeur d'Alene lead producing district, 75 miles; Missoula, Mont., 45 miles, and Spokane but 150 miles away.

It is proposed that the opening of the Flathead reservation will be attended by simpler methods than those connected with the rush now on. The Utah reservation a man drawing a number has to go on the reservation and pick out his land. Even then he is not sure that the section has not been already taken up and he will have all the trouble and expense for nothing. To offset such uncertainty the company Mr. Parker represents has two land experts going over the reservation. Maps of the Flathead have been prepared and ruled off into 40-acre squares. The best 40 acres will be No. 1, the second best, No. 2, and so on. Under this arrangement a man who has drawn a number can simply make his selection in order from the map, get the description and file upon the same without going to the expense of a preliminary investigation unless he feels so disposed. This new scheme, it is thought, will greatly simplify matters and do away with the present confusion.

WOMEN ENTER PROTEST.

Trouble is approaching rapidly for Silver Brothers Iron Works, located at 149 west First North street, for a league of women is banding against it. The women are matrons who are trying to rear children in the vicinity of the foundry, and don't like to have the dear little things grow up in the resemblance of Hottentots. Soot and smoke is the chief grievance against the foundry, while a secondary one is the fact that electric hammers and riveting machines, which have been at work night and day recently, have made sleeping anything but a comfort.

WILL BID ON ALL KINDS.

Col. Wall and other members of the board of public works agreed with the engineer that the natural asphalt is much superior but they urged that bids be called for on the various qualities so that in the event that there were no bids on the highest quality of asphalt, the next best can be secured without delaying the improvement on the street. The specifications will be amended so as to call for bids on the various kinds of asphalt and in the future the contractors will be compelled to state in their bids the exact quality of the asphalt they intend using.

Despondent Lover Suicides.

San Francisco, Aug. 22.—Despondent, believed to be due to the fact that he was unable to secure funds to return to his sweetheart at her home in Belfast, Me., is believed to be the cause of the suicide of Charles Skinner, who killed himself by inhaling illuminating gas today in his room on Fourth street.

FACT! Anyone can.

OPENING OF THE FLATHEAD RESERVE

Officials of Information Agency Getting Pointers from Uintah Opening.

SUBJECT TO ENTRY NEXT SPRING

Reservation is Located in Montana and Has Thousands of Acres of Good Land.

The Flathead reservation information agency has been getting pointers from the Uintah drawing with the object in view of greatly improving upon the present methods in vogue. With this object in view Frank W. Parker, a former Salt Lake, now a resident of Butte, and C. E. Woodworth have been attending the drawing at Provo. Today Mr. Parker returned to Salt Lake on his way home and Mr. Woodworth went on to Vernal and will study the opening through to the finish.

It is expected that the Flathead reservation will be open for entry next spring under the Dixon bill which passed Congress April 23 of last year.

WHAT IT CONTAINS.

In speaking regarding the reservation Mr. Parker this morning stated to the "News" that there were 1,435,000 acres of land on the reservation, 800,000 of which were among the finest agricultural lands in the country while 600,000 acres consisted of timber lands. This new scheme, it is thought, will greatly simplify matters and do away with the present confusion.

Rheumatism.

When pain or irritation exist on any part of the body, the application of Ballard's Snow Liniment gives prompt relief. R. W. Sullivan, Proprietor, Home, E. B. Co., writes, June 6, 1892, of the pleasure in recommending Ballard's Snow Liniment to all who are afflicted with rheumatism. It is the only remedy I have found that gives immediate relief. 2c. Sold by Z. C. M. L. Drug Dept. B.

FACT! Anyone can.

Temple street, to consider the matter of waging a fight for the abatement of the alleged nuisance. The women assert that the smoke from the iron works makes clean houses and clean clothes an impossibility, and when their children sleep out of doors on hot nights, covers them with soot till it is only with difficulty that they can be cleaned again.

Was Wasting Away.

"I had been troubled with kidney disease for the last five years," writes Robert R. Watts, of Salem, Mo. "I lost flesh and never felt well and doctored with leading physicians and tried all remedies suggested without relief. Finally I tried Foley's Kidney Cure and less than two bottles completely cured me and I am now sound and well." During the summer kidney troubles are often caused by excessive drinking or being overworked. Attend to the kidneys at once by using Foley's Kidney Cure. For sale by F. J. Hill Drug Co.

PROVO CANYON AND RETURN, \$1.25
