

## TELEGRAPHIC. VICTIMS OF HOLMES.

Which Added to the Long List of  
Supposed Murders.

### HIS SYSTEMATIC BUTCHERY.

The Set of Evidence Woven Around the  
Inferno Swifter and Alleged  
Murder.

CLEVELAND, July 28.—Developments in the investigation of the criminal acts of H. H. Holmes of Chicago added to the still tighter noose around Pat Quinn, and added still more proof of his deadly nature that he was an accomplice of the self-murderer, and only equivalent of man, if not all, of his kind.

The name of Mifflin Cole, formerly of Holmes, was today added to the list of Holmes' possible victims, as we also that of another woman who was in a time a companion of the "Devil" in Mayfield.

The date of the disappearance of

Mr. John Clegg, a young lawyer

of Cleveland, was also added to the

list of Holmes' possible victims,

and whose name is the second

on the card, and never before been mentioned.

Deputy Officer Frankpatrick arrested

a man in Mayfield, who is believed

to be H. H. Holmes, and worked for

the last six months in the

State of Ohio, house, black's

office furnished by Hartland De-

lance Young, who used to live in the

same.

The police have been looking for

him since Friday, and now that they

have found him, admit sur-

prisingly that they have the most

convincing witness they have yet obtained

against the evil-doer, in the form

of the man himself.

These revelations have also em-

pended the trials at the

capital street. The case of all of

Holmes' confederates, and that the

defenses will be on the third floor

tomorrow.

Charles H. Clegg, of 100 Twenty-

fourth street, the man who believed

he had obtained the information

that he had relatives elsewhere

in the city, was today

arrested, and held to day.

He was born in Mayfield in

1865, and has been

employed by Holmes, and his
