THE PRESIDENT'S CONDITION.

Favorable.

EXECUTIVE MANSION, 31, 4 p. m.—Dr. Reybourn reports the President has had a very favorable afternoon, ate a plate full of soup about three o'clock, and has twice to-day chewed a small piece of beef steak and swallowed the juice. No material change in pulse or temperature, and all symptoms continue favorable.

Encouragement.

The surgeons regard the President's condition this morning with increased satisfaction and encouragement. The parotid gland swelling has steadily improved in appearance, and in all other respects the President has gained ground slightly, and he is having a quiet, comfortable day. Among the members of the cabinet and the President's personal friends there is a genuine feeling of encouragement and confidence, and there seems to be a general impression that by Saturday or Sunday, when the glandular swelling shall have ceased to be a hindrance, the patient will enter in the stage of convalescence.

Official Bulletin.

Executive Mansion, 6.30 p. m.—The President has passed a better day than for some time past. He has taken his food with increased relish, and the usual afternoon increase of temperature did not occur. At the evening dressing the fluid use to wash out the parotid abscess found its way into the mouth, which it did not do this morning, showing that the opening into the mouth has spontaneously occurred. The abscess is discharging freely, and the swelling continues diminishing. There is some increase in the discharge of pus from the wound. Pulse 109, temperature 98.6, respiration 18.

Signed: Bliss, Woodward, Agnew, Reyburn, Hamilton.

Swelling Reduced.

In an interview at 1.25 p.m., Dr. Bliss said that the President's condition is highly satisfactory and that he is making very favorable progress in every way. The parotid swelling has been reduced to two-thirds its maximum size and is steadily diminishing. The President continues to take food well, and has made a slight gain in strength. The question of his removal from the White House is again being seriously considered. The President himself wishes to go to Mentor, but although he will doubtless be taken there eventually, the first removal will be to a shorter distance. It will take place at the earliest possible moment. The patient's pulse at noon went down to 95 for the first time since the 8th of August, and is still below 100, with all other symptoms correspondingly favorable.

"Good Enough."

Postmaster General James called at the Executive Mansion this morning, but upon receiving the bulletin at the door, said "That's good enough, I'll go to the Department and get to work," and he drove away without coming up stairs.

Agnew expects to return to Philadelphia this afternoon.

Any Change Desirable.

The President had some difficulty in chewing the beef to-day. His pulse was lower at noon, 95, than since the 8th of August, and at 6.30 was lower than for several days at the same hour, being 109. The doctors do not regard as at all unsatisfactory the new opening into the mouth, and attach no importance whatever to it. After the afternoon bulletin the pulse receded slightly. Everything considered he could not be better at this time. The President, this morning, recurred to his desire to be removed. The physicians had been discussing this point, and were unanimous that at the earliest moment possible the President should be removed. It is now that any change would be desirable. Dr. Bliss told the President that he would be removed as soon as it would be safe. Bliss said he could not promise to take the President to the place of his great desire, his home at Mentor, before a shorter journey was taken. The doctors say while the matter of removing is again under discussion there has been no decision as to the objective point. Captain Henry, after canvassing the matter at the White House, has come to the conclusion that a trip down the river on the *Tallapoosa* will be the first change in case the President recovers sufficiently, of which no doubt is now expressed. The *Tallapoosa* will arrive here to-morrow and will very likely be detained to await the President's recuperation. The only sign of strength being renewed, is that the President is turned over on his side to dress the wound. He, both this morning and evening, assisted in a slight measure in the turning movement

Blaine to Lowell.

The President had less fever this evening than upon any previous evening since he was wounded. Temperature at 6 o'clock was normal. His entire day has been most encouraging in all its symptoms. Hereafter I shall send but one report daily.

Mild Cigars.

A dispute having arisen as to whether the President smoked the very strongest cigars, his doctor says he has always got the mildest brand for 15 years.

Blaine to Dillon:

The following dispatch was received by Sidney Dillon from Secretary Blaine yesterday:

Washington, Aug. 31, 1881.

We all feel much encouraged in regard to the President.

Whisky.

Dr. Bliss said: "I received a number of letters to-day commenting favorably upon our use of alcoholic stimulants in this case; but the writers, never having seen the patient, are not qualified to judge as to the wisdom of the measures which we have taken during the recent period of exhaustion. Any reduction in the quantity of whisky given was followed promptly by warning of danger in the shape of high fever and fluctuating pulse. It was largely by stimulation that he was kept up during the worst stages of the glandular inflammation."

Since the evening bulletin the pulse has fallen again to 104.

Another Dodge.

Dr. Reyburn says, that no importance whatever should be attached to the fact mentioned in the 8.30 bulletin, that the gland has made an opening spontaneously into the mouth. No pus has found its way into the opening, and it is not likely any will, for the reason that it can escape much more easily through the external outlet. The opening into the mouth is about the middle of the cheek, and in the position in which the patient lies most of the time, there are two or three external openings lower down which drain all the pus from the part of the gland with which the mouth is in communication. No danger whatever of any kind is apprehended from this new feature of the glandular suppuration of pus. Dr. Reyburn says it is not likely to get into the mouth, and even if it should it would do no harm.

At this hour, 11.30, the President's pulse is nearly down again to 100; temperature and respiration normal, and condition as satisfactory as at any time during the day.

The Assassin's Pistol.

After the President was shot the revolver used by Guiteau was taken by District Attorney Corkhill from police headquarters, and complaint was made by the police that the chain of evidence had been broken, as the officer who had taken the pistol from the assassin, and who, according to custom, should have kept possession of it, could not now identify it. A movement is now being made to get it from Corkhill, who holds that the pistol was fully identified on the morning of the shooting, in court, and that the District Commissioners are only courting a little absurd notoriety in trying to get it.

More of Howgate's Villainy.

Howgate's embezzlement now reaches $170,000, and more investigations to hear from. He has not been heard from for ten days, even by his family, which is destitute. It is believed he has left the country with his mistress.

Wool Market.

BOSTON, 31.—There is a steady demand for wool, prices remaining unchanged. Manufacturers are beginning to realize that wool is lower now than it is likely to be for some time to come and are disposed to purchase more freely. Combing and unwashed combing has been selling at 30 @ 32, including considerable Indiana. Other Western and unwashed combing, 15 @ 28 per pound. Unwashed fleeces remain unchanged with a steady demand for fine and medium grades. California wool has been quiet. There has been a very confident feeling on the part of holders and many are indifferent about selling at present.

Damaged Wheat.

CHICAGO, 31.—An examination was made to-day, of the City and St. Paul elevators, and it was found that while there was no wheat actually hot, some hundred thousand bushels had been shipped to Buffalo to avoid heating which seemed likely to occur unless the grain was moved and stirred up. This clique had shrewdly shipped the grain before it was out of condition, rather than have it posted as heated, which might create a panic. As it was, price declined heavily to-day, at one time being seven cents below last night's closing, although to-day's range was only 3½ cents and price close up pretty strong.

Railroad Alliance.

The *Times'* says: Private advices received here to-day indicate that a new compact has been entered into which will cause the Denver and Rio Grande to maintain in the future a close traffic alliance with the Union Pacific at Denver, and which gives the Denver and Rio Grande possession of the territory southwest of Denver. This will end an expensive rivalry, and it is supposed, discourage the building of any projected new lines into Colorado with those already established.

Looking after Our Welfare.

OMAHA, 31.—Hon. R. W. Furnace, ex-Governor of Nebraska, and Hon. T. C. Jones, of Delaware, left Omaha to-day for San Francisco, where they will meet Prof. Hilgard, of the California Agricultural college, these three gentlemen having been appointed by the Commissioner of Agriculture, Geo. B. Loring, to procure data touching the agricultural needs of that portion of the United States lying west of the Rocky Mountains, and concerning grape culture and wine making on the Coast, and the inducements offered by the soil and climate of New Mexico, with reference to supplying the market with valuable grapes, wines and raisins. They are also instructed to inquire as to the animal industry of that section of our country; its value, condition and management generally, including horses, cattle and swine. They are also to make inquiry as to the agricultural methods prevailing in the region designated, including crops, amount in aggregate and average yield per acre, and the general management of land for horticulture, as well as agricultural purposes and modes of fertilization.

Disastrous and Fatal Fire.

SAN FRANCISCO, 31.—A Truckee dispatch just received from Sierraville, Sierra County, says a fire originated in the store of Joslen at 5.50 p.m. to-day, and that the whole town is destroyed. The losses will reach at least $300,000. At the present moment the store of Nicholas & Co. is burning inside, and about 50 kegs of powder are stored therein. A heavy explosion is momentarily expected. Within ten minutes after the alarm was given the whole town was ablaze. A two year old child of S. T. Barton was burned to death.

White Savages.

A Deming dispatch says there is reason to believe that there were a number of white men in the band of savages who made the recent raid in which George Daly was killed. This is inferred from the language used by some of them, also from the appreciation shown by them for specie and bank notes.

Murder and Matricide.

MILWAUKEE, 31.—Last night a young German, Herman Hildron, shot and instantly killed his father-in-law, Paul Kemmer, and mortally wounded his mother. Family troubles caused the deed. Hildron was arrested.

Political Duel.

NEW YORK, 31.—The *Sun* has a story of a duel at Warrenton, Va., between Robert B. Campbell and James C. Scott. The affair resulted in a painful though not dangerous injury to one of the principals and also in the arrest of all parties. The affair grew out of a political quarrel.

Ruth, although of a retiring disposition, succeeded as a gleaner in getting as good a Boaz any of the other girls.

FOREIGN.

The "Grosser Kurfurst."

LONDON, 31.—A steamer will leave Dover to-day to make another attempt to raise the sunken German war steamer *Grosser Kurfurst*.

International Chess.

BERLIN, 31.—At the international chess congress to-day, Blackburn, of England, played Herr Berger, of Gratz, and Herr Seusherstort played Herr Wilnawer, of Berlin. Both games were a draw.

$20,000,000 Worth of Bonds.

MONTREAL, 31.—The directors of the Canadian Pacific Railroad met to-day. They contracted for the sale of $20,000,000 of the company's 5 per cent. land grand gold bond, $1,000,000 of which were executed, and the board authorized the president and secretary to execute the mortgage as authorized at the stockholders meeting on the 15th ult.

Dr. Idereing, Herr Eturshard and Herr Glick, Germans, arrived to make inquiries as to the capability of Canada for German emigrants.

Correspondence.

COPENHAGEN,
August 8th, 1881.

Editor Deseret News:

We have resolved to forward you the following information about the funeral of the late President Wilhelmsen.

Yesterday, about noon, the Saints and other mourning friends commenced gathering at the cemetery on purpose to pay their last respects to the remains of a much-loved friend. We had the use of a very nice and convenient hall. The coffin, with the earthly remains of our beloved brother was placed on a stand in the upper end, and was literally covered all over with flowery wreaths of a choice quality, and even the stand, which was draped in black, was richly decorated with beautiful wreaths. On the head of the coffin was two palm leaves, tied together with a blue and a yellow silk ribbon, representing the national flag of Sweden, and bending together with their points, the palm leaves encircled the following inscription: "From mourning friends in Stockholm." Right there was another wreath with: "Farewell, from his assistants at the office," and "Those that knew you best loved you the most." On the sides were seen among many others the following inscriptions: "Farewell to Brother Wilhelmsen, from the Relief Society in Aarhus;" "Farewell from the sisters," and "Farewell from the young brethren;" and on the foot end, "Last farewell from the choir." At 1 o'clock the services were taken up, under the direction of Elder Andrew Jensen. Sixteen of the Elders from Zion were present on the occasion. They were stationed near the head of the coffin to the right, and likewise the choir to the left. The choir then sang a hymn which was purposely composed. Elder Hans Funk then made a prayer, after which, short and pointed remarks were made by five of the Elders, and a hymn was sung by the choir. After this, procession was formed and walked out to the grave yard as follows: The six presidents of conferences who were there, acted in the capacity of carriers; their names are: H. Funk, of the Copenhagen Conference; L. M. Olson, Stockholm; S. Christensen, Aalborg; O. N. Stohl, Gothenborg; C. Jensen, Aarhus, and N. B. Adler, of Malmo. Next after the head of the coffin walked Elder Andrew Jenson and Brother Hugo Petterson; next came the rest of the brethren from Zion; after them the members of the choir, and a great many of the Saints and strangers, numbering nearly 300 persons, who all walked four and four together, and were dressed in mourning. The grave was about 300 yards from the above mentioned hall. Soon after arriving at the grave, the coffin was let down by ropes, and the choir sang another hymn, and Elder H. J. Christansen gave thanks and dedicated the grave for the safe keeping of the earthly remains of that faithful man of God, praying that his dust might rest in peace. Thus everything went off in good style and peaceably. The officials treated us with due respect and liberality, and all present seemed to participate in the solemnity of the occasion. Surely it was a day never to be forgotten by us.

A meeting was held in the evening, when several of the brethren spoke words of comfort and good counsel to Saints and strangers assembled. And, now, may his dust be protected until the morning of the resurrection of the just.

Desires were expressed by some to have a monument erected at the grave, and we concluded to consult President Carrington about it.

ANDREW JENSON,
P. O. HANSEN.

RESOLUTIONS OF RESPECT.

Whereas, It has pleased an all-seeing Providence to call from this state of action, to another and higher sphere, our beloved and much-esteemed brother, Prest. N. Wilhelmsen; and

Whereas, His family thereby has lost a true and affectionate husband, and a kind and loving father, the Scandinavian mission a wise and faithful leader, and the whole Church one of its great and noble men. We, the undersigned, do hereby unanimously adopt the following:

Resolved, That we extend our heartfelt sympathy and condolence to his family in their sad bereavement, and also to his relatives and numerous friends for their great loss; and we earnestly pray God, the Eternal Father, to bless and comfort them in this the hour of affliction and sorrow.

Resolved, also, That a copy of this be sent to the family, the DESERET NEWS and the Bear Lake *Democrat*.

Accidental.—Little Lottie to her friend: "I have so many cares. Yesterday a little baby sister arrived and papa is on a journey. It was but a piece of luck that mamma was at home to take care of it."

When a ruffi rescort landlord thinks a city man is putting on "so many airs, he merely asks, as he hands him the key to his room at night, "Be careful to turn out the gas; don't blow it out."

It has been discovered that sharks eat cats. No family should be without a shark pond on the back fence.

"'Tis hard to part from those we love"—and sometimes it is even more difficult to get away from those we don't love.—*Philadelphia Sun.*

In Boston they are still discussing proposed sites for the proposed world's fair, but the affair seems as yet a great deal more a matter of faith than site.

A Boston Lady Bountiful fell into ecstacies about the lovely saint-like expression of a boy of nine who formed one of the poor children's excursion to Walden Pond, but her feelings sustained a cruel shock when this "thing of beauty" was heard to exclaim when sandwiches were dealt out: "How in h—l do these ladies expect a fellow to eat sandwiches without mustard?"

The following queries have been propounded by the Concord school of philosophy: "Why do not cows sit down to rest the same as dogs? Why does a dog turn round a few times before he lies down? Why does a cow get up from the ground hind-end first, and a horse fore-end first? Why does a squirrel come down head first, and a cat tail first?"

NOTICE.

In the Probate Court, within and for Salt Lake County, in the Territory of Utah.

BEFORE THE HON. E. SMITH, Judge.

IN THE MATTER OF THE PETITION OF SARAH JANE GRAY SPENCER, GUARDIAN FOR MARK SPENCER, AND GROVE SPENCER, MINORS, TO SELL REAL ESTATE.

ON READING AND FILING THE PEtition of Sarah Jane Gray Spencer, Guardian for Mark Spencer and Grove Spencer, Minors, to sell Real Estate, it is ordered by the Court that Joseph Horne be appointed Guardian *ad litem*, to defend this petition for the said Mark Spencer, and Grove Spencer, and that this matter be set for a hearing at the Court House in Salt Lake County, on the 24th day of September, A. D., 1881, at ten o'clock a. m., and that Sarah C. Gray Spencer, Stephanie Spencer Horne, Joseph Horne, Mark Spencer, and Grove Spencer, and all other persons interested, so appear in the Court at the time and place set for the hearing thereof, to show cause, if any there be, why an Order should not be made to sell the Real Estate described in the petition.

And that a copy of this Order be served personally on Joseph Horne, Sarah C. Gray Spencer, Stephanie Spencer Horne, at least ten days before the time set for the hearing thereof, and published in the Deseret News for three successive weeks, the last publication to be at least ten days before the time set for hearing.

August 25th, 1881.
