

and Prime Minister Ferry. Grevy urged the king to remain in Paris another day.

King Alfonso will reach the Spanish frontier at midnight.

General Pettie, Secretary of President Grevy, and Duc de Fernanunvez, Spanish ambassador to France, escorted the King to the railway station.

The King made an excellent impression upon the guests at the banquet at Elysee. Grevy, referring thereto, said he never expected to meet so much good sense, dignity and coolness in so young a sovereign.

Paris, 30.—Alfonso dined this evening with Pres. Grevy at the palace of the Elysee.

The King visited Epinal, returning this afternoon.

At the interview with Grevy, at the Spanish embassy, Pres. Grevy tendered an apology to the King in the name of the French republic, because of the conduct of the mob. The people, he said, should not be unfounded with the authors of the hostile demonstrations. He begged the King to give France fresh proof of sympathy by accepting an invitation to a banquet at the Palace Elysee this evening, to be attended by all the cabinet ministers, when the true sentiment of France toward the King would be shown.

Alfonso replied that he had come to Paris animated by most friendly sentiments toward France, and as a proof of this friendship he would accept the invitation. The King went to the Palace Elysee this evening.

London, 2.—The Times gives a report from an Uppernavik, correspondent of a Copenhagen journal, that Lieut. Greeley of the American Arctic expedition was murdered by his mutinous crew. The report comes from Hans Hendrik, Esquimaux, with Dr. Natherst. Hendrik states that he got the news from the Esquimaux at Cape Herk. The Times considers the report improbable, as Dr. Natherst has never mentioned it. Mr. Natherst was geologist of the Nordenskjold expedition. Prof. Nordenskjold telegraphed to our Associated Press from Stockholm under date of Sept. 22nd, that an Esquimaux named Dars Christia, who was interpreter with Dr. Natherst, reported having met a party of Esquimaux at God Haven, who had come from Wollenholm. This party stated they had been informed by other natives that the commander of the American expedition and another member of the party were dead. The report printed in the London Times may have been based upon the same story.

LONDON, 2.—A dispatch from Paris to the local news agency, says: Waldeck Rousseau, minister of the interior, has ordered that an inquiry be instituted as to what measures were taken to secure order on the occasion of King Alfonso's arrival on Saturday.

London, 1.—Fifteen thousand steel and ironworkers of Glamorganhire and Monmouthshire, have struck against a reduction of 10 per cent. in their wages. Employers urge, in view of English and American competition, that they must either close the works or reduce wages.

The steamer Devonshire from Baltimore, Sept. 11th, has arrived. She lost 103 head of cattle on the passage.

Rome, 1.—Cardinal Ledochowski renounces the idea of being re-elected in the Archbishopric of Posen.

Berlin, 2.—Newspapers here regard the insults heaped upon Alfonso in Paris as mortal to France. No power, they say, would now wish for an alliance with her. The insults to the Spanish King were, in their opinion, more directly aimed against the Germans, who consider them a sign of weakness.

Paris, 2.—Prime Minister Ferry had an interview with President Grevy this morning. It is reported that several members of the cabinet intend to offer their resignations.

France says: At the dinner at the Elysee the minister of public works informed the Spanish minister that the French government, wishing to furnish proof of its strength in relation to France and Spain, had resolved to summon an international commission to examine into the scheme of building a tunnel at Camaret, France, so as to improve the railway connection with the two countries.

President Grevy's aide de camp accompanied Alfonso to the frontier.

Berlin, 1.—The German government will take no diplomatic notice

of the manifestation against King Alfonso in Paris.

All newspapers express great indignation at the insults offered to Alfonso in Paris.

Paris, 2.—Alfonso, in declining the invitation of Grevy to prolong his stay in Paris, remarked that Grevy's apology for his treatment by the people might make him forget the bitterness of his entry, but Spain would long remember the hisses of the populace, who would not see that behind the king it was the nation they were hissing.

Madrid, 1.—The Iberia says: The demonstration against Alfonso will remain a lasting shame to France. If she does not give full satisfaction it will show the government of France has merely a nominal existence and that seditious persons are more powerful than all the authorities. Republican papers urge the Spanish people to be calm and prudent, in order to avoid playing into the hands of Bismarck. At a meeting of the dynastic left to-day after a speech by Moret, favoring the project, it was resolved to organize a great public demonstration in honor of the King on his arrival here. The military club of this city passed a similar resolution.

Iron, Spain, 2.—The train containing King Alfonso and suite arrived here this morning. The King was received with unbounded enthusiasm by the crowd in waiting. In parting at the frontier with his French escort, he charged the aide-de-campe of President Grevy to convey his thanks to the President for the cordial welcome he gave him in Paris.

Madrid, 2.—The Queen and family returned from La Granja, where they were given an ovation by the populace. The streets from the depot to the palace were thronged with carriages and pedestrians, and an enormous crowd filled the depot, including officers of the garrison. The Queen and Princesses were greatly cheered. Shouts were raised, "Long live the King and Queen." Occasional cries hostile to France were heard. The Queen appeared twice on the balcony of the palace in response to the plaudits of the multitude. A short time afterwards a group of excited youths went in the direction of the French embassy crying, "Long live the Uhlan King; down with the French," but dispersed on seeing the embassy protected by a strong body of police. A number of people made friendly demonstrations in front of the German legation. Placards were posted in various parts of the city, violently attacking France. There was a meeting of the principal French residents of Madrid at which the insults to the King were strongly condemned and cordial sympathy with Spain was expressed.

PARIS, 3.—It is stated that Ferry resigned as Prime minister. Grevy however refused to accept. The greatest confusion exists among ministers and their supporters. The Paris declares that the ministry are alone responsible for the failure of the visit of Alfonso.

It is rumored that the German Government have addressed an energetic note to France concerning the treatment in Paris of Alfonso.

Metz, 3.—Antonio, who was arrested yesterday charged with high treason to Germany, has asked for release on bail.

London, 3.—O'Donnell, slayer of Carey, has directed the disbursement of the \$1,500 received from a committee appointed in New York to raise funds for his defense.

LONDON, 2.—The American ship Checorra is ashore near Marilla, and will be a total loss.

Liverpool, 2.—Corn, new mixed, former 5s. 4d; wheat, new western, winter, steady, 8s. 10d.

Paris, 2.—The order for the assembling of the cabinet to-day, under Pres. Grevy, has been countermanded. It is reported that a ministerial crisis exists.

Rome, 2.—A Papal decree regulating the procedure before civil tribunals of the Vatican has just been published. The decree ignores Italian law, and ordains that contracts between any portion of the Pope's household and parties outside shall be regulated solely by Pontifical law.

London, 22.—The Times' Paris correspondent who was on the train with Alfonso reports an interview with the Spanish Minister of Foreign Affairs. He was authorized to deny the report that a treaty had been entered into by Spain with Germany.

LONDON, 3.—The panorama of Tel el Kebir burned during the fire in Bellevue Gardens, Manchester,

yesterday. The fire was caused by an accidental discharge of rockets. There was considerable alarm among the spectators, especially as the panorama was near the cages of wild beasts. No persons were injured. Damage by fire £3,000.

Advices from Madagascar state that Makobo, commander of the Hovas, offered rewards for the slaughter of the captain of any French man-of-war which shall wreck or burn any vessel. The same advices report the French garrisons at Tamatave and Majunga virtually blockaded.

Times editorial: A government which cannot secure a courteous reception for a national guest in its own capital, can hardly be acquitted of weakness and incapacity, even if it escapes suspicion on the score of sincerity and good will. During the brief tenure of office of Chalmel Lacour, French Minister of Foreign Affairs, he has irritated Germany, ruffled the good will of England, and quarrelled with China. The complete isolation to which he has reduced France, has had its natural result in the outbreak against King Alfonso.

The Secretary of the London & River Plate Bank has absconded. It is estimated that he has defrauded the bank to the extent of £40,000, which sum he lost in speculation on the Stock Exchange.

Stratford-upon-Avon, 3.—In August last Dr. Ingley, one of the life trustees of the birthplace of Shakespeare, proposed that the remains of Shakespeare should be exhumed in order to compare the poet's skull with the monumental bust in the church, as well as to set at rest the question of the correctness of many conflicting portraits of the poet in existence. The propositions received the endorsement of the Rev. G. Arbuthnot, vicar of this place. Upon reference to the terms of sepulchre, however, it was ascertained that the remains could not be exhumed or disturbed without the consent of the mayor and officers of the city corporation. The mayor refused his assent, and the matter has now been finally settled by the city council, which passed a resolution condemning any disturbance of Shakespeare's grave.

Dublin, 3.—At a meeting of the Loughrea, County Galway, yesterday, the Bishop of Clonworth delivered a speech in which he dwelt at great length upon the fact that a million Catholics had been lost to the Catholic faith in America, and denounced in the severest terms the system of State-aided emigration.
