POLICE QUESTION UP AGAIN.

Resolution for Reinstatement of the Removed Men introduced in Council.

Action, However, Is Deferred Until Next Tuesday Evening--Much Talk Indulged In.

The special meeting of the City Council held last evening for the purpose of settling the police question failed to be settled, and, after an arrangement by which the matter went over until Tuesday evening's regular meeting.

The fire and police committee submitted a report, signed by Councilmen Howe and Allen, which, after the usual preamble of "whereases" and "inasmuchs," resolved as follows:

Therefore, be it further resolved, that the city recorder notify the chief of police to notify said Wise et al., to report for duty, and the recorder notify said parties to call at said division, and that they be notified by the chief of police of the action of the Mayor and Council in attempting to reinstate them as such policemen, as aforesaid, and that their services as such policemen, or otherwise, are not required by the city, after notice from the chief of police, and the chief of police of the city and the recorder notify him, or either of them, any salary or compensation for services as policemen or otherwise, of said Wise et al.

"And also notify said Wise and others of said decision, and that they are only to report to the chief of police for duty as policemen of Salt Lake City prior to the action of the Mayor and the Council aforesaid, and they are only required to the chief of police for duty as such policemen."

Accompanying the report was an opinion from City Attorney Hall, as follows:

"The intention of the Mayor and Council was to terminate the office of Everill and others by the appointment of Dudrow and others to their places, and not hurling the power or authority so to do, the reinstatement of Everill and others to the positions as formerly held by them would not give either Barnes, Pate, Talbot, Cannon, Pratt, Hodgman, Thorn or Williams a right of action against the city for salaries that might be claimed for the time absent from the execution of Everill and others to the former positions held by them as policemen of Salt Lake City."

An amendment, providing for the payment of all services of the new men, until after they are sworn in, was offered by Howe, and carried.

Porterman, in speaking to the resolution, came out to Dudrow's defense, then with reference to the reporter said he was opposed to it at the time. The statement made by Councilman Hoyt by way of compliment to Chief Pratt, when he said "a man could not ask a favor of a police officer," he also answered to the chief of politeness in having done nothing for the Third precinct.

Robertson and Hankin resented the charges of Porterman, the former contending that the fight against the removals was made on non-partisan grounds.

Callister moved, under the rules, a postponement of the report for one week. This was opposed by Howe and Hill--nay.

Allen moved an adjournment until Tuesday evening, which carried.

HOMES FOR THOUSANDS.

To Latter-day Saints Who Desire Good Places to Make Comfortable Homes. A Good Opportunity to Accumulate Means to Pay for Them Without Incurring the Bondage of Debt.

One hundred thousand dollars in labor wanted.

Fifty miles of the Alberta company's canal to be built, for which half will be paid in cash and balance in the most liberal prairie land, at $5 an acre, with free water for two years to first settlers on those lands.

Lands are to be settled in homer or settlement form, in order to afford settlers the benefit of ward organizations, including day and Sabbath schools.

All labor will be contract work, at ten cents a cubic yard for earth work. Gravel, loose and solid rock to be paid for in proportion.

An industrious, able-bodied man, with team can earn a good farm, town lot and cottage in one year.

Lands to be settled are adjacent to a railway. Plenty of coal for fuel near at hand.

For special rates of transportation for passengers, household goods, teams, etc., etc., apply to Wm. C. Spence, Box 31, Salt Lake City, or C. O. Card, Cardston, N. W. T., Canada.

SEVIER'S CORNUCOPIA.

It is Filled to Overflowing with the Good Things of Life This Year.

A 53,000 BUSHEL WHEAT ELEVATOR.

Five New Reservoirs Young Trees and Apple Orchards--Great Stacks of Good Hay Not a Tax--Other Items.

Hon. W. H. Seegmiller, president of the Sevier Stake, and representative of the Legislature, came up to Salt Lake today on business. He brings with him specimens of grain from the people of that section, and with spectacular effect, tells of the material blessings that have come to them the past season. Now a kindly Providence has caused the earth to bring forth in abundance and none in fact, the terms of poetry are filled to overflowing. No untoward circumstances have been there except in the mysterious destruction by fire of the Richfield Tabernacle, so nearly ready for use when the fire broke out in the attic of the building. That, of course, can only be looked upon by many as a calamity, and yet the people have accepted the loss due to the inevitable and have set to again with hearty good will to erect a larger and better building than the one which fell a prey to incendiarism.

The harvest from crop is somewhat better than usual, but in agricultural products have been surveyed. Sugar beets, potatoes and other farm products fill the granaries, while pleasant faces are lighted by the consciousness of plenty. Even the "surplus" and "reservoir" questions are solved. Reservoirs are being built into the mountains and more are to spring with hearty good will to erect a larger and better building than the one which fell a prey to incendiarism.

Notwithstanding the report was an opinion from City Attorney Hall, as follows:

"The intention of the Mayor and Council was to terminate the office of Everill and others by the appointment of Dudrow and others to their places, and not hurling the power or authority so to do, the reinstatement of Everill and others to the positions as formerly held by them would not give either Barnes, Pate, Talbot, Cannon, Pratt, Hodgman, Thorn or Williams a right of action against the city for salaries that might be claimed for the time absent from the execution of Everill and others to the former positions held by them as policemen of Salt Lake City."

An amendment, providing for the payment of all services of the new men, until after they are sworn in, was offered by Howe, and carried.

Porterman, in speaking to the resolution, came out to Dudrow's defense, then with reference to the reporter said he was opposed to it at the time.

The statement made by Councilman Hoyt by way of compliment to Chief Pratt, when he said "a man could not ask a favor of a police officer," he also answered to the chief of politeness in having done nothing for the Third precinct.

HAS TO CHAIN HIS WELL DOWN.

That is What One Citizen is Compelled to Do to Prevent Boys from Carrying it Off.

According to reports some of the citizens of a certain portion of the southwestern part of town are having a merry time of it just now with a boodlum element that seems to be flourishing down there like a green bay tree in one of the far off lands of song. There are not very many of them, but there are enough of them to make it decidedly interesting for peaceably disposed residents.

They are not, says one man who has suffered from their depredations, sufficiently numerous to be dangerous, but still sufficiently lost carry things off and drive them away or destroy them so that the owner will never get them again. What is more, they don't appear to be discouraged by a bend of a broomstick or a horsewhip would bring forward some on a long spell of hard work. Another that are not under the watch and footpower of quickly of Work Young's men for the most of the hour from the mouth of the hour from, and every make and now will not allow that which they take a long to. It was the experience of Andrew Gotz and his family, who live on Work street. They made a general mess of fencing and it is now the other of a number of days to put it in shape. Some of the fence was torn down and from their fastenings and attempted to carry to the pale and carry it off, but work interrupted by the family and were away removing the fact that they had failed in getting a pipe much on the premises.

Mr. Gotz has secured the names of the gang who did the work. He says that he has no desire to prosecute the offenders if they will only refrain from so doing that he will not endure that kind of work any longer. He has suffered from depredations of the kind and from the same source, so now some of his neighbors. Rather than have this trouble he will chain and they say the time for action has come. Perhaps it will be a good thing for the boys to be scared out of it.

Mr. Gotz says that this crew recently demolished the windows of his house.
