ind new and lasting guarantees for continuous peace at home and abroad.

He rejoices the more to be able to express his entire satisfaction with state and foreign politics. At no time during the last two years could the maintenance of peace be anticipated so confidently as at present. The meetings at Gaslein and Dunities were expressions of close personal and political relations between the sovereigns and their empire. The confidence thus existing be tween the three imperial courts is a trustworthy guarantee of peace which is identical in their policy. The speech concludes as follows:
Our relations with all the Powers are most friendly. The belief in Garnany's loyal and sincere desire for peace has gained a hold with the speech. The decision that the Empirer's result of the resulting in the speech concludes as follows:
Our relations with all the Powers are most friendly. The belief in Garnany's loyal and sincere desire for peace has gained a hold with the members of the High Council that capacity in bonnection with the members of the High Council that the Empirer's should not open the Releasing in person, was reached this morning, and was in consequence of the advice of his physicians. This decision made necessary some verbal alterati n in the speech.

Emmors.

Sun's light is for mankind and womankind of overy sort; but its genial warmth is for the good, while it pours hot discomfort on the blistering backs of the persistently wloked.

This Sun of 1838 was a newspiper of a new kind. It discarded many of the forms, and a multitude of the superfluous words and phrases of ancient journalism. It underlook to report in a fresh, succinct, unconventional way all the news of the world, osnitting no event of human interest, and commenting upon affairs with the fearlessness of absolute independence. The success of this experiment was the success of This Sun. It effects ed a permanent change in the style of American nearpapers. Every important journal established in this country in the dozen years past has been modelled after The Sun. Every important journal already existing has been modelled and bettered by the force of This Sun's example.

This Sun of 1882 will be the same outspoken. Patriarch.

President Hatch referred to our regular attendance at the quarterly Conference and the many times that the brethren of the Twelve Apostles have visited us, and the reasons for their non-attendance. contact the brethren of the Twelve Apostles have visited as, and the reasons for their non-attendance at this Conference. While the President was speaking, Elder Joseph E. Taylor, from Salt Lake City, came in. The speaker then referred to the many great blessings that we are continually enjoying at the hands of our Father in Heaven. Spoke or our abundant harvest this season, and exhorted the brethren to take good care of it. Believed that all should have the privilege of doing as they please so long as they do not infringe upon the rights of others, Appointed a Priesthood meeting, at half-past 6 in the evening. Then called on the Ward Bishops, who reported their Words as being in a flourishing condition, the brethren trying, as a general thing, to do their duty. The Presidents of the different periods of overflow and plenty of it. Like many 'others I had formed my opinion that this country was thinly settled, but such is not the case, for every spring and stream has a claimant. I notice one very objectionable feature here, as this is a new country and ought to be looked after by the law makers, and that is the fence law, which compels each landholder to enclose his farm; by so doing it keeps the poor man poor and money from the territoral treasury, for between land purchase and fencing, it takes from two to five years to get above water, and many think it is a detriment to emigration, and fat beef for the land grabbers.

Adjourned until 2 p. m.

2 o'close of many others is a good attudy; if you are posted on the subject by and informed may of lave was formed, whence it came; for there have been different periods of overflow and plenty of it. Like many 'others I had formed my opinion that this country was thinly settled, but such is not the law of the case, for every spring and stream has a claimant. I notice one very objectionable feature here, as this is a new country and ought to be looked after by the law makers, and fencing, it takes from two to five years to get a bove water, and many think it is a detrime

Dayton is a town nine years of age; has a population of about 2,000 and is alive to business inferests. The business circle is composed of western men, full of life and energy, they have never seemed to realize the word "fail."

> A New Process for Preserving all Perishable Articles

trefaction, Retaining their Odor and Flavor. " OZONE-Purified air, active state o. Taygen."-Webster.

Animal and Vegetable, from Fermentation and Pu-

This Preservative is not a liquid, pickle, or any clack old and exploded processes, but a simply and purely 020NE, as produced and applied by an entirely new process. Once is no antiseptic principle of every substance, and possesses the power to preserve animal and regetable structures from decay.

There is nothing on the face of the earth liable to decay or spoil which Osone the new Preservative, will not preserve for all time in a perfectly fresh and pales able condition.

the new Preservative, will not preserve for all time in a perfectly fresh and paletable condition.

The value of Ozone as a natural pressiver has been known to our abler chemists for years, but, until now, no means of producing it in a practical, inexpensive, and simple manner have been discovered.

Microscopic observations prove that deepy is due to septic matter or minute germs, that develop and feed upon animal and vegetable structures. Ozone, spalled by the Prentise method, seizes and destroys there germs at once, and thus preserves. At our offices in Classian can be seen atmost every article that can be thought, of, preserved by this process, and every visitor is welcome to come in, taste, amell, take away with him, and test in every way the merits of Ozone as a preservative. We will also preserve, free of charge, any article that is brought or sent prepaid to us, and return it to the sender for him to keep and test, that is brought or sent prepaid to us, and return it to the sender for him to keep and test, wed by this method, can be shipped to Europe, subjected to atmospheric changes and return to this country in a perfect state of preservation.

Eages can be treated at a cost of less than one dollar a thousand dozen, and be kept in an ordinary room six months or more, thoroughly preserved; the yolk heid in its hormal condition, and the ergs as fresh and perfect as on the day they were treated, and will sell as strictly "chord." The advantage in preserving eggs is readily seen; there are seasons when they can be bosent for 8 or 10 cents a dozen, and by holding them, can be sold for an advance of from one hundred to three hundred per cent. One man, with this method, can preserve 5,000 dozen a day.

FRUITS may be permitted to ripen in their native cilmate, and can be transported.

FRUITS may be permitted to ripen in their native climate, and can be transported to

The judge expressed from fruits can be held for an indefinite period without fermentation—hence the great value of this process for producing a temperance beverage. Cider can be held perfectly sweet for any length of time.

VEGETABLES can be kept for an indefinite period in their natural condition, relaining their odor and flavor, treated in their original packages, at a small expense. All grain, flour, meal, etc., are held in their normal condition.

BUITER, after being treated by this process, will not become rancid

dition for weeks, without puncturing the sain or intrinating the body in any way. Hence the great value of Czone to undertakers.

There is no change in the slightest particular in the appearance of any article thus preserved, and no trace of any foreign or unnatural odor or taste.

The process is so simple that a child can operate it as well and as successfully as a man. There is no expensive apparatus or machinery required.

A room filled with different articles, such as eggs, meat, fish, etc., can be treated at one time, without additional trouble or expense.

In fact, there is nothing that Ozone cell not preserve. Think of every thing you can that is liable to sour, decay, or speil, and then remember that we guarantee that Ozone will preserve it in exactly the condition you want it for any length of time. If you will remember this, it will save asking questions as to, whether Ozone will preserve this or that article—it will preserve any thing and every thing you can think of.

There is not a township in the United States in which a live man can not make any amount of money, from \$1,000 to 10,000 a year, that he pleases. We desire to get a live man interested in each county in the United States, in whose hands we can place this Preservative, and through him secure the business which every county ought to produce. duct on his premises. A violation of any of the provisions of this section shall subject the offender to a fine in any sum not exceeding fifty, dol-Sec. 4.—It shall be unlawful to sell, barter or otherwise dispose of, or give away, any spirituous, vinous or malt liquors to any child or appren-tice without the consent of his or

FORTUNE Awaits Any Man who Secures Control of OZONE in any Township or County. OZONE in any Township or County.

his first investment.

Woods Brothers, Lebanon, Warren County, Ohio, made \$8,000 on eggs purchased in August and sold November 1st. \$2 for a test package was their first investment.

F. K. Raymond, Morristown, Belmont County, Ohio, is clearing \$2,000 a month in handling and telling Ozone. \$2 for a test package was his first investment.

D. F. Webber, Charlotte, Paton County, Mich., has cleared \$1,000 a month since August.

\$2 for a test package was his first investment.

J. B. Gaylord, 80 La Salle Street, Chicago, is preserving eggs, fruit, etc., for the commission men of Obicago, charging 1 1-2c per degen for eggs, and other articles in proportion. He is preserving \$5,000 down eggs per day, and on his business is making \$1,000 a month clear. \$2 for a test package was his first investment.

The Cinemnati Feed Co., 418 West Seventh Street, is making \$5,000 a month in handling brewers' malt, preserving and shipping it as feed to all parts of the country. Malt unpreserved sours in 24 hours. Preserved by Ozone it keeps partectly sweet for months.

These are instances which we have asked the privilege of publishing. There are soone half enough. To any person who doubts any of these statements, and who is interested sufficiently to make the trip, we will pay all traveling and hotel expenses for a visit to this

city, if we fall to prove any statement that we have made. How to Secure a Fortune With Ozone.

A test package of Ozone, containing a sufficient quantity to preserve one thousand dozen eggs, or other articles in proportion, will be sent to any applicant on receipt of \$2. This package will enable the applicant to pursue any line of tests and experiments be desires, and thus satisfy himself as to the extraordinary merits of Ozone as a Preservative. After having thus satisfied himself, and had time to look the field over to ceterorine what he wishes to do in the future—whether to sail the article to others, or to common it to his own use, or any other line of policy which is best suited to him and to his township or county—we will enter into an arrangement with him that will make a fortune for him and give us good profits. We will give exclusive township or county privileges to the first responsible applicant who orders a test package and desires to control the business in his locality. The man who scources control of Ozone for any special territory, will enjoy a monopoly which will surely enrich him.

Don't let a day pass until you have ordered a Test Package, and if you desire to secure an exclusive privilege we assure you that delay may deprive you of it, for the applications come in to us by scores every mail—many by telegraph. "First come first served" is our

If you do not care to send money in advance for the test package we will send it C. O. D. but this will put you to the expense of charges for return of money. Our correspondence is very large; we have all we can do to attend to the shipping of orders and giving attention to our working agents. Therefore, we can not give any aftention to letters which do not order Czone. If you think of any article that you are doubtful about Czone preserving, remember we quarantee that it will preserve it, no matter what it is.

REFERENCES:

spirituous or fermented liquors in contravention of such proclamation shall, on conviction, be fined not to exceed ninety-nine dollars for each We desire to call your attention to a class of references which no enterprise or firm based on anything but the soundest business success and highest commercial merit could sequre. We refer, by permission, as to our interrity and to the value of the Prentise Peterrative, to the following gentlemen: Edward C. Boyce, Member Board of Public Works; E. O. Eshelby, City Comptroller; Amor Smith, Jr., Collector Internal Revenue; Welsin & Worthington, Atorneys: Martin H. Harrell and R. F. Hopkins, County Commissioners; W. S. Cappelier, County Auditor; all of Cincinnati, Hamilton County, Ohio. These gentlemen are each familiar with the merits of our Preservative, and know from actual observation that we have without question
