LOCAL NEWS.

Primary Reports.—The secretaries of the Primary Associations of this State are requested to forward their semi-annual reports immediately to Miss Beattie Dean, 77 Peach Street, Salt Lake City.

Snafeld at Mendon.—By special dispatch to the News from Mendon this morning, we learn that John Bird, a citizen of that place, aged fifty-five years, notified about his mother-in-law in his stock yard, by shooting himself in the left breast with a rifle. He was dead when found. The particular cause of the act is not known. He leaves a wife and thirteen children.

Primary Conference.—The Primary Associations of this State will hold their Semi-annual Conference in the Assembly Hall in this city on Saturday, the 20th inst., commencing at 10 a. m. A full and punctual attendance is desired, and it is also requested that the members bring their Primary Lesson books and the Sunday School Union music books No. 3, with them.

A Good Man Gone.—By reference to the obituary notices published in this issue it will be seen that Brother Benjamin Isaac, one of the substantial citizens of Spanish Fork, Utah County, and a most excellent man, has passed from life. While it is sorrowful to part with such men there is consolation in the reflection that his life has been an acceptable one to the Almighty, and that he has secured, without any possibility of losing hereafter, the glorious reward which the faithful Saints are all striving for.

A Favorable Spring.—According to a letter received from Brother Henry J. Horne, of Mesa City, Maricopa Co., Arizona, the season has opened very favorably in that region and is already well advanced. It is dated March 2nd, and he says:

It has been raining here since Thursday last most of the time, and there is no prospect of its clearing up. It is giving the ground another good soaking, which is a great blessing to the farmers and gardeners. The fruit trees are blossoming out and there is a prospect of a good crop this season. Locals are up to the ankles in mud and pasture now. The health of people is good.

The Garn Case.—A preliminary examination of witnesses on the charge of unlawful combination, against Martin Garn, of Sugar House Ward, was held before Commissioner Critchlow yesterday afternoon, and resulted in the defendant being bound over in \$1,000 to await the action of the grand jury. A large number of witnesses were examined, and when Miss Ada Coxall was called, she was pled with questions as the whereabouts of Mrs. Caroline Coxall. The witnesses were before the grand jury to-day, and it is presumed that an indictment was found against Mr. Garn, as his mother, wife, and Mrs. Hardy were placed under \$200 bonds each to appear at the trial in the Third District Court.

Sheep Company.—The articles of incorporation of the Railroad Man's Sheep Company have been filed with Secretary Thomas. The principal place of business of the company is at Oasie, Millard County, and the capital stock of \$10,000 is divided into 5,000 shares, of which no person shall subscribe for more than 100 shares, except by consent of a two-thirds vote of the stockholders. The object and business of the corporation is to purchase a herd of sheep "in order to realize an increase of funds, and such other purposes as may be hereinafter determined." There are 12 stockholders, who have subscribed for the stock in various sums from \$25 to \$500.

BATTERED.

BLOOD FLIES FROM A "TRIBUNE"

LIAR'S NOSE.

The hallway at the foot of the stairs leading to the legislative rooms was the scene, about 11:30 this morning, of another of those unfortunate occurrences where the averaging of an injury to a private party is made the opportunity for further maligning of the entire "Mormon" people. One of those who have been the objects of vicious attacks by the organs of the legislature is Don Carlos Young, a member of the Legislative Assembly. On a number of occasions recently Mr. Young has been assailed by the vile sheet, and yesterday morning another brutally insulting article was published. Yesterday Mr. Young applied to C. T. Hart, the reporter of the slander, and was referred by him to the manager of the concern, the latter, however, not having contract to meet the responsibility of his own actions. Mr. Young demanded that reparation be made, but as nothing was done, Hart was approached by Mr. Young at the close of the legislative session this morning, and requested to do the latter justice. This he refused to do, and a few hot words passed between the two, when Mr. Young slapped the reporter in the face with his open hand. Hart, who is much taller than Mr. Young, raised his umbrella to strike, when he received a blow on the nose from his assailant's fist, which caused the blood to flow freely. This was all, or more, than the reporter wanted, so he took to his heels and made for the City Marshal's office close by, to obtain protection from the police, whom he has so often vilified. Mr. Young followed and gave himself up to the officers, and was placed in custody. Shortly afterward Mr. Young was released to appear for trial at 9 o'clock this afternoon.

Quite a sensation resulted when the facts of the affair became known, and while no sympathy was manifested for the wretch who had been battered, Mr. Young's course occasioned considerable surprise and evoked the severe censure of his friends. His character is above reproach, and his reputation has been that of a quiet, retiring, inoffensive man, so that his action in assaulting the individual who has slandered and maligned him through the columns of a low newspaper, was entirely unexpected by any of his acquaintances.

Under the present condition of things, we cannot attempt to excuse Mr. Young's action. It is true that the assaults made upon him by the sheet whose reporter he attacked have been most villainous; that he cannot hope for reparation from any of its managers, and that the Federal courts afford him no means of redress, for the reason that he is a "Mormon." But Mr. Young is a representative of the people in the Legislature; he is chosen a law-maker, and should not stoop to the position of a law-breaker. Again, he is a "Mormon," and the teachings of the Church to which he belongs are that he should rather suffer wrong than do wrong; that he should be patient in suffering the most bitter persecutions; that he should not take vengeance into his own hands, but should leave that to a higher Power.

It may be said that he alone is responsible for his act. That may be true among those who are acquainted with the circumstances, but the occurrence will be heralded to the world by the same publishers of the slanderous sheet as another "Mormon" outrage, and innocent people will have to suffer therefor. It is even among the probabilities that another howl of a "conspiracy to murder government officials" will go up, and more anti-"Mormon" legislation be demanded. Mr. Young may say that he has already taken too much abuse from the fellow Hart, and in its ordinary sense this is doubtless true, but he should also consider the effect such acts of retaliation may have in increasing the oppression of the people whose interests he should guard. It may be too much to ask a man to submit to the vilest abuse for the sake of his fellow men, but in the present instance the people do require that his private acts be so controlled as to subserve the public good, at least while he occupies a public office to which he has been elected by their votes.

A Contemptible Apology for a Base Insultation.—The pretense of Tuesday morning's Tribune of taking reparation and amende honorable for its dirty and villainous attack on the character of Hon. S. R. Thurman, in its Sunday's issue, is a miserable piece of cant and evasion. It discloses an intention of doing the gentleman injustice, but it did it all the same, and the writer of the libel knows it. It charges him with "double dealing," and ends by asking him to place him in the most unfavorable and ridiculous light with his friends. In this, however, it has failed; for the accusation and the foundation on which it was based are too ill-fated and so transparent that every right-minded person can see through them without the slightest difficulty. Mr. Thurman is plain, and outspoken; his "trumpet gives no uncertain sound"; his language is not ambiguous, but is import plain. His views in regard to the appointing power of the Executive are well known, and undisputed, and his action, notably on the "jury bill," was open, free, independent; based on principle, and not on pretense.

But the organ, after "stabbing a man in the back," and insinuating that he is "Janus-faced" and playing a double game, is so cowardly and unmanly to acknowledge that it uttered a deliberate falsehood in relation to the gentleman's true status; but offers a miserable excuse for an apology for the wrong it perpetrated, by pretending to give the victim "the benefit of the appeal" to his record, which record is a complete answer to the libel upon him. Mr. Thurman ought to derive satisfaction from the reflection that no person acquainted with the character of the vile and slanderous sheet referred to is likely to think any of the worst of him for its attack upon him, for it is rather a compliment than otherwise to be assailed by it. Certainly no one acquainted with Mr. Thurman would for a moment think of crediting any such slanders against him, no matter by whom uttered. They are about as a man with the assertion of Mr. McLaughlin in the House yesterday afternoon, to the effect that he had been informed by Messrs. Thurman and Greer that Auditor Clayton's salary had been kept low with the expectation that the office would soon be in the possession of one "Mormon." This statement was denied in toto by both gentlemen, and all who know him will believe that in that denial they told the truth.

Card of Thanks.—The ladies of the Mass Meeting hereby express thanks for the use of the Theatre, thanks to the press, to the choir, the band and to all who kindly contributed to the success of the occasion.

CITY COUNCIL.

The City Council met in regular session, at 7 o'clock last evening, Mayor Armstrong presiding.

A committee representing the dry benches, drew the attention of the Council to the former Council's action in deciding to lay out a new future time, high enough in City Creek Canyon to supply the Bench with water. In the meantime the committee referred to the committee on irrigation.

Frank May stated that an old petition had been submitted by him asking a rebate of license, and he desired that he be acted upon. The committee on license was instructed to look the matter up.

Mr. Newsum asked that the sum he had always paid as peddler's license (\$2.75 per quarter) be not raised in accordance with the new schedule adopted at the time of passing the petition. He stated that he had been a peddler for many years, and that he had never been arrested.

The request of H. W. Morse, Jr., that his license be transferred to his son, William Morse, was referred to the same committee.

Twenty-one and three whole-sale liquor dealers' licenses were granted.

The report of the police justice for February was submitted. It shows that 1,400 arrests were made, and 5,000 cases were referred to the committee on police.

The superintendent of streets presented a statement of the expenditures on road and street account for the past quarter, showing a total of \$2,400 expended in cash, and \$1,500 days in prison labor utilized. Referred to the committee on streets and alleys.

The superintendent of waterworks presented his quarterly report; it shows that the city has at present four miles of water mains in use; \$18,000 is the annual income, and \$400 the annual expense for carrying on the works; the total expenditures during the quarter were \$1,838.90.

The committee on water works, to whom had been referred the petition of Wm. R. Jones, Jr., asking a rebate of \$30, amount paid by him to the city when he expected the water mains to be extended, was not satisfied, and the amount was appropriated.

In the petition of L. E. Kelsey and others asking that the mains be extended from Fourth to Sixth Street, the committee on water works reported favorably, recommending that upon the payment of the customary three-fourths (about \$200) less one-fourth on account of public property, which mains be extended as soon as practicable.

The committee on license reported favorably on the petition of J. C. Devoreux and Eli G. Durnell, asking free licenses for one year.

The committee on claims reported progress on measures referred to them for consideration.

The Council then adjourned for one week.

Funeral of Sister Sharp.—The funeral service over the remains of Sister Janet Sharp, wife of Adam Sharp, was held in the 20th Ward meeting house on Sunday last, and conducted by Brother W. C. Dunbar. The opening prayer was offered by Elder Samuel Neelsen, and discourses were delivered by Elders Robert Campbell, Charles Livingston and James Sharp, followed by benediction by Elder Samuel Benzon. The dedicatory prayer was made by Elder Pacey.

Sister Sharp was baptized in Scotland, the land of her birth, by Elder John Sharp, in the year 1847, and was married to her brother-in-law, Adam Sharp, in the year 1850. She migrated to Missouri immediately afterwards and remained there until 1880, when she came to Utah, making her home in this city. In 1872 the family removed to Vernon, in Rush Valley, and remained there until last year, when they returned to this city.

She was an exemplary woman and a thorough Latter-day Saint, and was greatly respected by all who knew her. She was the mother of 11 children—five sons and six daughters; three sons and two daughters surviving her.

Obit.—"J. H. H.," writer from Oasie, Millard Co., gives us the following items concerning that place:

Oasie is proving true to its name, "a fertile spot in the desert." "Excellent" is our motto; onward and upward we go. If we are not millionaires, we feel sure that we are considerable go-aheaders in the burgh, and deep throats, many drawbacks and obstacles, but we are not deterred, and continue to battle for the success we justly feel entitled to.

The never-ending water question has aroused the people to action, which resulted in the organization of the Oasie and Riverside Canal Company, capital stock \$50,000, divided into 10,000 shares at \$5 each. A preliminary survey shows the feasibility of drawing the water supply from River Sever.

At a point about three miles above Riverside Station, U. C. R. R., at an estimated cost of between \$20,000 and \$25,000, allowing 10 feet fall, the water will come to the surface about 7 miles above Oasie and bring between 20,000 and 30,000 acres of rich land under cultivation. The cost of the canal, \$2.50 per acre, or even double, it would be cheap. We invite inspection. There is room for at least from 75 to 100 families, if not more, about 5,000 acres of land and one-half section of the canal. The company are already taken up, principally by non-residents, which demonstrates the reality that Oasie will yet become the "City of the Desert."

Proposals to our new canal organization, the Millard Canal Company, have been made by a number of persons, but we have no eyes to the welfare of their fast growing children, which is highly appreciated, and above all else, will make our foundation more secure. Thanks to the honorable body. Active measures are being taken to erect a large and substantial school house for the coming winter.

Our present weather reminds us strongly of the "lion," because January and February were so mild. More snow.
