DESERET EVENING NEWS FRIDAY DECEMBER 14 1906

President Will Withdraw His Order to the Public Printer.

HOUSE OPPOSED TO REFORM.

Not Believed Attitude of General Pab-He Would Eave Been Affected By Government's Action.

Washington, Dec. 13 .- President Roosevelt will withdraw his simplified spelling order to the public printer and hereafter all documents from the executive departments will again be printed in the old fashioned style.

Representative Landis of the joint committee on spelling had a conference today with the president when the president said that he did not wish to have spelling overshadow matters of great importance and expressed a will-ingness to revoke his order for the new spelling in case the house of repre sentatives should go on refcord as opposed to the system. Accordingly his this afternoon Mr. Landis introduced the following resolution in the house: "Resolved. That it is the sense of the house of representatives that hereafter

in presenting reports, documents or other publications authorized by law, ordered by Congress or either branch thereof or eminating from the executive departments, their bureaus or branches and independent officers o file govern-ment, the government printing office should observe and adhere to the standard of orthography prescribed in gen-erally accepted dictionaries of the English langungt."

The measure was passed without a dissenting vote, although Mr. Giffett of Massachusetts, who made a fight for simplified spelling before the house committee on appropriations and has been regarded as the champion of the president's attitude explained that he did not wish to give the impression that he had changed his mind. Mr. Glleft said he saw that the house was overwhelmingly against the innovation, and consequently he bowed to its will.

Reform spelling was put into effect y the president during the recess of congress, and all public documents sup plied to the executive departments have been pouring in on Congress ever since the opening day, much to the dissatis-faction of members of the house. As a result the government printing office was using two forms of spelling, the pld, method for Congress and the reformed method in executive documents. The committee on printing in its fa-vorable report on the Landis resolution stated that the committee had been governed by the following considera-

"The executive order, under which many public documents have already been printed, has been in force more than three months. Without taking form of spelling, it is evident that pub-le sentiment has not been favorable to the innovation.

"It is not believed that the attitude of the general public would be materi-ally changed if the government in all Its branches were to adopt the spelling prescribed in the executive order referred to, and only confusion and ex-pense would result, without any commensurate advantage, even if the new form of spelling were deemed prefer-able. Moreover, Congress has no aswould not revoke the present order. Much of the matter embraced in the publications of the government is pre-

government in the saving of labor and

government in the saving of labor and other expense. All of these plates would be rendered worthless in a mo-ment by an order in a succeeding ad-ministration revoking the executive or-der of Aug. 27 last. "If the government is to have two forms of spelling, this will necessari-ly double composition, double stereo-typing and electrotyping, double proof reading and other incidental expense. It will mean a double force of proof readers, for it is inconceivable that a proof reader could be required to adapt himself to more than one system of spelling with the expectation of render-ing efficient service.

specific with the expectation of render-ing efficient service. "In justice to government officials, it may be said, an order which dic-tates a particular form of orthography involving a departure from the recog-nized standard in popular use imposes upon the head of an executive depart-ment as well as upon all of his subment as well as upon all of his sub-ordinates a policy that may well be considered in many instances offensive. "In the opinion of the committee any departure from the recognized standards of orthography cannot with safe-ty, satisfaction or economy be taken until Congress and the executive shall agree upon the adoption of orthographic

HOUSE IS INCLINED TO RAISE SALARIES.

Washington, Dec. 13 .- The house is scemingly inclined to raise the salaries of the members as well as those of the vice president, speaker, senators and cabinet officers. Before resuming consideration of the legislative, judicial and executive appropriation bill today Mr. Littauer of New York endeavored to nave a resolution adopted providing for taking up the question in commit-tee of the whole, but Mr. Underwood of Alabama objected to its considera-tion in committee. He said, however he would make no objection to its dis-cussion in the house after the bill was reported by the committee of the whole. He added that he was opposed to the increase, but said he would not block the way of serious consideration. His suggestion formed the basis of an agreement that when the bill shall be reported the question of a general ad-vance in scharies will be taken up and voted upon as an amendment before the legislative bill is finally acted upon. There is, however, a possibility of a failure of this agreement due to a re

port that Democratic members will generally refuse to participate in the proposed action. The Republican leaders intimate that if anything is to be done general co-operation will be necessary. Mr. Littauer said his provision would raise the salaries of the vice president and the speaker to \$15,000, of cabinet officers to \$12,000, and of senators and representatives to \$7,500.

should the minority avoid a direct vote on the question it is the intention of Mr. Littauer to withdraw the amend-ment rather than have the increase accomplished by Republican votes. The agreement to debate the question in the house and not in committee of the whole blocks a point of order which ordinarily would lie against the amend-ment. The amendment will be offered as a last paragraph of the legislative appropriation bill.

BODY CUT IN TWO.

El Paso, Tex., Dec. 13 .- One man was nstantiy killed and his body cut in two and horribly mangled, another seriously hurt and several others painfully bruised, near Grayton, 100 miles east of this city, today, by the breaking of a knuckle on one of the tourist cars of the Southern Pacific Sunset Limited train.

The dead man is William H. Fairclaugh of Ridgeway, N. J., a retired capitalist, who, with his wife and four children, was on his way to California, When the train parted Fairclaugh, who was pasisng from one car to an-other, was thrown between the cars and was ground to pieces. Another passen-ger, a Mexican, was brought to a hos-pital here. The other injured were able to continue their journey.

SPANIARDS FOR HAWAII.

GOVERNMENT IS DETERMINED.

Will Submit to Parliament Plan to Settle Church Question Once and For All.

Paris, Dec. 13 .- Today has been marked by the total absence of any of the sensational or dramatic incidents anticipated in alarmist quarters in connection with the execution of the law of separation. The parish priests everywhere celebrated mass in the presence of unusually large congregations, but the actions of the authorities were confined to noting infractions of the law and citing the priests and vicars to ap-

pear before justices of the peace. Everywhere legal notices have been served for the evacuation of the ecclesi-astic residences, the seminaries, etc. Several of these buildings were abandoned without further ado, but a ma-jority of the prelates announced that they would depart only under duress. In many parishes, both in Paris and

the interior, laymen today filed declara-tions for the holding of services in the designated churches during the com-ing year. If this practise is generally followed it will be a distinct victory for the government, relieving it of the possible necessity of closing the for the government, releving it of the possible necessity of closing the churches and throwing on the clergy the responsibility for the discontinu-ance of public worship.

In the meantime the cabinet is pre-paring measures to be introduced be-

fore parliament tomorrow. The net result of the uncompromising attitude assumed by the vatican seems to be that the clergy will lose its pen-sions, 38,300 of which have been granted and gazetted since the beginning of this year; that all aspirants to the priesthood will be compelled to perform military service, and that the taking over of the episcopal mansions, rec-tories, seminaries ,etc., by the state de-partment and the communes will occur immediately instead of December, 1907. According to well informed reasons According to well informed persons, the government intends to respond to the attitude taken by the vatican by submitting to parliament a proposition to settle definitely the situation of the to settle definitely the situation of the church in France. Under this roposal, the church will forfeit all be efficient der the law of 1905, but it is to be pro-vided with an opportunity to carry on public worship in conformity to the common law. Church property is to be handed over immediately to the civil authorities on condition that it be re-served for worship, and the positions of cardinals and bishops, as foreign offi-cials, will be dealt with later if the government finds it necessary to do so. During the day summonses were is-

During the day summonses were is-sued charging filegal assemblies in the case of 69 churches in Paris. The Official Journal announced that

only 80 of the Catholic cultural or dio-cesan associations formed were legal, while 902 Protestant and 78 Jewish as-sociations conform with the law.

sociations conform with the law. Many suits have been begun in con-nection with endowments for masses to be celebrated for the repose of the souls of the departed. About 50 seminaries which refused to comply with the terms of the law are being closed. During the day a number of applica-tions for permission to hold relietous

During the day a number of applica-tions for permission to hold religious meetings under the law of 1851 were made at the prefecture of police by parishioners from all parts of Paris. Ten such applications were filed before 2 o'clock. Reports from other cities say that similar applications were made

It was rumored during the afternoon

CAUSE OF DEADLOCK.

Hurry, like a cyclone, whirls you along at a rate that quickly exhausts your energy, and leaves you a nerveless, wretched, broken-down physical wreck.

Worry accomplishes the same results in another way. It drags you through the dark, gloomy tunnel of forbodings, wrecks your nerves and breaks down the constitution.

Then don't hurry; don't worry. But you will; and your nerveless, exhausted condition brings headaches, neuralgia, heart, stomach, liver and kidney troubles. The thing to do is: Strengthen the nerves with Dr. Miles' Nervine.

"Bix months I was bedfast with nervous prestration. I had sinking spells, a cold clamy feeling, couldn't stand the slightest noise. At times I would almost fly to pieces; stomach very week. My husband insisted on my taking Dr. Miles' Nervine, and I began to improve before I had finished the first hottle, and to-day I am en-tirely cured." tirely

guilty," there was an enthusiastic hand-ciapping. Following this Murray was surrounded by personal friends and oth-ers, who warmly congratulated him.

SWIFTWATER BILL.

His Latest Acquisition, Kittie C. Gates, Secures a Divorce.

Secures a Divorce. Seattle, Dec. 13.-Kittle C. Gates, the latest acquisition of "Swiftwater Bill" Gates, the ecentric Alaskan miner, se-cured a decree of divorce in Superior Judge Frater's court this morning. Suit was begun by Gates and his wife filed a cross-complaint. Eankruptcy proceed-ings were then brought in Gates' name and if was when the court got too in-quisitive about what Gates had done with a fortune he brought from the north that the miner fied from Seattle. In Gates' absence the court granted Mrs. Gates' cross-complaint asking for a di-vorce. Both the complaints alleged statu-tory grounds. tory ground

CONGO ATROCITIES.

Root Concerning Them, Washington, Dec. 12.—Sir Henry Morti-mer Durand, the British ambassador, to-day called at the state department and discussed with Secy. Root reported atrocities in the Congo country and par-ticularly the Lodge resolution riedging the support of the senate in any steps the president may take toward ameliorat-ing conditions in the Free State. Ambas-sador Durand said that the agitation in England was similar to that in this coun-try and it was not improbable that Eng-land had about reached the point where some action would be taken. While no official would admit that the visit re-sulted in any atrangement for concerted action, it was stated that the Lodge reso-hution paved the way for steps to that ution paved the way for steps to that

FAIR PLAY.

The American People are Noted for Their Love of Fair Play. So True is This, That It May Be Said To Be a National Trait of Character.

The man who strikes another a foul blow, or maliciously tries to injure him In his misiness, or in his social standing is detested and abhorred. The Ameri-can people are not generally slow to manifest their disapproval of such unfait treatment when an opportunity is alforded. Illustrative of this disposition is the fact that although base, false and ma-licious attacks upon Dr. Pierce, of Buffalo, and his widely celebrated Family Medicines have sometimes injured the sale of these meritorious remedies for a time, yet when such unjust assaults have been met and their falsehoods com-pletely effuted, a natural reaction has followed and their sale has been fully restored again. again.

Pletely pluted, a natural reaction has followed and their sale has been fully restored again.
Au the case of the Ladies' Home Journal, of Philadelphia, which, in 1904, outliked a most multiclusty latter, standerous and thelows article, attacking provide the second distressing alments—Dr. Pierce brought suit in the upreme count of the state of New York against the publishers of that paper and a weaking size for New York against the publishers of that paper and a weaking size for the upremet being for a substantial mount (Ste 00000) yet not for enough to properly recompense Dr. Pierce for the second him. While he and his "Favorite Preserve for the second the state remedy was proven, in open for the state contained, yet Dr. Pierce for the second and how alleged it contained, yet Dr. Pierce has, which he was made to suffer by reason of the base falsehoods published to suffer by reason of the base falsehoods published that such people should rise up and speak to suffer by reason of the base falsehoods published that such people should rise up and speak that such people should rise up and speak tracked.

These grateful patients of Dr. Pierce are to be found in almost every hamlet and country village, and in the farm-houses and mechanics' cottages in every nook and corner of this great country. Common gratitude prompts such people to stand up and defend Dr. Pierce and his medicines against unjust and malicious attacks,

Dr. Pierce's Medicines have been on sale in drug stores all over this country and in many foreign lands for more than forty years and yet their sale continues to grow in a substantial and most grati-fying way. This could not be the case if they were not remedies of more than ordinary merit.

WHAT DO THEY CURE?

WHAT DO THEY CURE?
Dr. Pierce's Favorite Prescription is not divertised as a "Cure Ail" but admirably fulfills a singleness of purpose, being a superior and most positive remedy for one class of diseases only—those easily recorpliced weaknesses, derangements, irregriarities and painful disorders peculiar to women. It is a powerful, yet gently actions for women, the is a powerful, yet gently actions for women, more and there is be from too frequent bearing of children or from much worry, care, or over exertion of any kind. "Eworite Prescription" will be form too frequent bearing of children or from much worry, care, or over exertion of any kind. "Eworite Prescription" will be form too the whole female system. Thus is converted by it to wer the wonter female system. Thus is converted by a statements of the female system. Thus is converted by a statements of the female system. Thus is converted by a statement work, the short, it makes weak women strong and sick women well.
As to Dr. Pierce's Golden Medical Discovery " and be a strong and sick women means recommended by the big possessed by the "Discovery" cures so wide a range of diseases is made plain in a booklet sent free on provide a strong of the strong the present bearting of the filting of the filting of the strong the woole female system. Thus is converted by a strong the strong the strong the woole female system. Thus is converted by a strong the strong the strong the woole female system. Thus is converted to be female system. Thus

As to Dr. Pierce's Golden Medical Dis-covery it has a very large range of appli-ration, yot it is by no means recommended as a "Cure-All." It possesses marvelous alterative, or blood cleansing, properties and is at the same time a most invigoration ing tonic, or strength giver. It exerts a specific cleansing, soothing and healing effect upon all the lining muccus mem-branes of the system: hence, its great curative value in all entarrhal affections, no matter where located.

In Chronic Nasal Catarrh, it is well to cleanse the passages two or three times a day with Dr. Sage's Catarrh Remedy fluid, while persisting in 'he use of the "Golden Medical Discovery 'for its blood cleansing and specific curative effects upon the diseased nuccus membranes. It will cure a very large per cent. of all cases, even after they have reached the ulcera-tive, or chronic stage, and no matter of how many years' standing they may be. It is equally efficacious in affections of the mucous lining of the larynx, bronchia and respiratory organs in general, thus curing promchitis, laryngitis and other affections glving rise to obstinate, hang-on-coughs. It is not so good in acute coughs following sudden colds, as in the lingering, chronic coughs. Nor must the "Golden Medical Discovery" be expected to work miracles. It will not cure consumption in ite

Discovery " be expected to work miracles. It will not cure consumption in its advanced stages—no medicine will do that, but for all obstinate hang-on-coughs due to laryngial or bronchial irritation and kindred affections, of the throat which, if neglected or badly treated, are likely to lead up to consumption, the "Discovery" can be relied upon to produce the best curative results.
