

ALBANESE'S STORY.

hands, one hand gripping the muzzle and barrel of the gun and the other the butt and trigger. The vest was torn open as well as the shirt front, and the necktie all awry, and the right hand pocket of the trousers was turned inside out and the lease watch chain out and the loose watch chain without the watch, dangled from 'the

Capron, who is about 25 or 26 years of age, arrived here from California about three' weeks ago, and since then has roomed at 149 west Fourth South street.

HIS LOVE AFFAIR.

If the death was suicide the probable and the despondency arising from money and a love affair. In the same note-book in which he left, directions for the disposition of his body, Capron wrote "In base of serious accident or lliness please notify or wire Miss Es-telle Newcombe, Newcombe Place, Buena Park, Cal." In his pocket was found a letter from the same Miss Newcombe chiding him in a loving way for not writing him before, and indicating that she is an actress "out of Cating that she is an actress "out of luck." In the letter she suggested to Capron that if he had any stray dol-lars that he "had better roll them her way," and plaintlyely wished that "she had a beau like the other fellows." The mother of Capron has been ad-vised of the death of her son, and is now on the way to Self Loke

now on the way to Salt Lake. SHERIFF'S INVESTIGATION.

SHERIFF'S INVESTIGATION. The message to the sheriff's office an-nouncing the finding of the body by the engine crew was at once followed by a telephone message to Justice F. M. Bishop, directing him to view the body where it lay beside the tracks. Sheriff Sharp dispatched a deputy sheriff to the scene, and upon arriving at the tracks he at once began an investiga-tion, to determine if any struggle had taken place and to endeavor to fix the nature of the man's death, whether it was suicide or murder. While the denwas suicide or murder. While the dep-uty was away from the scene of the liscovery for a few moments, a mor tuary wagon from Taylor's undertak-ing establishment arrived, it having been ordered by Justice Bishop. Just before the arrival of Justice Bishop, who was on his way at the time to the scene, the police patrol was driving up, the body placed hurriedly into it and driven away as fast to O'Donnell's undertaking establishment, as is customary with the police. The under-standing at the police department is that O Donnell for his services with the 'American" party is to receive all such cases.

PROTEST FROM DRIVER.

The driver of 'Taylor's wagon objected on the ground that the sheriff Jected on the ground that the sheriff was making an investigation of the case and that the corner was on his way to view the body where it was found. Just as Justice Bishop, the Betling connect was more pring the found. Just as Justice Bisnop, the acting coroner, was approaching, the patrol was being hurried away from the place. Justice Bishop halled the driver of the patrol wagon, but his calls were not heeded.

Calls were not heeded. The case being outside the city limits, the sheriff's office is much in-terested in the case, because at the time it was making its investigation of the case, and while the coroner was on his way to the spot to make his investigation, the police, without looking about the ground at all, drove away with the body, which was at a place where their jurisdiction does not extend. not extend.

An investigation by the county attorney's office is quite likely and the Fromise is made that many things will happen before the case is con-cluded.

fair, don't you? "We have many patrons who make this place their home while in the city and they must be taken care of no matter when they come. What would they think of Salt Lake City and the hotels if they were told to go else-where? We will be able to take care of between 500 and 700 but that will necessitate putting two and perhaps three beds in a room where conven-ient and agreeable to all parties con-

cerned "Yes, the volume of business at the

"Yes, the volume of business at the present time is very good. In fact I may say it is better than it has been for the past 12 years." "Do the best we can," was the duet from John Condron and Een Heywood at the Cullen. "Business is good now," they con-tinued. "but the condition is not a con-

"Business is good now," they con-tinued, "but the condition is not a con-gested one. We will be able to take care of 350 any way. There will not be as many people here as some imagine, but if the situation is prop-erly handled, as no doubt it will be, all will be cared for. But, even a few thousand people coming into the town makes an awful difference. Take the race meeting as an example. There were probably 1,500 newcomers here during the meet, and all the hotels were overflowed with

Military and Naval Officers Say It Demonstrates Availability of and all the hotels were overflowed with guests at first. They soon got located, however, but during G. A. R. week the

visitors will be housed according to carefully laid plans and, we'll do the AEROPLANE VS BALLOONS. best we can.' The same condition of affairs exists at the smaller hotels. All are making preparations for the visitors and all will use every bit of available space. Former Have Advantage in Being Some of the hotel keepers do not take kindly to the idea of committees and the council telling them how to run their business and regulate their prices.

One said: "Supposing the prices are raised a littie, what then? Do they suppose we can afford to ship in here extra help at a cost of \$35 per head and then pay them \$3 per day, discommode our regular patrons and go to extra expense in every way without extra returns? Not yet!'

ing at '10 o'clock, the house to-

ing at '10 o'clock, the house to-day began consideration of the conference report on the tariff bill. At the very outset Chairman Payne met with obstruction at the hands of a Republican in-surgent, Mr. Mondell (Wyoming), who refused unantmous consent for the reading of the statement for the reading of the statement of the conferees in lieu of the re-

port. Mr. Payne made no effort to get Mr. Mondell to reconsider his motion and the reading of the vol-uminous report of 76 closely print-ed pages was begun. At the low-est estimate the reading was ex-pected to consume two and a pected to consume two and a half hours.

The structure itself is of reinforced oncrete. The building is in three concrete.

to interfere

of terrible gravity. I doubt if there has been anything so terrible since the commune—the battle in the streets with cannon, incendiarism, the pillage of convents, explosion of dynamite and the destruction of the railroadnothing was missing."

The Figaro's Madrid correspondent declares that those who understood how critical the situation was at Barcelona applaud the action of the gov-ernment. If the Liberals had been in power, the correspondent says, they would have resigned in favor of a military cabinet and the insurrec-tion at Earcelona undoubtedly has strengthened the position of the gov-ernment in the rest of Spain, as those

who were the most severe critics of the expedition to Melilla and the loud-est in the denunciation of the incapacity displayed by officers rallied to the side of the government when they saw the country in peril. learned, that the reason, the American

The opinion is unanimous, according to the correspondent, that the screws must be mercilessly applied in Catalonia.

ARMY CORPS AT BILBAO.

San Sebastian, July 31, via the French has worked out an electric invention frontier .- Commander Burgos and an which is likely to paralyze all other army corps have arrived at Bilbao, capital of the province of Biscay, to suppress the general strike which has been announced for Monday. There is much excitement in the Basque provinces, where many hope the revolutionists will succeed.

REFUGEES DEMONSTRATE Hendaye, France, July 31.—Spanish refugees here made violent manifesta-tions during the night. The Spanish consul attempted to intervene but h was howled down. The crowds were dispersed by French gendarmes. The French government has taken neasures to compel Spanish refugees to leave the frontier so as to prevent the possible organization of an expedition "Such an electric column would queer every mechanism on a warship, stop the

WHEAT REACHES HIGHEST PRICE OF THE SEASON

the magazines. Its possibilities for of-New York, July 31.—The July wheat deal wound up today in a spectacular manner. Shorts paid \$1.50 for one lot in the open market, and then defaulted on 20,000 bushels, which were bought in under the rule at \$1.44. These are the highest prices of the season. fensive warfare are almost unlimited Of course, I don't say its absolute efficiency yet is assured, but from certain knowledge I can say in entire conndence that the experiments made point

There are conflicting stories on the part of the man and of the woman. According to the story of Albanese he met the woman in Mineapolis some months ago. He had a few hundred dollars and the woman formed an at-tachment for him. Together they went The revolutionary committee directed tachment for him. Together they went to Denver where they lived together for a month. Several weeks ago the woman met in Denver another man of whom she became enamored. Albanese had trouble with this man, resulting in his being shot by the rival. Alba-nese went to a hospital in Denver from which he was released 10 days ago. He found the woman gone, and by trac-ing her discovered that she had come to Salt Lake. He came to Salt Lake about 10 days ago, according to his own story and being a moulder by trade. story, and being a moulder by trade secured employment for three or four days at Silver Bros.' Iron Works. Every day he was looking for the Paul woman, and he finally learned her whereabouts, and communicated with her by 'phone. Two appointments wers made, both of which she failed to keep. The last appointment was for today, and when she failed to keep the last one Albanese became furious and follived her to her rooming house, where he attacked her with the razor. "If I get out of this trouble," declared Al-banese, "I will follow the other man and kill him."

The woman claims that she had been living with Albanese for a month at Denver, and that they came here to-gether. Albanese attacked her, she claimed, through unfounded jealousy of another man

THE WOMAN'S STATEMENT.

After the woman's wounds were dressed and while she was waiting to be taken to the Groves L. D. S. hos-pital for further treatment she said that she had come here from St. Paul with Albanese, and that they had been living together since that time. A week ago he made a proposal to her which she refused to accept and then she refused to live with him longer. This morning she said that he came to her room and knocked on the door. Not knowing who was knocking, she ad-mitted him. He at once made a lunge at her, drawing the razor and slashing her with terrible abandon. In all nine wounds were inflicted before her ran from the room and into the street. The woman was taken in an ambulance to the hospital and the surgeous having her case in hand say that she will undoubtedly recover, though the wounds are very serious and are very

LUMBER WILL NOT BE CHEAPER FOR CONSUMERS

painful.

Seattle, July 31.—The lumber inter-ests of the United States will make no further efforts in either house of Con-gress to secure a higher driff on lum-ber than that agreed upon by the con-ference committee of \$1.25 per 1,000 on rough lumber, according to Edward Hues of Chicago president of the Nu-Hines of Chicago, president of the Na-tional Lumber Manufacturers' associa-tion, who was in Seattle yesterday on

tion, who was in Seattle yesterday of his way home from Alaska. "The reduction of the lumber sched-ule does not mean cheaper lumber for the consumers, although that view is taken by many people not familier with the true situation," said 'r Hines, "Lumber asses through o-many hands from time it leave to forest until it r the consumer to make it possible, the latter to ream time it leave the consumer to the latter to reap make it possible . the latter to reap the benefit of the cuts in the Dingley tariff."

pression on the army and navy offi-cials. They contend the accomplish-ment of the cross-country flight dem-onstrated the avalability of the aero-plane for use in warfare.

Although they were there for the pur-pose of timing the aeroplane as it crossed and re-crossed the mark, the officers stationed at Shuters Hill, the southern end of the course, were taken by surprise when the aeroplane was discovered future in their disaction. The then the rapidity with which it returned there after it was signed above the crest of a hill, was merely another hint of the possibilities of the practical use

Chicago, July 31 .-- Two men were killed and one seriously injured in a free-for-all fight among six Italians early today. One of the men, Joseeph Adeesse was shot in the head and instantly killed, and 'the' other Dominick Adeesse died soon after he

OMAHA TO BOSTON

Kansas City, Mo., July 31 .- In an attempt to surpase the record flight of southern end of the course, were taken by surprise when the aeroplane was discovered flying in their direction. The manner in which the flying machine was lost to view from Fort Myer and then the rapidity with which it returned there after it was sigled above the crest of a hill, was merely another hint of the possibilities of the practical use of the aeroplane by the army or navy. "The great advantage of an aero-
