Everything passed off without a jar. There was no tumult, no disorder, no unpleasantness of any kind. The speeches were interrupted only by applause. The music was superb, and the whole proceedings were of a most enjoyable character.

Liberty Park can be made a most lovely spot by the expenditure of a little money and skill, and we trust that it will prove to the people everything that its name implies, and that all who avail themselves of its facilities for contributing to the sum of human happiness may enjoy that freedom which is the only kind that is endearing and perfect—the liberty of law.

INDIANAPOLIS, 15.—The rain fell in a perfect deluge here last night and this morning, causing Pogue's Run to overflow, flooding the street for many squares, filling the basements, and compelling the manufacturing establishments to shut down, and doing damage estimated at \$100,000 to buildings and stock. Between eight and nine this morning a large number of people standing on a platform spanning Pogue Run, just east of the Union depot, looking at the angry flood when the structure suddenly gave way and the entire number were precipitated into the swift current 15 feet below. There is a bridge at Meridian Street and the stream runs under the Union depot, emerging on the south side through stone culverts under McNab Street. Cyrus Bartlett, a workman, immediately jumped to the floor and rescued two girls and at least 15 others were saved before being swept under the bridge. Several others passed under the bridge and in a moment came out through the culverts at McNab street and were there drawn out but others were swept by and under the culverts at South street to certain death. Five bodies have been recovered. They are those of Kate Gilderman, G. F. Scoville, A. K. Saunders, E. Tilford and Geo. W. Smith. Other bodies have been seen floating but could not be reached. It is supposed that at least 10 persons were drowned. By 3 p.m. the water had about disappeared but that in Northeast Park is still high.

Indianapolis, 16.—The bodies of Patrick Gaven and Patrick McManamon, victims of the Pogue's Run disaster, were recovered. The others are still missing.

CHICAGO, 15.—Professor Edward Benner, Superintendent of the Salt Lake Academy, which has been established at Salt Lake City, under the auspices of the New West Education Commission, delivered an address last evening, on the progress of the Mormon Church in Utah. He said that neither the Poland bill of 1862, the death of Brigham Young, the approach of the Union Pacific Railroad, nor the entrance of the commercial traveler had any effect in reducing Mormonism; but that it stood and grew in the midst of them all. Mormons had increased at the rate of 3,000 a year from immigration, and the devotion of the people to their religion seemed as strong as ever. Nothing has ever been able to overcome their devotion to Mormonism, and nothing would ever be able to reach or convert the adult population, though the children were susceptible to religious impressions, by a careful and conciliatory policy. The suspicion and prejudice of the Mormons against the schools had been too great to overcome. About fifteen hundred pupils were now taught in schools of which the speaker has charge. In the Academy there were 250 pupils, and the remainder were educated in twelve free schools.

DENVER, 15.—Chan Tsung Liang, an attache of the Chinese legation, passed through here on his way to Washington. He says the Chinese government will return 50 students to American colleges, having discovered that the removal was a mistake.

CINCINNATI, 15.—The army worm has appeared in Southern Ohio, in Butler and Warren Counties, in which much barley is grown. Although the worm has only been at work for a day or two, it is estimated that these counties will have a loss of more than half the crop. The farmers are cutting their barley before it is ripe in the hope of saving it. The worm is reported in

Scioto, Pike and Gallo Counties, Ohio, and is doing much damage.

The storm last night prostrated four bridges on the Cincinnati, Indianapolis, St. Louis and Chicago Railroad, between Guilford, Indiana, and Indianapolis. The little Miami Railway track has been under water for a short time at various points, but no detention of trains is reported. The Ohio & Mississippi Railway is running on schedule time. The telegraph wires on the Big Four, between here and Indianapolis are down.

WILKESBARRE, 15.—A terrific explosion of gas occurred in the Stanton air shaft this morning. In one of the lifts, about 300 feet from the top and four from the bottom, five men went, descending in a bucket with naked lamps upon their heads, which came in contact with the gas and caused an explosion. One of the men, James Carey, was hurled from the bucket and fell to the bottom and was killed. The four others, John Welsh, Michael Lynch, Henry Hughes and Edward Finnegan, were badly burned and their recovery is doubtful.

OMAHA, 15.—John T. Caine, D. H. Peerey and F. S. Richards, Mormon Delegates from the Utah Constitutional Convention, passed through here en route to Washington, to present a Constitution for Utah as a State and to ask its admission. They will remain in Washington until Congress adjourns, if necessary. The Constitution provides a republican form of government and does not touch the question of Mormonism.

CARTHAGE, Mo., 15.—A band of counterfeiters was arrested at Carthage, in this county. The names of the men arrested are: William Devall, Jim Mann, William E. Davidson and Dan Kearney. The coinage was carried on under ground in a drift of an old shaft in the Carthage mine. Plaster of Paris moulds for castings were found.

LOUISVILLE, Ky., 15.—The Chicago express train, which left here this morning, was wrecked at Bedford, Ind. The train was running very fast to make up lost time, when the rear car jumped the track and rolled down a high embankment, pulling the rest of the train after it. About forty passengers in the train were more or less injured. John Carmody, the engineer, was scalded and died this morning. This is the only fatality so far, all the others will probably recover. Nearly all were able to resume their journey.

NEW YORK, 16.—An independent labor party was organized by the adoption of a platform that the American mails should be carried by American vessels. It was provided that the outstanding unlimited tickets should be honored by all the parties to the contract. It is estimated that something less than 15,000 of these are now out in the hands of ticket scalpers and speculators.

The passengers rate war, of which this is the end, began a year ago last December, since which time fares have ruled about as follows: Chicago to Kansas City, \$5; Kansas City to Chicago, \$7; Chicago to St. Louis \$4.70. Tickets being sold on the rebate plan.

It is rumored here that the President has advised Senator Cameron to take steps for the calling of a new republican convention in Pennsylvania as the only way possible in which the party troubles there can be arranged. This statement cannot be positively confirmed. Senator Cameron left the city yesterday, and yet it is said he has gone to New York. The President is not presumed to be taking a hand in Pennsylvania politics, and at the White House nothing is known of the rumor. The report that the President has concluded to keep his hands out of the republican mess in New York, is a report that seems well founded, and has attracted considerable attention.

CHICAGO, 16.—Washington special: Governor Trelle, of Arizona, returned from West Point to-day, and will remain for some days. He is consulting with the President and war department in relation to Arizona troubles and other matters bearing on his office. He says the contingent fund of the territory is only \$500, which is insufficient, and the governor has no home, and not even a desk. When Governor Fremont went out of office there was not even a blank, and he had to call on Governor Sheldon, of New Mexico, for blanks in order to conduct the business of the office. He also says there is no one willing to accept the district attorneyship for the territory, and it is almost difficult matter to find a suitable United States marshal. He proposes to reconstruct things there, and put an end to the troubles that have existed for the past two months.

ST. LOUIS, 16.—The *Post-Dispatch's* Albuquerque, N. M., special says: Milton Yarbrough was hanged here this afternoon for the murder of Charles Campbell, thousands witnessing the execution, including Mexicans, cowboys, railroad men and miners. He was a native Mexican, a gambler, rough, cowboy and robber, and had killed several men. He was one of Billy the Kid's gang.

NEW YORK, 16.—Ex-Senators Ramsey and Padlock had no prospect of re-entering public life in their respective States, and they are well provided for. The salary of commissioners is \$5,000 each, and the job will last until Utah is admitted as a State. Godfrey, the third republican member of the commission, is said to be a well-informed lawyer and a competent man. Carlton and Pettigrew are the democratic members of the commission. The former is a Terre Haute lawyer, who was formerly a partner of D. Voorhees, and the latter is at present journal clerk of the Senate. Pettigrew was backed for the place by Senators Walker and Garland. He is by profession a lawyer, and has served his term as a country newspaper editor.

CHICAGO, 19.—A Washington special, under date of June 15, says: The evening paper here to-day publishes the following. A plot to assassinate President Arthur and Chas. H. Reed has been found in Boston. The members are men and women who believe that Arthur hired Guiteau to murder Garfield and has hired Reed to defend him (Guiteau). I care nothing for Reed, but don't want Arthur murdered. Make this public for heaven's sake

and avert ruin to the government. Do not think this a crank's communication for it is not, but pay heed to it. The plan is to be put into execution the second day of July, 1882, unless Guiteau is hanged on the previous Friday.

Make this public, it won't take much room.

WASHINGTON, 19.—Justice Bradley, of the United States Supreme Court, to whom Guiteau's counsel applied for a writ of habeas corpus, to-day filed a denial of the application with the clerk of the court. Justice Bradley holds that the Court of the District of Columbia have full jurisdiction in the case and no reasons exist for granting the writ.

Deignan, the Rock Island conductor is dead. The surgeons reported that the wounded exceed 150, and the number of houses destroyed or ruined is between 140 and 150. The total loss of property is now estimated at \$800,000. It is feared that the number of deaths at Grinnell will yet reach 75. The path of the tornado is now well defined as having been about 25 miles long, and half a mile wide, extending five miles northwest at Grinnell and 20 miles southeast. It is now thought the loss of life outside of Grinnell will reach 25 and altogether near a hundred.

TOPEKA, Kansas, 17.—A heavy storm of wind and rain visited this county about 12 o'clock last night, doing considerable damage to houses in the city and country, and breaking down trees. No loss of life or stock reported.

The St. Louis *Republican's* Kansas City special says: The severest and most destructive wind and rain storm that has ever visited this city in years, occurred between 1 and 2 o'clock this morning. The velocity of the wind is estimated at sixty miles per hour. The rain-fall was heavy and the lightning terrific. This morning the city presented a frightful spectacle. Not a single square in town escaped the fury of the storm. The streets in every quarter were strewn with signs, awnings, limbs of trees, roofs and debris of all descriptions. Scarcely an exposed building in the city remained, whole chimneys being blown down, roofs taken off, and in many cases houses being ruined. It would take columns to enumerate all the damage. Among the more serious losses is the iron bridge between the city and Armondale, three spans of which were carried away. The bridge cost \$10,000. The street railroad stables, corner of Madison and 17th Streets, was damaged \$8,000 to \$10,000, and the court house suffered to about the same extent. The Coates Opera House lost its roofs, all the hotels were more or less damaged and business houses and dwellings in every part of the city suffered greater or less injury. The total loss will probably reach \$200,000. Information from the surrounding county shows that the storm was pretty general and that great damage has been done to crops and nearly all kinds of property.

Five ladies were killed in one house, and great damage done.

The steamboat *Champion*, belonging to Captain Woodward, was sunk at Gartside Dump, at East St. Louis, she was worth \$10,000, and is a total loss. Captain Silver's two boats are damaged 1,000 to \$1,500, and other losses make the aggregate on the river \$25,000.

PITTSBURG, 19.—The labor demonstration of yesterday, though not as successful in point of numbers as it would have been if the wea-

ther had been propitious, was still large enough to satisfy those who admire a procession more on account of its numerical display than for its ornamental features, and was fully up to expectations. The number of men in line is variously estimated at 20,000 to 30,000. Thos. Armstrong, the greenback candidate for Governor, had a prominent place in the procession. The streets were crowded with spectators. There was a hard rain and thunder storm during the march.

ALEXANDRIA, 15.—The council of war has instructed the troops strictly to keep order. Four policemen were arrested on a charge of aiding the rioters last Sunday. A street quarrel yesterday caused a fresh panic, but the Egyptian troops suppressed the disturbance. The Governor and military commandant admit that they have control over the situation, and the soldiers only obey their colonels. The Khedive expressed a hope that 18,000 Turks will be shortly on their way to Egypt. After the reception yesterday he informed the Europeans that he had divided the town into districts and made an officer responsible for each. He said that 430 ringleaders of Sunday's riot had been arrested and would be placed on board a ship in the harbor. The Turkish vessel which arrived Monday brought Osman Bey, aid-camp of the Sultan, with instructions for Dervish Pasha. Admiral Seymour seized the steamer *Margono* to convey fugitives from Egypt.

ALEXANDRIA, 15.—The number of Europeans killed on Sunday is estimated at 250. Many were thrown into the sea and are being daily washed ashore. Twelve bodies yesterday and five to-day were thus recovered; five of the bodies bear marks of bludgeons or bayonet wounds.
