

IDAHO DEMOCRATS ARE RENT ASUNDER

Arbitrary Enforcement of the Gag Rule by Dubois Gang Was Direct Cause.

TWO TICKETS NOMINATED

No Name Appears on Both—Appeal Will be Made to Courts for Recognition.

(Special to the "News.")

Wallace, Ida, Aug. 6.—One hundred and eighty-three out of a total of 298 delegates of the Democratic convention met in the hall above the Duboisists. They organized by electing Judge C. C. Stockslager, chairman, and Burrough of Canyon county, secretary. Ladies and citizens left the Dubois convention and flocked in crowds to the Democratic hall, where they were welcomed cordially, no tickets being required. The usual committees on credentials, resolutions, and order of business were appointed and reports agreed upon. A committee on nominations of one from each county was appointed and also a committee of three consisting of Judge State, Capt. Link of Johnson county and Judge J. D. Flenner of Ada to arrange for a grand Democratic rally and Bryan ratification with music and oratorical fireworks tonight.

Before walking out of the Dubois convention after all rights of the legally elected delegates had been violated, Judge Flenner of Ada addressed the convention briefly and said, among other things, that as the Duboisists had not so far made any mention of Bryan, he proposed three cheers for that grand man and Democratic candidate for the presidency, which were given amid wild enthusiasm. What started the row was a motion of Dubois and Jackson for previous question on the report of the credentials committee.

Had the facts on which the Dubois fake contests were made been submitted to the convention the results might have been different, but the gag rule did the business, so an appeal will be made to the courts and Harry Day, a prominent mining man and supporter of Dubois, admitted to your correspondent that Dubois would be beaten before the supreme court.

Platform of the anti-Dubois Democrats will contain no reference to anti-Mormon matters, none to local option or prohibition, but will be on broad national and state lines. What is likely to prove a disorganizing element among the Democrats is the liquor question; Shoshone, Twin Falls and Bonner counties are opposed to local option or prohibition, and it is thought this will bust up the Dubois camp.

THE SPLIT.

(By Associated Press.) Wallace, Ida, Aug. 6.—The Democratic state convention was split in two today and both the Dubois and anti-Dubois factions have organized separate committees.

The split in the convention came this forenoon when the convention failed to sustain a protest of the anti-Dubois faction against the seating of the Dubois delegates from Bear Lake, Oneida and Fremont counties.

The anti-Dubois faction left the hall. The Dubois faction then formed a permanent organization by the election of A. L. Freehafer of Washington county as permanent chairman.

The selection of Freehafer was displeasing to Delegate Galloway, who, after saying that he objected to a "straw man" for chairman, left the hall. The convention then adjourned until 2 o'clock.

The "regular" Democrats, as the anti-Dubois faction denominated themselves, went over to the Masonic hall, where Judge Stockslager was chosen chairman. An announcement was made that still more "angers" desired to enter the convention.

After they had been admitted to the hall Judge Stockslager, amid great laughter, suggested that committees be appointed to wait upon the Dubois convention and explain that the Masonic hall was not small for the "regulars," and ask them to exchange halls.

Following this the committees were announced and the convention adjourned until 2:30 p. m. to permit the committees to prepare their reports. The anti-Dubois convention claims to have 154 votes and the Dubois 115. Many delegates have gone home, leaving proxies.

Except that the Dubois convention declared for local option and pronounced strongly against polygamy, unlawful combination and church interference in politics, on which subjects

Why Suffer?

If you suffer pain from any cause, Dr. Miles' Anti-Pain Pills will relieve it—and leave no bad after-effects. That's the important thing. Neither do they create a habit. More often the attacks become less frequent, or disappear altogether. Dr. Miles' Anti-Pain Pills have no other effect except to relieve pain and quiet nervous irritation.

"We are never without Dr. Miles' Anti-Pain Pills. My husband and son, and I were always subject to headache until we began using these pills, and they have broken up entirely. Last winter they have had to use them for six months. I recommend them to every one. A few weeks ago I heard an old lady friend was sick. I went to see her. She was down with a cold and headache. I gave her one of the Anti-Pain Pills and left another for her to take in a short time. They helped her right away, and she says she will never be without them again. Last winter my husband was taken with palsy on both sides and I know of no other cure. In less than half an hour he was sweating, and went to bed and slept."

BOY BURGLAR KILLED.

San Francisco, Aug. 6.—Scott Pound and Ray C. Baird, two Seattle youths about 18 years of age were surprised early today at work robbing a saloon into which they had forced an entrance and in trying to escape Pound was shot and killed by a policeman after a chase of two blocks. Baird, who according to the police is the son of a prominent citizen of Seattle, was captured.

ENJOINED FROM INTERFERING WITH STRIKE-BREAKERS

Seattle, Wash., Aug. 6.—In an oral opinion in the federal court today Judge C. H. Hanford, granted an injunction asked for by shipowners and stevedores against the union of the Pacific coast, handed down a decision restraining the Puget council of longshoremen and the local union from interfering with strike-breakers in loading and unloading ships in Seattle. He said, in part:

"Unions as it exists in this country originated in England and has imposed the working classes of the entire and put 30,000 people in the almshouses of London. The system is incompatible with the Declaration of Independence and the laws of the United States of America, which exist for the purpose of guaranteeing the workman the right to come and go from his employment without molestation."

The court held that the best jurisdiction in a case where interstate traffic was affected and that the labor unions were responsible for the acts of violence committed.

YOUNG GIRL MURDERED.

Latest Theory is Victim is Annie Herivel, a Detroit Seneographer.

New York, Aug. 6.—That the charred body of a young woman found on a refuse dump in Green Point, a week ago may be that of Annie Herivel, a Detroit stenographer, who came here seeking work, is the latest police theory. Her parents in Detroit have never heard from Miss Herivel, since she reached this city a fortnight ago, and the descriptions and photographs of the pieces of clothing on the body lead them to believe that it is the body of their daughter. It is expected that some one will come from Detroit to try to identify the body.

ANNE HERIVEL.

Detroit, Mich., Aug. 6.—Miss Annie Herivel, who is missing and who, it is thought by her relatives here, was possibly the victim of the Green Point murder in New York, left this city July 27 to take a steamer for her home in Southampton, England. Her relatives here have heard nothing of her since the young woman left her home in Southampton, July 27, with her brother-in-law, F. H. Gooding, and came to her brother's home here.

On the steamer en route to New York, she formed the acquaintance of a man who paid her great attention. A few days after her arrival here, Miss Herivel became dissatisfied and expressed a wish to return home. Her brother finally arranged for passage back to Southampton, but finds that no such person as Miss Herivel took passage as he had arranged on the White Star steamer, July 22. Gooding could suggest no reason for the girl having been murdered. He says he has learned that Miss Herivel be-

BOYBURN VINDICATES THE DIFFERENCE

Between Labor Organizations And Combinations in Restraint of Trade.

CONTEMPTS AND JURY TRIALS

In No Sense an Assault on Integrity of The Courts—As to Industrial Pursuits.

Lincoln, Aug. 6.—W. J. Bryan today issued a statement replying to a circular issued some weeks ago by the National Association of Manufacturers and signed by James V. Van Cleave.

Mr. Bryan declares that the pamphlet of Mr. Van Cleave raises two questions: first, is there anything in the labor plank of the Democratic platform to which business men can justly take exception, and second, is labor question so important to business men as to justify them in ignoring all other issues?

Mr. Bryan declares that the provision in the Democratic platform for the creation of a labor department with a cabinet officer at its head, cannot possibly offend business men. He then says:

"The platform draws a distinction between associations of wage earners organized for the purpose of wages and the improvement of labor conditions, and industrial corporations which act in restraint of trade. The difference between a labor organization and a trust is that the former is no disinterested person will deny that they should be treated separately. To class the two kind of organizations together and to demand that under one law is bound to do injustice to one or the other. Surely the business men can have no vital concern in including the labor organizations in the anti-trust laws."

Mr. Bryan then takes up the plank providing for trial by jury in cases of direct contempt. He insists that this cannot raise a question of vital concern to business men, because every man has a right to a jury trial. He then says:

"An attempt will be made to raise a false issue in regard to the courts and make it appear that the demand for trial by jury is an assault upon the integrity of the courts. Those who make this argument might as well make it the abolition of the jury in all cases, for the jury system itself is just as much a reflection upon the bench as is the demand for trial by jury in the particular case."

"But there is another plank that Mr. Van Cleave probably has in mind. This is the plank that declares that parties to all judicial proceedings should be treated with rigid impartiality, and that an injunction would not lie if no industrial dispute were involved. Do the business men insist upon impartiality in judicial proceedings? Do they insist that the more serious the case, the more impartial should be the judge? That plank does not attempt to interfere with the issue of an injunction in any case, but it does attempt to discriminate against them in favor of any other class."

Mr. Bryan in conclusion, declares that Mr. Van Cleave does the business man an injustice in assuming that his waking hours are filled with fears of the wage earners and that the rest is broken by imaginary disputes with those who toil.

MRS. WARDWELL LEPER. VIOLENTLY INSANE

Tombstone, Ariz., Aug. 6.—Local health and county officials are in a quandary regarding the disposition of Mrs. Wardwell, the leper who was taken from the Los Angeles county hospital by her husband, a Civil war veteran, and inmate of the soldiers' home at Fayetteville, Cal., and who is now under quarantine. Efforts to have the unfortunate woman and her husband deported have met with many legal complications and added to this is the fact that Mrs. Wardwell has become violently insane. She escaped from the guard at the isolation quarters here last night and made her way toward the residential section of the city, creating quite a scene before she was recaptured and returned to the place of surveillance.

Clerk Renner of the board of supervisors has wired the state department at Washington for permission to deport the patient to their colony at Molokai, Hawaii, pending advice from the department both Wardwell and his wife are held in quarantine. The husband avows his intention of accompanying his wife if she is deported.

HEAT CAUSES SUICIDES.

New York, Aug. 6.—Probably crazed by the heat of the last few days, Robert Turnbull, a prominent operator in suburban real estate, formerly a professional pugilist of some note, shot and killed himself in his home in Brooklyn today. Turnbull is said to have been formerly an amateur lightweight champion of America. He fought against Jack Dempsey for the professional championship three times and was defeated after fighting two draws. Afterwards he traveled with the John L. Sullivan athletic combination.

Another suicide attributed to the effect of the heat was that of Morris Lubrisky, who hanged himself in Brooklyn today.

There were a number of heat prostrations today, but these were chiefly due to the oppressive humidity. The temperature was not unusually high.

STOOD THE TEST.

Seven Officers Did Fifty-Mile Hike Easily.

San Francisco, Aug. 6.—Seven army officers from the Presidio and Benicia above the rank of captain today finished the third and last section of the 100-mile test to determine their efficiency and physical fitness to remain in the service. The veterans, the majority of them having been in the line of duty since the general hospital early in the afternoon after covering an average of 30 miles a day, were declared to be in excellent physical condition after their three days' walk.

The senior officer, Col. John L. Clem, enlisted in the army at the age of 16 years and is referred to in the histories of the Civil war as the "drummer boy of Shiloh."

Besides Col. Clem the party was composed of Col. George H. Torney, Col. Adam Baker, Col. J. J. Anderson, Maj. W. A. Bethel, Maj. J. M. Kennedy and Col. J. Walter Benet.

WOMAN BURNED TO DEATH.

Butte, Mont., Aug. 6.—Mrs. R. F. Soule, wife of a prominent Anaconda business man, was burned to death in her home here today by the explosion of an alcohol stove.

SEVERE CASE OF PSORIASIS CURED

The Terrible Disease Spread Over Body and Limbs—One of Worst Cases Doctor Ever Saw—Itched Constantly—Defied Treatment.

USE OF CUTICURA MET WITH PERFECT SUCCESS

"I was cured of psoriasis through the use of the Cuticura Remedies. The terrible disease appeared on my arms and legs in small red spots under the skin, like blotches, blotches, the size of a pin-head, and it was constantly throwing off white scales, with a terrible itching. It spread until I was covered with it except my face and hands. I doctored with two of the best physicians I could find but they could not help me. One of them pronounced it one of the worst cases he ever saw. My mother gave me a bottle of Cuticura. I doctored, I did not get much relief from the first bottle but I urged me to keep on taking it, also using Cuticura Soap and Ointment. The first week I began to feel better, in two months the itching had stopped and before long I had used half the Cuticura Remedies. I was completely cured. I would not be without Cuticura if it cost five dollars. James A. Arrow, Brookland, D. C., Oct. 6 and 21, 1907."
