LYON'S KATHAIRON.

Lyon's Kathairon is an invigorating tonic vegetable preparation, positively free from any mineral or deleterious substances. It is the most delightful of all hair dressing—cooling the head, allaying irritation, curing headache and throbbing temples, making the hair strong, fragrant, glossy and obedient to control, so cleanly to use that it will not soil the finest fabric, causing the hair to grow luxuriantly and beautifully, removing dandruff and pimples. No man or woman can become bald who will use the Lyon's Kathairon properly.

Narrow Escape.—This morning a small child crept under the bread wagon of Mr. J. L. Grundhand, as it stood near the head of Commercial Street. That gentleman, not having observed the little one, was driving off, when some bystanders shouted to him, causing him to suddenly pull up, when the child crawled out from among the horse's feet. With the exception of a bruise on one foot, by the wheel striking against it, the little one was unhurt.

Not So Bad a Country.—George Brower, who, with Mr. Chenowth and family, of Salt River, and others, made a trip last month around the base of San Francisco and Bill Williams' mountains, reported some fine land and an excellent quality of grass in that region. George informs us that the location selected and abandoned by the Boston colonists is a desirable place for stock raising, and contains sufficient arable land for all the purposes of raising vegetables and forage to sustain quite a large population. He thinks the time is not far off when this land and the very extensive belt of the finest timber in the world contiguous to it, will be a prize worth seeking.—*Arizona Miner, Sept.* 8.

In Town.—Prof. Macdonald, phrenologist, is in the City, on a visit. He has been in the eastern States since he was here last winter. He states that in the large cities, such as New York and Philadelphia, the distress among the working classes in consequence of the lack of employment, is very great. In the first named city the unemployed number about forty thousand and in the other about twenty thousand.

Professor Macdonald purposes returning eastward again in a short time.

Fruit Canning.—Fruit canning is being more extensively carried on this year than in any previous season, both by families, in a private way, and by parties who are making a business of the trade, preparing the article for the market. For several weeks past tinmen have been exceedingly pushed to meet the demand for fruit cans, which have been going off "like hot cakes."

If this branch of business keeps increasing yearly, imported canned fruits will in the near future be a drug on the market, and the sooner the better. The home article is not generally surpassed by the imported, when the former is properly manipulated.

Benefit Ball.—On Wednesday (to-morrow) evening, Sept. 20th, there will be a benefit ball and concert at the 16th Ward School-house, in behalf of Mr. William Hapgood, who has been prostrated with sickness for a year and a half. The musical exercises will be vocal and instrumental, and will be participated in by Prof. Thomas and Messrs. Owen, Lewis, McAllister, Griggs, Gardner, Bourne, Foster, Bywater, Ball and Smith; also by Misses Bourne, Richards, Swan and Olsen and Mrs. Vincent, and Mr. John Chamberlain is named as the accompanist; besides a competent band will perform.

The object of the entertainment is for a worthy purpose, and it is probable there will be a full attendance.

The Lee Trial.

BEAVER, Sept. 18.

In the Lee trial this morning Spicer made a motion that Lee be discharged, on the ground that the statutes of 1852, under which he was indicted, had been repealed by an act of the governor and territorial legislature, passed and coming into effect at 12 m., March 4th, 1875. He read several sections from manuscript sheets of the new penal code, citing numerous authorities from Bishop on Statutory Crimes, sec. 151, 175 6 7 in support of sec. 2, page 1, new penal code, claiming that Lee must be discharged; he also read from the United States digest for 1870, page 667, section 89, and argued that that statute was not retroactive; and from the United States digest of 1875, page 769, sections 65 and 66, and other authorities. He continued to argue at great length in support of his motion, and concluded by saying that the legislative assembly intended when constructing the new penal code, that all persons guilty of crimes previous to the passage of said code, should be pardoned and condoned; that prison doors were all to be opened and the guilty set free, and it was to be the advent of a year of jubilee to evil-doers.

The prosecution made no reply. Judge Boreman, replying, said: I do not think there is any thing in the point raised, admitting that the statute of 1852 is expressly repealed, but the authorities cited were not applicable to the case, and the Judge could not see that any jubilee was granted to John D. Lee by the territorial legislature or by the law.

Denny began the opening address for the prosecution at 11.52 a. m., and continued till recess, at 2.30 p. m., confining himself to the acts of Lee in inciting Indians to attack the emigrants before the answer to the message sent to President Young was received, and acting in opposition to the directions of the council at Cedar, showing that Lee was the main leader of the massacre from beginning to end. He made an accurate review of the evidence. After recess he continued the argument till 3.30 p. m.

J. C. Foster, of Pioche, followed for the defence and is now advancing the theory that Lee participated in the massacre by order from higher authority at Cedar, and the witnesses are not competent because they were actual participants.

The general impression is that the jury will agree on a verdict of guilty, as charged in the indictment. It is said the defence will take an appeal.

BEAVER, Utah, Sept. 19th.

This morning Bishop began his closing speech for the defense. He reviewed the evidence with tolerable accuracy, handling and interpreting portions as given by each witness to his side of the question, and denounced several as having testified to only such facts as related to Lee, screening themselves and showing, in his mind, that they were actual and some willing participators in the massacre; that the church had resolved to sacrifice Lee, discarding him and leaving him to a fate consequent on such evidence as had been introduced. He assailed the evidence of Nephi Johnson, McMurdy and Hamblin with considerable ridicule, denouncing it as untrue, and that these witnesses were part of a conspiracy to hang Lee, conjuring the jury not to consent to this sacrifice by their verdict, in order to lift the odium and cloud of guilt that the world had cast upon the "Mormon" people because of the massacre; but throw aside the evidence of men's hands imbrued with blood. He closed his remarks at 11:45 a.m., having occupied all the morning, reading also a proclamation of President Young, with accompanying instructions, September, 1857, when Governor of the Territory, as to the army supposed to be coming from the east with hostile intentions towards the people, begging the jury to consider the peculiar state of the country at that time, the emigrants having aggravated the Indians to such an extent that nothing less than their destruction would appease their wrath.

Howard commenced the closing speech in the case at ten minutes to 12, and in replying to Bishop's remarks said he had been engaged constantly during the past three months in sifting the facts and everything related or connected with the massacre. As in his opening address, he repeated again that he had come there for the purpose of trying John D. Lee, because the evidence led and pointed to him as the main instigator and leader, and he had given the jury unanswerable documentary evidence proving that the authorities of the "Mormon" church knew nothing of the butchery till after it was committed, and that Lee, in his letter to President Young a few weeks after, had knowingly misrepresented the actual facts relative to the massacre, seeking to keep him still in the dark and in ignorance; that he denounced the aspersions hurled by Bishop against the testimony of Hamblin, McMurdy and Johnson, and defied him and the world to disprove or impeach their testimony. He had read all the assistance any United States official could ask on earth in any case. Nothing had been kept back, and he was determined to clear the calendar of every indictment against any and every actual guilty participator in the massacre, but he did not intend to prosecute any one that had been lured to the Meadows at the time, many of whom were only young boys and knew nothing of the vile plan which Lee originated and carried out for the destruction of the emigrants.

Howard is now delivering the most able and eloquent address ever heard in this country, voice and argument are plainly heard in the residences around the court house.

3.30 p.m.—Howard finished his remarks. The court adjourned till to-morrow at 10 a.m., when the Judge will deliver his charge and the case be given to the jury.

GREAT BRITAIN.

The Servian Army—A Timely Retreat—The Truce to Cease on the 25th—Preparations for a Winter Campaign.

LONDON, 19.—The *Standard's* Belgrade special says: The retreat of the Servians across the Drina was caused by the alarming rise of the river, and was well-timed; for soon after they withdrew, the plain in which their camp had been pitched, was covered with a vast sheet of water. Their headquarters is at Pettorach, opposite Javor.

Gen. Tchernayeff's freak, in causing Prince Milan to be proclaimed king by the army, is productive of much annoyance.

The Porte intimates that the truce will cease on the 25th, but expresses hope that by that time the European Powers will have fully considered the terms of peace.

The general opinion in Belgrade is that peace is further off than ever. The Russians continue to pour in and great preparations are making for a Winter campaign.

Minister Ristics made an official complaint that the Turks do not respect the truce, and states, on authority of Gen. Tchernayeff, that they made an attack on the Servians on Sunday.

The Eastern Question—More Enthusiastic Meetings.

Five thousand working men held an enthusiastic meeting on the eastern question at Exeter Hall last night, over which Henry Fawcett, Liberal member from Hackney, presided. Resolutions were passed condemning the eastern policy of the government, and demanding a speedy meeting of Parliament. A vote of thanks to Schuyler, of the American legation at Constantinople, for his report on the Bulgarian outrages, was passed.

A large and enthusiastic meeting was also held in Trafalgar Square.

The Wheat Crop in England.

James Caird, the well known practical agriculturist, author and statistician, writes to the *Times* in regard to the wheat crop as follows—

"The condition and quality are all that can be desired, but as threshing proceeds the yield continues more disappointing. The land under wheat in the United Kingdom this year is three million one hundred and thirty-six acres, which is six hundred and seventy-eight thousand below the average of 1874 and the seven preceding years, a decline of over twenty per cent. on the average growth. The decline from last year is three hundred and seventy-eight thousand acres, but that will be more than compensated by the increased yield per acre and the higher quality. I put the gross product of the present crop at ten millions, six hundred thousand quarters; deducting 800,000 quarters for seed, will leave 9,800,000 for consumption. At the present rate of consumption with us we require for the coming year about 13,000,000 quarters, from stocks in hand and foreign importation. This is the fourth year in succession in which America has been our main dependence. If that should fail in any material degree, it will be impossible to fill the gap elsewhere. In none of the European wheat exporting countries has there been an average crop. British India has largely increased her export, which in the last eight months reached nearly five per cent of our whole foreign supply. With no quarter from which we can expect an increased supply, and with some prospect of a diminution in the American supply, it is satisfactory to know that we begin with a large stock from the surplus of last year's import. The very fine quality of wheat of all countries warrants an increase of price. In consequence of the decreased area under cultivation we may before long expect such a moderate increase on the low price of the last two years as to leave some profit to both home and foreign growers."

Servian Ammunition Short.

VIENNA, 19.—As the Servian Government has completely lost control of its army, all the command being in Russian hands, it will be on the good will of General Tchernayff whether the order for the suspension of hostilities will be obeyed; but as the ammunition is short a respite will probably be welcome.

—The New York *Herald* Sept 11 says, "Poisonous liquid known as vegetable hydrocyanic acid is used, it seems, to mix with brandy and other liquors in many of the public bars of this city, and a case of this species of poisoning is reported in the *Herald* this morning. From the investigations made by the *Herald* reporters it is undoubtedly true that in many of the lager beer saloons in New York 'bitters' are manufactured by the proprietors on the spot, and that oftentimes what purports to be imported 'kornschnapps' is but the essential oil of bitter almonds, poorly distilled, and only fit to flavor perfumery and soap, and totally unfit to enter the human stomach. The poorer class of Germans, Poles and Bohemians, who drink what is known as 'kimmel,' and that to an immoderate extent, are in the habit of increasing the flavor of that peculiar brandy by kornschnapps, both liquors undoubtedly being a combination of active poisons, which although not producing immediate paralysis of the vital powers, are slowly but surely the cause of death."

CORRESPONDENCE.

The Sad Accident at the Depot.

OGDEN CITY, Utah, Sept. 18, 1876.

Editor Deseret News:

Two accidents, one very serious and possibly fatal, happened this morning on the platform of the Utah Central Railroad, to Mrs. Esther Duce, and her son Thomas Duce, of Hyde Park, Cache County. It appears that one of Wells, Fargo & Co.'s express agents from Montana, was crossing from the Utah Northern to the U. C. R. R. depot. He was carrying a couple of short, double-barrelled shot guns, which were loaded with very large buck shots. When on the last named platform, one of the guns fell from the agent's hand to the ground and discharged, and most of the charge entered the body of Thos. Duce. He received twelve wounds—three on his right arm, producing a compound comminuted fracture. The balls passed through the arm. He received five wounds on the right side, one about four inches above the ankle, one about four inches below the knee, two on the thigh, and one in the right side above the hip joint. One ball struck the fore finger of the right hand, breaking the finger; another ball struck the forefinger of the left hand, breaking that finger also. One ball entered the left hand, glancing upward, and coming out just above the wrist, breaking the left arm. Another ball entered his back, a little to the right of the spinal column; this ball did not pass out, but was extracted. Another ball (the only one) is buried in the fleshy part of the thigh and cannot be extracted, Mrs. Duce received one shot, which entered on the right side of the neck, passing through and lodging on the left side, from whence it was extracted.

The wounded persons were removed to the Beardsley House, and Dr. P. L. Anderson, assisted by Dr. A. S. Condon, were called in, who set and bound up the fractured members of the body, dressed the numerous other wounds, and administered such soothing medicines as were thought advisable. Mrs. Duce was removed in a vehicle and Thomas on a bier to the residence of Mr. Charles Welsh, on Franklin Street, where they receive every attention of their many kind friends in this city. Good hopes are entertained of an early recovery of the mother, but the son lies in a very precarious condition. The husband and father, and also the wife of the son, were immediately informed of the accident, by telegraph, but will not be able to reach here until to-morrow. The sad occurrence was purely accidental, and I am informed that the agent here has said that Wells, Fargo & Co. will pay all costs for medical attendance, etc.

In haste, yours,
SEMPER.

PEOPLE'S TERRITORIAL CONVENTION.

HEADQUARTERS, People's Territorial Central Committee,
Salt Lake City, Sept. 9, 1876.

To the People of Utah.

The election of Delegate to represent the Territory of Utah in the Forty-Fifth Congress will be held on Tuesday, November 7th next ensuing, and it is most desirable that the candidate chosen as the representative of the people should receive their fullest support and that every person entitled to the elective franchise should exercise it on that day.

To the end that an increased interest may be awakened in election matters and to endeavor to draw out the entire vote of the Territory on this important occasion, it has been determined to hold a People's Territorial Convention, composed of Delegates from the several counties, to convene at the City Hall in Salt Lake City, on Saturday, October 7th, 1876, at 12 m.

The business of this convention will be to nominate a candidate for delegate to Congress, and to inaugurate such measures as will insure increased attention to our elections throughout the Territory. The number of delegates to compose the Territorial Convention has been fixed at seventy-eight, being twice the number of the Councilors and Representatives in the Legislative Assembly, and the allotment of delegates to the several counties has been based, as far as possible, upon their representation in the Legislature. To secure the proper election of these delegates it is suggested that each county hold a county convention, composed of delegates sent from primary meetings previously held in the several precincts. The delegates to the Territorial convention should come duly authenticated with credentials signed by the President and Secretary of the convention appointing them. It will be well for each convention to appoint alternate delegates to represent the county in case of the failure of the regular delegates to be present at the convention. It is also suggested that each County Convention while in session appoint a County Central Committee to attend to all election matters in its county, which Committee should immediately organize and place itself in communication with the People's Territorial Central Committee at Salt Lake City, that concert of action in these matters may be secured throughout the Territory.

The number of delegates to the Territorial Convention to which each county is entitled is as follows—

County.	No.	County.	No.
Salt Lake,	18	Sanpete,	5
Utah,	8	Wasatch,	2
Juab,	3	Summit,	2
Millard,	3	Morgan,	2
Beaver,	3	Davis,	4
Piute,	1	Box Elder,	3
Iron,	3	Tooele,	2
Kane,	2	Weber,	5
Washington,	2	Cache,	7
Sevier,	2	Rich,	1
Total,	78		

It is hoped that the leading men in each County will take immediate steps to carry these suggestions into effect, by calling primary meetings in their precincts and County Conventions in their Counties, that the people may be thoroughly aroused to their duty, that the result of these measures may prove beneficial to our citizens, and that the delegate selected to represent us in Congress may receive, at the coming election, such a vote as was never before given to a delegate from any Territory.

By order of the People's Territorial Central Committee.
JOHN SHARP,
Chairman.
THEODORE MCKEAN,
Secretary.
