

WANTS \$30,000 FOR HIS EYESIGHT

Big Damage Suit Against the
Annie Laurie Mining Co.

BLINDED BY AN EXPLOSION.

Dennis Murphy seeks to recover for
injuries alleged to have been
received in a mine.

Dennis Murphy, through his attorneys, Powers, Straup & Lippman, today entered suit in the federal court against the Annie Laurie Mining company for damages to the amount of \$30,000 for personal injuries received while working in a shaft of the defendant company's mine at Kimberly.

The complaint alleges that the defendant omitted to inform him that there were several holes in the mine at the point where he was working, one of which exploded later, destroying the sight of his eyes so that he is now blind, and also injuring him about the head, face and body.

Suit for Libel.
John Arab has filed a libel suit in the district court against M. T. Jackson to recover \$5,000 as damages to his character by certain alleged libelous statements written by defendant to his brother, G. T. Jackson, at Glenwood Springs, Colo., of and concerning plaintiff. The letter was written in the Assyrian language and is alleged to contain certain vile and defamatory matters which plaintiff resents.

Suit for Divorce.
Theora Sorenson today filed suit for divorce in the district court against Axel Z. Sorenson on the ground of non-support. They were married at Gunnison, Utah, on May 21, 1899. Plaintiff asks that her maiden name, Theora Thompson be restored to her.

CRUELTY TO ANIMALS.

G. R. Woolley Placed Under Arrest on
This Charge.

This morning Officer Brown placed under arrest G. R. Woolley on the charge of cruelty to animals. It is alleged that Woolley has been working a horse that was unfit for use by reason of the fact that it was suffering from a bad sore under the collar. The officer says Woolley has been warned several times not to work the animal but persisted in doing so. He will have a chance to explain Judge Diehl.

HARRIS WAS FRISKY.

Trifled With Dog-Catcher and Landed
In the City Jail.

Sam Harris, an alleged prize fighter, got himself into serious trouble and likewise into jail this morning by becoming too frisky with the dog catcher. Harris thought it would be great sport to set all the dogs in the wagon at liberty. The thought was put into execution and a dozen joyous canines with gladness barked their way down the street. Just as Harris was enjoying the full measure of the fun, Officer Johnson appeared on the scene and placed him under arrest. He was unable to furnish bonds and had to go to jail.

CROPS IN UTAH VALLEY.
Reported in Fine Shape, Due to the Condition of the Lake.

The present condition of Utah Lake is considered very satisfactory. Four hundred second feet have been running out since May 4, and the crops down the valley in consequence are in fine condition. The farmers are jubilant over the outcome. The lake is considered as good for the next six weeks whether there is any more rain or not, and it is where it was Aug. 11 last year. While most of the running water from the

TOMORROW AT SALT AIR.

Thirty Trains Will be Run During the Day—Lagoon's Attractions.

Manager Langford of Saitair is making great preparations to entertain the crowds tomorrow. With this end in view he will run 30 trains and promises that there will be no uncomfortable crowding on Pioneer Day. He has made arrangements with the Oregon Short Line for additional rolling stock, and the transportation problem is solved. The water at the lake is now 86 degrees and the rafts in consequence are working overtime to accommodate the bathers, who can now get out to the lake in less than five minutes. This afternoon arrangements were being made to put on a vaudeville entertainment for tomorrow, but nothing definite has been arrived at.

While there will be no special program at Lagoon for Pioneer Day, Manager Chitwood expects to have all the people he can comfortably handle at the family resort. Lagoon is looking beautiful now and there is lots of shade, which, augmented by the breezes from the canyons, makes it an ideal spot to spend a day.

KELLY'S CHECK STORY.

Refers to One Handed to ex-Lieut.
Gov. Lee of Mo.

St. Louis, July 23.—A special from a staff correspondent at Niagara-on-the-Lake, Ont., says:

D. J. Kelly gave to the Post dispatch today for the first time his story of the \$12,000 check dated March 27, which was handed to Lee before his departure for the Hawaiian islands.

Lee declared to Atty.-Gen. Crow that he understood that this was a bribe money but that he refused to accept it. He said that on arriving at his eastern destination he will have traveled 7,000 miles on the one trip which occupied some 30 days.

Kelly says that from the time the 1903 legislative session opened, Lee began to hint to him of a bribe, and he declined to express any opinion on either the local rumormongers or his attitude in the Smoot senatorial situation. He said he was merely here to shake hands with his friends.

LUCIN CUT-OFF NEARLY FINISHED

First Private Party in Special Train
Goes Out Yesterday.

ESCAPE OF SONNAMBULIST.

Young Girl Falls From Oregon Short
Line Train West of Pocatello
—Railroad News.

With the exception of a gap of about five miles the Lucin cut-off is practically completed. It is now possible to run trains from Ogden across to Promontory and for a considerable distance on the trestle work west of that point.

While the east end of the big undertaking is claimed to be finished there is still plenty of work to be done ere the cut-off becomes a part of the main line of the Southern Pacific from Ogden to San Francisco.

Governor Benjamin B. Odell of New York and a party of friends, including Governor Hoher M. Wells of Utah, visited the work yesterday and on their return to Ogden were loud in their praise of the stupendous engineering feat that is nearing completion.

As this party is the first outside of official circles to visit the cut-off and view the work from the rear end of a private car, considerable interest is attached to the occasion.

It is stated that the cut-off will be completed inside of 60 days, after which attention will be given to the widening of the grade at different points and the installation of sidings at stated intervals.
