

## RUSSO-JAPANESE TROUBLE NOT FIXED

Rumor That Negotiations Were  
Nearly Closed and Differences  
About Settled, Misleading

TOKIO IS AWAITING A REPLY.

Re-occupation of Mukden Due to Chi-  
na's Refusal to Comply With  
Russia's Demands.

London, Nov. 8.—It is said in official circles at Tokio that the rumor that negotiations between the Russian and Japanese governments had come to the verge of a final settlement is misleading, but that the Tokio government is now awaiting Russia's reply, which is due at any moment, but which will only advance the question of the far eastern difficulty to another stage.

The reports of the resignation of Viceroy Alexieff, his change of headquarters from Port Arthur to Vladivostok and the dismantling of the fort at Yonagapah are all believed to indicate a temporary weakness of the Russian war party, but those incidents will also further delay a final settlement.

The new tonnage dues promulgated by Viceroy Alexieff provide that non-Russians must pay 12 times the dues charged to Russian vessels.

The Pekin correspondent of the Times says that Russia now demands the appointment of a Russian resident at Mukden, as adviser to the Tartar general, M. Lessor, Russian minister to China, in response to China's remonstrance against the re-occupation of Mukden, said the re-occupation was due to China's persistent refusal to accede to the Russian demands.

China now shows a greater inclination to favor the demands of Russia, and appears disposed to pay a large price to "save her face." It is said that the important Russian sovereignty in Manchuria, but at the same time she has warned China that if the Russian demands are accepted Japan will be compelled to reconsider her friendly attitude to China.

## STUDENTS' STRANGE DEATH. Police of Baltimore Are Investi- gating that of Martin Loew.

Baltimore, Nov. 8.—The police are investigating the death of Martin Loew, 27 years old, a student in the dental department of the University of Maryland, whose lifeless body was found today in his room at his boarding house. His room mate, Ephraim Stone, 23 years of age, was lying unconscious beside the bed. Loew is from Silesia, Germany, and Stone hails from Cape Town, South Africa. Loew, it is said, has relatives in New York City. His body is at the morgue. It is said that the men were initiated last week into the Phi Psi Chi, a college fraternity. From bruises on the bodies of the two men it would seem that they had been roughly handled, whether from the initiation or otherwise is not known. An inquest and post-mortem examination will be held tomorrow. Stone has been removed to the Maryland university hospital. He has regained consciousness, but they will permit no one to see him. He is said to be in an improved condition tonight.

Stanley B. Smith of St. John, N. B., president of the fraternity, was arrested tonight on the technical charge of assault. Twenty-eight members of the society have been cited to appear before the coroner's jury to testify. Late tonight Stone made a rambling statement as to the experience of himself and Loew during last night. Neither was physically able to assist the other, he said, although each thought the other was dying in great agony. He claims that the bruises on the bodies of himself and Loew are due to "hazing" by their classmates, but admits that he and Loew had been recently initiated into the Phi Psi Chi fraternity.

## Bank Officials Out on Bonds.

Cripple Creek, Colo., Nov. 8.—James F. Hadley president, Bruno H. Hobbes, vice president, and A. G. Jones, assistant cashier of the Bimetallic bank, which was closed last Thursday, were arrested late last night on a complaint sworn to by James L. Mosier of the Harder-Mosier Mercantile company of Cripple Creek. The information filed with Asst. Atty. Gen. alleges that the above named defendants accepted \$400 from the Harder-Mosier Mercantile company for deposit in the Bimetallic bank when they knew the institution to be in an insolvent condition. The prisoners were released on bonds of \$5,000 each.

## FEARS FOR HIS LIFE.

Atty. Byrd Will Remain Away  
From Breathitt County.

Lexington, Ky., Nov. 8.—A. Floyd Byrd, commonwealth attorney of Breathitt county, who gained a reputation in the prosecution of Curtis Jett and Thomas White for the Marcellus murder, confirmed by long distance telephone tonight the rumor that he has decided to remain away from Breathitt

Be thankful! For  
life, and money  
enough to buy

Ayer's Pills.

county during the term of court that begins at Jackson tomorrow. His action is taken upon the solicitation of friends and relatives, who declare that, judging from the past history of the county, his life would be in constant peril there. He has not, however, received warning of a definite plot to take his life. There will be no indictments at the coming term of court, Mr. Byrd says, in connection with the numerous assassination cases and further investigation will be postponed for the present.

## No Russo-German Compact.

Berlin, Nov. 8.—The rumor circulated in Vienna, as announced in Associated Press dispatches Nov. 6, that the czar of Russia and the emperor of Germany

had signed a compact, was today declared to be unfounded. The Russian government, it is said, has no intention of making such a compact.

The Russian government, it is said, has no intention of making such a compact.

The Russian government, it is said, has no intention of making such a compact.

## THOMAS W. LAWSON AND THE COPPER MINING MUDDLE.

Thomas W. Lawson, the Boston banker who once paid over so many thousands of dollars for a pink and later won notoriety by his quarrel with the New York Yacht club over his boat, the Independence, built to defend the America's cup and which he afterward caused to be broken up, is again to the fore with an offer to pay \$5,000,000 for the latter's copper holdings near Butte. Heinze ridicules Lawson and declares that he has repeatedly refused \$14,000,000 for his mining interests. Heinze offers to arbitrate so that the miners may be put to work promptly. Lawson is one of the large stockholders of the Anaconda Copper company, whose working plants have been closed as the result of an injunction obtained by Heinze restraining the subsidiary companies from paying dividends to the holding corporation, the Anaconda.

had signed a convention for a defensive alliance in the far east should Great Britain support Japan, is declared in official circles here to be without foundation.

## "THE HORSE TAMERS."

Great Outing Made About Clean-  
ing Celebrated Statues.

Rome, Nov. 8.—A great outing has been raised over the cleaning of the famous statues of "The Horse Tamers," attributed to Phidias, and now standing in front of the Quirinal palace. It is maintained that not only should the statues not be touched, but that they should be housed in a museum and reproductions raised in their places.

## Czech Party Program.

Vienna, Nov. 8.—Encouraged by the concessions granted to Hungary by the government, the three principal Czech parties have drawn up a program of obstructionist tactics in the Reichsrath with the object of securing similar concessions for the Czech nationality.

## Jap Kills a Jap Woman.

Aberdeen, Wash., Nov. 8.—Prompted by jealousy, a Japanese cook named Ogawa shot and killed a Japanese woman named Emma Sorama at midnight last night, and then attempted to commit suicide, but inflicted no more serious injury than sending a bullet through his arm. After being treated for his injury Ogawa was placed in the city prison.

## Guilt of Murder.

Winnemucca, Nev., Nov. 8.—The jury has returned a verdict of guilty of murder in the first degree against Fred Reid, alias Roberts, Al Linderman, alias Williams, John P. Lerner and T. J. Gorman, on trial for the killing of Jack Welch last August, after robbing him.

## ARMENIAN PLOTS.

Secret Service Agents Are Now  
At Work Upon Them.

New York, Nov. 8.—Through letters which have reached this country, further details have come to light of the Armenian plots which resulted recently in three murders and one suicide in London. The plots were in the hands of the Armenian society. It is said secret service agents and the police of several large cities in this country are now at work and that evidence in their hands involves a prominent New England merchant, and also a resident of this city, said to be widely known in Armenian circles. Letters bearing on the plots have just been received in this country from Sagat Sagouni. They had been intercepted and mailed to agents on this side of the Atlantic before he fled. They showed in detail the plans for dispatching of the leaders in his faction of the Armenian society. They were addressed to the "Armenian Central Committee in London," but were intended for the eyes of the only one man, a trusted

agent. How they fell into Sagouni's hands is not known. The evidence they contain is supplemented by a circular bearing the official seal of a secret society in Chicago and signed by its officers, which has been secured in Salem, Mass. Several calls for volunteers to take up the work of killing those opposed to the society, who are denounced as cowards. It is said the distribution of similar circulars in Boston, Providence and New York resulted in the volunteering of 50 men who were sent at once to Europe on their deadly mission. They were given orders, it is said, to act under the instructions of a central committee in London.

## Gales on California Coast.

San Francisco, Nov. 8.—The north west gales that have been blowing along the northern California coast have made things exceedingly uncomfortable for many of the coasting vessels, some of the steamers faring no better than the schooners. The steamer Aberdeen, arriving today from Portland, reported that on Nov. 5, during a severe gale, she passed through a large quantity of railroad ties and lumber at a point off Umqua. The schooner Mary Dodge, sailing from here on the 5th for Eureka, put back to port on account of carrying away her jib-boom on the 7th, early in the morning, five miles northwest of Point Reyes, in the heavy northwest squall. Other small coasters that were in the big blow are still to be heard from, but it is not believed that any of them suffered serious mishap.

## Probably a Murder.

Chicago, Nov. 9.—With a bullet hole in his forehead and a shattered glass on the floor beside him, Theodore A. Hurmeier has been found dead in his saloon. The police believe he thought killed by some person who he thought was a friendly customer. William Becker, the bartender, was

the report of Maj. John Pitcher, acting superintendent of Yellowstone Park, to the secretary of the interior was today made public. The report, which consists of 17 printed pages, makes very interesting reading. Aside from the meteorological and improvements statistics, the work of the boundary surveyors and the fish hatchery, Maj. Pitcher sets forth the game conditions existing. In this connection he says: "In spite of the predictions of many of the old settlers in this section of the country to the contrary, the past winter was an exceedingly favorable one for all of the various kinds of game that live entirely within the limits of the park, and the percentage of loss through starvation or the effect of the weather was very small."

## GRAZING OF SHEEP.

"The danger of heavy loss by starvation during the winter of the large game that spends the summer in the park is increasing each year, due to growing settlements on the winter ranges of the game and destructive effect of the large bands of sheep on the ranges. It is to be hoped that every possible support will be given to Supt. A. A. Anderson in his effort to regulate in a reasonable way the number of sheep that will be permitted to graze on the timber reserve, and that a soon as practicable the grazing of sheep on the reserves may be absolutely prohibited."

"It is of course impracticable to feed all of the large game of the park at any time, but there are certain portions of it that should be preserved to feed when on account of deep snows it becomes necessary to do so. The animals that should be thus cared for are the antelope and the mountain sheep, and as their winter range is close to Fort Yellowstone, they can be easily cared for."

"About 900 antelope have already been seen this fall on the northern slope of Mount Everts and near the town of Gardiner, and I believe the number in the park to be about 1,000. The mountain sheep have begun to come back to their winter range on Mount Everts, and a number have already been seen. I believe that they have increased considerably in numbers during the past year and that there are now over 100 in the park."

## DEER INCREASING.

"The deer seem to be increasing more rapidly than any other game in the park, at least they are becoming tamer and more fearless than any other species, and during the past winter from 50 to 75 could be seen any day grazing on the parade ground of Fort Yellowstone."

"The new buffalo herd, which is under the immediate charge of Mr. C. J. Jones, is doing exceedingly well. This herd now consists of 27 buffaloes—20 old ones and 7 calves. Five of the calves are from the cows of the Allard herd purchased last fall, and two of them were captured last spring on the Goodnight herd in Texas and the cows were from the Allard herd of Montana. The increase in the herd this year was not as great as was hoped for, but was due to the fact that many of the cows purchased were quite young and all were badly shaken up in transporting them from their range to the park."

## A DUEL IN A DINING ROOM.

Two Men Fight One to the Death  
In Perth Amboy.

New York, Nov. 9.—Locked in the dining room of their boarding house in Perth Amboy, Stephen Gondek and Peter Shylak have fought a duel that ended only when Gondek fell to the floor dying.

The men had been on friendly terms. The men had been on unfriendly terms for some time. It is said by friends that they were in love with the same woman.

Shylak entered the dining room at meal time and met his rival. Locking the door he yelled to Gondek, "I'm going to kill you or you must kill me." Then seizing a carving knife he rushed at Gondek.

Gondek was unarmed, and before he could defend himself, Shylak had cut him twice. Then he seized a fork and the men fought until Gondek sank to the floor stabbed in the stomach and chest. Stepping over him Shylak opened the door and sought to escape. On the stairway he was confronted by a policeman who made him a prisoner after another desperate struggle.

## Cherokee Allotable Land.

Tahlequah, Ind. Ter., Nov. 9.—The report of the Dawes commission and the attorneys of the Cherokee Nation show that there are about 4,420,670 acres of land subject to allotment in the Cherokee Nation. From this must be deducted reservations of one acre for each country school, for cemeteries and small reservations for mission schools and new towns along the railroads. This allotable land is valued at \$13,153,600. There is now being allotted to each citizen \$325.60 worth of this land. The rolls show that there will be 49,000 Cherokees on the final rolls. The per capita share of each, not deducting the reservations above mentioned, would be \$285.25, leaving a surplus of \$2.72 in hand due each citizen.

## Theodore Rogers Dead.

New York, Nov. 9.—Theodore Rogers, former president of the bank of the Metropolitan, is dead from paralysis at his home in Jamaica, L. I. He was 72 years old and leaves a fortune of several million dollars. Mr. Rogers began his business career as a bank messenger. He retired from the presidency of the Metropolitan a few months ago, owing to ill-health.

## YELLOWSTONE NATIONAL PARK.

Report of Major John Pitcher,  
Acting Superintendent, to the  
Secretary of the Interior.

BUFFALO HERD IS DOING WELL.

Game Generally Is Increasing—Over  
Thirteen Thousand Tourists Vis-  
ited the Park Last Season.

The report of Maj. John Pitcher, acting superintendent of Yellowstone Park, to the secretary of the interior was today made public. The report, which consists of 17 printed pages, makes very interesting reading. Aside from the meteorological and improvements statistics, the work of the boundary surveyors and the fish hatchery, Maj. Pitcher sets forth the game conditions existing. In this connection he says: "In spite of the predictions of many of the old settlers in this section of the country to the contrary, the past winter was an exceedingly favorable one for all of the various kinds of game that live entirely within the limits of the park, and the percentage of loss through starvation or the effect of the weather was very small."

"Many startling reports were sent out from the country south of the park concerning the great loss of elk in that section through starvation, but from information received from one of the park scouts, who was located there during the entire winter, I am of the opinion that the reports were greatly exaggerated and that the loss was very slight."

## GRAZING OF SHEEP.

"The danger of heavy loss by starvation during the winter of the large game that spends the summer in the park is increasing each year, due to growing settlements on the winter ranges of the game and destructive effect of the large bands of sheep on the ranges. It is to be hoped that every possible support will be given to Supt. A. A. Anderson in his effort to regulate in a reasonable way the number of sheep that will be permitted to graze on the timber reserve, and that a soon as practicable the grazing of sheep on the reserves may be absolutely prohibited."

"It is of course impracticable to feed all of the large game of the park at any time, but there are certain portions of it that should be preserved to feed when on account of deep snows it becomes necessary to do so. The animals that should be thus cared for are the antelope and the mountain sheep, and as their winter range is close to Fort Yellowstone, they can be easily cared for."

"About 900 antelope have already been seen this fall on the northern slope of Mount Everts and near the town of Gardiner, and I believe the number in the park to be about 1,000. ## SURE INDICATIONS OF BAD BLOOD

OLD SORES, ULCERS, ABSCESSSES

The best evidence of a bad condition of the blood and unhealthy state of the system, is an old festering sore, running ulcer, or abscess. They show the bodily impurities are not passing out through the proper channels, but are left in the system to clog and poison the blood. So thoroughly does the poison permeate the system that every little scratch, cut or bruise inflames and festers. Everything about an old sore or ulcer suggests disease.

They affect the general health, they require constant attention, and are a source of anxiety and trouble all the time, and in some cases highly offensive. There is danger, too, of these places becoming cancerous if not treated promptly and in the right way. Washes, salves and ointments are good for external use, but they can't stop the discharge or change the condition of the blood, and for this reason the sore never heals permanently.

Not until the blood is purged of impurities and the system cleansed of all harmful substances should the ulcer heal, or the effect upon the system might prove disastrous. S. S. S. goes into the circulation and searches out and removes the cause of the old sore and invigorates and builds up the polluted, sluggish blood again, and as the poisonous matter is driven from the system the sore begins to heal, new flesh forms and the place is soon covered over with fresh skin and the sore is gone for all time. Where the constitution is debilitated from the effects of chronic sores, ulcers, abscesses, carbuncles, boils or other severe skin eruptions, S. S. S. will build it up again and stimulate and strengthen all parts of the system. S. S. S. contains no strong minerals, but is guaranteed entirely vegetable. It is unequalled as a Blood Purifier and invigorating tonic. Do not depend upon local remedies alone. Get your blood right, and as it forces out the poison the sore must heal, because nothing is left in the system for it to feed upon. Write us should you desire medical advice, which is given without charge.

FROM CALF OF THE LEG TO ANKLE  
A SOLID SORE.  
New Castle, Pa., July 29, 1903.  
Three years ago a common boil appeared on the calf of my limb. Not yielding to simple home remedies, I consulted a physician, who prescribed a poultice, flax seed, supposedly. By some fearful mistake I was given corrosive sublimate, and after having it on for a few minutes I could endure the pain no longer, so took off the application and found that my limb from the calf to the ankle was in an awful condition. I immediately sent for another physician, who told me I had been poisoned. My limb from the calf to the ankle was one solid inflamed sore. I was advised to begin S. S. S., and improved rapidly under its use, but about this time I had an attack of typhoid fever, and this settled in the original sore. This, of course, caused a back set, but having confidence in the ability of S. S. S., I began it again as soon as I was over the fever, and to make a long story short, was completely and permanently cured. Two years have elapsed, and I have never had a return of the trouble. MRS. K. A. DUFFY,
