

TO MEET MONDAY IN CONVENTION.

Republicans and Democrats Will
Name Candidates for the
District Bench.

ALL CONFIDENT OF SUCCESS.

Considerable Rivalry for the District
Attorneyship Nomination—Judges
of City Court.

The judicial conventions for the nomination of four district judges will be held in this city on Monday next, the Republicans to meet in Judge Morse's court room, city and county building, at 10 a. m., and the Democrats to meet at the same hour in the court room of Judge Stewart. What the result will be is problematical at this time, but the prevailing opinion is that the Republicans will honor Judge Morse with a renomination, while the other nominees will likely come from the list of active candidates, among whom are Judge Lewis, Judge Tanner, Daniel Harrington, D. H. Wenger, George Armstrong and George F. Goodwin. As all of these take a more or less optimistic view of the situation, much interest will doubtless attend the nominations.

It is reported that an effort will be made by the Democrats to have the Republican convention agree to name but two candidates, leaving the other two for the Democratic convention. It is hardly probable, however, that such an agreement will be entered into, as there is a strong tendency to make it a straight political fight. It is believed that Judges Hall and Stewart will be nominated by the Democrats and that Judges Cherry and Hiles may also be brought out. The other nominees are Judge A. B. Sawyer and Attorney Hurd. There is considerable rivalry for the district attorneyship. Republican candidates are Benner X. Smith, the present incumbent, Fred Looftbourrow, L. L. Baker and M. M. Kaighn, each of whom is said to have strong backing. The Democratic candidates are D. B. Hempstead, Ray Van Cott and Ed McDurrin, while A. J. Weber is mentioned as a probable "dark horse" who may leap to the front in case of a hard fight.

Immediately following the nomination of candidates for the district bench, both conventions will name candidates for judges of the city court. On the Democratic side Morris Sommer, Alex McMaster, A. S. Fowler and E. A. Wallon are active candidates, with a strong likelihood of the two former being nominated. However, Mr. Fowler has many friends and there are those who think his strength will land him the nomination. The most active Republican candidates are Judge C. B. Dietl and J. J. Whitaker, while some others are mentioned in the same connection.

OFF FOR ST. LOUIS.

Montana Press Association Will Take
in the World's Fair.

(Special to the "News.")
Billings, Mont., May 11.—The excursion of the Montana State Press Association for the Louisiana Purchase exposition left Billings this morning for St. Louis.

The party of scribers is in charge of Vice President Larry Doherty of the Helena Independent, and numbers about 50 persons.

Ward Entertainments.

The Third ward carnival ended in a blaze of glory last night. The contest for the most popular lady resulted in a victory for Miss Pearl Peterson, who, with 5,109 votes, won a first-class ticket to the world's fair. Miss Vilette Eardley was second with 4,060 votes, and Miss Laura Anderson was third with 3,000 votes, and carried off a season ticket to Lagoona. No. 1,239 held by Miss August Schefski, won the season ticket to the Salt Palace. As on the previous nights, the hull was crowded and an enjoyable program was rendered. It is expected that the carnival will net the ward something like \$500, which will go toward liquidating the indebtedness on the ward house.

The Young Ladies' Mutual Improvement association of the fifth ward will give a social party in the ward house on Thursday night, to which Mutual Improvement workers generally are invited.

"DO IT TODAY."

The time-worn injunction, "Never put off till tomorrow what you can do today," is now generally presented in this form: "Do it today!" That is the advice we want to give you about that hacking cough or demoralizing cold with which you have been struggling for several days, perhaps weeks. Take some reliable remedy for it TODAY—and let that remedy be Dr. Boschee's German Syrup, which has been in use for over thirty-five years. A few doses of it will undoubtedly relieve your cough or cold, and its continued use for a few days will cure you completely. No matter how deep-seated your cough, even if dread consumption has attacked your lungs, German Syrup will surely effect a cure—as it has done before in thousands of apparently hopeless cases of lung trouble. New trial bottles, 25c; regular size, 75c. At all druggists.

G. G. GREEN, Woodbury, N. J.

NASAL CATARRH quickly yields to treatment by Ely's Cream Balm, which is agreeably aromatic. It is received through the nostrils, cleanses and heats the whole surface over which it diffuses itself. Nasal Catarrh which is drying or exciting to the diseased membrane should not be used. Cream Balm is recognized as a specific. Price 50 cents at druggists or by mail. A cold in the head immediately disappears when Cream Balm is used. Ely Brothers, 56 Warren Street, New York.

Tuesdays and Fridays of each week. Round trip from Salt Lake only \$42.50. Tickets good for 60 days. Shortest fastest line.

There is no Substitute for

It is a Matter of Health

TWENTY YEARS AGO TODAY.

(DO YOU REMEMBER?)

David Gallifant of Salt Lake City was found guilty of murder in the second degree.

The 18-months-old daughter of Peter and Emily Boise of Provo was drowned by falling from a footbridge into a ditch.

Many failures were reported and there were exciting scenes on the New York Stock exchange.

TEN YEARS AGO TODAY.

The telephone line was opened to Mercur.

"General" Carter furnished \$250 bonds, with Henry W. Lawrence and George A. Snow as sureties, and was released from the penitentiary.

Lucius P. Wilson was electrocuted in New York for the murder of Detective Harvey of Syracuse.

Great excitement attended the nomination of legislative candidates at St. John's, N. F., being occasioned by a dispute over the currency question.

FIVE YEARS AGO TODAY.

The failure of Orson Smith of Logan Utah, was announced.

Utah battery boy was killed in the Philippines, but his identity could not be established.

Summit stake tabernacle at Coalville was dedicated, President Snow and party being present.

Samuel Gompers, president of the American Federation of Labor, arrived in Salt Lake.

Rev. Dr. Charles A. Briggs who was suspended by the Presbyterian assembly for heresy, was ordained a priest of the Episcopal church.

DANGERS THAT

BESET SOCIETY.

Theme of an Interesting Address
Delivered Last Night by
Rabbi Reynolds.

GREED FOR GOLD UPPERMOST.

Another Danger, Says the Speaker, is
Our Morbid and Abnormal
Scepticism.

Rabbi Reynolds delivered an interesting address last evening in the Jewish Temple on "The Dangers that Beset Society." In the course of his remarks, the speaker said:

"Greed is becoming a dangerous canker upon the moral tissue of our nation. It interpenetrates every relation of our rich and manifold life, and its vile touch considers nothing too holy, nothing too sacred. If the pathology of our national political and industrial life will ever be studied, if the moralists of the future will ever attempt to make a differential diagnosis of the ills that beset us, it will, I believe, be very easy to trace them all to our primary lesion; the desire to live for money, to go into politics for money, to grow corruption for money, to grow pauperism for money, to disrupt families for money, in a word, to poison the very life stream of the nation with this mad and insane thirst for money. This money craze is eating into the industrial peace of the nation.

"Our great army of employers and employees, instead of being harmonious co-ordinated parts of one great smoothly working mechanism, are pitted one against the other in a cruel, merciless struggle. The industrial arena intended for the display of great, pacific creative powers, is becoming a regular charnel house. The trust idea, which means nothing more than the creation of a huge insuperable money despotism, is sapping the life of the nation to the utmost. With the capitalist it means the gradual destruction of all creative competition, and with the trade unionist the denial of the inherent individual right to work to anyone not within their body.

"Greed is trying also to revolutionize and upset the normal plans of our national education. It insists that the mission of the school is not to bring about a healthy and sound discipline of the mind, but to enable the student to make money quickly and surely. Greed is also entering the churches, where people of much money, though of questionable character, are occupying the front pews. It invades also the halls of administration in the person of the low politician, on whose filthy banner is inscribed the still filthier motto: 'To the victor belong the spoils.'

"Another danger to society is our morbid and abnormal scepticism. There is also a normal side to doubt, and this is to doubt prevailing systems of religion and life in order to rectify and reconstruct them upon a firmer and truer basis. Thus the doubting of the correctness of the Ptolemaic system, paved the way for and helped to usher in the system of Copernicus. The disbelief in the spirit and humor theory of the old physiologists made possible Harvey's discovery of the circulation of the blood. When I speak of scepticism as a danger to society, I mean the scepticism which is coincident with the disintegrating processes of society. It is the surest symptom of moral decay. However much the individual, during the primitive stages of his wild and irresponsible life, may have gotten along without God, he cannot so get along during the formative and constructive stage of his social life.

VOCAL MUSIC IN

PUBLIC SCHOOLS.

Splendid Exhibit Arranged by the
Pupils Bound Into a Handsome
Volume of 500 Pages.

PREFACE BY PROF. WETZEL.

In It He Points Out What is Being
Done to Enhance the Musical Education of the Pupils.

Prof. W. A. Wetzel, supervisor of music in the Salt Lake City schools, has completed the collection and arrangement of the music exhibit of the pupils and has had the same bound in one volume containing about 500 pages. The work is from pupils of all the different grades and is all written work. The preface of the book explaining the teaching of music in the various grades was written by Prof. Wetzel, and is as follows:

"Vocal music is a regular subject of study in the Salt Lake City public schools, and receives as much attention as is given to reading, writing or spelling.

"Systematic instruction is given in all the grades by the grade teachers under the direction of a supervisor of music.

WORK OF SUPERVISOR.

"The supervisor conducts two grade meetings each week, thus meeting all the teachers of the several grades once each month. He also conducts a general optional meeting each Saturday. This meeting is attended by such teachers as desire to better equip themselves for their work.

"The supervisor visits each school as frequently as he can to inspect the work of the teachers, and to give instruction along the lines suggested at the grade meetings.

"The work of the grades is classified as follows: Ear training, voice training and developing, mechanics of music, sight reading, vocal expression and melody writing. In the advanced grammar grades some attention is given to harmonic structure.

"In the lower primary grades much attention is given to ear training of the child voice. In the advanced primary grades the work of the lower grades is carried on, and in addition much work is done in sight reading and vocal expression.

SONG SINGING.

"The principal feature of the primary grades is 'song singing.' The children are provided with the most beautiful children's songs published. In the singing of these songs, and in the singing of all exercises, the teachers are instructed to secure softness and sweetness of voice, and expressive utterances. The result is really artistic singing.

"In the grammar grades the teachers are instructed to give much attention to the mechanics of music, sight reading, vocal expression, and melody.

writing. Emphasis is placed on sight reading. The melody writing is calculated to develop the innate melodic tendencies of children. The writer believes that the time is not far off when children will be able to express themselves in melodic sentences as fluently and as accurately as they now express themselves in English language. To bring about this condition we must have the hearty support of the general public and school officials, and then well trained teachers.

"The pupils are constantly admonished to study music for music's sake, and are urged to learn to play some musical instrument.

HAVE SWEET VOICES.

"The future musical standing of America will depend largely upon the musical instruction received by the children in our public schools.

"The children of the Salt Lake City schools excel in vocal utterance. No sweeter, purer or more sympathetic voices are to be found anywhere in our country. This is because of the careful and most careful attention throughout grades.

"Some written work is required of the pupils each week in all the grades from the first to the eighth inclusive. This arouses interest and creates a spirit of emulation.

A number of the melody pieces in the book which are to be sent to St. Louis were submitted to musical critics of Salt Lake City. They were tried on the piano, and were pronounced to be remarkable, considering the age of the writer and the limited study which the pupil had given to music. In several instances marches and waltzes of some length were written in full, being as complete in every particular as though turned out by a music publishing house."

AN ADDRESS TO THE PUBLIC.

The labor question, which has been kept prominently before the country by numerous strikes, lock-outs, boycotts and lawlessness, has attracted the serious attention of the business men of Salt Lake and the state of Utah, as well as of the country at large.

For the purpose of discussing the question and taking some action for the best interest of all concerned, a meeting of business men, representing nearly all lines of trade, was held in Salt Lake City, on December 17, 1903, and after a full discussion of the subject a temporary organization of THE CITIZENS' ALLIANCE was formed.

At another meeting held on April 13, 1904, a permanent organization was effected with 320 names on the membership roll. Two days later the Citizens' Alliance was duly incorporated under the state laws.

The officers elected for the first year are: Charles Read, President; C. W. Whitley, First Vice President; M. H. Walker, Second Vice President; W. S. McCormick, Treasurer, and W. E. Vigus, Secretary.

The business affairs of the association are under the management of a Board of Trustees, composed of the following named twenty-one members: J. E. Gallagher, D. S. Murray, Charles Read, C. P. Mason, M. H. Walker, George Romney, Sr., C. W. Whitley, W. C. Engle, R. W. Nicol, B. S. Campbell, Joseph A. Silver, C. A. Quigley, H. G. Williams, L. L. Terry, Joseph H. Young, Duncan McViehe, Frank Knox, W. E. Vigus, P. J. Moran, Col. E. A. Wall, and W. S. McCormick.

The organization was not brought into existence for the purpose of disturbing the normal conditions which now prevail affecting the employer and the employee, but on the contrary to cultivate and encourage such peaceful and harmonious relations as should exist in all well regulated communities.

Neither is it the intention to discriminate between union labor and non-union labor, so long as the former confine its methods, to justice and recognizes the equal rights of all, as guaranteed by the Constitution of the United States.

The constitution of THE CITIZENS' ALLIANCE commends the wisdom and concedes the right of laboring men to organize for the promotion and defense of their every just right, but it denies the equal right of all men to labor and that the laws shall be impartially enforced.

The constitution further provides that in all matters relating to the rights of members of labor unions are privileged to quit the service of an employer, but claims the right of any other persons to enter into such abandoned service, upon the same satisfactory to the employer and employee.

Quoting briefly from the constitution, it is the purpose of THE CITIZENS' ALLIANCE:

1. To insure peace and justice to every member of its organization and to every member of the commonwealth, in the prosecution of his business and the performance of his labor.

2. To defend with all the resources of the law, those whose rights are infringed.

3. To promote and maintain the stability of business in all lines, and the peace of labor, who are organized or unorganized, by encouraging amicable relations between employer and employee.

4. To protect its members and the community at large and all persons who desire to work or to have work done, from unlawful interference by intimidation, or otherwise.

5. To discourage strikes and lock-outs and to crush out any and all organized body or individual, in short, THE CITIZENS' ALLIANCE is in the interest of industrial peace.

It is believed that every law-abiding citizen of Utah can conscientiously subscribe to these articles.

With the foregoing commendable objects in view, it is the hope and aim of THE CITIZENS' ALLIANCE to enroll a large membership, and the members of the association have no hesitancy in asking and urging all good citizens to become allied with this movement.

A special appeal is made to the laboring man. One of the objects of the association is to protect and assist its members, and this would no doubt lead to the permanent employment of any working man carrying the card of the association, wherever there is work to be done.

The deplorable conditions which have prevailed in some of our sister states, brought on by the unreasonable and arbitrary demands of labor unions, chiefly under the leadership of alien agitators, should be sufficient justification for the existence of THE CITIZENS' ALLIANCE in Utah.

A hearty co-operation in this work is earnestly invited.

The membership fee is one dollar and the annual dues one dollar, payable in advance.

The office of THE CITIZENS' ALLIANCE is Room No. 1, Masonic Block, Salt Lake City. Call or write for application blanks.

Permanent Cures Practically Free

ONE MONTH'S TREATMENT AT THIS MOST FAVORABLE SEASON OF ALL THE YEAR IS EQUAL TO THREE MONTHS TREATMENT IN CURATIVE RESULTS, AT ANY OTHER TIME.

Now is the time to cure quickly. Catarrh and Chronic ailments. The Climatic conditions are just right to speedily cleanse the Blood and effect permanent cures.

Do not let this favorable opportunity pass if you are a sufferer from Deafness, Catarrh or any Chronic ailment. Come to Drs. Shores & Shores at once. Drs. Shores are Strictly reliable—Drs. Shores are endorsed by the best people—direct evidence each week from the lips of home people—people you can see and talk with—telling you that Drs. Shores are skillful and that their treatment cures permanently. Speaks Volumes for Drs. Shores' treatment and methods.

MANY WILL BE CURED IN ONE MONTH.

At this favorable season of the year, Apply now, Drs. Shores' prices and terms are within the reach of all—\$5 a month for all Catarrhal Chronic Disease—all medicines free. Drs. Shores' motto is a "Low fee quick cure—mild and painless treatment. Consult Drs. Shores today—Consultation and advice free to all.

ANOTHER PERMANENT CURE.

Mr. Harlow S. Burch, says he has been cured for more than a year—with no sign of the trouble returning. Read His Story, then ask him about it.

OZEANA

OR FETID, BAD SMELLING CATARRH.

Some Information Fully and Simply for the Benefit of Suffering Humanity. Given by Drs. Shores, the "People's Doctors."

Ozeana is a form or stage of Catarrh that for centuries has been the subject of much dispute, and is one of the most difficult conditions to cure. In ancient times one unfortunate enough to be a sufferer from it was excluded from the privileges of priesthood, and in more modern days it has actually been ruled sufficient ground for divorce. It is known under a host of names, such as dysosia, rhinostenos, coryza foetida, fetid catarrh, dry catarrh, stingsness, purulose, rhinitis atrophica, rhinitis atrophica foetida, etc., but the most fitting of all appellations is perhaps the ancient one, ozeana, which, in Greek, signifies a stench, and applied, means bad-smelling catarrh.

It occurs in all diseases of the mucous membrane of the nose where there is an ulceration and catarrhal poison from neglect or mistreatment, eats through the mucous surface and causes death or rotting away of the bone. It may result, too, from single cold in the head by decomposition of the mucous discharges if proper care and treatment is not used to keep the mucous lining of the throat and nose clean and healthy. While it is not necessary that every case of simple catarrh should result in this horrible condition—ozeana—it is an absolute fact that ozeana or "stinking catarrh" is always the sequel or legacy of neglected, or what amounts to the same, badly treated simple catarrh. Dr. Shores can cure you, if you will apply at once. This is your opportunity.

WE TREAT AND CURE.

Drs. Shores take no incurable cases. Diseases that have baffled the skill of other Doctors and Specialists and stubbornly refused to yield to the ordinary methods of treatment in most cases are quickly subdued and mastered by these noted doctors. Prices and terms within the reach of all. Everybody who has a symptom of disease should consult these noted specialists free. Consultation and examination free, whether you take treatment or not, for any disease.

WEAK MEN PAY WHEN CURED.

Contracted Disorders.
Be sure your cure is thorough. Not one of our patients has ever had a relapse after being discharged as cured, and we cure in less time than the ordinary forms of treatment require.

What "Weakness" is and How We Cure It.

So-called "Weakness" in men is merely a symptom of chronic inflammation in the prostate gland, brought on by early dissipation or by the improper treatment of some contracted disease. A complete and radical cure is, therefore, a question of restoring the prostate gland to its normal state, and this we accomplish promptly and completely without the use of internal remedies. Our treatment is a local one entirely, and is original and scientific, and has been proven absolutely effective by thousands of tests. We are convinced that by no other methods can full and permanent restoration of strength and vigor be accomplished.

VARICOCELE.
Absolutely painless treatment. Investigate our method. It is the only thoroughly scientific treatment for this disease being employed.

Spermatorrhea, Stricture, Piles, Skin and Kidney Diseases, Lost Strength, Hydrocele, Organic Weakness, etc., are also among the diseases we cure to stay cured.

CURED BY MAIL.

We have a specialty of curing patients by mail. We have cured thousands who have never seen us personally. If you are afflicted, call, write us for advice and free symptom blanks and we will gladly advise you regarding your case, free of charge.

Office Hours—Week days, 9 a. m. to 5 p. m., Evenings, 7 to 8 p. m., Sundays and holidays, 10 a. m. to 12 noon.
