ANARCHIST RIOT AT A PICNIC.

A New Insect Plague in Trenton, Missouri.

By Telegraph to the NEWS.]

The Press Club Monument.

NEW YORK, June 12.—The dedication of the monument erected by the New Yord Press Club, at Cypress Hill Cemetery, took place this afternoon. Preparations had been carefully make and were carried out without a hitch. Chauncey M. Depew delivered the oration of the day. He referred to the reportorial corps in the highest terms as a body that had furnished the most powerful influences of modern thoughts. An address was also delivered by Rev. T. DeWitt Talmage.

Leo to Victoria.

LONDON, June 12.—An autograph letter from the Pope to Queen Victoria, after congratulating her majesty upon her jubilee, offers great acknowledgement of the action of the Indian government toward the Catholic missions and of the protection offered the Catholic hierarchy in India.

Children Burned to Death.

WINNEPEG, June 12.—The residence of a farmer named James Edwards, living in the township of Minota, South Manitoba, was burned last night, and three children, aged 7, 12 and 14, perished in the flames.

Anarchist Riot.

JERSEY CITY, June 12.—Serious rioting is reported to have occurred at Oak Ridge Park, Gutteaberg, this afternoon. An anarchist picnic for the benefit of the Chicago anarchists, at which Herr Most was present, was being held in the park. Several persons are reported hurt and more trouble is expected.

ANOTHER ACCOUNT.

JERSEY CITY, June 12.—A desperate affray took place this afternoon at Conrad Schneider's, Oak Cliff Park, Uniontown, New Jersey. It was engaged for the day by the socialists, who assembled about 2,000 strong to hear addresses by Most and his co-laborer, Braunschweig; the park was decorated with red flags and a vast quantity of beer was tapped. Each socialist invested 25 cents in a ticket which admitted him to the grounds and entitled him to six glasses of beer. The proceeds of the picnic, it was announced, were to be used to obtain a new trial for the condemned anarchists in Chicago. About a dozen swarthy Bohemians were in charge of the park gate and closely scanned all comers. They

DENIED ADMISSION

to all whom they suspected of being reporters or detectives. They enjoyed themselves unmolested until soon after, when a disturbance occurred. The row was caused by Bernard Winn, a laborer, who attempted to pass through the woods as was his custom. He was seized by several of the socialists and assaulted when he declined to answer their inquires. Winn managed to break away and escape.

Later in the day a baseball game was commenced on the adjoining grounds by the Monitor club of New York City and a nine from Danbury, Conn. Several hundred men and boys were witnessing the game, when

WINN RETURNED

to the picnic grounds. He scaled the fence, but hardly had he done so when the socialists, many of whom were armed with clubs, swarmed around him. Winn drew a revolver, but he was disarmed before he could use it and horribly beaten. When his assailants thought that he had been sufficiently punished, they hurled him bodily over the fence. A man named Wm. P. Wallberger, of the Hoboken police, tried to rescue Winn, but was himself assaulted. The outlaws attracted the attention of the crowd on the baseball grounds and they began hurling stones at the picnickers. A

GENERAL MELEE

ensued, during which a dozen or more pistol shots were fired. Constable Jackson was struck in the arm and a boy whose name was not learned had two fingers shot off. Several of the socialists were struck with stones and pandemonium reigned. Wallberger was dragged by the excited throng of socialists, who yelled "hang him" and similar cries. While the uproar was at its height, Justice of the Peace Walker and three constables appeared. The justice was admitted, but the constables were compelled to remain outside the gates. An excited throng surrounded them and threatened them. The justice, after a long parley, succeeded in securing Wallbarger's release. He presented a frightful appearance. His head was cut open in three places and he was covered with blood. Constable Timmony, of Wehanen, was also beaten and several other men were roughly handled.

The Indian Situation.

NOGALES, A. T., June 12.—The Indian situation is unchanged. The troops are at a loss as to the whereabouts of the Indians. There is a perfect cordon of soldiers along the southern boundary of the territory, and it will be almost impossible for the hostiles to cross into Mexico.

There is no additional information from Tucson about the semi-official report that 100 bucks were on the war path well armed, and that 400 Indian warriors would soon be in the field.

The Evictions.

DUBLIN, June 13.—In consequence of the government's proclamation forbidding the meeting announced to be held at Bodyke to-day, an extra military force was drafted into the service to enable the authorities to enforce the proclamation.

Michael Davitt eluded the authorities, however, and addressed 500 persons at Feakle while soldiers were searching for him. He afterwards spoke at Scarff. He asserted the people's right of meeting in public, and said if the people were armed they could deal with the black-coated burglar brigade as they deserved.

IN HIS SPEECH

at Scarff, Davitt denied having counseled any further resort to extreme violence. He only maintained it would be cowardly not to show every rational resistance. He expected this would be the last meeting he would have a chance to address before the coercion act would again indulge him with the luxuries of a prison plank bed. Before going into political retirement for six months he would give them this advice: "Boycott the inquisition clauses of the coercion act and welcome imprisonment rather than assist the government to make the act operative."

Cleveland on Top.

MEMPHIS, June 12.—Some time ago the Memphis *Evening Scimitar* sent out a circular letter to the leading newspapers of Alabama, Arkansas, Mississippi, Louisiana, Tennessee and Texas, putting this query: "In view of President Cleveland's pocket veto of the river and harbor bill, do you favor his renomination by the democratic party in 1888? Thirty-five replies were received; of these twenty-seven were in the affirmative, six in the negative and two non-committal.

A New Pest.

TRENTON, Mo., June 12.—This town and vicinity have been infested this past week with an insect the description of which agrees fully with a species of cantharides, a Spanish fly, as given in the United States Dispensatory. The insects come in perfect swarms and they not only devour vegetation with avidity, but their vesicating power on the human body is equal fully to cantharides. Fully a thousand people in Trenton are at present nursing blisters caused by this insect, and lights in residences at night have been almost abandoned for fear of attracting the poisonous insect.

That Convention.

LONDON, June 12.—The Porte has asked that the Egyptian convention be modified so as to give Turkey the exclusive right to send troops to Egypt in the event of a disturbance. Lord Salisbury declines to alter the convention, which has already been signed.

William Improving.

BERLIN, June 12.—Emperor William slept well last night and his condition is improved. The pulse have abated.

Yellow Fever.

KEY WEST, Fla., June 12.—One new case of yellow fever has appeared since yesterday and one patient has been discharged from the hospital. The British Bark *Brothers and Sisters* has sent three men ashore. They probably have chagres fever.

Total Clearance.

BOSTON, June, 12.—A table compiled from specials to the *Post* shows the gross clearings for the week ending June 11th were $1,016,628, an increase of 15-7 per cent over the corresponding week last year.

Keeping Up.

BRUSSELS, June 13.—King Leopold, in a speech to the artillery and civic guards to-day, said the country, seeing the armaments changing all around, is compelled to adopt perfected arms and modern organization. When defensive country and development of industrial and commercial resources are at stake, it is the duty of the nation to make every possible effort in the country's behalf.

A New Feature.

NEW YORK, June 12.—A new feature in Methodism was introduced to-day in the commencing of an indoor camp meeting at the Jane Street M. E. Church in this city. Meals will be served during the continuation. The services are the same as the outdoor camp meeting.

The Crown Prince.

LONDON, June 12.—The *Chronicle's* correspondent at Berlin says: The reports regarding the crown prince's condition differ. Prof. Virchow's report is now said to affirm that the examination furnished no absolute indication that the growth in the prince's throat is non-malignant.

Crop Summary.

CHICAGO, Ill., June 12.—The following is the crop summary printed by the *Farmer's Review* this week:

The wheat harvest has been somewhat retarded in the south by showery weather, but in other localities than that the rain has had a beneficial effect. Missouri has the best prospects for an even and abundant winter wheat crop. Reports on the condition of winter wheat are as follows: Twenty counties in Illinois report an average condition of 87 per cent; six counties report injury from drouth and insects. Eleven counties in Indiana report an average condition of 86 per cent; four counties report injury by insects. Seven counties in Michigan report an average condition of 18.87 per cent and two of them complain of insects. Five counties in Wisconsin report an average condition of 85 per cent; four counties report an average condition of 83 per cent. The average condition falls to 67 per cent. in twelve Kansas counties.

Weather Crop Report.

WASHINGTON, June 12.—The following is a synopsis of the signal service weather crop report for the week ending June 11th:

TEMPERATURE.

During the week ending June 11th, the weather has been warmer than the weekly average in all the agricultural districts east of the Rocky Mountains, excepting the Atlantic States from Maine southwestward to Virginia and southern Texas. This excess of temperature has been the greatest in the corn and wheat regions of the northwest, where the average daily excess ranged above the normal from four degrees to eight degrees; conditions most favorable in the present stage of crops.

During the past six weeks, which have been important, especially for the grain-growing districts, the temperature has been steadily in excess over the corn and wheat regions, and has been nearly stationary in the cotton belt, which condition must have been most beneficial to crops.

RAINFALL.

During the week the rainfall has been slightly deficient in the agricultural districts, except from western Pennsylvania southwestward to Arkansas and Indian Territory, where a slight excess has fallen. Showers have been numerous and well distributed save in a few sections of local importance only.

GENERAL REMARKS.

Over all the agricultural districts, the weather for the week has been apparently favorable for important crops, a marked deficiency of temperature occurring in local sections of secondary importance, as regards staples, south of the 39th parallel, where presumably grain harvesting is now general. The weather has been favorable for that work, as no general rains have fallen or high winds occurred, while the sunshine has been at or above the average. Local rains have fallen in the past eight hours or are predicted from Minnesota eastward to Michigan, where they will be timely and beneficial to growing crops.

Cardinal Gibbons Preaches.

BALTIMORE, June 12.—Cardinal Gibbons preached during high mass at the cathedral to an immense congregation. He referred to his late visit to Rome and his gratification at his return to Baltimore.

The Usual French Duel.

PARIS, June 12.—Clemenceau and M. Foucher, the latter editor of the *National*, have fought a duel with pistols. Neither of the combatants were hurt. The duel was the outcome of a newspaper quarrel.

The Strikers.

ST. PAUL, June 12.—The Trades and Labor Assembly, which includes all the building trades in the city except the stone masons, had a general meeting and decided that unless the demands of the striking carpentors are met by next Wednesday, all other workmen within its jurisdiction shall be called out. This would add about 900 men to the present number on strike.

Dead.

LONDON, June 12.—The death is announced of Signor Favrette, the Venetian painter.

Great Pomp to be Observed.

LONDON, June 12.—The Queen, in order to invest the jubilee ceremony in Westminister Abbey with great pomp, consents to assume the state robes and be surrounded with all the insignia of sovereignty after entering the Abbey. Eight thousand troops will line the route to the Abbey, beside a guard of honor of 600.

The *North German Gazette*, in an article on Queen Victoria's jubilee, comments on the long existent friendship between England and Prussia and expresses the hope that those relations, founded on mutual confidence and firmly cemented by the marriage of the Princess Royal and Crown Prince Frederick William, will be maintained in the future.

Exciting Meeting.

NEW YORK, June 12.—The trades unionists of this city met in force in the Central Labor Union this afternoon, as it was known that exciting matters would be discussed. The Knights of Labor local assembly delegates were also on hand. Neither side was disappointed. The Ale and Porter Employes Association has forced T. C. Lyman, a brewer, to discharge twenty-one members of the Lager Beer Brewers Union, because they were not Knights of Labor. The Central Labor Union sent a committee to demand a reinstatement of unionists, which Lyman refused to do. To-day the Ale and Porter Men's Association was expelled until it agreed to recognize the cards of the union. The association's defense was that several of its own members were out of work. It belongs to District Assembly 49.

Suspicious Germany.

PARIS, June 12.—Albert Delpit, who has just been expelled from Alsace, was a member of the *Figaro* staff. He went to Benfeld in Alsace to see Dr. Seifferman, protesting member of the Reichstag, who had previously obtained formal permission to visit Alsace on behalf of Mr. Delpit. Upon arriving at Benfeld Delpit was ordered by the police to leave German territory within half an hour. He protested and telegraphed to Prince Hohenlohe, governor of Alsace-Lorraine, who confirmed the order, but granted Delpit 24 hours grace. The police informed Delpit he was expelled because he tried in writing to rouse opposition in the minds of those who should remain German.

Sweeney Comes Back.

NEW YORK, June 12. — Peter B. Sweeney arrived from Paris by the steamer *La Bretagne* yesterday.

More Paupers.

NEW YORK June 12.—Among 3,000 emigrants landed at Castle Garden today were sixteen penniless Greeks from Syria. Commissioner Stevens said he would be in favor of sending them back.

The Losses Increased.

NEW YORK, June 12.—According to a statement made to-day to a reporter of the Associated Press by an employe of the Havemeyer Sugar Refinery Company, the losses by the great fire of Saturday are nearer two million than one million. It is stated that the buildings and contents were covered by insurance to a fair per centage of ther value.

Still At It.

LONDON, June 12.—The *Times* this morning has another article on "Parnellism and crime," tracing the connection between Frank Byrne and Parnell. It claims to have information that it was an opportune remittance from Mr. Parnell that enabled Byrne to escape to France, and asks: "Is Mr. Parnell prepared to take steps to put this statement to proof, or even to contradict it?"

Gould's Yacht.

NEW YORK, June 12.—Jay Gould's yacht arrived to-day. Gould and family were driven te his home.

The Inundations.

VIENNA, June 12. — Twenty-five thousand square miles of land are inundated in Hungary. There was another hurricane at Makoon Saturday. The water washed over the dykes and destroyed a number of bridges. The laborers at work on the dykes fled, but were driven back by soldiers.
