

by Lord Cecil, G. B. Loring, Chas. L. Woodbury and others at the levee held in the evening at the house of Mr. Wright.

Commander A. L. Case, now at the Naval Academy, takes the head of the Naval Ordinance Bureau.

Louisville.—A passenger train on the Memphis and Louisville Railroad, from New Orleans, ran through a trestle, eight miles below Clerkenwell. The entire train, except a New Orleans sleeping car, was burned. The engineer, fireman and one passenger were killed; eleven were badly wounded; seventeen slightly injured. Judge Caulkin's wife and two children were all wounded, the latter slightly.

New York.—The following was furnished by the Frank line of telegraph: Paris, July 28.

To the Hon. Secretary of State, Washington:

The Emperor of the French to the President of the United States, Washington:

I am highly gratified to inaugurate the new line of telegraph which unites France with the United States by sending to you an expression of my good wishes for you and for the prosperity of the United States.

Signed,  
NAPOLEON.

Washington, July 28.—The President of the United States to the Emperor of the French. I cordially reciprocate your good wishes and trust that your liberal policy towards the United States, pursuant to which this cable has been landed, may result in many such means of communication, especially between this country and its earliest ally and friend.

U. S. GRANT.

The Commissioner of the General Land Office has reports showing the disposal of 47,312 acres of public lands during June, including Oregon City, Oregon, 913 acres, and Olympia, Washington Territory, 9,570 acres.

The information received by the Indian Bureau from Yankton agency is that the Indians are highly pleased with the manner in which the great Father has proposed to take care of them. They express their intention to live up to the treaty. There is a prospect for a fine corn crop upon the reservation.

Minneapolis, Minnesota. — Letters were received last night from the northern Pacific Railroad exploring party, dated Georgetown, Red River, North Fort, Aberciombe, July 20th. The party are in fine spirits. They were about to divide, one portion pushing to Missouri river, and the other portion returning to St. Paul prior to a trip to Superior.

New York.—One of the officers of a Brooklyn bank and the son of one of the directors decamped three weeks ago with \$50,000 in currency and bonds. They were arrested at Brooklyn last evening and returned bonds and checks to the amount of \$35,000.

At a camp meeting, at Narragansett Bay on Sunday night, ten tents were entered and the occupants robbed of a large amount of valuables. The victims were chloroformed.

New York.—A trot for \$3,000 mile heats, best three in five in harness, between Lady Thorne and the Goldsmith Maid, was won by the former in the fastest time made this season on the Union Course: 2,21 3/4; 2,20 1/4, and 2,21 1/4.

White Sulphur Springs, Va.—Mr. Peabody, to-day, was presented with the resolutions of the meeting of yesterday, and responded with feeling. In allusion to the condition of the Southern people he spoke hopefully of the coming prosperity of the whole South, and incidentally alluded to the fact that the fund, though yet in infancy, had accomplished much good. Eight hundred persons, half of them ladies, witnessed the presentation. A grand ball, in honor of Mr. Peabody, takes place here on the 11th of August.

#### FOREIGN.

A fight has taken place near Ciudad Real between some Carlists under Sotarragas, and the National troops, commanded by Gen. Tarrabetti, the Carlists were defeated and dispersed, losing many killed and wounded. The agitation is general throughout the country, but no further hostilities are reported. The citizens here are excited over the news, but there are no indications of disorder.

Havana.—The Spanish troops at Bordo captured and shot sixty rebels. The cholera is decreasing at Puerto Principe.

Havana.—According to official reports the number of effective regular troops on this island is thirty-two thou-

sand, and four thousand volunteers. The rebels state that they have six thousand well armed men in the field besides a number of guerilla bands.

Toronto.—Instructions have been received from Ottawa to have the gunboats on the lakes ready for immediate service; rumors of a Fenian move, it is supposed, are the cause of the order.

Vienna.—Great excitement was created last week at Craerow by the liberation of a nun who had been confined in a convent for twenty years. The demonstration made led to a serious disturbance, and the military had to be called out to restore order.

London.—In the House of Lords, to-night, the royal assent was given to the Irish Church bill. In the course of the evening the Marquis of Clanricarde called attention to the inadequacy of the police arrangements in Ireland for the prevention of crime. He said the constant recurrence of outrages in that island was a disgrace to the country, and the impunity with which murder and outrage was committed showed that the executive was powerless and the assassin powerful. He urged the necessity of having a more effective constabulary.

A collision occurred on the Baltic last night, between two steamers. One vessel was sunk and twenty-three passengers and the crew drowned.

London.—It is rumored that a treaty has been concluded between France, Austria and Italy, the latter, in case of war, to support France with a contingent of fifty thousand men. It is rumored also that Prussia offers the Pope twelve thousand troops if the French evacuated Rome.

Advices from Constantinople state that Egypt is arming extensively.

New York, 26.—The Herald's special at Madrid says, at last the Carlist outbreak, so long expected, has occurred. Five hundred well drilled troops, under command of Gen. Sabariego have taken the field near Ciudad Real, where they were defeated and dispersed by the national troops, commanded by Gen. Tarrabetti. The battle took place in the morning. It is reported that the Carlist party lost one hundred killed and a number of others wounded. Only three officers are reported killed on the side of the Government. Near the town of Manzarias a strong party of Carlists also made a demonstration subsequently, and succeeded in intercepting railroad trains, and cutting the telegraph wires. Latest accounts say that four thousand Carlists had arrived in the province of Hamancha. Government troops had been dispatched to the scene of action. The agitation is general throughout the whole country. The people are much excited over the late news. No further hostilities have yet been reported, although it is feared that a general rising may be expected all over Spain now that Don Carlos has crossed the frontier and opened communication with his numerous partisans.

It is reported that a new cable is projected direct from Milford, South Wales, to the American continent.

New York.—An American just returned from Cuba says the revolutionary forces display more activity than the Spaniards, and are making raids and otherwise harassing the enemy; there is, however, very little disorder outside that usually connected with military operations. Private individuals can travel from one place to another without molestation. Supplies are obtained from the plantations of the country, which are very productive. Both parties have abundance of provisions. The principal wants of the revolutionists are arms, medicines, salt, clothing and shoes; there is no lack of men. The patriots have ammunition enough of all kinds to last many months; they also have arsenals for the manufacture of cartridges, and for repairing arms disabled in action. The patriot leaders state that they do not need any men from abroad, as patriot volunteers are constantly presenting themselves. Great inducements are held out to blockade running; a fast steamer, such as was employed by the Confederates would have no difficulty in landing a cargo, and, in addition to her receipts from a regular cargo, she would make immense profit on medicines, salt, cotton cloth, rubber goods and shoes, and would be given, free of charge, a cargo of sugar or tobacco with which to return.

London.—A fault has been discovered in the 1866 cable, 130 miles from Valencia.

London.—Henry W. Longfellow was yesterday invested with the honorary degree of Doctor of Laws by the Oxford University at a special convention.

Vienna.—Baron Von Beust, to-day,

received the budget from the committee of the Hungarians' delegation. In an important address he said the relations between Austria and France had been on the best possible footing ever since Austria relinquished the Italian territories, and the interests and intentions of the two countries were identical. Alluding to the eastern policy he said he would not insist on the programme of '67, but leave it to the option of Turkey to follow his counsel regarding concessions to the Christians. On this point he would bring no pressure to bear. He declared he had honestly striven to establish more cordial relations with Prussia; but his efforts, not having been met in a similar spirit, had been unsuccessful. He closed with a strong defense of the general policy of the Imperial Government.

Paris.—It is reported that Don Carlos ordered a cessation movement on his behalf; his partisans are much discouraged.

Havana.—The Governor of Trinidad has issued vigorous orders obliging all Spaniards between the ages of fifteen and sixty to do military duty in the field or reserve corps, while persons unfit for active service are to garrison the towns. The press praise the measure and demand that it be made general in its application throughout the island. The U. S. steamer Tuscarora is cruising off Havana.

The New York Herald's special from London to-day says the Harvard crew rowed twice on the river Thames in their American boat, and created a favorable impression. Their style of rowing was good, although the pace was considered rather slow. The Oxford crew called upon the Harvards during the day and fixed a race for Aug. 23d or on one of the following days. The members of the Harvard crew will practice daily until the races come off.

In a speech yesterday at the banquet in honor of the laying of the French cable Sir James Anderson said he had been told that certain opposition had been made to the landing of the cable. Such opposition might be due to the same kind of enterprises, perhaps, to Mr. Field and his colleague; but he did not care for that; he was sure the American people would not be unjust; they would not allow any company to spend millions of money to unite two great continents together without giving them a fair show at least. He believed it would be weak and foolish on the part of the company to ask for undue sympathy or partiality. If they could not work as well with a rival company or faster they had no right to public support and would not get it whatever public sympathy might be. The cable was therefore laid as a purely commercial enterprise. Every right thinking person trusted it would promote peace. God forbid that it should ever be used as a weapon of war.

Berlin.—Yesterday, the centennial anniversary of the birth of Humboldt was observed as a holiday. A grand banquet was given and a large torch light procession passed through the streets.

The provisional correspondence newspaper expresses astonishment at Baron Von Beust's assertions about Prussia in his speech to the Hungarian committee. It denies that any advances have been made by Austria. It says if she desires to establish a true, solid friendship, Prussia is quite ready to meet her.

Madrid.—Many arrests continue for disloyalty. At Ciudad Real hundreds of people are asking the pardon of the Government for complicity with the recent Carlist move. They say they have been deceived by the Carlist leaders.

#### STRAYED

FROM Mantl, on the 12th of June last, a pair of Brown MARE MULES, about fourteen and a half hands high, branded on the right hip R, with a Spanish brand under. They were seen at Warm Creek, on the Sevier, four days afterwards; the largest Mule had on a halter when she left home, and also when seen at Warm Creek.

Any person giving such information as will lead to the recovery of said animals, will be handsomely rewarded by

JAMES CRAWFORD,  
Mantl, Sanpete.

#### Deseret Custom Boot Factory.

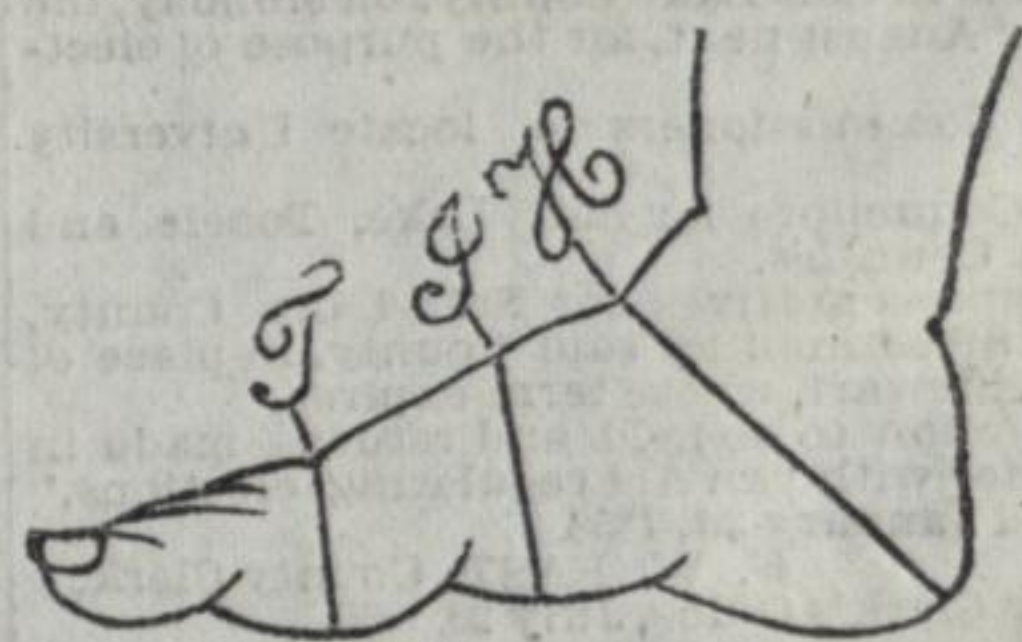

LASTS fitted and kept on hand for every Customer, remedying the great evil of treading over one side; giving ease to tender places on the feet. I also keep on record the dimensions to cut by, after the first measure.

I put SPRING STEEL SHANKS and COUNTERS to all boots; being neater, lighter, and best.

Good Material, Fit, and Workmanship guaranteed.

ALL ORDERS FILLED WITH DISPATCH  
REPAIRS NEATLY EXECUTED.

Having had nearly 15 years experience in Southern Utah, know the difficulty and expense of obtaining fine boots in the country, so I suggest the following DIRECTIONS for MEASURING YOUR OWN FOOT—

First place the foot on a piece of paper and trace the outlines of the same with pencil, which will give the length and spread of the foot; then make the following measurements in inches, and fractions with tape. Measure as shown on diagram above, and write on the paper before mentioned, with all other particulars; send it to me, pay with it, and I will be responsible for the safe and speedy delivery of the Boots at any part of the Territory, with freight, at Salt Lake prices—Calf Boots, \$10.00 to \$18.00; Kip, \$8.00 to \$13.00; I also add Cowhide, \$6.00 to \$9.50.
