

TARIFF DISPUTE WITH RUSSIA.

Russian Consul-General Says it is
a Misunderstanding.

SECY. GAGE'S EXPLANATION.

At St. Petersburg It is Regarded as
Beside the Point—All Ready to
Make Reprisals.

New York, June 25.—Vladimir A. Teplov, the Russian consul general in this city, in discussing the tariff dispute between this country and Russia said: "The whole trouble, if there be any trouble, is due to a misunderstanding on the part of the United States. Russia and the United States have too many interests that are mutual for either one to be able to afford to oppose the other. Siberia is a large country, and when it is opened, which will be in about two years, America will have it for a market almost exclusively. From the physical position of Siberia, no other country is available. Why, then, should Russia antagonize the country from which Siberia must draw the most of her supplies? We shall want machinery, lamps, bicycles, in fact, almost everything that America produces. As to sugar, all we import of this article is from \$2,000,000 to \$3,000,000 worth annually. In machinery, only one article, Chicago alone sends \$30,000,000 annually to Russian markets. Think what the figures are for the whole country. Would it not be absurd for America to sacrifice the tremendous industrial interests she has in Russia on account of a comparatively insignificant tariff on our sugar?"

"There is a rumor of a concert of the European nations against the United States to check the commercial progress that this country is making. In my opinion such a coalition can never be made. But if such a thing could possibly happen, you may be sure that Russia would not make one of the opposition."

RUSSIA'S REPRISALS.

St. Petersburg, June 24.—On competent authority the correspondent of the Associated Press is able to say that the Russian minister of finance regards Secy. Gage's explanation of the tariff dispute as being beside the point. Russia has adopted reprisals in the form of increased duties on American goods for the second time, not because of a certain alignment of petroleum was taxed at an unduly high rate, but because it was not accompanied with a certificate as to its origin, but because Russia does not admit the correctness of Secy. Gage's interpretation of the tariff laws of the United States. Section 626 of these laws places naphtha and the products of naphtha on the free list unless the country from which they are exported charges duty on similar articles from the United States. Russia does not think that these laws authorize the collection of a tax on paraffine made in Great Britain from Russian naphtha, as decreed by Secy. Gage in his circular of March last.

According to the Russian press this circular is generally regarded as the answer of the United States to the matter of the Russian reprisals and this opinion has never been corrected. The impression has been conveyed to the correspondent of the Associated Press that the Russian minister of finance believes that the Russian minister of finance will succeed in explaining these matters to the satisfaction of M. de Witte will be in vain. If further action against Russian trade is taken by the United States, Russia's answer will follow in due season. Speaking of these matters the informant of the correspondent of the Associated Press said:

"The entire trade of the United States with Russia can be lost while awaiting the decision of the court unless the matter is hastened. I understand the case comes before the lower court next November. The Americans are apparently not in a hurry to resume business, which is now falling into the hands of the German people."

Fire Causes a Panic.

St. Louis, Mo., June 25.—Fire broke out at 2:33 this morning in the building No. 322 Morgan street occupied on the ground floor by the J. Edwards Painting company, and quickly spread to adjoining buildings, the upper portions of which were used as tenements. A panic seized upon the tenants when the fire broke and a number of them jumped from upper windows. Mrs. Anna Zola received injuries which resulted in her death within half an hour. Her daughter Camille had her leg dislocated and sustained a fracture of the skull; her son Edward was seriously injured by jumping. Loss to buildings nominal.

Passengers for Philippines.

San Francisco, June 25.—The transport Hancock, sailing today, will carry as passengers Adm. Gen. Corbin, Brig. Gen. Weston of the commissary department; Senator C. H. Dietrich of Ne-

CONGRESSMAN ALDRICH ENDORSES THE TONIC, PERUNA.

Says: "It Will Build Up a
Depleted System
Rapidly."

Hon. W. F. Aldrich, Congressman from Alabama, writes from Washington, D. C.:

"This is to certify that Peruna, manufactured by The Peruna Medicine Co., of Columbus, O., has been used in my family with success. It is a fine tonic and will build up a depleted system rapidly. I can recommend it to those who need a safe vegetable remedy for debility."—W. F. Aldrich.

H. S. Emory, Vice Chancellor and Master of Arms, K. P.'s, of Omaha, Neb., writes from 213 North Sixteenth street, the following words of praise for Peruna as a tonic. He says:

Catarrh of Stomach.

"It is with pleasure I recommend Peruna as a tonic of unusual merit. A large number of prominent members of the different Orders with which I have been connected have been cured by the use of Peruna of cases of catarrh of the stomach and head; also in kidney complaint and weakness of the pelvic organs. "It tones up the system, aids digestion, induces sleep, and is well worthy the confidence of sufferers of the above complaints."—H. S. Emory.

Nervous Debility.

Everyone who is in the least degree subject to nervousness, sleeplessness, prostration, mental fatigue or nervous debility in any form, finds the hot weather of June, July and August very hard to bear, if not dangerous.

The only safe course to take is to keep the blood pure, digestion good, and sleep regular. No remedy equals in all respects, Peruna for these purposes. If the system is run down and weakened by catarrh, Peruna renovates and rejuvenates the nerves and brain.

A book on the catarrhal diseases of summer will be mailed to any address, upon request, by The Peruna Medicine Co., Columbus, Ohio.

The above testimonials are only two of 50,000 letters received touching the merits of Peruna as a catarrhal tonic. No more useful remedy to tone up the system has ever been devised by the medical profession.

WARREN STONER ARRESTED.

Attempted to Pass Worthless Draft on a Chicago Bookmaker.

Chicago, June 25.—Warren Stoner, the son of a prominent Kentucky family and a relative of a well known turf official, was arrested at Washington Park race track on the charge of attempting to pass a worthless draft on a bookmaker. The arrest was made on information from Kansas City that the blank drafts drawn on the Third National bank of New York by "The Farmers' National Bank of Topeka" had been engraved and were in the hands of two men who had left for Chicago. Descriptions of the men were sent and arrangements were made to apprehend them. Stoner was arrested at the race track as he was attempting to cash one of the drafts. Stoner said he was stopping at the Auditorium annex. The hotel was visited and the room searched. A valise marked C. Jones was found and the detectives decided to await the arrival of its owner.

CHINA'S MEANS OF DEFENCE.

United States is Not Favorable to Withdrawing Them.

New York, June 25.—According to a dispatch from Washington to the Herald the government is not favorable to withdrawing from China its means of defence, and will not, therefore, officially sanction the acts of other powers in destroying Chinese fortifications. The company of American troops now in Peking, it is held, is stationed in the Chinese capital to protect the American legation and for no other purpose.

No confirmation has been received at Washington of the report that Russia has notified China that before she will evacuate Manchuria, an agreement must be signed by the two governments.

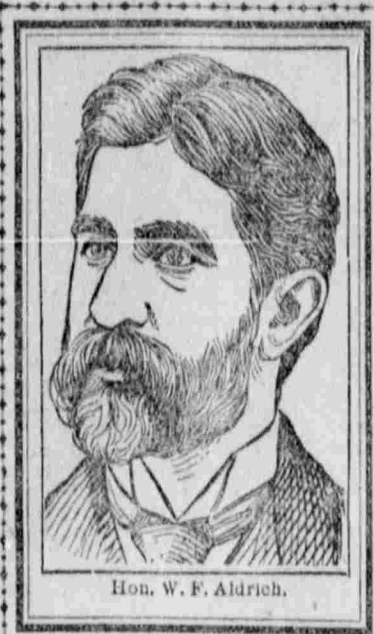

Port Limon Swept by Fire.

New York, June 25.—A dispatch from Panama to the Herald says that advances just received by mail from Port Limon, Costa Rica, announce that the place has been swept by another large fire. More than thirty houses, some of them new buildings just erected, were destroyed. The fire started near the public square.

MEDITERRANEAN FLEET.

Its Condition Causing Much Concern to Naval Officers.

New York, June 25.—The state of affairs in the British Mediterranean fleet is causing much concern, says the London correspondent of the Tribune. It is well known that several naval officers have addressed strong remonstrances to the admiralty in regard to the strength and war organization of the squadron, but Lord Beresford's action in making his communication public is not approved of. The reply of the admiralty secretary in the house of commons last night with regard to Lord Charles' letter conveys an impression of censure on the popular rear-

A PASSENGER TRAIN WRECKED.

Two Persons Killed and Three
Fatally Hurt.

FORTY OTHERS INJURED.

A Pittsburg & Erie Train Runs Into
an Open Switch at Monaca—Every
Car Turned Over.

Pittsburg, Pa., June 24.—Northbound passenger No. 23, on the Pittsburg & Lake Erie railroad, was wrecked at Monaca, twenty-six miles from Pittsburg, this morning. Two persons were killed, three fatally injured and forty others more or less hurt.

DEAD.

William J. Cunningham, fireman, McLees Rock, Pa., and
Lowrey Black, baggage-master, Pittsburg.

FATALLY INJURED.

Mrs. Lola B. Perkins, Euclid avenue, Cleveland, abdomen punctured by splinter.
Mrs. James Lee, Washington, Pa., arm broken and hurt internally.
Mrs. Jefferson Cares, Beaver, Pa., badly cut and bruised.

SEVERELY INJURED.

H. H. Simons, Kittanning, Pa., seriously.
Miss Lucy Rose, Cortland, O., arm broken.
Rev. A. D. Given, Holy Ghost college, Pittsburg.

The train, while going at a very fast speed, ran into an open switch at Monaca, and the entire train went over an embankment, some twenty-five feet high. Every car was turned over, two of them going over twice.

Sale of Royal Wines.

New York, June 25.—The sale of royal wines, Christie's auctioneer, a large throng of dealers, says the Tribune's London correspondent. The aggregate sales for 1,169 dozen brought about \$3,784, pointing to about \$20,000 for the entire surplus stock. While the auction was well attended, the bidding was mainly confined to a few large dealers. It was understood that a considerable quantity of the wine was purchased for the American market. The price for each brand was settled by the dealers, and there was little variation from it. The wines were pale and golden sherries from the St. James place cellars, bottled in 1890, 1892, 1893 and 1894.

Jumped from a Moving Train.

Albuquerque, N. M., June 25.—A Henry of San Francisco jumped from an eastbound passenger train near McCarty's station west of this city while the train was going 35 miles an hour and sustained severe internal injuries, besides breaking a leg. The supposition is that he became suddenly insane, possibly from heat.

CONDITIONS IN GUAM.

Very Bad Indeed, the New Tariff Stopping Trade.

Manila, June 24.—The schooner Esmeralda, which has just arrived here from Guam, brings confirmation of the distressing reports in circulation regarding the conditions prevailing on the island. The new tariff stops trade, and it is asserted that the people will starve unless they receive government support.

Because of the theft of a barrel of whiskey from the hospital stores, and owing to his inability to discover the offenders, Commander Schroeder, the governor of Guam, issued a proclamation lamenting the prevalence of hoodlums, and on account of disciplinary measures adopted, seventy-five marines fled from the barracks and hid in the interior of the island. Seventy-two of these men were recaptured and were awaiting trial by court-martial when the Esmeralda sailed.

A PECULIAR CONTEMPT CASE.

Superintendent of an Insane Asylum Refused to Let a Summons be Served.

Seattle, Wash., June 25.—For refusing to allow a Pierce county deputy sheriff to serve papers on an inmate of the Steilacoom asylum, Supt. Goddard of that institution will answer to contempt of court proceedings before Judge W. R. Bell of the superior court next Saturday morning. The trouble leading up to the charges of contempt of court arose from a Pierce county divorce suit. Supt. Goddard refused to allow the officer to make a personal service of the summons in this suit on the defendant, a Mrs. Patterson.

The summons in this case were given a deputy sheriff for personal service. When the deputy arrived at the asylum, it is stated that he asked to be allowed to see Mrs. Patterson. On being asked his business he explained the nature of his errand. He was then denied his request. Returning to Tacoma, the deputy handed back the papers

which he had been sent to serve. The reasons for failure of service were indorsed upon them. Proceedings were then commenced in the court of Pierce county to compel Dr. Goddard to allow the service to be made. That official persisted in his refusal.

Dr. Goddard claimed the woman would not understand the nature of the affair and the whole matter would needlessly excite her. On the other hand it is maintained that inasmuch as the service was legal process it was not within the province of Supt. Goddard of the asylum to question its wisdom or legality.

The case has been taken from Pierce county's superior court to that of King county.

A DAWSON MURDER TRIAL.

It Has Already Cost \$100,000 and is Still Going On.

Dawson, June 14, via Seattle, June 24.—The trial of Geo. O'Brien, charged with the murder of Lynne Wallace Reife and Fred H. Clayton, both of Seattle, and Ole Olson, a Dawson-Skaguay telegraph lineman, Christmas day, 1899, on the winter trail near Minty, south of Dawson, which was begun here this week, is the most absorbing and sensational ever held in the north. Some idea of the magnitude of the case as prosecuted by the government may be gathered from the fact that the estimated cost already of the prosecution is more than \$100,000. Eighty witnesses have been gathered here by the crown from all parts of the Yukon and from the states and lower Canada. Capt. Search of the Northwest mounted police, who has conducted the search for witnesses and evidence for eighteen months, has left not the slightest clue unturned, and thousands after thousands of miles have been traversed in the Yukon and the outside by his big corps of assistants, notable among them being Detective McGuire of Chicago.

The work of searching for O'Brien's supposed accomplices and in gathering clues to evidence has entailed the most extraordinary detective work ever done in the north. Much was done in the dead of the arctic winter. Men have trailed the supposed accomplices the full length of the Yukon, up tributary streams of the river, and perhaps to points beyond not yet made public. Some of the special detectives went down the Yukon and out by the way of Nome and Seattle last fall.

ENTRANCE EXAMINATIONS.

The College Uniform Plan Worked Most Successfully.

New York, June 25.—The first series of uniform entrance examinations held by authority of the college entrance examination board of the middle states and Maryland, has come to an end. The examinations proved exactly as planned, without difficulty, at 61 different points in the United States and at London, Eng., and Dresden, Saxony. Of the 61 places of examinations in the United States, 15 were in New England and 22 in the middle states. In all nearly 900 candidates for admission to college were examined by the board. Of this number 472 made application to the board direct. The remainder made their applications either through Columbia college or Bernard college.

Of the 472 three hundred and forty-seven were men and 125 were women.

Fifty-three of the candidates examined did not state what college or scientific school they propose to enter. For Columbia 152 declared themselves, for Cornell 51, for Princeton 34, for Harvard 31, for Yale 25, for New England 22, for Yale 17, for Mount Holyoke 14, for the Massachusetts Institute of Technology 14, for Bryn Mawr 11, for the University of Pennsylvania 6 and for Williams 1. The unusually large number choosing Columbia is due to the fact that separate Columbia examinations were abandoned in favor of those by the board.

The largest number examined outside of New York and Brooklyn were those at Concord, N. H., 32; Newark, N. J., 29; Philadelphia, 22; Paterson, N. J., 13; Washington, D. C., 12; Lawrenceville, N. J., 10; New York, N. Y., and Poughkeepsie, N. Y., 8 each.

Of the 472 candidates applying to the board, 153 were prepared in public high schools, 142 in academies and endowed schools and 159 in private schools and classes.

FLOATING THE INGALES.

An Attempt Results in Dropping an Additional Four Feet.

New York, June 25.—An attempt to float the transport Inga, which sank in a dry dock in the Erie basin, June 14, into a stronger dry dock, has resulted in the vessel's dropping an additional four feet, and now being deeper in the water than ever.

Those in charge of the work say it was an accident almost impossible to avoid. Nobody was injured in this second accident. Divers say that the hull of the vessel is not injured. Another effort will be made today to raise the ship.

Blocks in the dock on which the keel of the ship rested fell away, which caused the mishap. Carpenter Stewart, foreman at the yards, lost his watch on the vessel.

Diplomats Sail for Europe.

New York, June 25.—Four diplomats will be among the passengers on the Kaiser Wilhelm der Grosse, which will sail for Europe this morning. They are Count Cassini, Russian ambassador to this country; Sir Claude MacDonald, British minister to Japan, summoned home by Lord Salisbury; Dr. Louis F. Comore, Nicaraguan minister at Washington, and Capt. R. Jose de Tereza Miranda, Mexican minister at Vienna.

A Travel Point Pan-American Exposition

THE Pan-American, to be held at Buffalo, N. Y., May 1 to Nov. 1, will be one of the greatest and most beautiful expositions the world has known. To enjoy its beauties will be worth any effort. The question of traveling to and from Buffalo is one to be carefully considered. You will desire to travel by the route affording the most comfort and interest. The return trip, too, must be considered, as after you have done the Exposition, Buffalo, Niagara Falls and vicinity, you'll be tired and wish to reach home quickly.

The Lake Shore and Michigan Southern Railway

as the leading line to Buffalo by reason of the frequency of its trains and the certainty and punctuality of their movement will best meet this requirement. It is the only double track line, and the completeness of its service—eight through trains daily among them the only daylight train, places it at the forefront among Eastern roads. The country traversed is the fairest and richest of the Middle States—the most interesting on the way to Buffalo.

All tickets over this route afford you of steamers either way between Cleveland and Buffalo, also stop at Chautauque in return trip with limited ticket. Our "Book of Trains" contains full information. Sent free on request. Look it through carefully.
