

FRANCO-AMERICAN TARIFF RELATIONS

Thus Far Nothing Has Been Done
To Put Them on a Bet-
ter Basis.

A COMMISSION IS OF NO USE.

Reason is That Negotiations Have Re-
sulted in Drafting of a Treaty and
Congress Must Now Act.

Washington, May 28.—Although it is
stated that nothing has yet been done
toward adjusting the tariff relations
between France and America, and while
it also has been stated that there ap-
peared to be no occasion for the dis-
patch of a tariff commission to Paris,
as was done in the case of Germany,
the satisfactory completion of the ar-
rangements with that country has
been made to be made to consider
the case of France. So far as is
known, the recent decision that a tariff
commission would serve no useful pur-
pose remains unchanged. The reason
assigned for that statement was that
the negotiations with France had long
ago progressed far beyond the commis-
sion stage and had indeed, resulted in
the drafting of a treaty.

But this treaty can come to nothing
without affirmative congressional ac-
tion, and the French government is
believed to be unwilling to await the
uncertain course of legislation. In-
stead they are willing, it is believed, to fol-
low the example set by Germany and en-
deavor to secure whatever advantages
are opened to them under a reciprocity
agreement drawn under section 3 of
Dingley act. Of the few commodities
named in that section upon which the
American government may grant re-
ductions of duty, but one remains avail-
able as a basis for negotiations, name-
ly, sparkling wines and champagnes.
Upon the other articles reduced duties
have already been accorded to France.
It is now for the state department to
determine what shall be demanded as a
quid pro quo for a 25 per cent cut in
the champagne duties. It is true that this
concession was made to Germany in
1890, but the French champagne in-
ports last year aggregated more than
\$5,000,000. Therefore, to secure anything
like an equivalent in the concessions
that might be asked, America, it is held,
should secure a considerable addition to
the present limited list of articles of
American origin upon which the French
government grants the minimum tariff
rates.

MOORE PLEADS NOT GUILTY.

Columbus, O., May 28.—William B.
Moore, agent of the Western Pile &
Lumber company of Denver, was ar-
raigned today in the criminal court on
a charge of fleeing the city out of
\$5,000, in the fictitious purchase of
poles. Moore pleaded not guilty to
seven indictments. William Wilcox,
the city official with whom he is al-
leged to have conspired, also pleaded not
guilty.

DE RAYLAN'S BODY EXHUMED TO DETERMINE SEX.

Phoenix, Ariz., May 28.—The body
of Nicolai de Raylan, whose sex has
been the subject of dispute and litigation
since last December, was exhumed
yesterday afternoon and taken to an
undertaking parlor, where the facts of
the disinterment were made known
upon the arrival late this afternoon of
Baron Schlippenbach, the Russian
consul at Chicago, accompanied by
Samuel J. Schaeffer, attorney for Mrs.
Anna de Raylan. The body was in a
fine state of preservation and the
face was entirely unchanged. When
the white casket was opened the body
was attired in a woman's white robe.
It had been previously announced
that the body would be exhumed on
Thursday, but this date was anticipated
by two days, it is said, to avoid
publicity.

After viewing the body all persons
interested adjourned until tonight,
when a notarial session will be held
in the office of O. E. Schupp for the
taking of depositions.

Michael Feinberg, representing Public
Administrator Reddick of Chicago,
was present throughout the proceed-
ings and expressed satisfaction.

At 4:30 o'clock Baron Schlippenbach
reached the undertaker's, and after

BANKS' MILLINERY STORE

Thursday,
Decoration Day.

116 South Main.

viewing the body a moment, said:

"This is the body of Nicolai de
Raylan, who was for 12 years my secre-
tary."

Atty. Schaeffer, though here, has not
yet visited the body, but probably will
do so in the course of the evening.

The result of the inquest establishes
beyond a doubt the identity of the
corpse as the body of De Raylan, and
that the person in question was a fe-
male.

STABBED BY A NEGRO.

Assailant Was Angered at Comments
On His Race.

Denver, Colo., May 28.—Angered by
comments said to have been made
against his race, an unknown negro
plunged a knife into the breast of
Fred Thompson, an employee of the
Western Packing company, fatally
injuring him, tonight.

Thompson came here recently
from Washington, D. C. The
assault occurred on a crowded Larimer
street car and was the outgrowth
of a fight that Thompson and a friend
named E. R. Combs, also from Wash-
ington, had previously with another
negro. The two whites had been victor-
ious in this fight and were talking
with disparaging remarks con-
cerning negroes. The negro who stab-
bed Thompson was sitting near and
overheard the conversation. Glowering
at the two men, he mumbled
something beneath his breath, and
then suddenly sprang upon Thompson
and stabbed him in the region of the
heart. The negro rushed from the
car and escaped. The two inmates
of the car gave chase with threats of
lynching, but the negro soon disap-
peared and all traces of him were lost.
Thompson is in a precarious condition
in a hospital.

Meet your friends Decoration Day at
Saltair.

VERY UNSEASONABLE WEATHER FOR TIME OF YEAR

Washington, May 28.—Remarkably
unseasonable weather, with a cold
wave extending throughout the country
east of the Rocky mountains, ther-
mometers in some sections registering
the lowest temperatures for the season
in many years, is reported by the
weather bureau. Tonight the bureau
issued the following special forecast:

"Frost warnings have been issued
for the middle Atlantic states and the
eastern lower lake region, western Col-
orado, eastern Wyoming, Utah and
northern Arizona, and warnings of
freezing temperature for western
Wyoming."

Added to this, flood warnings have
been issued for the lower Rio Grande
river valley and supplementary warn-
ings for the Red river valley in south-
west Arkansas.

Weather bureau officials say that
there is no immediate prospect of any
summer weather anywhere. Heavy
frosts are reported to the bureau from
Michigan and other states of the lake
regions. The cold wave is particularly
severe in the southwest, and is due, ac-
cording to the weather experts, to the

heavy rains in that part of the coun-
try.

Forecaster Harry C. Frankfield of
the weather bureau tonight said:
"The reason for the cold weather we
have had during the past two or three
months is that high areas of pressure
have moved eastward from the north-
ern portion of the country almost con-
tinuously, and these have caused cold
north winds. That is the only reason
I can give for the cold weather areas.
What makes these high areas keep up
all this season is more than I can tell."

Not since 1882 has the abnormal
weather been approached in this part
of the country. It is five degrees be-
low the normal temperature for this
month. A temperature of 44 degrees
was recorded at the weather bureau
early today and 39 degrees at 8 o'clock
tonight, and the mercury is expected
to drop considerably tonight.

PRESBYTERIANS TRYING TO GET CLOSER TO TOILERS.

Denver, Colo., May 28.—The following
resolution adopted today by the general
assembly of the United Presbyterian
church indicates the church will make
an effort to get closer to the toiler:
"We desire the confidence of workmen
men everywhere, and deeply deplore any
suspicion of unfriendliness. We invite
frank counsel as to how as a church we
may minister to workmen and their
needs."

"We urge upon all our ministers a
sympathetic study of the problems of
labor, and an earnest effort to estab-
lish cordial relationship between them-
selves and the workmen of their
respective communities."

One of the most important reports
made today was that on the freedom's
missions. This was followed by an ad-
dress by Rev. J. W. Witherspoon on the
colored people of the south and showed
the progress of the church.

The resolution to the office of
general treasurer of all funds instead of
having a treasurer for each fund was
discussed at length but no decision was
reached.

The committee on appropriations for
the coming year made its report which
will be discussed tomorrow. It ap-
propriates \$250,000 for foreign missions.

THOUSANDS PASS BEFORE MRS. MCKINLEY'S BIER.

Canton, O., May 28.—Eight thousand
people passed through the McKinley
home this afternoon and viewed the
body of Mrs. William McKinley. Can-
tonians paid their tribute in the best
way they could, and the city was filled
with funeral decorations in the city or
any general municipal participation in
the ceremonies had been denied them.
It has been stated that the time un-
der the body of the president was
at 1:30, however, women and children
lined up in front of the house waiting
to pass by the casket. The doors were
opened at 2:30 and from that time until
5:30 the people paid silent but sorrow-
ful tribute to the woman they loved.
The casket rested in the room and in
the evening when the body of Presi-
dent McKinley was placed while in the
family home.

The funeral services tomorrow after-
noon, beginning at 2 o'clock, will be
simple and brief. Dr. Buxton, present
pastor of the First Methodist Episco-
pal church, and Dr. Holmes, former
pastor, will have charge. Four mus-
ical selections will be sung at the
service. The same music as was used
at the funeral of the late President
McKinley, "Beautiful Isle of Somer-
where," "Lead Me On, Kindly Light," and
"Nearer, My God, to Thee," will be
rendered by a quartet.

Mrs. Clark and Mrs. Green will sing
a duet, "My Angel," by Rubenstein.
The president and party are to arrive
here at 12:45, and will proceed to the
residence of Justice William R. Day,
then to the McKinley residence.

In the funeral cortege to the cen-
tery the president's carriage will fol-
low the family carriage, next in order
will be officials representing the state
and city. The funeral service will be
brief. President Roosevelt will im-
mediately thereafter go to his train and
leave for Indianapolis.

Vice President Fairbanks arrived this
morning. Governor Harris and other
state officers will come on a special
train tomorrow.

S. F. POLICE BEING USED TO AID MAYOR SCHMITZ' CASE.

San Francisco, May 28.—Sixteen
taxismen were examined today in the
trial of Mayor Eugene E. Schmitz on
the charge of extortion. All but one were
excused for cause, and George D. Cum-
mings, the sixteenth one, was peremptorily
challenged by the defense. Judge Duane
ordered a venire of 25 to be returned into
the court tomorrow. Eight jurors have
thus far been secured. An insinuation
was made by the prosecution that Sher-
iff O'Neill was not summoning trial
jurors in a proper and impartial man-
ner.

Asst. Prosecuting Atty. Henry said:
"The prosecution has discovered that
the police force is being used in an at-
tempt to reach prospective jurors and
witnesses in the bribery-graft prosecu-
tion. Two plain clothes patrolmen,

BE WARNED IN TIME

NERVE FAG MEANS THAT VITAL
FORCES ARE EXHAUSTED.

Dr. Williams' Pink Pills Meets This
Condition by Building up the Blood
and Strengthening the Nerves.

Nervous debility is the forerunner of
a nervous breakdown, perhaps the
first warning sign of paralysis.
"The first thing to do in nervous deb-
ility is to stop the cause of the
trouble, if possible, whether it is ir-
regular living, worry or whatever it
may be. Then the nerves must be
given special nourishment and the
blood enriched. This is the mission
of Dr. Williams' Pink Pills and this is
why the pills have been used with such
great success in nervous troubles that
did not yield to ordinary methods of
treatment."

Mr. Charles W. Lowell, of Shelburne
Falls, Mass., says: "I was run-down in
health for ten years and for much of
that time was unable to do any phys-
ical work on account of nervous ex-
haustion. I kept at my work in the
office, although I was not in condition
to do so, and several physicians had
been unable to give me any relief."

"I couldn't do a good day's work
without being all used up. I suffered
from a general fatigue all the time
and had frequent headaches and
headache at least once a week. My
sleep was broken. My eyes were af-
fected by my nervous condition and I
had dizzy spells for half an hour at a
time, especially after eating a hearty
meal. My appetite was poor and I was
troubled with gas on my stomach and
constipation."

"Dr. Williams' Pink Pills were recom-
mended to me by a friend and finally
I made up my mind to try them. My
appetite improved, my sleep became
sound and restful and I gained in
weight and strength. My nervousness
entirely left me. I am glad to
recommend Dr. Williams' Pink Pills."

Dr. Williams' Pink Pills contain the
elements necessary to make new blood
and as the nerves get their nourish-
ment from the blood, they have been
found invaluable in a wide range of dis-
eases of the blood and nerves, such
as rheumatism, after-effects of the grip
and fevers, nervous debility, neuritis,
St. Vitus' dance and even partial
paralysis and locomotor ataxia.

Dr. Williams' Pink Pills are sold by
all druggists, or sent, postpaid, on re-
ceipt of price, 50 cents per box, six
boxes for \$2.50, by the Dr. Williams
Medicine Company, Schenectady, N. Y.

Bob Graham and Archie Hammill, who
have been for some time working in
the electric department, today were
out securing the addresses of the 50
ventrismen summoned yesterday and
returned into court today for the com-
pletion of the Schmitz jury.

Chief of Police Dinan approached persons who
he called as witnesses in some of
the various trials. He questioned them
as to what testimony they intended to
give."

Mr. Henry refused to say what, if
any, action he proposed taking.
"I shall not talk about it," he said.

Mr. Henry's statement was supple-
mented by Special Agent Burns, who
claimed that Mayor Schmitz "is using
the police department to gather evi-
dence in his behalf and for other like
improper purposes."

The defense denied the imputation
that improper means were being em-
ployed.

M'CLELLAN-HEARST CASE.

Albany, N. Y., May 28.—The senate
today by a vote of 28 to 8, passed the
assembly bill providing for a recount
of the ballots cast in the McClellan-
Hearst majority election of 1906 in
New York City. One Republican voted
with seven Democrats against the bill,
which is one of the measures urged
for passage by Gov. Hughes.

The bill provides that upon petition
of either of the mayoralty candidates
the supreme court of the district af-
fected must proceed to a summary
canvass of the vote.

The recount of the ballots must be
made in the presence of the court and
the candidates or their counsel. Pro-
vision is made for appeal from the final
decision to the appellate court.

FATHER JAMES HAYES DEAD.

Rome, May 28.—Father James
Hayes of Liverpool died here today
after a long illness. He was 78 years
old and the administration of the
last sacraments.

Father Hayes was appointed last
September as assistant general of the
congregation of the Society of Jesus
for the Anglo-Saxons.

ALEX. AGASSIZ HONORED.

Vienna, May 28.—Alexander Agas-
siz, director of the museum of com-
parative zoology, Cambridge, Mass.,
and president of the national academy
of science, was today elected an hon-
orary member of the Imperial Apos-
tolic academy of science.

SALT PALACE READY FOR OPENING.

Many New Features at the "Coney
Island of the West."

Salt Lakeers who visit the Salt Palace
tomorrow will find that many improve-
ments have been made and new re-
sources installed. The management has
spared no labor nor expense in prepar-
ing the new resort to meet the
amusement needs of a rapidly growing
city. The Salt Palace building has
been converted into a palm garden,
and will contain refreshment tables,
and will be equipped with all modern
improvements. A ladies' orchestra will
furnish music each evening. Manager
Halverson states that perfect order
will be maintained, and that conduct
offensive to ladies and gentlemen will
not be tolerated. Another innovation
is Hale's "Tours of the World." This
feature is sure to become popular, com-
bining as it does entertainment and
education. The "tourist" enters an or-
dinary observation car, the bell rings,
the whistle blows and, by a very clever
mechanical device, the car appears to
move along the railroad track. With
the aid of a moving picture machine
the effect of "traveling" is made very
realistic. Mr. A. D. Jensen, an experi-
enced operator, has been engaged to
handle the machine and arrange for a
change of route each week, thus giv-
ing the public an opportunity of seeing
the scenery along many different lines.
Among the "routes" are Pike's Peak,
Yellowstone Park, Columbia river and
Swiss and German scenes. Local people
will have taken the "trip" and the
sensation is decidedly real. A cap-
tive passenger balloon will be operated,
which will carry passengers 1,000 feet
into the air. It will be controlled from
the ground by means of a cable. All
the popular features of last year will
be maintained, including "Ye Olde
Mill," Scenic Railway, Miniature Rail-
way, Circle Swing, Dance hall and the
saucer track. With the best riders in
the world competing for prizes, the
races this year will doubtless eclipse
anything in the history of the famous
track. Arrangements have been made
to handle the large crowds, and the
management feels confident that this
will be the banner year for the Salt
Palace. Choice sports and attractions
for family parties are expected to en-
liven the throngs to this pleasant resort
for rest and recreation.

MRS. GOULD'S MAIL.

Searching Examination to Be Made to
See if It Has Been Tampered With.

New York, May 28.—Howard Gould,
through his counsel, Delaney Nield,
has joined his wife in the request to
United States Dist. Atty. Stimson that
a searching investigation be made of
the charges that Mrs. Gould's mail
was tampered with.

While Howard Gould's answer to
his wife's suit for separation has not
yet been filed, it is stated that it will
contain a general denial of all her
allegations. An intimate friend of
Mr. Gould said there will be no men-
tion in it of a \$4,000,000 proposition
for a settlement.

This friend is also quoted as au-
thorizing the statement that while
Mr. Gould is heartily sick and tired
of the whole business he has no in-
tention of agreeing to a settlement
and purposes to fight the matter to
the end.

LOST IN THE WOODS.

Parties Hunting for School Teacher
And His Boy.

Fairfax, Wash., May 29.—Lost in
the woods since Saturday night, Bert
M. Lindsey, a school teacher, 27 years
old, and his little 10-year-old com-
panion Lawrence Mack, are being
sought by Deputy Earl Robt. in
Black Diamond and his two blood-
hounds together with four searching
parties of 25 each in an effort to save
them from starvation.

After a heavy meal, take a couple
of Doan's Regulators, and give your
stomach, liver and bowels the help they
will need. Regulators bring easy, regular
passages of the bowels.

RED CROSS MEETING.

Admiral Chadwick's Wife Will Exhibit
Carrier She Invented.

London, May 29.—Admiral French
E. Chadwick of the United States navy
and Mrs. Chadwick have just come
here to attend the eighth interna-
tional conference of the Red Cross
which will open in Earl's Court in
June. Mrs. Chadwick will exhibit at
the conference the carrier she recently
invented for the removal of disabled
soldiers from the battlefield. Her
friends hope that the invention will
take one of the prizes offered by the
empire of Russia for the advance-
ment of the science of the treatment
of the wounded. Field Marshal Rob-
erts has highly commended the in-
vention and it will be tested soon by
the American war department.

Admiral Chadwick says that one of
the greatest advantages possessed by
the invention is that the wounded sol-
dier could be carried in an upright
position so that loss of blood would
be diminished in many cases. Another
point in its favor, he says, is its ex-
treme lightness, for the whole device
weighs only six pounds.
