BUSINESS AND REALTY.

The sale of another corner on the west side involving the acquisition of about \$25,000 was consummated yesterday afternoon when A. H. Vogler, R. E. Miller and W. J. Burton purchased from the Strevell-Patterson Bank company, the Utah Consolidated property which has a short distance east of the new Denver & Rio Grande depot, has a frontage of 165 feet on Third Street and 124 feet on Third West Street.

WILL CLOSE DELAMAR.

Order Has Been Given to Shut Down The Mine and Mill.

It is understood that orders have been sent out for the closing of the Delamar-Delamar mine and mill at Delamar, Nevada. It is further asserted that the equipment will be removed at once and offered for sale and that the once rich bonanza will be no more. A great deal of the machinery it is said will go to Pioche.

According to stories from Delamar the dismantling of the property has already commenced and the equipment of the company being disposed of. The company has a 500-ton cyanide mill, a 2,000-horse power electric plant, an excellent water system with 18 miles of pipe line, 18 miles of transmission wire for the electric plant, five electric hoists at the mine and the entire workings of the mine equipped for electric haulage. On the equipment alone millions of dollars have been spent.

For years it is understood that the work has been unprofitable as the company failed to find ore. Some very low grade ore was found, but this was not in large quantities.

Many millions of dollars have poured into the mine since it was purchased from Carl J. R. Delamar and associated by investors headed by the Barneberger-Delamar syndicate in 1902, and at no time it is said has the mine been making a profit.

The closing of the property means practically the end of the Delamar-Delamar. The purchase was made in 1902, and at no time it is said has the mine been making a profit.

MCCORMICK COMING HOME.

New York, Sept. 2.—The outlook for copper in Europe is good, according to W. E. McCormick, a Salt Lake banker, who returned from Carlsbad, Australia, today.

Mr. McCormick is optimistic over the prevailing conditions, especially with reference to Salt Lake. He has been informed that the work of draining the lower levels of the Daly West mine through the old Ontario tunnel was being vigorously prosecuted, but under difficulties. There was no doubt, however, of ultimate success, Mr. McCormick hopes the smelter troubles in the Jordan valley have been settled for all time.

John Hatfield, who is in the city from Provo, says that a shipment of several cars of ore from the Ophogen property in Tintic will be in the local market in a few days.

Horse Dumber, who for several years has been in the mining circuit, has been severely ill, and has accepted a position with James A. Pollock & Co. Mr. Dunbar will have charge of the field work of the company.

A 200-foot compressor has just been ordered by the Delamar-Delamar company of Beaver county. The order was placed with the F. A. Richmond Machinery company. It will be electrically driven. The foundations for the machinery have already been started and the compressor will be installed within the next two weeks.

Manager A. M. Spooner of the Iowa Copper company, operating at Park City, was in the city yesterday with the news that the property will soon be put on the market and will be sold indefinitely. It is believed that shipping can be carried on at the property all winter.

According to a report brought down from Barney canyon yesterday, the North Bingham Mining company has struck ore in a 100-foot shaft, which runs high in copper, silver and lead, with some gold, and it is declared to be identical with the ore taken from the

FIRST PRICES UP BUT CLOSED DOWN.

New York, Sept. 2.—Opening prices today were but little altered from yesterday's closing and the tendency was upward. St. Paul, Union Pacific and International Pump gained a point each.

On the other hand southern Pacific, Alton and American Smelting were a little easier.

Apart from the attention attracted to the stock market, the attention of the public was attracted to the fact that the price of the new issue of the National Bank of Commerce was \$100,000,000.

There was more inquiry for Union Pacific which increased its price to 100 1/2. Other of the industrial stocks made slight additional gains. Central Leather gained 1/2, St. Paul Reading and L. & N. 1/4, American Cotton 1/4, and International Paper 1/4.

Dying down of the demand brought the price of the new issue of the National Bank of Commerce to \$100,000,000.

The market closed irregular. Reading was 1/2, St. Paul 1/4, Union Pacific 1/4, and International Paper 1/4.

Chicago, Sept. 2.—Unsettled weather in the northwest offset weak cables and protracted buyers' purchases of wheat at the opening of the market today which resulted in advances of about 1/2 to 3/4 deliveries. Several bull leaders were active bidders but demand, for time, met only with scattered offerings. The market opened weak owing to a decline of 1/2 to 1 to Liverpool, prices here showing losses of a shade to half 1/2 compared with yesterday's close, December being at 23 1/2. After selling the first few minutes, however, December advanced to 24 1/2.

Reports of a slight frost in the northern part of the corn belt caused moderate firmness in the corn market early today. Deliveries in Iowa and Nebraska, there was considerable covering by farmers leading shorts. Prices at the opening were unchanged to 1/2 higher, December being at 23 1/2. After selling on the oats market, prices advancing about half a cent early in the day. December advanced to 24 1/2.
