

Stamp Mill in Nevada.

The first shipmnt of ore from the Tonopah Mining company's mine to the big stamp mill nearly completed at Millers was made Tuesday last. The portant discovery extends the proved zone of the district a distance of eight to 10 miles in length. shipment was not very large, accord-ing to Supt. R. C. Turner, being mere-ly sufficient to fill the ore bins. This ly sufficient to nil the ore bins. This shipment is an important event, as it means the operation soon of the great-est stamp mill in Nevada, and adds greatly to the state's industries. Mr. Turner stated Wednesday that larger shipments would be made later and en feet (that operations would be begun at the plant within a short time, although he could not give the exact date.

government is 451. The appropriations during the year ended Juae 30, 1996, for sites, con-struction of buildings, heating, light-ing, furnishing, etc., amounted to \$3,-673,664, which together with contract liabilities existing on June 30, 1906, make a total of \$14,963,791. The developments to date on the Eagle's Nest and Hailstone properties are of especial importance as proving the magnitude of the highly enriched section of the district. Following the sensational developments on the Eagle, consistin gof the opening up of eight or

YERINGTON LOOKING WELL.

E. D. Woodruff Returns With Glowing Account of Properties in District.

E. D. Woodruff returned Saturday rom a visit of several weeks in Ne-vada principally in the vicinity of Yerington and the Mason Valley district

triet. Mr. Woodruff speaks in glowing terms of the wonders of the district. Nearly all the mines he says are doing well although all have not yet reach-ed the producing stage. The Nevada Douglas, according to Mr. Woodruff, never looked better and preparation for the erection of this company's new smelter are going staadly for. miles farther to the north and east prove that the possibilities of Fairview for the erection of this company's new smelter are going steadily for-ward. A system of experiments is being made on the Bluestone for the purpose of establishing the best meth-od for the treatment of the low grade ores of this property. The Dyer pro-perty is reported to have recently changed hands, and on this account is at present shut down

is at present shut down. On the other side of the valley the Yerington property in which Charles D. Rooklidge is one of the principally interested parties, and the Blue Jay, and both these mfnes, Mr. Weodruff says, are looking very well. All in all there can be no doubt but what this district is vanidly combut what this district is rapidly com-ing to the front as a copper producer of quality and magnitude. Sait Lake capital is largely responsible for its development, and Salt Lake people will reap the benefit of their enterprise

GOOD NEWS FOR HUMBOLDT CO. Efforts of Salt Lakers Are Attended

With Usual Good Luck.

General Manager M. L. Regan of the Nevada Consolidated company left Salt Lake Monday evening for Ely, left where he will supervise the commence-ment of work on the construct on of the great smelter plant to be erected

The equipment for the new works is arriving all the time, and directly upon his arrival Mr. Regue will put a large force of men to work.

While in New York, Mr. Requa placed orders for three new locomotives and a number of new passenger coaches to take care of the rapidly growing busi-ness of the Nevada Northern railway.

Word has been received to the ef-fect that J. W. Rocklidge and George Wilson, two Salt Lakers who for some weeks past have been looking over the situation in Nevada, have struck it rich in Humboldt county, the new gold district.

The properties secured ore known as the Powhattan and Ox Shoe, the latter being one of the oldest properties in the county and years ago was worked by primitive methods, most likely by Spaniards. One old dump is said to be entirely overgrown with weeds, and there is other evidence that many years

there is other evidence that many years have elapsed since active operations were carired on in the district. Some remarkably rich ore has been taken from this section, one specimen giving returns as high as \$15,000 in gold to the ton. Two new strikes have been mad on the Ox Shoe property, and the entire section is said to be heavi-te mineralized. ly mineralized.

Everything points to the conclusion that the new district will eventually occupy a prominent place among the gold producing sections of the state, and in view of the development so far, this may be at no very distant date.

same results with exploration work on the Eagle's Nest, and this estate is now producing high grade shipping ore hav-ing a general average value of \$304 per ton. Then, to add to the wave of exton. Then, to add to the wave of ex-citement resulting from such extremely important discoveries, the Hailstone, adjoining on the north and east the Eagle's Nest and Fairview Eagle, has opened into a mining estate that yre-sents every earmark of a bonanza mine. The continuity of the main vein system of the camp has during the past month of the camp has, during the past month been positively proved of uniform width and richness a distance of over 6,000 feet, and the discoveries of recent date

are practically unlimited in mineral re-sources and stamps it as one of the greatest mining regions of the Sage Brush state.

CAMP'S RAPID GROWTH.

Within a month the camp has forged Within a month the camp into a re-ahead from a one-mine district to a region with at least four proved mines. In this time the Fairview Eagle, Eagle's Nest, and Hallstone have passed from the prospect to the bonanza, and other properties are fast approaching the same transition. With every foot of work done on the Nevada Hills the mine work done on the Nevada Hills the mine continues to reveal riches that stamp it as one of the greatest mining estates of the country. High grade shipping ore is being disclosed on all sides. In addition to opening rich, ore along the main vein channel of the district on the Hailstone, a distinctly new ledge, hav-ing an individual dip, and carrying as rich ore as any encountered in the dis-trict, has been found farther to the trict, has been found farther to the north on the same acreage. As exploration work progresses the extent of the ore deposits of the camp show corre-sponding expansion and in practically

sponding expansion and in practically every respect developments are proving Fairylew an exact counterpart of Tono-pah, both in point of permanency of ore veins and the character of ore dis-

WILL RESIGN POSITION.

Supt. of Hanna Mines of Union Pacific May Form New Connection.

(Special to the "News.") Hanna, Wyo., Oct. 28.-It is reported here that E. S. Brooks, suprintendent of the Hanna mines of the Union Pa-cific Coal companies, for several years, has resigned and will become general manager and part owner of new coal No conmine in Converse county. firmation of the report has been made thus far.

BIG STRIKE REPORTED.

Assays Show Values of Nearly \$1,000 In Copper, Silver and Gold.

(Special to the "News.") Grand Encampment, Wyo., Oct. 39,-A big strike is reported at the Stand-ard mine about a half mile east of the Itmay, and near the Rambler and Bat-tle mines. Samples from this vein,

the manes. Samples from this vein, which is a large one, show rich streaks of copper, silver and gold, and an as-say shows ore to the value of nearly \$1,000 per ton.

CONCENTRATES.

A. R. Talimantes, the well known surveyor, will leave tonight for Blue moun-tain on business. W. C. Alexander of the Black Dia-

mond has returned after an absence of several days at the mines. Scott Groo left last night for Fairview and Wonder on business in the inter-ests of the Sloan Dale syndicate,

The latest shipment of ore from the Carisa since the new strike went better than 870 to the ton. It is said that the ore body on the 200 level is 25 feet wide.

R. Bullen of the engineering firm of

itary Post Established.

Washington, Oct. 29.-The annual report of the acting superintendent of the Yosemite national part, made public today by the Interior department, makes several important recommenda-tion concerning needed legislation. The superintendent asks that all patented land within the present limits of the part be condemned and purchased by the government and also that a perma-nent military post be established in the nent military post be established in the valley. The latter is needed for the protection of game which seems to be gradually on the decrease because of poaching. It is asked that Congress enact a law defining what is prohibited in the park and fixing penalties for violations.

HOOE PERJURY TRIAL.

W. Da Costa, a Negro Tailor, Placed Under Arrest.

Pittsburg, Oct. 29 .- The trial of Clifford Hooe, former negro coachman of Augustus Hartje, millionaire paper manufacturer of this city, charged with perjury in connection with the Hartje divorce case, had a sensation today in the arrest of William De Costa, a negro tallor, immediately after he had testified that Mrs. Hartje had fre-quently visited his establishment for the purpose of meeting Hooe. De Costa was taken into custody by a private detective agency and an information charging perjury will be preferred against him.

Against him. Hooe, on the stand, maintained that he could remember nothing, in re-sponse to questions by Mr. Robb, as-sistant district attorney. The defend-ant's mother said on the stand that ant's mother said on the stand that Mrs. Hartje had visited her once, Two colored preachers, Rev. Scott and Rev. Freeman, were called and said Mrs. Carrie Hooe, defendant's mother, had told them that she had never seen Mrs. Hartje in her life. Mrs. Hartje was called, and after a few important questions, was excused. The defense than closed its sup-rebuttal and court then closed its sur-rebuttal and court was adjourned after Atty. Ferguson had presented a number of points of law to the court for decision before the charge to the jury is made.

PHILIP NELSON COMMITS SUICIDE

Chicago, Oct. 29.—Philip Nelson, a wealthy copper mine owner of Mis-soula, Mont., committed suicide here tonight at the home of a friend whom he was visiting. Nelson had just re-ceived a letter from his wife, who went to Sweden in search of health, stating that she would die in a few days, and it is said that while brood-ing over the bad news, he killed him-self by turning on the gas in his room. reom.

FIFTEEN YEARS FOR ROBBERY.

FIFTHER TEARS FOR ROBBERY. Spokane, Wash., Oct. 29.—Frank Warner, alias Martin Serick, was sen-tenced to 15 years in prison this morn-ing for robbery. Warner confessed that he held up O. C. Hay on the Howard street bridge about 200 feet from the police station, forcing him during the robbery to gaze at the river in an unconcerned way in order to fool the police who were passing. The robbery took place about 3 p. m., Oct. 11.

Oct. 11. PICKED UP ON LAKE HURON.

Port Huron, Mich., Oct. 29.—Capt. Youngs of Port Huron, his wife and three sons, comprising the crew of the schooner Wast Side of Cleveland, were picked up in a small boat on Lake Huron today and brought home by the steamer Frank Peavy. The West Side foundered 25 miles off Thundar bay island in Saturday night's storm.
