

HOMESEEKERS START TOMORROW

Low Rates for Utah and
Effect Sunday

BIG TRAFFIC ANTICIPATED

Numerous Inquiries From Prospective
Settlers Now in the East Re-
garding Idaho Lands.

The low rates for homesekers go into effect tomorrow when it is expected that there will be a big rush from Minnesota and Missouri river points to the west.

In anticipation of the rate General Passenger Agent D. E. Burley, in conjunction with R. L. Lomax, the general passenger agent of the Union Pacific, has been distributing several tons of Idaho and Utah literature throughout the middle and eastern states for some time past with the result that landowners and real estate men, especially in Idaho, have been receiving letters of inquiry from interested parties who are thinking of folding up their tents and coming west to grow up with the country.

The Rio Grande with its eastern connections also has been working early and late. At this rate it is less than any yet advertised it is anticipated that a large traffic will accrue this spring. The homesekers' tickets will, if desired, be extended for a period covering 60 days, and 10-day side trips will be granted west of Pocatello.

From all Missouri river points, including Omaha, Council Bluffs, St. Joe, Leavenworth and Kansas City, the rate will be \$25.00, one way. From the Missouri river points to any station on the Oregon Short Line, the round trip rate will be \$42.50. The tickets are good for 21 days with stop-over privileges of five days at stations west of Pocatello. The rates go into effect Sunday and continue until April 30.

RIO GRANDE FIREMEN

Will Join Engineers in Request for
Increase in Pay.

Denver, Colo., Feb. 14.—Denver & Rio Grande and Rio Grande Western firemen will join the engineers of those systems in their request for an increase in pay. Their general adjustment board is now in session here. As the schedule for firemen is always 60 per cent of the wages paid engineers, the percentage of increase asked for will be exactly the same. It is said that the engineers have agreed on what increase shall be asked for, but the figure will not be given until the arrival of General Manager Russell Harding and Manager J. A. Edson of the Denver & Rio Grande system.

RAILROAD TELEPHONE

Topeka, Kan., Feb. 13.—The Rock Island railroad is preparing to make tests of a new instrument by which it is claimed telephoning can be done successfully over telegraph wires. The new instrument is called the "teler" and a complete outfit has been received by the superintendent of terminals in this city. One of the instruments will be installed in the office of the Rock Island superintendent of terminals in Kansas City and one in the general superintendent's office at Topeka.

SPIKE AND NAIL

A. E. Brewer, car accountant for the Oregon Short Line, leaves tonight for a trip over the Idaho division in company with Supt. Mansion.

Nearly all the traveling railroad men have received invitations to attend the opening of the Dewey Palace, the big hotel at Nampa, on Friday.

C. O. Whittemore, counsel for the San Pedro, Los Angeles & Salt Lake railway, is expected to return from New York next week. He has been absent in the east for nearly six weeks.

J. E. Dunn, superintendent of motive power and machinery for the Oregon Short Line, is on his way east in connection with the big order of 600 cars and 17 engines, as outlined in the "News" last week.

The proposed change in the line of the Union Pacific for 20 miles out of Ogden will reduce the grade in Weber canyon and will bring the line into Ogden through the sand ridge to the south.

The earnings for the Rio Grande for the fourth week of January showed a big increase over the previous weeks, which had fallen off considerably. The total for the month was \$1,341,709, an increase of \$1,500.

The new board of directors of the St. Louis & San Francisco railroad met in New York yesterday and re-elected all the principal officers whose terms had expired. New minor officers, with headquarters in New York and St. Louis were created. In the executive committee H. H. Porter succeeds Frederick Strauss of J. W. Seligman & Co.

Catarrh Invites Consumption

It weakens the delicate lung tissues, deranges the digestive organs, and breaks down the general health.

It often causes headache and dizziness, impairs the taste, smell and hearing, and affects the voice.

Being a constitutional disease it requires a constitutional remedy.

Hood's Sarsaparilla

Radically and permanently cures catarrh of the nose, throat, stomach, bowels, and more delicate organs.

Read the testimonials.

No substitute for Hood's acts like Hood's. Be sure to get Hood's.

"I was troubled with catarrh 20 years. Being statements of cures by Hood's Sarsaparilla resolved to try it. Four bottles entirely cured me." WILLIAM SHERRMAN, 1020 6th St., Milwaukee, Wis.

Hood's Sarsaparilla promises to cure and keeps the promise.

TEACHERS WILL SUPPORT BILL.

Done Measure Meets Approval of
Salt Lake Pedagogues.

FAVOR SHORTER VACATION.

Principal Keller Introduces Resolution
Endorsing Educational Bill—
Believes in Ten Month Term.

The teachers in the city schools held an animated meeting this morning in the West Side High school building. The chief feature of the session was the lively discussion of the house bill, No. 36, recently introduced in the Legislature by Representative Done. The portion of the bill that concerns the teachers in the public schools is the provision fixing the school term 10 months instead of nine. At the conclusion of a lively debate over the proposition Principal F. D. Keller of the Webster school offered the following resolution, which was adopted: "Therefore, be it resolved, that we heartily endorse the house bill, No. 36, introduced by Mr. Done, which should it become a law, will enable the board of education to place the schools of Salt Lake City on the high road where the morale of the teaching corps will not be disturbed by impending financial distress and where the schools themselves will safely remain the price of the determination of the legislature." In speaking in support of his resolution, Principal Keller said that great damage was done school work by long vacations, that the greatest expense in maintaining the schools was during the vacation and so it was with the schools.

Prior to the introduction of the resolution, Superintendent Christensen delivered an instructive address, directed chiefly to the principals. He outlined the style of a man principal should be: that he was to possess scholarship, industry, the highest personal morality and good executive power. Mr. Christensen also spoke of the danger of neglecting the practice of depriving a child of recess and requiring it to write out long lists of names as a punishment. He said the school falls in the purpose if it leaves anything but happy memories in the mind of the pupils.

THE WORD "FAKER"

Editor "News": Kindly inform me where I can obtain an authoritative definition of the noun "faker" or the verb "to fake." I do not find either in Webster's dictionary.

READER: You will not find either in Webster, for the reason that Webster does not deal with "up-to-date-isms" as the Standard Dictionary does. You will find both the noun and the verb fully analyzed in that excellent work.

Should "Reader" desire to see the word "fake" locally exemplified, he can find it here in the daily issues of a morning newspaper and the evening off-spring, in both of which the art of "faking" is developed to the highest degree of perfection of which it is capable. For instance the publishing of items from points outside of Utah headed "special," and dated the previous day or the same day in Ogden is a sure way of conveying the idea that the items came over the wires to the paper, is "fake" of the rankiest sort. In some communities it would be called a fraud. The truth is that such items either come by mail, or they are clipped either from eastern newspapers, usually the latter. Still another "faking" practice is the dubbing as "specials" of Associated Press dispatches that come to all papers alike, and are special to none of them. The morning sheet in question is a most blatant offender in this regard.

The most amusing instance of "faking," however, in which that paper has been detected of late, occurred in connection with its advertising department the other day. "Reader" will find in an instance of how easily discredited the character of work that city comes under the head of the term "faking."

A certain wholesale house in this city had its spring catalogues printed. Desiring to have them as widely circulated as possible, the house placed a small classified advertisement in the columns of all the city newspapers, inviting people to send for them. Only a day had elapsed before requests for the catalogues began pouring in, in the great majority of writers stating that they had seen the advertisement in the columns of the morning sheet in question. This statement was volunteered with some quoted catallages, and he found that nearly every man told the same tale. Each said he had no particular use for the catalogue, but had merely mailed a request for it to oblige the advertising solicitor of the newspaper, who had written out the postal card for him and addressed it to the catalogue house.

Whether or not that solicitor was shown the front door the next time he called, we are not advised, but it is not likely that he will be soon found since among the wholesale houses, his sort of "how advertising with us brings quick replies."

KINDERGARTEN TEACHERS.

In Session Each Saturday at the Lion House.

The class for the training of teachers for the Sunday school kindergarten grade was in session today. The class meets each Saturday from 1 to 3 p. m. in the Lion House of the L. D. S. M. The teachers of these classes report that there is still room for a limited number of kindergarten teachers from Salt Lake, Davis, Granite and Jordan stakes. Those who apply for the remainder of the year, that is, till next June, will not be charged the full fee, and will be received for \$1.00. The course is maintained solely for the benefit of the Sunday schools, and aims to supply the kindergarten grades with more efficient workers. Substitutes of schools are asked to send additional persons to take the course, in order that the benefits of this training may be made as general as possible.

MEETINGS IN SECOND WARD

New Series Begins Tomorrow Night
Continuing From Week to Week.

Beginning tomorrow night and continuing from week to week a series of special meetings will be held in the second ward assembly hall, the first speaker being Elder H. S. Tanner, who

will deliver an address on "Prophecy." The other speakers will be Elders B. H. Young, David McKerrow, Joseph Taylor and President Joseph F. Smith. There will be special music in which the participants and a male glee club will participate. All interested are cordially invited to attend.

FEARS WATER FAMINE.

Superintendent Hines Says Present
Cold Snap May Bring One.

According to the statement of Superintendent of Waterworks Hines today, if the cold weather keeps up for several days longer and people continue to allow their hydrants to remain open all night long and waste water as they have done for the past few nights, there will be a greater water famine here than there was the past summer. The creeks are frozen so that it is impossible to keep them open. A sufficient flow of water into the city's pipe system, and, at night when the reservoirs should be filling up, the people leave their hydrants open to keep them from freezing and thereby waste a great quantity of water, so that it is absolutely impossible to fill the reservoirs.

This condition is due to the extreme cold weather and the severe winter made the statement today that if the weather keeps as cold for four days more the reservoirs will be dry. The superintendent at the high tank, located in City Creek canyon, registered 4 degrees below zero today. The thirteen day reservoir had the same amount of water this morning that it had last night. Instead of increasing from four to six feet as it usually does during the night. That fact alone corroborates the statement that much water is wasted during the night.

It is estimated by Supt. Hines that 2,000,000 gallons of water were wasted last night. That is equal to the entire flow of City Creek and Perley's creek in their frozen condition. It is, therefore, very evident that the supply of water will soon be exhausted if the cold weather and the deplorable waste still continue.

A Unanimous Vote for Piles. Having, Blind, Bleeding and Protruding Piles. No cure, no pay. All druggists are authorized by the manufacturers of Piles to remove them. No matter how long standing, cores ordinary or in six days, the cure is made. Believes them instantly. This is a new discovery and it is the only reliable remedy on a permanent basis. No cure, no pay. 1903-04.

FOR COUNCIL'S APPROVAL

City Engineer Will Submit Re-Survey
Of Part of Plat E.

On Monday night City Engineer Kelley will submit for the approval of the council a re-survey of eight blocks in the extreme northern portion of plat E. The survey is being made of the entire plat so as to conform with the improvements which have been made in that portion of the city since the original plat was made. Plat E is bounded on the south by North Temple street, on the west by First West, on the east by Wall street and plat J, and on the north by the city limits. The eight blocks already surveyed run from Pearl street north to the northern boundary of the plat.

By comparison with the original survey it will be seen that there are variations in the width of some of the streets of 20 or 40 feet. Some of the streets that were very crooked have, owing to the fences and building foundations, been straightened out. The streets are perfectly straight. It will take six months to complete the survey of the entire plat, but when it is completed it will make a great difference in the appearance of the city when compared with the original survey and plat.

MY, BUT IT WAS COLD!

So Much So That Even City and County
Employees Felt It.

In a number of the offices in the city and county building the clerks were completely frozen out this morning and in some instances their work was seriously interfered with. The cold weather of the past few days has brought forcibly to mind the faulty construction and finish of the joint building, particularly in regard to the radiation and fitting of the windows. In many of the offices there were not enough radiators to properly heat the rooms and in a number of them additional radiators have been installed since the building was completed, and in fact during the past two years.

There are still a number of offices in which additional radiators should be installed, and it is in these offices that the clerks find it a difficult task to keep their work a very great length of time without hovering over the radiators. In the county recorder's office there are four broken windows, which admit a great deal of cold air, and in addition to that, there are no weather strips on the windows, so that quite a breeze gains access to the office in that manner. All of this, coupled with the fact that the office is short on radiators, makes working there a very unpleasant task indeed.

In fact the conditions become so unbearable that all the young lady clerks in that office called upon the county commissioners this morning and in a body to ask that the defects be remedied and their office made more comfortable. Chairman Anderson was not in, however, when they called, so no action was taken in the matter.

F. E. R.

We heard a man say the other morning that the abbreviation for February—Feb.—means Freeze every body, and that man looked frozen in his utter. It was apparent that he needed the kind of warmth that stays, the warmth that reaches from head to foot, all over the body. We could have told him from personal knowledge that Hood's Sarsaparilla gives permanent warmth, it invigorates the blood and speeds it along through artery and vein, and really fits men and women, boys and girls, to enjoy cold weather and resist the attacks of disease. It gives the right kind of warmth, stimulates and strengthens at the same time, and all the benefits are lasting. There may be a suggestion in this for you.

THE CITY'S HEALTH.

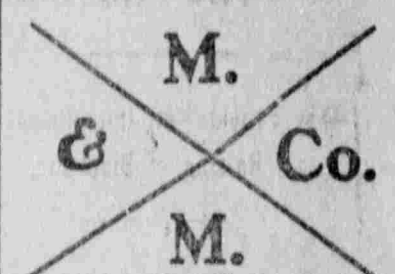

Eighteen New Cases of Diphtheria
With Three Deaths.

For the week ending Feb. 14, there were 5 fewer deaths than for the preceding week, 16 being reported, 11 males and 5 females. The births reported for the same period were 16, the number of each sex being equal. Five bodies were brought here for interment and 5 were sent to other points for burial.

The new cases of scarlet fever decreased one half as compared with the preceding week, leaving 24 cases in quarantine as against 47 for the week before. Eighteen new cases of diphtheria were reported with 3 fatalities; no cases having been discharged, left 22 cases in detention. The three deaths occurred among children who had not had proper medical attention in the disease had gone too far to stop. One case was believed to be pneumonia, another was supposed to be pneumonia while the third was not considered as a serious ailment. There was one case less of smallpox reported as compared with last week, 20 having been reported, mostly among

families already quarantined; 14 cases were discharged as cured, leaving 80 in the city. In the case of the 74 for the week preceding, but seven new cases for smallpox were put up last week, as most cases reported were results of exposure from previous cases in the same house. No typhoid fever has been reported for two weeks. Six cases of chickenpox were reported.

SOCIAL AND PERSONAL

An elaborate event of yesterday was the dinner given by Mr. D. H. Peary at the Alva club in honor of Mr. Howard and Mrs. Howard of New Haven. The valentine idea was carried out in the decorations, and red was the color used throughout. Over the mantel was a large heart-shaped picture with an arrow passing through it. The place cards were in the valentine idea and were in Wedgewood design. The American Beauty roses and ferns decorated the table. Those present included the guests of honor were Senator and Mrs. Sherman, Mrs. Smalley-Smith, Mrs. Mabel Miller, Mrs. McClure, the Messrs. Edson and Laura Sherman, Miss Jackson, Miss Miller, D. E. Burley, C. K. McCordick and J. T. Goodyear.

Another delightful event which took place at the Alva club last night was the dinner given by Mr. and Mrs. J. M. Callow in celebration of their tin wedding. The table was decorated in red, and red shades were on the electric lights, while the place cards were tin. With comic valentine designs. The event was an extremely pretty one, and was enjoyed by the following guests: Dean and Mrs. Eddie, Mr. and Mrs. Brown, Mr. and Mrs. Graham, F. Putnam and Mr. and Mrs. A. E. Hutchinson.

The Opal club was entertained last Monday evening at the home of Mr. A. Kneba, 261 south Main street, at cards. Nearly all the members were present, and a very enjoyable evening was spent.

The marriage of Miss Arvilla J. McKnight and Roscoe Kunkel took place at the home of the bride's parents, Wednesday night, Elsie E. E. Sheets performing the ceremony. They are at home to their friends at 816 Palm avenue, Ninth East, between Tenth and Eleventh South.

was spent. The prizes were won by Mr. C. E. Perry and Miss Nellie Geary. Refreshments were served during the evening.

A character ball was given in the Twenty-first ward amusement hall last evening. It was largely attended and thoroughly enjoyed, nearly every one present being in costume. The first prizes for the best sustained characters were awarded Miss Eva Hudson as the Indian queen, and Mr. W. H. Calder as Uncle Tom, second prizes being given to Mrs. Alice Calder Tuddenham, representing an Old Lady, and Mr. John Owen as "Sonsie," the band master. There were several other well sustained characters, some of whom deserve special mention, the two tramps, the Red Cross nurse, Uncle Sam, the Puritan maid, the Jew peddler, and Quaker oats.

One of the most unique costumes worn, and one that must have meant considerable labor on the part of its wearer, was Miss Brewster as the "Newspaper." Her entire costume was made up of the Desert News, the papers being folded and cut so as to have the effect of lace ruffles and accordion pleating.

A valentine booth was arranged in an adjoining room, and the many little messages that were delivered by cupid caused considerable merriment. Refreshments of lemonade and candy were served during the evening. The affair was in charge of committees representing the M. I. A. and ward choir.

Next Tuesday evening, in Christen-

the First Regiment band of the N. G. U.

A Washington's birthday party will

be given under the auspices of the M. I. A. of the Fourth ward next Friday evening, Feb. 20.

Christen's Wednesday night soiree of this week was not so well attended on account of the severe snow storm that raged in this city that night, but it is expected that next Wednesday night will be an exceptionally pleasant affair. The Opal club will be in attendance.

The dancing party given last evening at Christen's by the students of the L. D. S. University was well attended and thoroughly enjoyed. Those who were there shy that it was among the pleasantest social events yet given by the University.

Mrs. Harry Gould was hostess at a charming luncheon yesterday followed by a social afternoon spent in an informal way. The valentine idea prevailed in the decorations and was beautifully carried out in red hearts and variations, while a heart game was one of the amusements of the afternoon. The event was in honor of Mrs. Clara Weinberger.

One of the most enjoyable affairs of the week was the luncheon and pleasant afternoon functions given by Mrs. G. W. Wilson. The decorations were in pink and were charmingly carried out. A delightful part of the afternoon's pleasure was an impromptu musical given by the guests, nearly all of whom are prominent members of the city.

The A. B. C. club enjoyed its valentine feast Thursday evening at the home of Miss Jessie Kilpatrick. The ladies were warmly surprised by meeting their valentines and in this game the young men took an important part. Music was furnished by Miss Elida Reavis, Miss Jessie Kilpatrick, Miss B. Peck, Mr. J. McClellan and Mr. W. Kilpatrick.

The marriage of Miss Arvilla J. McKnight and Roscoe Kunkel took place at the home of the bride's parents, Wednesday night, Elsie E. E. Sheets performing the ceremony. They are at home to their friends at 816 Palm avenue, Ninth East, between Tenth and Eleventh South.
