GENERAL NEWS.

Fanny Davenport's Robber Captured at Kansas City.

DESTRUCTIVE WATERSPOUT.

The Utah Bill Conferees Don't Agree.

THE COMMERCE BILL IS SIGNED.

THE STRIKE GAINS MEMBERS—THE NEW JERSEY MUDDLE, ETC.

By Telegraph to the NEWS.]

The Thief Captured.

KANSAS CITY, Feb. 4.—Charles W. Talbott, night clerk on the Gayoso House, Memphis, who decamped on Tuesday night with the diamonds of Miss Fanny Davenport, was arrested to-night in this city. The diamonds were found intact in a small satchel in Talbott's room. He admitted his guilt and said he was compelled to do it by his mistress, who importuned him for money. He had arranged to meet her here next Tuesday, when they were to go to Chicago. He says he took $175 in money, and of this he turned over $150 to the officers. He asserts that he thought the jewels were worth only $3,000.

A Waterspout.

NASHVILLE, Feb. 4.—A dispatch from Carthage, Tennessee, to the *American* says: Chestnut Mound, ten miles above there, was visited Wednesday night by a waterspout which carried death and destruction in its wake and almost ruined that section of the country. Near midnight a solid body of water was precipitated and swept down the valley with terrible force. One small branch rose fifteen feet in a few minutes. Rushing upon David Bush's house, the water lifted the structure from its foundation. The building fell to pieces and floated away. Bush and his family being asleep were not aware of the danger until they were thrown from their beds into the water. The darkness was so intense that Bush was unable to render assistance to his family, but when he made his way out of the water he found that all had escaped with the exception of his ten-year-old son. The little fellow was heard crying for help and Bush again plunged into the flood but could not find the lad. Bush was caught in some drift wood and narrowly escaped being drowned. The body of the boy was found Thursday morning.

WASHINGTON.

The Conference Committee Don't Agree—Commerce Bill a Law, Etc.

WASHINGTON, Feb. 4.—As a result of the conference, lasting all day, on the anti-polygamy bill, the representatives of the two Houses are reported to be slowly approaching an agreement on the measure more nearly resembling the House bill than that passed by the Senate.

NOMINATIONS.

Richard A. Jones, of Oregon, to be Chief Justice of the Supreme Court of the Territory of Washington.

Frank Allyn to be Associate Justice of the Supreme Court of the Territory of Washington.

James H. Wright, of Missouri, to be Chief Justice of the Supreme Court of the Territory of Arizona.

Secretary Manning's letter, presented to the House last Wednesday in reply to Wilkin's resolution calling for information as to whether the small United States notes had been replaced with those of larger denominations, was received with ill-grace by a number of Representatives who are regarded as "silver men," assleaning towards the soft money policy. Some of them, after subjecting the document to a careful scrutiny, declare that aside from the notably disrespectful tone, the paper shows clearly that Secretary Manning has

VIOLATED THE LAW

regulating the issue of United States notes and has also, as it is alleged, failed to make the purchases of silver bullion every month to the full amount required by the Bland act. Several consultations of an informal character have been held by these members, and it is learned that some of the most ultra-silver men more than hinted at their intention to formulate charges of impeachment against the Secretary of the Treasury. Up to the present time, however, it appears that there has been no concerted action looking to the adoption of such a course.

The House joint resolution authorizing the investigation of the books of accounts and the methods of the Pacific Railroads, which was reported from the Senate judiciary committee by Hoar this morning, retains nothing but the enacting clause of the measure as it passed the House. It authorizes the President to appoint

THREE COMMISSIONERS

at $50 per month each. Section two makes it the duty of the Commission to examine into the workings and financial management of all Pacific Railroads that have received aid from the Government in bonds, to see whether their obligations to the Government have been complied with; whether the books and accounts have been kept so as to show their net earnings; whether there has been a division of the earnings through constructive mileage allowance or for improper purposes; whether there has been a discrimination of rates; whether any and how much money is due the United States on account of erroneous accounts or settlements made by said roads; whether any traffic or business which could or should be done on the aided lines of said companies has been diverted to the lines of any such company, or to the non-aided lines, and what amounts have been deducted from the

GROSS EARNINGS

of said aided railroad companies by their general freight and passenger agents or auditors, by way of rebate percentage business done, constructive mileage, monthly or other payments on any pooling or rate arrangement, contract or agreement, and also to inquire into, ascertain and report as to the kind, character and amount of the assets of said companies, and what assets of each company are now subject to the lien of the government and the value thereof; and also whether any dividends have been unlawfully declared by the directors or paid to the stockholders of said companies, and if so, to what extent, and whether the amount thereof may not be recovered from the directors unlawfully declaring the same or persons who have unlawfully received the same; whether the proceeds of any trust funds or lands, loaned, advanced or granted, have been diverted from their lawful use; whether any stock or bonds have been issued or any

GUARANTEES OR PLEDGES

made contrary to or without authority of law; whether any of the directors, officers or employes of said companies respectively have been or are now directly or indirectly interested, and to what amount or extent, in any other railroad, steamship, telegraph, express, mining, construction or other business, company or corporation, and with which any agreements, undertaking or leases have been made or entered into; what amounts of money or credit have been or are now loaned by any of said companies to any person or corporations; what amounts of money or credit have been or are now borrowed by any of said companies, giving the names, lenders and purposes for which said sums have been or are now required, what amounts of money or other valuable consideration, such as stocks, bonds, passes, etc., have been expended or paid out by such companies, whether for lawful or unlawful purposes, but for which sufficient and

DETAILED VOUCHERS

have not been given or filed with the records of said companies, and further to inquire and report whether said companies or either of them or their officers or agents have paid any money or other valuable consideration, or done any other act or thing for the purpose of influencing legislation, and to investigate and report all the facts relating to the alleged consolidation of the Union Pacific Railway Company, the Kansas Pacific Railway Company and the Denver & Pacific Railway and Telegraph Company into an alleged corporation, known as the Union Pacific Railway Company; said investigation shall include the alleged sale of the stock of the Kansas Pacific Railway Company to the Union Pacific Railway Company and all the circumstances and particulars pertaining to said alleged sale; and whether any of the Pacific Railway corporations which obtained bonds from the United States to aid in the construction of their railroads have expended any of their moneys

OR OTHER ASSETS

in construction or to aid in the construction of other railroads or invested their moneys or other assets in stocks or bonds of any manufacturing, mining or commercial companies or corporations or of other railway corporations, and if any such expenditure or investments have been made, the extent and character thereof made by each of said corporations shall be inquired into, and also the present interest in any of said corporations in railroads auxiliary to their respective railroads.

The commissioners are directed to ascertain and report the names of all the stockholders in each of the companies from its organization down, the salaries (over 5,000) now, or at any time paid to officers, the names of persons who have received bonuses or donations, and all payments made under the head of legal expenses. The commissioners are required to consider and report whether the interests of the United States require any extension of the time for the performance of the obligations of the companies, and what

FURTHER SECURITY

it is expedient that the companies should give. The Commission is armed with full power to command the attendance of witnesses and the production of books and papers. One hundred thousand dollars is appropriated for the purpose of the investigation. Whenever, in the opinion of the President, it is necessary to the protection of the interests of the Government, the Secretary of the Treasury shall clear off the permanent lien, mortage, or other incumbrance, and it is the duty of the Attorney-General to take the necessary proceedings in the courts for such redemption, and to foreclose any mortgages or liens of the United States in respect of such railroad property.

Section five provides that from and after July 1, 1887, there shall be charged to the Central Pacific, Union Pacific, the Central branch of the Union Pacific Railway Company, the Sioux City and Pacific Railway Company and the Kansas Pacific Railway Company 40 per cent of the

NET EARNINGS

in place of the 25 per cent provided for in the act of May 7, 1878, so far as the same respects the companies mentioned in said act and as to other herein mentioned absolutely and to that end the act of May 7 is extended to the Kansas Pacific, Sioux City and Central branch of the Union Pacific.

The sixth and last section authorizes the investment of the sinking funds in any of the government bonds issued for the benefit of the roads or in their first mortgage bonds.

The President has approved the act to fix the day for the meeting of the electors of President and Vice-President and to provide for and regulate the counting of the vote for President and Vice-President, and the decision of questions arising thereon; and the act to amend an act entitled, "An act to provide for the muster and pay of certain officers and enlisted men of the volunteer forces," approved June 3d, 1888, and also fourteen

PRIVATE PENSION BILLS.

H. W. Andrews, formerly a clerk in the Indian Office, has been appointed a member of the Northwestern Indian Commission, vice C. F. Larrabee, relieved and ordered to resume his duties in the Indian office.

The signing of the inter-state commerce bill by the President was in full accord with the opinion of Attorney-General Garland, rendered to him on last Monday, and it is very well understood to be in accord with the views of the cabinet. The Attorney General was asked to-night to give his views in regard to the bill and explain wherein it differed from the Senate bill two years ago, which he opposed on the ground that it was unconstitutional. He declined to do so, saying that he regarded the opinion he had given the President on the subject as

STRICTLY CONFIDENTIAL.

It is learned, however, from trustworthy sources, that the Attorney-General, as well as the President, considers the bill which has just become a law, free from all the material features which were objectionable in the Senate bill of two years ago. According to this information the Attorney-General's objection to the old bill was to the vast powers of legislative and judicial character that were given to the commission. The Attorney-General is said to hold that the present bill does not confer judicial powers on the commission, but puts them in court on a report from the commission, and that it does not confer legislative powers except in the fourth section (the long and short haul clause), and that this is warranted by numberless precedents in the legislative history of the government.

THE NEW JERSEY ROW.

Trying to Unearth Alleged Frauds.

PHILADELPHIA, Feb. 4.—Some sensational evidence was presented before the New Jersey Assembly election committee in Camden to-day by the Republicans to prove that the ballot box of Centre township was opened by the Democrats and enough votes changed from Haynes to Burley to insure the election of the latter to the Assembly on the recount.

Wm. C. Chambley, a locksmith of Philadelphia, testified: "I was sent for to come over to New Jersey to open a box, and went and opened it. It was in last November, and on an awful dark and stormy night. I crossed by the ferry. There was one man with me. When we got across we got in a carriage. I don't know the man. We drove around the corner, then another man got in with a friend who came across the river with me. We drove up the country a good distance and stopped when we got to the place where the box was. It was a private dwelling. All three got out. I was the last one in. No one else was there. I carried my tools, lock picks, files, screw-drivers, etc., with me.

OPENED THE BOX.

It was that box (pointing to the Centre township box). That is the one I operated upon. It had three locks. I picked it open. There were papers in it, but I didn't see what they were. I unscrewed the locks and made the keys to fit them. Those keys I gave to the men. After I opened the box and made the keys, I was paid $30 by one of the men. Then I entered the carriage and was driven to the railroad station and I went home."

On cross-examination by Mr. McDermott, counsel for the Democrats, witness said he had never been arrested, and had never opened but one ballot box before. He thought he was merely doing an ordinary piece of work and had no idea he was committing a crime. Mr. McDermott asked that the witness be detained and Chairman Matthews directed the sergeant-at-arms to take him

INTO CUSTODY.

The Republican counsel objected to what they claimed was an attempt to terrorize the witness.

Ex-Judge Pancoast, Mr. Haynes' counsel, said:

"It is not within the province of this committee to attempt to terrorize a witness. I protest against it in the name of law and justice. If you order him committed to the custody of the sergeant-at-arms, you do so at your peril. I demand his instant release."

By a vote of 3 to 2 the committee sustained Chairman Matthews and the sergeant-at-arms was instructed to take the witness in charge and see that he did not leave the State.

The committee then adjourned till later in the afternoon. The Republicans claim they can sustain Chambley's evidence by other testimony and that they have discovered details of Democratic conspiracy to change the result in the Third District.

Voting for Senator.

TRENTON, N. J., Feb. 4.—Assemblymen Scudder and Walter attended the joint meeting of the Legislature at noon to-day, and after both had voted for Governor Abbett for United States Senator, the meeting adjourned until to-morrow.

THE GREAT STRIKE.

Still Increasing—What Beecher Thinks.

NEW YORK, Feb. 4.—At the headquarters of the Ocean Association to-day it was said that Smith and McNeill, restaurant keepers, had agreed to supply a quantity of provisions for the families of the strikers and that many landlords had agreed not to press them for rent. Supplies were offered also by the butchers and bakers.

The strikers on the pier of the New Haven and Hartford Railroad, East River, were to-day admitted into the union. This makes over four hundred admitted this week.

The caulkers and joiners at work repairing the *Guayandotte*, the old Dominion steamer that was damaged by the explosion of an infernal machine, struck to-day. They had no grievances, but struck out of sympathy with the freight handlers. Their places will be filled to-morrow by non-union men.

THE COOPERS

employed along the piers with the mill-rights, joined the strike to-day.

The painters and mechanics on the Union line steamer struck to-day.

The Italians who took the places of the strikers at Hudson River depot quit work this afternoon.

The Lehigh Valley Company closed its gates at 3 p.m. The Pennsylvania and Jersey Central and in fact all the other piers along the river front had the same blockade and difficulty in moving freight.

In the course of his reply to a toast at the annual banquet of the Amherst Alumni Association to-night, Rev. Henry Ward Beecher said: "This abomination, the Knights of Labor, is the result of this infernal idea of paternity of government. Because a few men in New Jersey think their employers have wronged them, all this nation is called upon to suffer on the order of this paternal government of the Knights of Labor. This is from want of intelligence."

THE COMMITTEE

of the State Legislature to investigate the coal handler's strike, met to-day and listened to the evidence of a number of strikers. Their evidence was concurrent to the general effect that the top men could earn about $28 per month and the trimmer about $10; that trimming is highly injurious to the lungs, necessitating heavy outlays for medicines and causing death in a few years; that the coal companies take from 15 to 25 per cent. out of their wages for collecting money due them from the captains of the boats loaded; that the same deductions is made when the boats loaded belong to the company itself. They consider this an unnecessary charge and asserted the necessity of an advance in wages in order to enable them to support their families.

Boston, Feb. 4.—A meeting of representatives of eleven local assemblies of 'longshoremen, coal handlers and kindred laborers' organizations, representing in all

OVER 3,500 MEN,

was held to-night in South Boston. Resolutions were adopted endorsing the action of District Assembly 49 for issuing the "no rent" manifesto, and requesting all members of labor organizations who may become involved in the strike to comply with the import of said manifesto; also a resolution calling upon the legislature to petition the General Government to take possession of all mines under the right of eminent domain and operate them for the good of the people; also calling on all Knights of Labor to refuse to unload vessels known to have been loaded by non-union men.

The Boston 'longshoremen of Provident Union to-night adopted a resolution endorsing District Assembly No. 49.

HEALTH HINTS, ETC.

COMPILED BY MAC.

Cut out these "Hints" and keep them.

The right size—Exercise.
The best thing out—An aching tooth.
Be regular in your habits.
If possible, go to bed at the same hour every night.
Rise in the morning immediately after you wake.
A sponge bath of cold or tepid water should be followed by friction with towel or hand.
Eat plain food, and nothing greasy.
Begin your morning meal with fruit.
Drink no tea, coffee, or other stimulants.
Exercise in the open air whenever possible.
Keep the feet comfortable and well protected.
Wear woolen clothing the year round.
See that your sleeping rooms are well ventilated.
Brush your teeth at least twice daily.
Don't worry.
Be active. Rest means rust.
"A light heart lives long."—*Shakespeare.*
The eating of much flesh fills us with a multitude of evil diseases and multitudes of evil desires."—*Porphyrius.*

Youdy Man. Is it true, doctor, that smoking cigarettes tends to soften the brain?

Physician. There is a belief to that effect; but it can never be verified.

Young Man. Why, doc or?

Physician. Because nobody with brains ever smokes them.

The best food for cold weather is abundance of grain, heated milk, and ripe fruits.

If you want the baby to get the croup, feed it more than three times daily, and let it creep about with bare arms and legs. A sure method.

If you want warm feet in cold weather, wear roomy shoes and warm stockings, and take plenty of exercise.

If you wish to avoid spring biliousness, begin now. Stop eating rich food, pig meat, gravy soups, gravies, pastries, and sweets; and give your liver a chance to do its duty.

Love that has nothing but beauty to keep it in good health, is short lived.

Twenty-four thousand five hundred dollars are wasted daily in Chicago for cokers alone.

"The sleep of a laboring man is sweet, whether he eat little or much; but the abundance of the rich will not suffer him to sleep."

"Beloved, I wish above all things that thou mayest prosper and be in health, even as thy soul prospereth." St. John, 2 v.

"Whether therefore ye eat or drink, or whatsoever ye do, do all to the glory of God." 1 Cor., x, 31.

"And every man that striveth for the mastery is temperate in all things." 1 Cor., ix, 25.

"For the drunkard and the glutton shall come to poverty." Prov. xxiii, 21.

"And they shall say unto the elders of his city, This our son is stubborn and rebellious, he will not obey our voice; he is a glutton and a drunkard. And all the men of his city shall stone him with stones, that he die: so shalt thou put evil away from among you; and all Israel shall hear, and fear. Deut. 21: 20-21.

The best code of health ever made known to man is "The Word of Wisdom."

The laws of health inculcated by Moses have never been surpassed. Like "The Word of Wisdom," they were revealed by the Almighty.

Read the 11th chapter of Leviticus, and others.

It is a strange fact that the Hottentots are governed to a great extent, in diet, by the Mosaic code. They cannot be induced to eat the flesh of the hog. They also prohibit the use of hares and rabbits, and the eating of blood. They eat their meat without salt. They subsist mostly on edible roots, fruit and milk.

"There is no better medicine, no greater purifier, no better friend to good health than sunshine. There is an old Spanish proverb which says: 'Where the sun does not enter the doctor must.' And the truth condensed in that statement is a whole lecture on the health of the home. Sunshine costs nothing, is refreshing, invigorating, life-giving to both sick and well. People have somehow gotten the idea that nothing is valuable which does not cost something, and are too likely to value all blessings by the money value they represent."

"Horse-back riding combines more qualities of healthful exercise than almost any other. It secures air, light, exercise and pleasure. A ride—one ride a day—taken regularly, is both a preventive and a cure for nearly all human maladies. To some, advice must be given to ride slowly; but to others we may say in the language of the old polypharmaceutists: 'When taken, to be well shaken.'"

An old negro at Weldon, N. C., at a recent lecture, said: "When I sees a man going home with a gallon of whisky and half a pound of meat, dat's temperance lecture enough for me, and I sees it every day. I know dat everything in his home is on the same scale—gallon of misery to every half pound of comfort.

"I see," said Stubbs, "that Dr. Michael Foster tells the British Association that the smoking of tobacco produces defective vision; do you believe it?" "Oh, I am sure of it," replied Mrs. S., "for I saw your friend Butts last evening puffing away, quite unconscious that there were several ladies in the room."

To Remove Pimples.—Eat to satisfy the wants of the body, but avoid everything like excess. Select good food and put aside articles that will disturb or retard digestion. Hog meat, greasy substances, an excess of sugar or butter, and coffee or tea have a tendency to interfere with the action of the stomach and intestines, and clog the blood with matter that can not be disposed of readily by the excretory apparatus. Take plenty of out-door exercise, and sleep in a well ventilated room. Keep the skin of the entire body clean, by frequent bathing; wash the face morning and night with warm water.

Lemons as Medicine.—"The acid properties of lemons give them an astringent effect which is favorable toward overcoming congestion in the secretory apparatus of digestion. Further, the citric acid, unless it is neutralized by an excess of sugar, is useful in overcoming an excessive alkalinity that is producing derangements of function in the assimilating organs, and consequently interfering with the blood circulation. Lemonade, because of its acidity, exercises a cooling influence in febrile states and promotes nervous calm and sleep. In bilious troubles, the plethora following overeating, lemonade is beneficial. For one with what is called bilious fever a diet of plain, good, brown bread and lemonade is refreshing and restorative."

Our Girls.—"The hope for the human race is in the future of its girls. If there is to be any permanent, thoroughgoing reform, it must start with the girls and young women of the world. They are to be the mothers of the next generation. They will mould the characters of the men and women who are to rule in politics and society a score or two years hence. They are to cradle the men who, through the press and the pulpit give tone to the religious sentiments of the generation to come. Whatever they are, their children will be like them. Woman's responsibility to the race is vast and incomprehensible.

WHAT TO TEACH THE GIRLS.

"At a recent social gathering in a southern city the question was asked, what shall I teach my daughter? The various answers given were so full of good sense that we quote a portion of them for our readers:

Teach her that 100 cents make a dollar.

Teach her to say "no" and mean it, or "yes" and stick to it.

Teach her to wear a calico dress, and and wear it like a queen.

Teach her to sew on buttons, darn stockings, and mend gloves.

Teach her to dress for health and comfort as well as for appearance.

Teach her to cultivate flowers, and to keep the kitchen garden.

Teach her to make her room the neatest one in the house.

Teach her to have nothing to do with intemperate or dissolute young men.

Teach her that tight lacing is uncomely as well as injurious to health.

Teach her to regard the morals and habits, and not money, in selecting her associates.

Teach her to observe the old adage: "A place for everything, and everything in its place."

Teach her that music and drawing are real accomplishments in the home, and are not to be neglected if there be time and money for their use.

Teach her the important truism: "That the more she lives with a her income, the more she will save, and the further she will get from the poor house.

Teach her that a good, steady, church-going mechanic, farmer, clerk, or teacher without a cent, is worth more than forty loafers or non-producers in broadcloth.

Teach her to embrace every opportunity for reading, and to select such books as will give her the most useful and practical information, in order to make the best progress in earlier as well as later home and school life."

25 Tracts on Health topics, for 10cts. A book about what and how to cook and eat, for health, 10cts. Mailed by D. M. McAllister, 66 Centre St., Salt Lake City.

Red Star Cough Cure supplants harmful features of other cough mixtures. No poisons.
