Kansas City Stock Yards, July 3 .--The early grass cattle from the South have begun to arrive in earnest. Monday's supply amounting to 210 cars containing 5,459 cattle and 526 calves, which was twice as large as the corresponding Monday last year. Receipts of southern cattle and calves for the month of June showed a gain of 9,500 over last June and six months of 1901 an increase of 21,090 cattle and 2,361 calves over the same period of 1900.

Monday's large supply of southern cattle in addition to about 4,000 in the native division and liberal runs at other markets, placed buyers in a position to demand concessions and only the best native export and dressed beef steers worth about \$5.09 per hundred were able to maintain prices while light to medium weight native and southern steers sold 10c and 15c lower, grass southerns ranging from \$3.25 to \$4.00 and fed southerns at 4.15 to 4.70. Tuesday's cattle receipts amounted to 10,000 head, in-cluding about 1,400 Texas and Indian steers in the southern yards and prices were again quoted a shade lower on all

TOO MANY RELIGIOUS SECTS. TEN THOUSAND MURDERS A YEAR.

In every city and in every town there is need of religious unity and harmony. Hardly a village in the land for which one place of worship would be sufficient that does not maintain three. It is only necessary for the people who sustain these superfluous religious organiza-tions to discover that the differences about dogma which have about dogma which have separated them have ceased to be material, and that the religious life is the thing of chief importance, in order to bring about a concentric movement in religious agencies and religious work which will have a deeply alterative effect upon the character and habits of the American people .- Hartford Times.

A marked and permanent rise in the Dead Sea, causing the formation of a broad lagoon on the north side of the Jordan delta, is attributed to the raising of the entire bottom by volcanic action.

GATARRH A Constitutional Affection.

Ver-

Sprays, washes, powders, salves, medicated tobacco and cigarettes, however long and persistently used, do not cure Catarrh. They relieve temporarily the inflammation in the throat and nose, and enable you to breathe more easily and freely, but the continual rush of impure blood to these parts keeps up the irritation and ultimately produces ulceration of the glands, when the breath becomes exceedingly offensive and the soft bones of the nose are frequently destroyed. The catarrhal inflammation extends over

inologists that crime is in proportion to

density of population. It will also be noted that Illinois, with a population of

5,500,000, averages a less number of homicides annually than Mississippi.

mont, with a population of 350,000, has only six murders a year, while Nevada,

with a population of only 1,650,000. Ver-

have an annual combined average of 248 murders, while in California alone there

are 422. With a homicidal records of ten thousand marders a year, the task that

the entire surface of the mucous membrane, or inner skin ; the stomach, kidneys and lungs are often involved ; the whole system soon becomes affected by the rapid absorption of poisonous matter into the blood, and the disease that you had hoped to cure with simple local remedies, assumes a dangerous form.

I had Catarrh about 15 years, and | I had Catarrh so bad was entirely tried during the time everything I could hear of, but nothing did me any good. At last I came to the conclusion that Catarrh must be a blood disease, and decided to give S. S. S. a trial. I could see a little improvement from the first bottle, and continued it three or four months, or until I was cured. Have not taken anything for six years, and am just as well as I ever was.-M. MAT-SON, Lapeer, Mich.

I had Catarrh so bad was entirely deaf in one ear, and all the inside of my nose and part of the bone sloughed off. The physicians gave me up as incurable. I determined to try S. S. S., and began to improve at once. It seemed to get at the seat of the disease, and after a few weeks' treatment I was entirely cured, and for more than seven years have had no sign of the disease.—MRS. JOSE-PHINE POLHILL, Due West, S. C.

Catarrh is a constitutional disease - a blood disease which is frequently inherited, and only a blood medicine, such as S. S. S., can remove the hereditary taint, destroy the poisons that have been accumulating in the system for years perhaps, and restore the blood to a healthy and pure condition. The inflamed membranes and diseased glands are healed by the rich, pure blood which is carried to them, and the offensive discharges from the nose, and the terrible headache and neuralgic pains cease. Chronic cases of the most desperate character and apparently hopeless, have been cured completely and permanently by the use of S. S.

The sales for the five business days of the week amounted to \$271,600, which repre- payable July 15th, the books to close sented the sale of 316,823 shares of stock. Ajax has proved the strongest feature of the week owing to improved conditions on the 1,000 level. An ore body has not yet been found but for all that the stock has advanced from around \$1.50 to \$2 per share. At noon today sales were recorded as high as \$2.06 per share. Century opened around \$2.45 but has since sold up to \$2.70, while Tesora, which was traded in around \$1 on Monday has since jumped to \$1.20 owing to the flattering reports of the new mill. Horn Silver, which has been steadily climbing for some time, closed today with \$1.45 bid. Ben Butler has been very active this week as high as 8. As soon as it reached its highest mark rumors were started about a lawsuit between the Ben Butler and the owners of adjoining ground. It is impossible to verify the rumor but the stock was forced down to 13 today. Joe Bowers has been active at prices rang-ing from 5% as high as 7. May Day has gained a few points during the week. Sales were made today at \$1.70 while Lower Mammoth was traded in at \$3.80. Star Consolidated sold at 471-Emerald is a little weaker at 12. LOWER MAMMOTH CONTRACT. Management Signs a Very Favorable

One with Bingham Co.

The management of the Lower Mammoth Mining company has signed a very favorable contract for the treatment of its ores with the Bingham Copper and Gold company. Manager Si-mon Bamberger says he is very much pleased with the terms given which are much better than those offered by the American Smelter company. Mr. Bam-berger says the contracts will run one year from July 10. Under it the management expects to market at least a car of ore per day, which should speed-ly wipe out the debt and pile up divi-dends.
