## AGREEMENT WITH ENGLAND.

Only a Question of Drawing Up a Boundary Line by a Commission.

PARIS, July 22.—The Siamese minister to France called on the French foreign minister this morning and asked for an extension of the time for a reply to the French ultimatum. The request was refused and the Siamese minister was informed that if not acceded to in the time specified France would proceed at once to enforce the demands.

## THE CRIMES GIVEN AWAY.

NEW YORK, July 22.—A London dispatch states that Marshal Soubise two weeks ago made an arrangement with Washington, the French ambassador, by which France would occupy the Shan states between Burma and the northeast frontier of Siam, although claimed by Siam, while France was to have all the Shan states to the south of the Mekong. This question of the English will receive first attention, a definition of the boundaries by a boundary commission. That France expected such juxtaposition of the English and French territory is known to all. The English, however, are to be blamed for the misery of the "frontier" states and the day has arrived for the making up of the English and French possessions in Asia, Africa, Oceania, and America. England hence has become the frontier of the world.

The English are less inclined to prosecute than the existence of "frontier" states, which generally are merely fields of intrigue of over jealous functionaries.

Both sank in a hundred fathoms of water. They are supposed to be Harry O'Farrell, a civil engineer, and Mrs. McDaniel, a divorced woman, with whom he was living and against whom he had made threats.

## THE WORK OF AN INCENDIARY.

H. L. Stone and Minnie Nelson Caught in the Fire.—The latter Dearly Burned.

A fire happened to be of incendiary origin occurred at the Rapid Transit saloon at No. 322 Main street this morning. The building was a two-story frame structure formerly occupied by Henry Cohn as a used warehouse. Mr. H. J. Levy, the proprietor of the place, used the first floor for retail liquor purposes, while the upper story was used as a cheap lodging house. The landlord of this was M. L. Johnson, it having been known in police circles for being the scene of notorious resort. The inmates have been in the habit of remaining up the most of the night. Last night was no exception. At 2 o'clock this morning they were all in bed when an alarm of fire was sounded and flames burst forth through the second story windows. The building was entirely of wood and the flames spread in an alarming manner. There was a great scuffle on the part of the lodgers to escape the fire, and many were badly scorched. The building was badly damaged. The firemen made a second effort to save the Nelson woman and by the assistance of a fireman succeeded. She was carried to the Hotel El Dorado where she received medical treatment. Her burns covered about the face, shoulders, arms and feet. It was stated that her injuries would prove fatal. Dr. Moshman, however, does not incline to that opinion.
