ENGLAND'S PERPLEXITIES. GREAT BRITAIN finds herself confront-

causes of alarm are of a most countex of better times that would be doomed reasons with which your corresponcharacter, and have no parallel in her to disappointment. There are also dent will not weary your readers to history or that of any other nation. The agitation and destructive tactics of gauntlet has been thrown down, we The situation is therefore not a repetition of history, the complications in to contend with. The explosions and which that great Empire is involved are | murderous doings of these foul conbe many features unique and as start- spirators that have startled the world ling as they are new. Great Britain has been led in to her perpicular condition by her present in view of what is to follow. covernment. In reflecting upon this So the advocates of dynamite as subject, the conclusion seems inevita- a terrorizing medium to compel potlit-

ble that the policy of the Liberal party, cal liberation state, and their proreperially under Gladstone, tends to mises are not likely to be truitless. the distintegration of the British Emture, because it enters reluctantly tipoli any struzgie for the maintenance overthrown, to be succeeded by a conof its prestige and supremacy. It has servative rule. If so Lord Salisbury pecuproced times without number that | would probably be the Premier. Such | thies of humanity were thus alienated the competitor that enters a contest a change would be succeeded by what of any kind half-heartedly goes into Lord Beaconstield called "a spirited battle with a tolerable certainty of foreign policy." The Earl of Salisbury detect This has been aptly illustrated is a typical Briton. He is fearless but with the English government, and that dynamic attacks should be exto the position of England to-day in almost to rashness, and the chief obrelation to the Soudan.

the Egyptian government, not against | pire of Great Britain. threat Britain, but the supremacy of the latter depends largely upon the maintenance of the integrity of Egypt, upon which country she must hold the though of her hand of power. Otherthrough which British war vessels can test that part of the Empire from avsources difficulty and leave the Mahilimaster of the situation, that singular, we might say phenomenal character, would doubtless rise in prestige in proportion as I ritain would sink. acts a movement would cause mile boas of Mohammedans to believe him now in doubt as to his identity with the expected deliverer. They would don's toches standard in invriads, and too half--avage hordes would overrun Expt in swarms, causing suclea situation as would startle the world. The further result would probably be another widespread revolt in India, parametried by the horrible scenes of the former muttey; for there is a bond adding most powerful retirious sympathy among all the Mohammedan peo-

Them exthe computed must be procecuteffat att hazards. And the dangers The heat in that part of the world is an scarcely be endured by Europeans. Even now news comes from Korti that the British troops are attacked with typhus Delays are dangerous, yet: to undertake a campaign under such chemy's country is an herculcan con-tract, almost sure to result in great the late trip of President Taylor to discrete for loss, of life, even if victory merscofthe invaders:
