SHEEP HELD UP.

Berlin, Dec. 15.-King Haakon, Queen Maud and Crown Prince Olaf of Norway arrived at Potsdam this morning from England, and were received at the sta-tion by Emperor William the empress, the crown prince and crown princess, the other sons of the emperor, Princess Vic-toria and a large number of military and naval officers and courtiers. As the spe-cial train drew up at the platform the emperor advanced and warmly welcomed King Haakon, kissing him on both cheeks. The emperor then kissed the hand of Queen Maud and both the emperor and empress kissed Prince Olaf. The program for the entertainment of the royal visitors consists of a dinner at the new coloce at Device works.

London to the Tribune says:

"Do women imagine that men never look at such papers? Never per eive the bold, prominent challenge of degraded advertisements, which th instruct them as to what a painted, powdered, padded, dyed, frizzed,shameess creature a woman may be, and often is? 'A casual study of our modern la-

dies' pictorial issues, will convince the most emphatic male supporter of woman's rights that a majority of the women is not as yet fitted for the fran-

IDAHO POSTMASTERS. (Special to the "News.")

Washington, D. C., Dec. 15 .- Idaho postmasters appointed: Pegram, Bear Lake county, David L. Hughes, vice D. Bancroft, removed. Roosevelt, daho county, Harry H. Austin, vice W. M. Dutton, resigned.

***** TODAY'S ISSUE.

While the Christmas News, presented to the public here- 3 with, tells its own story, some facts in regard to its preparation may be of interest to its readers. The work on the paper 3 was commenced early in October, artists being employed to furnish designs for the cover, \$ and many of the illustrations. A corps of writers was despatched to many sections of Utah, Nevada, Idaho and Wyoming, especially to the mining camps of Nevada, to secure data for the exhaustive accounts contained. All the work has been carried on by the regular staff of the paper, and the mechanical part executed by the several depart- 3 ments of the News. When it is remembered that the vast work 2 necessary to turn out a paper like the Christmas issue .has 3 been carried on in conjunction \$ with the regular Daily, Saturday and Semi-Weekly editions, some idea may be gained of the completeness and up-to-date facilities of the "News'" establishment and of the efficienty of its corps of workers.

The actual number of papers and covers printed today is 26,200. Not counting the cover. which was printed on a flat press, 95 rolls of paper were used, containing 57,000 pounds of white paper. If stretched on a continuous roll, this paper would reach a distance of 1,805,000 feet, one yard wide, or about 340 miles.

that the corporation wanted the tract in conjunction with 75 acres adjoin-ing it upon which options have been obtained, as a site for a warehouse to cost \$1,000,000, which will give employment to at least 1,500 men. The company's reason for building the warehouse, it was further explained, is to furnish storage facilities for the products of its various plants close and convenient to the eastern market. **************

fice of Mr. Newhouse last Tuesday, Mr. Bunch was placed under arrest on Wednesday evening just before leaving for his Idaho home. Bonds of \$4,000

were immediately furnished by Dr. Claude W. Gates and Milton W. Snow, a mining engineer of this city.

ABOUT ALLEGED SWINDLE.

Mr. Bunch is now out of the state, awaiting a hearing on the charge of obtaining money under false pretenses. The amount involved is \$3,700 which was advanced by Mr. Newhouse on the mining property under discussion in Idaho. Since this money was advanced, it is declared that Mr. Newhouse spent \$50,000 on the mine. The swindle alleged by Mr. Newhouse consists of misrepresentation by Bunch on the amount of ore mined at the time the original transaction was made. This was said by Bunch to be sacked at the mine, and Mr. Newhouse now claims the sacks contained nothing more than granite rock.

THE OFFICE BOW.

Atty. Ashby Snow has been retained by Mr. Bunch as his attorney. In the meeting with Mr. Newhouse on Tuesday there was a stormy scene. Mr. Bunch is president of the mine, and a Mathews, who is its secretary, came down to get an accounting on th They said they had property. been unfairly dealt with, and that the amount of money reported taken out was much smaller than was reasonable. Mr. Newhouse, it is said, ordered Bunch out of the office, and Bunch reto throw him out. A clash followed in which Mr. Bunch struck the eye

Second and Third when three apparently young men overtook him. They separated passing on both sides of him. The larger one when by the side of Lattle demanded that he throw up his hands. This he rap-idly compiled with. In the excitement the sun which had been brought into play, was accidentally discharged. The builet passing dangerously close to Mr. Little's ear. The three would-be holdups were more taken shack than was the victim of the affair. They knew not whether to ran or not. A window across the street went up in less time than it takes to tell it, and a shrill, high pitched, feminine volee in most pitful tones wanted to know what was the matter. This was too much for the footpads who made their excaps in the darkness, running north to the police station, and reported the arhouse reached back into his hip pocket, while commending Bert Fuller to stand aside, saying, "Here, I'll fix him." Mathews then rushed Newhouse and

appointment was made for the next day, at 3 o'clock. Ashby Snow was retained in the meantime, and went with Bunch and Mathews. They were

met by an attorney regularly employed in Mr. Newhouse's office. He informed them that Mr. New-house was not in. They concluded that he did not wish to see them. Mr. Snow said last night that if this ac-tion clears up as he thinks it will, a suit will be filed against Newhouse imfederal mediately in the courts de manding an accounting and a receivership for the mine. He says that he regards the complaint as a technical atter, and not filed because of any particular grievance over the item involved.

'In the first place," said Mr. Snow "Mr. Newhouse thoroughly experted the mine, before he spent a cent, and this money had only to do with the "Mr. taken out. Newhouse sent W. M. Johnson thera and he spent four weeks on the ground. Since gaining control Newhouse has spent \$50,000 developing the property, and he has been in charge.
