

SENATE PASSES PURE FOOD BILL.

Prohibits Shipment of Adulterated Foods From One State to Another or Foreign Country.

FORBIDS RECEIPT OF THEM.

Bailey Opposed it on Ground That it Was Matter for State Regulation.

Washington, Feb. 21.—After 15 years of more or less serious consideration of the subject, the senate today passed a pure-food bill by the decisive vote of 63 to 4. The vote was taken after a day devoted almost exclusively to debate of a desultory character on the measure. Several efforts were made to amend the bill, and the committee accepted a number of suggestions, but only those thus accepted were incorporated in the bill as passed.

The bill makes it a misdemeanor to manufacture or sell adulterated or misbranded foods, drugs, medicines or liquors in the District of Columbia, the territories and the insular possessions of the United States, and prohibits the shipment of such goods from one state to another or to a foreign country.

It also prohibits the receipt of such goods. Punishment by a fine of \$500 or by imprisonment for one year, or both, is prescribed. In the case of corporations, officials in charge are made responsible.

The treasury department and the departments of agriculture and of commerce and labor are required to agree upon regulations for the collection and examination of the articles covered by the bill, but no specific provisions are made for investigation except by the department of agriculture. The investigations by that department are placed in the hands of the chief of the bureau of chemistry, and if he finds that the law has been violated the secretary of agriculture is required to report the facts to the United States district attorney, who in turn is required to institute proceedings in the federal courts.

The bill also defines foods, drugs, medicines and liquors, and also defines the standards for them. There is an exemption for dealers who furnish guarantees against adulteration and misbranding.

The debate on the pure food bill was participated in by Messrs. Heyburn, McCumber, Lodge, Foraker, Allison, Spooner, Penrose, Gallinger, Tillman, Bailey, Money and others.

Mr. Bailey declared that the constitutional features of the bill, containing that the interstate commerce provisions of the bill were invalid. He took the position that the regulation of food, drugs, etc., belonged to the states, and that federal statutes should not be resorted to for that purpose. He said we needed better prosecuting attorneys rather than more government bureaus.

"Begin as you are doing in this bill and you will soon have the department as powerful as the postoffice department," he said, and added: "I doubt if any despotism in the world vests in one individual as much power as we give the postmaster-general, who can close any man's business by an edict from which he has no appeal."

At 5 p. m. the senate began voting on the various amendments. The important amendments adopted included the following:

Changing the provisions regarding the misbranding of liquors so as to make it read:

"It shall be deemed misbranded if it is blended or rectified, or consists of an admixture of different grades of the same liquor, or contains or is mixed with other substances and the word 'blended,' 'rectified,' or 'mixed' as the case may be, not plainly stated on the packages, etc." There were only two roll calls on amendments, and in both instances the committee was sustained.

The first of these was on an amendment offered by Mr. Foraker, eliminating the word "added" from the following provision:

"In the case of liquors, an article shall be deemed adulterated if it contains any added ingredient of a poisonous or a deleterious character."

The amendment was lost—24 to 46. The other roll call was on a change suggested by Mr. Foraker in labeling rectified liquors, which was lost by close vote of 33 to 35. The amendment on that point which was afterward accepted was on similar lines.

Mr. Money's substitute bill and an amendment by Mr. Spooner authorizing the secretary of agriculture to fix standards of foods, drugs and liquors were both voted down without calling the roll.

On the final roll call the bill passed by a vote of 63 to 4. Messrs. Bacon, Bailey, Foster and Tillman, all Democrats, being the only senators to cast their votes in the negative.

Great Britain Insists Upon the Evacuation of Tabakh.

NOT A "PATENT MEDICINE."

Scott's Emulsion is not a "patent medicine." It has no secret ingredients. Your doctor can, no doubt, tell you as much about it as we could. We have merely perfected the method of blending the Norwegian cod liver oil, hypophosphites of lime and soda and glycerine. As one grocer will blend coffee better than another so we have succeeded in making Scott's Emulsion a little better than any other cod liver oil preparation. There's no "patent" and the only secret is the secret of knowing how, with the perfected mechanical means at hand to do it. Get Scott's and you get the perfect emulsion. It's the greatest thing in the world for regaining strength and flesh lost through wasting.

UNIFORM DIVORCE LAW CONGRESS PROCEEDINGS.

Washington, Feb. 21.—The congress on uniform divorce laws for the several states and territories today expressed itself for all hearings and trials in divorce cases in open court. The congress adopted a resolution specifying causes for divorce; also resolutions to the following effect:

"If the conviction of a crime be made a cause for divorce it should be agreed that such conviction should be followed by two years' continuous imprisonment for insanity arising from marriage; divorces should not be a cause for divorce unless persisted in for at least two years. A divorce should not be granted unless the defendant has been given an opportunity to be heard. Divorces should not be granted unless the plaintiff has been given an opportunity to be heard."

The congress also discussed the report of the committee on resolutions, submitted yesterday, embracing various recommendations regarding marriage and divorce. It was decided by a considerable majority of the delegates that not less than two years' residence should be required on the part of a plaintiff who has changed his or her state domicile since the cause of divorce arose, where jurisdiction depends on the residence of the plaintiff.

A warm discussion was precipitated over the following section of the report:

"An innocent and injured party, husband or wife, seeking divorce, should not be compelled to ask for a dissolution of the bonds of matrimony, but should be allowed at his or her option to apply for divorce from bed and board."

A number of women left the room when Miss Fannie Leake Cummings of the state of Washington declared that the resolution would put a premium on vice, and produced statistics in support of her argument.

The resolution was finally adopted with an amendment allowing the innocent party to apply for divorce from bed and board "at any time."

The congress adopted unanimously the resolution providing for classification of causes for divorce into certain groups that would be approved by common consent of all communities represented in the congress or subsequently so.

WOULD-BE MURDERER SUICIDES.
San Francisco, Feb. 21.—Isaac Cohen, a shirt cutter, aged 25 years, tonight ended his life after attempting to kill his wife and three-year-old daughter. Cohen was out of work and despondent. He returned home this afternoon and wanted his wife to commit suicide with him. She refused, and he tried to choke her to death, but she escaped. He then locked himself in the bedroom with his daughter and the wife summoned the assistance of her sister-in-law. When the latter entered the house Cohen pushed his child from his room and re-locked the door. The sister-in-law noticed the odor but paid little attention to it, and left the house with the little child. Three hours later Cohen was found dead in his room. SHOULD BE READY FOR WAR IN ORIENT

Chairman Hull Urges That Army And Navy be Completely Prepared.

TAKES WHACK AT ROCKHILL.

Says He Offered China a Bribe of One Hundred Million Dollars.

Washington, Feb. 21.—Chairman Hull of the military affairs committee, in presenting the army appropriation bill to the house today, urged the necessity of complete preparedness as to our army and navy for trouble in the orient. He declared that any nation not prepared to defend its position in China might as well haul down its flag and quit the Pacific.

Incidentally Mr. Hull pronounced Minister Rockhill at Pekin guilty of indiscretion in indicating to Chinese officials that the United States intended returning the 20,000,000 pounds sterling boxer indemnity. Statements of this kind, he said, will be taken by the Chinese as an indication that the United States was afraid rather than liberal.

Mr. Hull scouted the idea that Japan was interested in stirring up trouble in China to injure the United States.

Japan's interests in China, he said, were identical with those of the United States, and preservation of peace there was the only manner in which they could be maintained.

Mr. Hull made an interesting digression to the situation in China to emphasize his position that the fighting arms of the government—the army and navy—should be kept in efficient condition to meet all emergencies. He hoped no trouble would come, "but there exist today conditions in the orient that make it necessary for us to preserve our prestige, our power and our rights, even to the extent of being ready to fight for them." In this connection, Mr. Hull read a newspaper dispatch from Pekin, which had been sent from the orient, and which he vouched for as accurate, which gave an account of an interview between Minister Rockhill and Mr. Na Tung, president of the Wai Wupu.

Mr. Hull said that according to this dispatch Mr. Rockhill reminded the Chinese officials that the United States intended to return the \$20,000,000, its part of the boxer indemnity. Mr. Hull characterized these utterances as "injudicious." "I do not believe that the representative of this government had a proper conception of the character of the Chinese people," continued Mr. Hull, "who offered them a bribe of \$20,000,000, or rather, the United States' share of the Chinese indemnity, to be good."

"They are people that, in my judgment, would take any such offer as an indication of our being rather more afraid of them than otherwise. And it seems to me that a man occupying his position should have let what information and necessary come from the government of the United States, and not given it to the newspapers."

Mr. Hull said he had been informed, exclusively of the Chinese situation. He read a lengthy letter, whose authorship he declined to divulge, which rebuffed the idea that Japan was causing trouble in China. Mr. Hull said this view and also the proposition in the letter that the Boxer indemnity ought rather to be used to build battleships for the United States than be returned to China.

Mr. Hull pointed out that it was decidedly to the interest of Japan to preserve order in China in order to retain her own markets in that country. China, he said, was a nation in transition from ancient to modern civilization, "and while that is going on every government that has business relations with her must be ready to protect themselves or else roll down their flags, leave the Pacific ocean and destroy their trade."

Touching on the subject of disarmament, Mr. Hull remarked that the time ought to come when the lion and lamb would lie down together, but it would not come in his day.

New York, Feb. 21.—Miss Susan B. Anthony, in her telegram of regret at not being able to appear at the luncheon given in the afternoon at Hotel Astor by the Inter-City Political Equality league in honor of her 86th birthday, said:

"The word of a woman of 86 cannot be relied on like that of a girl of 16. The assembly of the Inter-City Political Equality league at the head of the table, and his sister, Mrs. Henry Villard, sat with 21 club presidents at another table in the center of the room."

**GAPON'S JOURNAL WAS
SUBSIDIZED BY RUSSIA.**

St. Petersburg, Feb. 21.—Through the disappearance of a journalist, Matushensky, the press agent and real brains of the Father Gapon movement, the disclosure has been made that the moderate labor organ, which Gapon established in St. Petersburg after the publication of the imperial manifesto to Oct. 17, 1905, was subsidized by the Russian government.

Radical circles are elated over the revelation which was made in an open letter by the president of the Father Gapon section of the organization, complaining that \$12,000 of the funds furnished through M. Timiriazoff, until recently minister of commerce, had been used to subsidize the Father Gapon movement. It is now shown that Gapon really played a minor role in the formidable movement of January, 1905, and that Matushensky was the director of the campaign against the autocracy, the police and the old-time revolutionists, and that Matushensky was the author of the great petition with which the workmen were marching to the winter palace Sunday, Jan. 22, 1905, to present to the emperor, when the troops fired on them.

A curious commentary upon the conditions prevailing in the cabinet's action in opening club-houses for which the government furnished the money, when up to the present Interior Minister Durnovo has not permitted assemblies of conservative workmen, which are dispersed as rigorously as those of the Socialists.

SUPPRESSING REVOLUTIONISTS.

Two prominent residents of Riga, Vice President Paez and an attorney named Tamant, have been sentenced to death for participation in the revolutionary movement.
