The lady is quite certain that Horn's skull is that of a natural born criminal, and that the for-mation indicates that if he is acquitted and again given his freedom that it is quite possible that he would kill more men. The slope of the forchead and the formation of the head in the vicinity of the ears, shows in her opinion, an abthe ears, shows in her opinion, an abnormal criminal development.

has saved time and money by securi possession of the old North Sait Lake mill and fitting it up for grinding flour. The company is now turning out 120 barrels daily, and will thus keep going until the burned mill is entirely rebuilt.

A burglar paid a visit to the home of A burglar paid a visit to the home of Deputy Sheriff Kaleigh about 1:30 o'clock yesterday morning, but was scared away before he gained an en-trance to the house. Mr. Raleigh was awakened by the raising of a window of his bedroom. There was a light in the room and it is supposed that the burglar must have caught sight of Mr. Releigh lying in bed with his eyes open, and, just as the latter was getting up Releigh lying in bed with his eyes often, and, just as the latter was getting up to get his gun, the burglar dropped to the ground and started on the run. The deputy went to the window and saw the man disappearing in the dark.

Local college men will be interested in learning that the total enroliment in Yale university for the present year is approximately 2.755, which is an in-crease of 100 over last year, and the largest in the history of the university. The largest increase is in the Sheffleid scientific school, and the next largest in the law school. A noticeable fact is the large number of graduates of smaller colleges who have entered the senior class of the academical department to secure the bachelor of arts degree from Yale. Twenty-two men have entered in this way this year, almost twice as many as in any previous year.

Sheriff Naylor has received complaints from Draper to the effect that some scoundrel is poisoning horses, catthe, dogs and chickens by the whole-sale in that neighborhood. A letter was received yesterday from Enoch Clark and Martha Ann Clark in which it was stated that they had a horse polsoned Saturday night and two dogs polsoned Monday night, The poison was given to the dogs in sausage. The writers demanded protection, and Sheriff Nay-lor has decided to work on the case and use every possible means to dis-cover the scoundrel responsible for the death of the animals.

Another case of destitution was re-ported to the police last night, the unfortunates being a woman and two little children who have been existing in an old shack in the rear of the Utah house, 255 South Fifth West street. The name of the family was withheld, but it is said that the woman's husband is a drunken wretch, that he does not pro-vide food or clothing for his wife and babies and that quite frequently he goes home in a state of beastly intoxication and beats his wife. The eldest child is three years old and the other only 18 months of age. For severa days past the kind neighbors have sup-For several plied food for the woman and children to save them from actual starvation.

Utah veterans of the Philippine war will learn with interest that the story of the battle of Manila may have to be revised, according to the results of an inquiry conducted by the Manila Amerinquiry conducted by the Manna Amer-ican. The 17 vessels of the Spanish flect sunk in Manila bay are to be raised. In fact, the gunbost Marquez del Duero has already been brought to the surface. It was found that but one shot, which entered above the waterline, had which entered above the waterline, had struck the vessel. A diver has been the rounds among the rest of the fleet and reports a total of but 20 hits, few, if any, of which would have been fatal to the respective ships. This hardly agree with the official accounts of the enragement, and the American thinks that, though an examination under wa ter is cursory and not conclusive, the raising of the ships may prove the naval battle of Manila even more of an "opera bouffe affair" than the struggle

ROY GREEN RELEASED.

Messenger Boy E capes Prosecution for Embezzlement of \$130.

Roy Green, the messenger who stole \$130 from Lilly Evans several weeks ago, has escaped prosecution on the charge of embezzlement. He was brought before Judge Diehl today for preliminary hearing, but while waiting for the attorneys to take the matter up relatives and friends of the boy met with the injured parties in Chief Paul's office and the affair was "fixed." It is understood the young man's relatives paid back the \$130 and all the costs in the case,

LINEMAN'S LUCKY FALL. Took Hold of a Wire That Was Highly Charged.

One of the linemen of the Consolidated Railway and Power company had a narrow escape from serious injury if not death while working with the wires on the corner of East Temple and South Temple street just before 10

o clock this morning. The man climbed to the top of a pole and reaching out seized a wire that he supposed was "dead," but that he supposed was "dead," but which was very much "alive." In a second he was ultering a scries of yills that were heard below First South street. Suddenly he lost his hold and val battle of Manila even more of an "opera bouffe affair" than the struggle on land that occurred Aug. 13.

UTAH OFFICIAL TALKS.

Attorney General Breeden Thinks the Mormon State Has a Bright Future.

Hon, M. A. Breeden, attorney-general of Utah, is staying for a few days at the Hollenbeck. Mr. Breeden talks freely and intelligently of conditions and politics in his state.

To a Times reporter he said: "I think the national irrigation law the most beneficial enactment of Congress since the passing of the homestead law. Both of these, as you will remember, were enacted by a Republican Congress and signed by a Republican president, believe that when the machinery this law once gets in action it will de-velop the arid west to such a degre that the center of wealth and influence must in a few years be removed from the narrow and crowded east to our site of the Mississippi. People gen erally do not yet appreciate the vast importance of this enactment, but the regidents of Utah realize that it is the biggest thing that has ever been at-tempted for this section of the United

"We have a great state over in Utah, I don't know of any state in the Union -unless it be California-which has a brighter future ahead of it. A com-mon desire for the advancement of all has obliterated the old bitterness which divided the people for so many years. New, 'Mormon' and Gentile and Jew are pulling together in an honest effort to fully develop our marvelous re-sources. The sugar, wool and mining sources. The sugar, wool and mining industries, aside from our many other interests, are sure to put us in the front rank of progressive states. We stand for protection and expansion; we are all thorough Americans, and have no sympathy for any man or party who indulges in the slander of Ameri-can principles or the American army. Hence, you may look for a big Repub-lican majority on Nov. 4."-Los Angeles Times.
